INTRODUCTION

Every year each Government agency has to prepare for consideration by the Parliament of the Republic of Vanuatu, clear programs and activities in line with program budgeting format. It is on the basis of funding these programs that the people of Vanuatu can expect to receive government services. This document presents a largely unabridged version of the submission received from the agencies of the Government.

Budget allocations are made on a Ministry basis and it has been the responsibility of these agencies to allocate funds between programs within their agencies.

This information should be read in conjunction with Volume 2 of the budget documents – the **2026 Program Budgets Estimates**.

The program budget narratives in this document are presented in a standard format for all government agencies that are funded through the budget. This begins with the introduction of the program which provides an overview of what the program is all about and then describes the activities in detail under the sub headings of Objectives, means of service delivery, and performance service Targets with details as follows:

Agency Cost:

Provides a summary of budget allocated to that specific Program or Activity and is expressed in Vatu.

Objectives:

This statement indicates the detail objectives that the program will be working towards in order to achieve the broader Ministries / Departmental Goal.

Means of Service Delivery:

This Section details the ways in which the activities will be carried out in order to achieve set Objectives.

Performance Measurement (Service Targets):

This Statement indicates what the program will produce, with the resources provided to meet the identified need which the objectives are intended to address. Specific targets are expressed to measure results and achievements.

CONSTITUTIONAL AGENCIES

PRESIDENT OF THE REPUBLIC

PROGRAM CAA: PRESIDENTIAL SUPPORT

Program Cost ***125,935,502***

Objectives

- The Constitution of the Republic of Vanuatu establishes the Head of the State, known as the President with a Neutral role and therefore symbolizes the unity of the nation.
- Provide support to the President to carry out and fulfill his presidential role and duties as Head of State, in accordance with the Constitution and Laws of the Republic, and to maintain the value and respect that the position of Head of State represents.
- To provide support to the Office of the President to enable the President perform his/her duties as Head of State in a manner which promotes values of Unity, in accordance with the Constitution and Laws of the Republic of Vanuatu.

Activity CAAA: Management of the State House and President

Activity Cost ***125,935,502***

Objectives

- To manage the activities involving State House protocol matters and execution of the presidential role and duties of the Head of State, to positively influence stability in the country and respect for national values.
- To ensure proper management and administration of the Office of the President to strengthen all protocol matters and support an effective execution of the Presidential duties to positively influence stability and respect for national values at all times.

Means of Service Delivery

- To administer the President's Office and to adhere to objectives set out for the President to fulfill his roles and duties.
- The functions of the Head of State are mostly ceremonial, appointments and the promotion of unity of the nation.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Better Coordination and awareness through more information exchange between the President's Office and other arms of Government. The execution of Presidential role, duties and decisions.	70	Percentage

PARLIAMENT**Total Cost: 1,314,207,582*****PROGRAM CBA: PROCEDURE AND LEGISLATIVE OFFICE*****program cost: 745,144,059****Program CBA: Procedure and Legislative office****program cost:****Activity CBAA: Procedure and Legislative Affairs****Activity Cost 672,027,335*****Objectives:***

Make laws, amend existing laws, debate motions, approve the Annual Appropriation Bill, and ratify international treaties. Address other business as provided under the Standing Orders of Parliament. It also provides administrative support and ensures that Parliament meets in ordinary, special, and extraordinary sessions whenever summoned by the Speaker, the Prime Minister, or the majority of Members of Parliament. Additionally, it facilitates special sittings, conducts parliamentary diplomacy, and oversees protocol, ceremonial functions, and security.

Means of Delivery:

To Conducting plenary sessions and establishing committees for drafting, debating, amending, and approving legislation. Using digital platforms for transparency and efficiency. Organizing debates, votes, and consultations for decision-making and ratification of treaties. Maintaining organized schedules and communication tools for parliamentary business. Providing administrative, research, and logistical support. Coordinating special sittings, diplomatic engagements, and official ceremonies. Ensuring protocol, security, and staff training to uphold parliamentary dignity and safety.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Ensure 100% of international treaties are ratified within agreed-upon timeframes.	6	# of Agreements ongoing
Achieved 80% of passed laws and amendments within set legislative cycles.	10 or more	# of bills passed against bills received
Facilitate the 4-5 sittings annually	5	# of sittings facilitated
Achieve zero security breaches during parliamentary sessions and events.	1	100%
Manage and support the Office of the Speaker and the Clerks in all administrative and operational expenses.	1	100%

Activity CBAB: Security and Protocol Section

Activity Cost: 4,961,494

Objectives

Responsible for providing a safe working environment in which Members of Parliament and staff can reach their maximum productivity.

In addition, to make sure all asset of the institution is safe and secure for the Member of Parliament and Staff to use.

Means of Service Delivery

Provide 24 hours security in Parliament; Deal with all incidents, demonstrations and property damages; Assume the ceremonial functions at each session of Parliament; Ensure protocol arrangement is fulfilled on the occasion of visiting dignitaries or Members of overseas missions; Responsible for the security of keys; Deal with visitors and Members' visitors.

Recruitment	2	# no staff recruited

JUDICIARY

PROGRAM CIA: ADMINISTRATION OF JUSTICE

Program Cost ***409,393,923***

Objectives

The overall objectives of this program is mandated by the constitution in Article 47 (1)

Judiciary is the third arm of the government with the constitutional mandates to resolve all the disputes according to law.

Article 47 of the constitution of Vanuatu gives the mandate of the Judiciary of Vanuatu." The administration of Justice is vested in the Judiciary, who are subject only to the constitution and the law, the function of the Judiciary is to resolve proceedings according to law..."

To full fill this constitutional mandate, the Judiciary of Vanuatu comprises of a hierarchy of 4 courts:

1. The Court of Appeal of Vanuatu
2. The Supreme Court of Vanuatu
3. The Magistrates Court of Vanuatu; and
4. The Island Courts established in different island Jurisdictions.

Activity CIAA: Corporate Services

Activity Cost ***33,953,044***

Objectives

This activity is for the organization and management of a corporate structure and function to provide the institutional support to the courts in their dispensation of Justice to all People.

This activity no only ensures operational support, but also support with strategic planning and execution of those plans. It is Internally focused, but also with an appreciation of national and international external linkages.

Current Units in the Corporate Structure include:

1. Human Resource Management
2. Finance and Accounts
3. Library and Archive Services
4. Island Court Administration
5. Enforcement
6. Training and Development

Means of Service Delivery

1. Provide support to all courts
2. Devise and public planning instruments
3. Manage and facilitate decision making
4. Prepare, submit and manage budget
5. Prepare and publish annual reports

6. Manage Human Resources and other resources of the organization for maximum output
7. Manage Library Resources
8. Enforce all judgments in effective and efficient manner
9. Plan, deliver and report training and development sessions and programs
10. Provide policy advice
11. Assist the office of the Chief Justice
12. Assist the Office of the Magistrate
13. Assist the Office of the Chief Registrar

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure

Budget Management and advice	100	Percentage
Asset Management	100	Percentage
Operational Planning	100	Percentage
Legal Research and Archives Management	100	Percentage
Execution of planned activities	100	Percentage
Performance appraisal	100	Percentage
Reporting	100	Percentage

Activity CIAB: Court of Appeal

Activity Cost **33,953,044**

Objectives

The sole objective of this activity is to bring finality to all cases registered in its registry in a timely manner.

The way that Court of Appeal of Vanuatu is programmed is to ensure that notices of Appeals filed in the Court of Appeal registry do not delay. The Court of Appeal of Vanuatu meets 4 times a year and in so doing, Vanuatu stands out at a level where there are no backlog of cases and it takes less than 6 months for a Court of Appeal to be dealt with from time of its registration to when a final decision is made.

Means of Service Delivery

It is entrenched in the constitution of Vanuatu that the Court of Appeal of Vanuatu is composed of two or more judges of the Supreme Court sitting together.

The Court of Appeal of Vanuatu meets 4 times in each financial year.

The average number of cases it deals with is about 20 cases.

The Court of Appeal of Vanuatu deals with all appeals from the Supreme Court either on issues of fact and/ or law in the civil sphere, or on conviction and/ or sentences in the criminal sphere.

Judiciary is currently increasing number and encouraging local judges to the Supreme Court to enhance their knowledge and skills to give confidence in dealing with Court of Appeal (highest court in country) cases.

The annual training shall continue to strengthen our local judges to lead our Court of Appeal sessions and less depending on overseas judges.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Review all appeals lodged in the Court of Appeal Registry.	80	Percentage
The Court of Appeal to sit 4 times during a year to hear all appeal lodged.	100	Percentage
The Court of Appeal to deliver judgments in all cases it hears.	100	Percentage

Activity CIAC: Supreme Court

Activity Cost **193,911,337**

Objectives

In the hierarchy of Court of Vanuatu, the Supreme Court is the "High" Court of Vanuatu of records with unlimited jurisdiction. There are currently 7 Judges of the Supreme Court including the Chief Justice.

The Supreme Court, while has its Principal Registry in Port Vila, has a circuit program to each province of the Republic on a frequency of 4 times a year.

To hear and deliver judgment in cases filed in the Supreme Court Registry.

To conduct Court circuits to other part of the country as per the court year planner.

Means of Service Delivery

To Conduct case management conference

To prepare cases for trial

To list and hear cases

To dispose of cases by rendering final judgments

To determine appeals

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Conduct case management conference	100	Percentage
Prepare cases for trial	100	Percentage
Dispose of Cases by rendering final judgments	70	Percentage
Determining Appeals	100	Percentage

Activity CIAD: Magistrate Courts**Activity Cost** **73,800,007*****Objectives***

The collaboration is implemented in the 50% of Island and Urban Council	50	Percentage

NATIONAL AUDIT OFFICE

PROGRAM CEA: PUBLIC SECTOR AUDITING

Program Cost ***109,263,537***

Objectives

- To be a key player, in promoting accountability, good governance, and transparency in public sector management and public sector financial management.
- To provide assurance to Parliament and the public on:
 - (a) The accuracy and completeness of the public accounts;
 - (b) Whether the financial transactions of the Government and public bodies complies with the applicable law and accounting and auditing requirements;
 - (c) Whether the systems and controls for public financial management by the Government and public bodies are adequate and appropriate;
 - (d) Whether the financial affairs of the Government and public bodies are managed with due regard to probity, including whether public officials and office holders had discharged their statutory and ethical duties to Parliament and the public in an transparent and fair manner; and
 - (e) Whether those responsible for managing public resources made the best use of those resources with due regard for value for money.

2020 appropriation totalled VT. 95,417,016. The 2021 budget follows NAO approved structure of 20 positions with proposed inclusion of 3 staff in 2021 to the approved structure. In order for the Office to be fully functional, all positions vacant and to be created in 2021 should be occupied as and when the Audit Act is enacted.

Activity CEEA: Planning, Policy & Standards**Activity Cost** 17,316,320**Objectives**

To manage the Office's strategic direction and be a key player in public sector accountability and financial integrity.

Means of Service Delivery

- Support the delivery of audit services;
- Update methodologies, procedure and guidelines;
- Ensure adequate staff are recruited to allow for audits to be completed in a timely manner;
- Provide reports and advice to the Parliament, its committees and public sector entities;
- Inform public and liaise with parliament and clients on regular basis about audit activities and developments;
- Benchmark audit methodology and practices with the requirements of international standards of auditing (ISSAI);
- Advisory role on policy matters at national Government level;
- Management support to Public Accounts Committee;
- Advocate for the successful adoption of changes required to increase the level of independence for the National Audit Office.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
All external reporting requirements are met: - As required under the Parliamentary Standing Orders, the Expenditure Review and Audit Act, the Ombudsman's Act, the Public Service Act, or other external parties including INTOSAI and PASAI. - Donor acquittal reports issued within required time line.	100	% of completed reports

Implement 2020 approved Audit Act	1	New org. structure & staffing policy

Activity CEAB: Audit Operations

Activity Cost **71,309,509**

Objectives

- Conduct audits, evaluations and investigations to assess the economy, efficiency, effectiveness and accountability of public resources entrusted to public sector agencies, entities and their programmes. Report outcomes to Public Accounts Committee, Parliament and Government.
- In order to meet this objective, more staff is required to meet the statutory requirements as set out under the Audit Act. Lack of recruitment in the past has resulted in the Office losing the budget for the PSC approved positions for this Office. This budget seeks to fill all positions in the new structure to allow recruitment to happen and meet the performance targets as set out in the table below.

Means of Service Delivery

All audits are undertaken in our audit software TeamMate which allows for milestones to be entered to measure the performance on each audit and then summarise these results for reporting purposes.

- Regular monitoring of audit to ensure quality;
- Monitor of annual work programs and audit status reports;
- Regular meeting of AG with Director-Generals, Directors, Provincial Secretaries, Town Clerks, and finance officers;
- Meet deadlines for audit reports on Government Accounts and Local Authority Accounts to Parliament;
- Monitor the progress of recommendations being implemented as a result of completed audits;
- Timely and appropriate completion/finalisation of audit files to meet the requirements of international auditing standards;
- Conduct audits in line with international auditing standards;
- Contracted audits are tendered, assessed, reviewed and completed in a timely manner and within contractual obligations;

- Ensure all audit staff are undertaking ongoing professional development to meet the technical requirements of the work required; and
- On completion of audits and within agreed client timeframe.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
All management reports are finalised within 4 weeks of the audit opinion being issued.	100	Milestones set out by TeamMate
All audits undertaken in TeamMate and finalised within 8 weeks of the audit opinion being issued.	100	Finalisation dates provided by TeamMate
Ensure cyclical internal peer review undertaken annually showing 100% compliance consistent with ISSAI roadmap.	80	Compliance with ISSAI requirements.
Annual audit work plan is being consulted upon with PAC and completed each year.	1	Annual audit plan completed year end
Annual audit plan targets are reached each year which includes: - Audits to be completed with client agreed timeline. - Other non-audit targets are achieved. - Training events for audit staff being met. - Training events for public sector being attended to. - Awareness activities with stakeholders delivered within schedule.	80	% of annual audit plan targets achieved
Audit recommendations: - Communicated to the senior management and responsible officers - Follow up of audit recommendations completed annually (updated in Audit Software - Team Central) - Action taken by clients to address recommendations raised in the management report	100	All management letters are finalised
Increase in the number of audit opinions issued by the National Audit Office (excluding contracted audits) from prior year. Up to date with audit of local authorities and audit of NSDP.	100	Baseline of 20 audits
Contracted audits are completed in a timely basis: - Quotes for tenders are assessed and contracted within 4 weeks of the terms of reference being sent out to Chartered Accounting firms. - Contracted audits are completed by the due date	80	Timeliness

set out by the Terms of Reference (or other date if renegotiated). - Contracted TM audit files are finalised within 2 weeks from the date the audit opinion was issued.		
Engagement with stakeholders	80	Complete 4 advocacy events

Activity CEAC: Corporate Services

Activity Cost **20,637,708**

Objectives

Have adequate resources to meet the responsibilities and obligations of the Audit Office and to ensure effective corporate, financial and technical support provided to management.

Means of Service Delivery

- Ensure sufficient resources are secured through the budget based on realistic input from all cost centres;
- Provide information technology support and facility to management, audit, and support function;
- Provide administrative support to executive management and to all operational and support functions;

Staff performance appraisal reports completed.	100	All appraisals completed each 6 months
Audit Staff complete and sign-off on code of ethics and independence forms prior to each audit engagement being undertaken.	100	All sign-off completed each six months
Staff recruitments procedure completed.	100	All vacant positions filled by end 2021
On time completion of financial statements for the Audit office.	100	Audits completion 1 month after year end

OFFICE OF THE OMBUDSMAN

PROGRAM CCA: PLANNING, MANAGEMENT AND INVESTIGATIONS

Program Cost : 89,178,604

Objectives

The Ombudsman is a Constitutional Office established by article 61 of the Constitution. Articles 62, 63 and 64 provide for the powers and functions of the Ombudsman. The Ombudsman Act provides details to give effect to the requirements of the Constitution. It gives the Ombudsman the necessary tools to investigate conduct of leaders and Government institutions complained of or conduct which the Ombudsman commences on his own initiative.

The Ombudsman's Institution is a law enforcement agency. Its core function is to carry out investigations into conduct of leaders and Government agencies to ensure that the leaders and Government institutions comply with the law all the time in all their decisions and actions.

The Ombudsman's role is not limited to specific laws. It canvases all existing laws of Vanuatu,

The Ombudsman is a Constitutional Office established by article 61 of the Constitution. Articles 62, 63 and 64 provide for the powers and functions of the Ombudsman. The Ombudsman Act provides details to give effect to the requirements of the Constitution. It gives the Ombudsman the necessary tools to investigate conduct of leaders and Government institutions complained of or conduct which the Ombudsman commences on his own initiative.

The Ombudsman's Institution is a law enforcement agency. Its core function is to carry out investigations into conduct of leaders and Government agencies to ensure that the leaders and Government institutions comply with the law all the time in all their decisions and actions.

The Ombudsman's role is not limited to specific laws. It canvases all existing laws of Vanuatu, including custom laws of different custom areas of Vanuatu. A complaint raising issues of law under any Act of Parliament or custom, the Ombudsman must consider the complaint and if he decides that there is a case to answer, investigations will follow accordingly. Other institutions are responsible for specific laws only – not the Ombudsman.

The Ombudsman also has the power to carry out mediation between parties before him where it is deemed the best option to find a resolution in a given matter.

The Ombudsman further has the power to engage leaders or Government institutions where misconduct is discovered and is ongoing to find a solution to prevent irreparable damage from occurring.

Leadership Code

As the "Government Watchdog", the Ombudsman's core function is to ensure that (i) Leaders and Government institutions' decisions are made in accordance with the law so that justice prevails at all times and (ii) Leaders uphold the leadership code at all times to maintain the trust and confidence of the people in them and the government.

Annual Returns

The Leadership Code (amendment) Act of 2020 gave the Ombudsman an additional function – the lodgement of annual returns of leaders to the Ombudsman, the verification of information of leaders in their annual returns, and prosecutions of leaders who failed to file on time and leaders who gave false information.

Prosecution Powers

In April 2021, the Public Prosecutor appointed the Legal Counsel of the Ombudsman Office as a State Prosecutor to prosecute matters in the Magistrate courts and the Supreme Court. This power now enables the Ombudsman to prosecute offenders himself and not take matters for prosecution to the Public Prosecutor.

Maladministration

This is another big area that the Ombudsman usually refers to as the “corruption’s engine room”. It involves all the administrative irregularities (and mal-practices), breaches of internal policies and procedures in any Government institution. For Instance, delay to fully provide an information requested, delay to respond to queries and the practice of nepotism/favouritism in the recruitment process, by-passing process, using undue pressure to obtain a desired outcome, lack of action on a matter, avoiding to make a decision, not attending to work on time, doing personal or other things not connected to work during work hour, not present at work station, and the list goes on.

Observance of the Multilingualism in Vanuatu

Another function of the Ombudsman is to monitor the use of the three official languages as mandated under article 64 of the Constitution. That article first, gives a citizen the right to obtain services from the Government in a language that he or she uses. Second, it authorizes a citizen to complaint to the Ombudsman if this right to receive services from the Government in the language he or she uses has been violated. And the Ombudsman is to look into the complaint.

Anti-Corruption

Vanuatu acceded to the United Nations Convention against Corruption (UNCAC) and ratified the same by the enactment of the UNCAC (Ratification) Act. Under Article 36 of the UNCAC, Vanuatu is required to establish a “specialized authority” to combat corruption through law enforcement, and is further required to ensure that its independent staffs are appropriately trained.

UNCAC recognizes that a number of agencies can perform the functions of Anti-Corruption. Accordingly, it is proposed that the Ombudsman’s Office be responsible for operational activities generally related to education, training, and enforcing public administration legislation and regulations while the Public Prosecutor’s Office focuses on law enforcement, including investigations and prosecution of all cases of Public and Private corruption.

Activity CCAA: Planning, Management and Investigations

Activity Cost **89,178,604**

Objectives

The Ombudsman Office has 6 main objectives:

- 1: Effective and Prompt investigation of complaints and reduction of pending and backlog cases.
- 2: Monitor the use of three official Language.
- 3: Effective Management of Leaders’ Annual Return.
- 4: Progressing an effective Outreach Program to build a good working relationship with Government agencies & state institutions, NGOs and general public.

5: To provide an efficient and effective support to the Office in terms of human resources, financial resources and administrative support.

6: Strengthening Enforcement of Governing Legislation.

Means of Service Delivery

Coordinate, monitor and implement the Ombudsman's Office Annual Business Plan 2023

- Provide support and effective management of the resources of the Ombudsman
- Production of Annual report to Parliament, Multilingualism report and other investigative reports
- Coordinate and manage leaders Annual Returns
- Provide mediation, investigate and conduct own enquiry on serious matters
- Advocate on the role of the Ombudsman throughout Vanuatu
- Establish and strengthen the Anti- Corruption Unit of the Ombudsman

Conduct outreach program in all 6 provinces of Vanuatu	6	Awareness reports produced
Conduct Survey on the use of the Countries' three official languages	1	Report produced
Investigate complaints or own motion investigation	100	No. of case closed
Prepare amendment of the Governing legislations together for Anti-Corruption	2	Governing laws passed
Assess Annual return of Leaders	1	Official Gazette
Conduct prison inspections (Human Rights of detainees)	2	No. of Visits conducted

PUBLIC PROSECUTOR

PROGRAM CGA: OPERATIONS

Program Cost **150,107,977**

The Office of the Public Prosecutor office portfolio has five cost centers. They are-

- Personnel Emoluments and Allowances;
- Court Proceedings;
- Corporate Services;
- Anti-corruption
- Victim support center

The core functions of the Public Prosecution Office are:

1. Prosecution of all criminal trials and appeals in all Courts in Vanuatu;
2. Providing advisory support to government in matters relating to the administration of criminal law, policies and law reform;
3. The conduct and facilitation of all matters relating international assistance and cooperation with other States under the Mutual Legal Assistance in Criminal Matters Act and Extradition Act;
4. The processing and hearing of matters in Court relating to the recovery, restraint and confiscation of assets that can be classified as proceeds of crime.

These responsibilities must be delivered according to published standards, with the following corporate values in mind.

Independence

Act accordance with the Law and in the Public Interest and will refuse to be affected by extraneous and improper influence.

Ethical

Act with integrity, objectivity, and exercise sound judgement that reflect accepted ordinary public standards.

Open and Fair

Must be open and honest in dealings, show sensitivity, and understanding towards victims and diverse community, and fairness towards those accused of offending the law.

Accountability

Must be accountable to parliament and the public, and will report on our performance and will respond to criticism positively.

Professionalism

Must be committed to delivering a high quality prosecution service that ensures that public resources are applied in the most efficient way according to best practices and management standards.

The mission statement of the Office of the Public Prosecution is the provision of “a robust prosecution service that supports the national aspirations of peace and Good Governance.”

It's vision is to become "adept to be top edge." In other words, it seeks to be proficient, demonstrating excellence, and a leader in the industry.

Objectives

The key mandate of the Office of the Public Prosecutor is to:

1. Provide leadership within the organization;
2. Supervise and guide all activities relating to criminal prosecution in all courts;
3. Supervise and guide all activities relating to the initiation and facilitation of all international criminal case-related cooperation matters;
4. Supervise and guide all matters relating to restraint and confiscation of proceeds of crime;
5. Supervise and guide all matters relating to the investigation and prosecution of corruption;
6. Supervise and guide all matters related to the protection of victims of crime;
7. Support the Courts in the administration of criminal justice and enforcement of laws;
8. Render advice to government in legal, policy and reform matters pertaining to the administration of criminal justice;
9. Provide support and guidance to individual government agencies in relation to the enforcement of their laws and recovery of State revenue.

The work of the Public Prosecution revolves around the six following key priorities. They are:

1. Maintain an effective prosecution service that delivers in a timely manner;
2. Support the Courts and government in the administration and reform of the criminal justice;
3. Establish and maintain an effective anti-corruption authority;
4. Develop an efficient Victim Support Center that services victims of crimes;
5. Improve access to Justice through various means;
6. Improve the OPP as an Institution;

JUDICIAL SERVICE COMMISSION***PROGRAM CLA: JUDICIAL SERVICE COMMISSION***

Program Cost ***1,914,514***

Objectives

Article 48 of the National Constitution of Vanuatu establishes the Judicial Service Commission.

The objectives of the Commission are:

to promote and protect the independence and the efficiency of the Judicial Service; and

to promote the operation of the rule of law; and

to promote and monitor generally the performance and accountability of the Judicial Service.

The Judicial Service Commission is required to meet 6 times each year at such times and places as the chairman determines.

Activity CLAA: Decision Making

Activity Cost ***1,000,000***

The objectives of this activity is to ensure the backup support for the meeting on the Judicial Service Commission to decide on issues itemized on its agendas.

There are also times when the Judicial Service Commission appoints panels of individual to contact interviews of candidates for jobs it advertised and so these panels need to be facilitated and compensated.

The JSC also has the power to discipline some officers that fall under its jurisdiction to appoint, discipline and terminate their employment.

The Judicial Service Commission meets 6 times required by law per year, but history shows that they meet more than 6 times and also meet where need arises.

Means of Service Delivery

- The committee also make decisions through flying minute prepared by the JSC Secretary.
- The meeting and deliberation of issues leading to decision making by Judicial Service Commission.
- Facilitating and compensating the JSC on relevant matters for which they are appointed.

Build HR Capacity and Operates Effectively & Efficiently through HR Strategies	100	Percentage
Operates Effectively and Efficiently with Appropriate Budget for Effective Delivery	100	Percentage

ELECTORAL OFFICE

The legally defined powers and functions of the Electoral Commission as an independent, statutory agency are to oversee the conduct of voter registration and various elections in the country; to announce the electoral results; to promote public awareness and the provision and development of information for voter education; to provide electoral policy advice to the government, the Parliament and other Government departments and agencies and to conduct research into electoral issues.

The Electoral Commission is additionally responsible the conduct of parliamentary, provincial and municipal elections. The Electoral Commission is also responsible for the holding of national referendums and the (indirect) election of the President of the Republic of Vanuatu as well as for the Chairman of the Malvatumauri.

PROGRAM CMA: ELECTORAL COMMISSION

Total cost: 86,462,127

PROGRAM ACTIVITY CMAA – ELECTORAL COMMISSION

Activity Cost: 56,157,407

The Electoral Commission as an independent, statutory agency leads electoral reform through legislation reviews and drafting to support an improved legal framework for the electoral environment by working with the Office of the Attorney General (OAG) to make proposals for regulation amendments to the existing legal framework through close partnerships with other agencies operating in the electoral sector and corporate services support through the Vanuatu Electoral Office.

PROGRAM CMAA: ELECTORAL COMMISSION

Program cost: 7,641,616

The Electoral Commission has the prerogative of adopting regulations that develop and interpret articles of the Constitution and corresponding electoral laws. The Electoral Commission has powers to over-ride the decisions of the Principal Electoral Officer (PEO) or dismiss a voter's appeal on his/her registration; to declare candidates endorsed for elections; to declare a candidate elected unopposed; to declare null and void at the official count; to declare recounts for contested results and appeals; to declare candidates duly elected as members of Parliament and to make appropriate orders for the conduct of voter registration and elections.

It is important that accessible, inclusive electoral facilities are available during preparation of registration, polling dates and elections.

The success of the electoral process depends on the accuracy of the procedures as well as commitment and sound implementation.

Objectives

The objective of the Electoral Commission is to supervise conduct of all elections specified by the Constitution of Vanuatu and related Acts

1. Conduct of all elections specified by the Constitution of Vanuatu and relevant Act/s and policies;
2. To lead development of legislative framework for electoral system and to drive policy development & implementation of registration of eligible electors for free fair inclusive and transparent elections;3.
3. Oversee registration and regulation of political parties;
4. To provide electoral dispute resolution through Election Disputes & court appearances
5. To undertake consultation for reform and delivery of an efficient, reliable, equitable, accessible & inclusive electoral system for Vanuatu;

Means of Service Delivery

- Conduct all direct elections in Vanuatu and oversee indirect elections;
- Conduct EC Commission meetings to implement a framework of policy and legislation for electoral reforms through engagement with Parliament, OAG, civil society and key stakeholders;
- Liaise with political parties to implement registration and regulation of political parties;
- Electoral disputes reviewed, resolved and reported;

ACTIVITY CMAB: CORPORATE SERVICES

Activity Cost: 48,515,791

Mandate Statement

Corporate service functions are provided to the Electoral Commission (EC), by Vanuatu Electoral Office (VEO). The VEO acts as operational arm of the Electoral Commission. This role of the Vanuatu Electoral Office is to prepare and conduct elections specified by the Constitution of Vanuatu and related Acts, to support for the registration of eligible electors, including establishing and maintaining an updated and accurate Voter Register.

Operational support to the Commission variously includes Secretariat duties, planning and reporting, budget, restructure implementation, manuals, procedures and guidelines, equipment, capacity building, PMR, and revenue generation.

Objectives:

1. To provide Secretariat support to the Commission to perform its functions compliantly, effectively and efficiently;
2. To coordinate and deliver timely planning and reporting.
3. To secure annual budget allocations for staffing, equipment & operational needs;
4. To improve efficiency & effectiveness through the development of Guidelines, Manuals, Standard Operating Procedures and templates;
5. To build the capacity and operational effectiveness of the Commission through innovative use of digital technology, restructure, training, Performance Review & Appraisals
6. To decentralize electoral services by providing support for the appropriate resourcing and operations of the provincial electoral offices.

Means of Service Delivery

- Provide operational support for Electoral Commission meetings
- Ensure provision of reports and plans as per the GoV Reporting & Planning Cycle

Description	Quantity	Unit of Measure
Commission meetings held	20	Agendas and Minutes of meetings
EC/VEO reports and plans as per the GoV Reporting & Planning Cycle	100%	Full compliance with the GoV Reporting & Planning Cycle
Budget Submission prepared and submitted on time	1	Budget prepared and submitted on time
Manuals, Guidelines and SOPs prepared as needed	1	Office Operations Manual
EC/VEO Restructure with NPP for additional staffing for improved services & reporting	1	NPP to MBC for 2 priority positions for restructure – HR Officer and M&E Officer
Provincial Electoral Offices strengthened	1	Annual Report provides Provincial Office reports x 5

PROGRAM CMCA: ELECTORAL SERVICES

Activity Cost: 12,004,720

Cash Grant & Aid To be Confirmed

In Kind: N/A

Mandate

Through Provincial Electoral Offices, the Electoral Commission (EC) and the Vanuatu Electoral Office, work with provincial organisations to strengthen the enabling framework for the delivery of compliant, effective, inclusive and transparent elections in the provinces.

Essential to successful Provincial Elections is liaison with stakeholder partners such as Provincial Government, Chiefs, Area Councils, Churches, schools, CSOs/NGOs and political parties active in each Province.

Well-resourced Provincial Electoral Offices are critical to operationalise the Government of Vanuatu's strategic focus of decentralising functions from central, core agencies such as the Electoral Commission and the Vanuatu Electoral Office to the provinces where 78% of Ni-Vanuatu reside.

The Provincial Electoral Offices act as the implementing agency by supporting the registration of electors, undertaking awareness and capacity building and the conduct of elections.

Objectives

The Provincial Electoral Offices have the following objectives:

Objective 1: To support delivery of efficient, effective elections in the provinces;

Objective 2: To assist with review of provincial Civil Registry data to enhance & validate Voter Register;

Objective 3: To undertake inclusive awareness and outreach training for provincial stakeholders such as Provincial Government, Chiefs, Area Councils, Churches, schools, CSOs/NGOs and political parties active in each Province to build capacity and understanding of electoral matters;

Objective 4: To establish and resource each Provincial Electoral Office to compliantly deliver provincial electoral services.

Means of Service Delivery:

- 1.1 Develop annual schedule of elections to be held as per Electoral Cycle
- 2.1 Continual up-date and verification process undertaken with Civil Registry to validate Voter Register
- 3.1 Build understanding of electoral matters through liaison and awareness programs with Provincial Government, Chiefs, Area Councils, Churches, schools, CSOs/NGOs and political parties active in each Province
- 4.1 Develop recurrent budget for provincial Electoral Office/s operations

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Annual Schedule of elections as per Election Cycle	1	Annual Schedule of elections
ID Card provincial awareness programs	%	% of population holding validated ID Cards disaggregated by province
Provincial Outreach & Awareness Program	1	Report on Provincial Outreach & Awareness activities in Annual Report
Secure funding for provincial Electoral Office operations	1	NPP for operational budget for Provincial Offices

Progress reports against COM Secretariat's Annual Work Plan/Business Plan produced	4	No. of progress reports per year

PROGRAM MPC: LANGUAGE SERVICES

Program Cost: 67,340,400

Cash Grant & Aid in Kind: NA

Objectives:

- To implement effectively the language provisions provided in Article 3 and Article 64(1) of the Constitution of the Republic of Vanuatu.
- To promote the Vanuatu official and vernacular languages, as provided for under the Constitution of the Republic of Vanuatu, by effectively administering, managing and responding to that promotion following the needs of the State and its citizens.
- To ensure collaboration between the Language Services Department and other Government institutions, non-Government organizations and private sector institutions in the promotion, management and administration of the use of the Vanuatu languages.
- To ensure language services other than translation, interpretation, revision and terminology are provided.

Activity MPCA: Language Services**Activity Cost: 67,340,400 VUV****Cash Grant & Aid in Kind: NA****Objectives:**

- To provide accurate and efficient translation, interpretation, revision/proofreading and terminology services, as well as other language services, to the Government of the Republic of Vanuatu.
- To prepare a team of competent translators, interpreters, revisers and terminologists.
- To establish accurate terminology with the collaboration of different sectors.
- To promote the Vanuatu official and vernacular languages in communities.
- To provide sound administrative and secretarial support to the Department.
- To provide sound financial, asset and HR management services to support the Department.

Means of Service Delivery

- Translation services (wide range of documents, including legal documents);
- Interpretation services (in courts, during meetings, etc.);
- Revision and proofreading services;
- Terminology services;
- Language training provided to other institutions;
- Language promotion in communities (in at least 2 provinces);
- Implementation of Language Policies and establishment of Language Act;
- Implementation of Partnerships Agreements;
- Language services other than translation, interpretation, revision/proofreading and terminology;

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Establishment of the 2027 Business Plan of the Department	1	No. of Business Plan established
Provision of language trainings	1-2	No. of trainings provided
Provision of language promotion	At least 2	No. of provinces visited
Appraisal of the Department's staff performance	22	No. of staff appraised
Meetings (general, Section Heads and administration)	12	No. of meetings held
Provision of translation services	10,000	No. of words translated per quarter

	(Minimum)	
Provision of interpretation services	1-5	No. of services provided per quarter
Provision of revision/proofreading services	At least 10	No. of document revised per quarter
Development of Vanuatu terminology	3-10	No. of technical terms recorded per quarter per technical officer
Provision of other language services	2-4	No. of services provided
Production of sections reports, financial/ assets/HR reports, training reports and awareness reports	At least 16	No. of reports produced
Production of quarterly reports to DG, through EO	4	No. of reports produced
Contribution to MPM Annual Report	1	No. of Annual Report produced

PROGRAM MPD: SPECIAL COMMISSIONS

Program Cost: 36,107,440

Cash Grant & Aid in Kind: NA

Objectives:

- To ensure that the Government Remuneration Tribunal Act is effectively and efficiently administered and implemented
- To ensure sound technical and policy advice are provided to the GRT Board, and are made in accordance to the relevant laws, policies and programs of the Government

Activity MPDE: Government Remuneration Tribunal

Activity Cost: 36,107,440

Cash Grant & Aid in Kind: NA

Objectives

- To lead in the administration of COM decisions concerning national remuneration reviews.
- To review and evaluate government structures and remunerations against government policies and programs
- To provided technical financial remuneration analysis to Director General of the Ministry of Finance and Economic Management regarding remuneration reviews.
- To provide support to Ministerial budget Committee concerning NPP's consistent with Remuneration policies.
- To effectively and efficiently provide administrative and technical support to Government Remuneration Tribunal.
- To timely facilitate GRT board decisions to all Government stakeholders.

Means of Service Delivery

- Carry out evaluation government structures and remunerations against government policies and programs
- Provide effective and efficient administrative and technical support to the GRT secretariat and Board

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
GRT Board meetings	6	No. of board meeting minutes
Monitoring of the 2024 & 2025 GRT Determinations and its implementation across Constitutional bodies and Statutory bodies of the Government.	32	Number of Determinations
Number of Government structures remunerated	100%	Percentage
Administrative and technical support provided to GRT board and stakeholders.	100%	Percentage

PROGRAM MPE: INFORMATION, COMMUNICATION AND TECHNOLOGY POLICY AND ADMINISTRATION**Program Cost: 578,196,175****Cash Grant & Aid in kind: 0****Objectives**

- Leading and coordinating the Government's efforts to maximize the contribution, efficiency and effectiveness of information and communication technology supporting good governance and transparency in achieving the national vision.
- Leading and coordinating the effort to maximize the penetration of ICTs in society, Government and business.
- Transforming government service delivery where-ever feasible to be service-oriented, citizen-oriented, demand driven, user-centric, robust and accessible anywhere and anytime.

- In cooperation with key ministries and agencies, develop strategic plan for ICT development, followed by detailed requirements analysis and business process re-engineering, concluding with installation of new ICT systems, platforms and other ICT infrastructure.
- Review and coordinate ICT purchases and programs across the GoV.
- Manage and expand the Government Broadband Network (GBN) in an efficient and customer-oriented way.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
National ICT Policy updated Bi-yearly	1	No. of policy updates per year
Strategic ICT plans for selected ministries and agencies are developed	5	No. of ministries with strategic ICT plans per year
Standard Operating Environment and other technical standards for all ministries and agencies, re PCs, laptops and servers are developed and updated	1	No. of SOE developed and reviewed per year
Transmission, Network and System Upgrade and Maintenance	3	No. of upgrade and maintenance per year
Government databases and systems online and minimum downtime	99%	Percentage online
Government office networks online and minimum downtime	99%	Percentage
Cyber Security threat detection and threat intelligence	100%	Percentage

PROGRAM MPI: VANUATU PROJECT MANAGEMENT UNIT

Program cost: 360,402,298

Objectives

The VPMU is an established office created as an entity within the Prime Minister's Portfolio with its Steering Committee having dual reporting responsibilities to the Prime Minister's Office and the Ministry of Finance and Economic Management acting as the Executing Agency of the government of Vanuatu (the "Government") for the purpose of overseeing and managing major Infrastructure development projects for a minimum amount of VUV 1billion. The VPMU also acts as the authorized representative of the Government to execute oversight in the implementation of project activities during construction phase representing and reporting to the Government through Steering Committee.

VPMU policy objective is to Improve quality, accessible and resilient National Infrastructure across Vanuatu through an effective and efficient Project Management.

The responsibilities of the program management unit shall include the following:

- a) Providing an oversight with respect to:
 - i. Project and contract management activities that ensure the timeliest and most cost-effective implementation of projects under its management.

- ii. Providing progress updates on implementation of projects under its management
 - iii. Establish and maintain performance standards on all responsibilities and obligations of the Government for efficient and effective execution of development project activities: and
 - iv. Assume the role of secretariat for all Steering Committee convocations, including the recording and circulation of minutes and reminders for action items requiring execution
 - v. Manage all project funds and report to the Steering Committee and its Financing Partners.
 - vi. Develop and maintain the website and all other communications.
- b) The program management unit shall be responsible for liaison and coordination of major development project activities with key stakeholder agencies through Inter Entity Agreement of engagements.
- c) Effective Human Resource Management ensuring capacity building is gained to achieve the objective of the unit.

Activity MPIA: Administration & Finance

Activity Cost 50,838,538

Objectives

The primary role of the administration and finance is to assist the VPMU Program Director with the overall implementation of the Program. They manage and supervise day-to-day financial, human resources, accounting, procurement, and logistics operations.

Means of Service Delivery

- Development and administration of some components of the Implementation Plan (including the Financial Projection Plan, Procurement Plan), any response to any finding in any audit;
- Oversight of the implementation of the VPMU Projects, including preparation of Development Partner's Disbursement Requests and Withdrawals Application for approval;
- coordination of the overall Program VPMU Projects, each Project Activity and the other activities contemplated under Loans and Grants Agreement and any Supplemental Agreements;
- Preparation and review of financial reports, performance and procurements, budgets and audits, steering committee request and maintenance of accounting records.
- Management and oversight of procurements, and other procurement actions (including approvals thereof) in accordance with the Procurement Agreement and the standards set forth in the procurement Guidelines;
- Preparation and submission to the Steering Committee of any other report, document, agreement, or action as may be designated or requested by the Steering Committee from time to time, along with a written recommendation to the Steering Committee on how to proceed; and
- Any other responsibilities within the scope of its Program implementation management role that may be required or requested from time to time by the Steering Committee
- Manage admin responsibilities including the supervision of the Executive Secretary and admin assistant

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
VPMU, Project Management and Reporting - Effective report to the Ministry of Prime Minister and the Ministry of Finance and Economic Management through the Steering Committee consisting of Central Agencies executive members, - Ensure submissions of reports per project reporting requirements	12	Ministerial brief, SC meeting, Weekly Progress meeting, other Stakeholders meeting, monthly, quarterly, and annual reports
Timeline Management – Cost Effective management of projects executed contracts on behalf of the employers, Timely implementation of decision making	12	Monthly reports,
Variations Value - Effective evaluating and analyzing - Close monitoring of projects progress and issues	5	Cost overruns
Compliance with Project governing Policies, Procurement Policies, Project taxation Policies, Development Special Visa	5	GIP Approval, Contract Awards, Exemption Approval, DSV Approvals
Budget Planned Value – Effective and efficient project funds planned and Actual cost	5	Justified variations, Financial Audited Report
Project Accounting - Manage the accounting entries and records are updated for the financial transactions related to VPMU projects. - detailed financial view of individual projects aids and the management of cost, - Make a decision making for improvement and aligning project financials with contract terms.	1	Annual Project Financial Statements,
Communicate and collaborate – Establish effective communication between all team members and stakeholders to collaborate efficiently toward achieving project goals.	12	Monthly reports
Record management – Ensure proper record and filling of the office and projects documentation	12	Monthly filing records
Staffing management – Effective management of all VPMU staffs PMA	10	VPMU staff PMA completed.

Activity MPIB: Monitoring & Evaluation**Activity Cost 1,280,000****Objectives**

The primary role of Monitoring & Evaluation is to assist the Program Director with the overall management of the implementation of the Program in:

- developing and administrate VPMU's Monitoring & Evaluation Plan
- assuring its implementation both through contracts and implementing entities or line ministries and M&E unit of DSPPAC

- c) conducting of surveys and collecting data as required
- d) Prepare Monitoring and Evaluation reporting requirements for the VPMU senior management and partner agencies.

Means of Service Delivery

- Prepare indicators for monitoring and evaluating project performance before project commencement, and refine and monitor these indicators during project implementation, in accordance with the project covenant and framework
- Update and maintain the VPMU M&E Plan and Quarterly indicator tracking table;
- Develop Terms of Reference and agreements for conducting surveys and evaluations;
- Liaise with contractors and key agency such as the VNSO to determine appropriate M&E indicators/surveys methodology/questionnaires for each project activities being implemented;
- Plan and undertake data collection including surveys and consultations;
- regularly review M&E data with appropriate decision makers to ensure that the VPMU program activities reach the objectives and ensure that timely decision and/or corrective actions are implemented;
- Ensure that the M&E information required for posting on website are regularly updated;
- Monitor/ensure the validity, reliability, precision, timeliness, and integrity of performance data;
- Supervise technical execution of multiple survey and expenditure studies;
- Assist in the development and execution of Project Activity Completion Reports; and contribute to the preparation of budget packages and assist with review of reports presented to VPMU Steering Committee;
- Liaise with M&E unit of DSPPAC regarding all national M&E issues;

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Maintain and update the VPMU Monitoring & Evaluation Plan (Framework)	12	Monthly reports
Preparation of indicator of Monitoring and Evaluation project performance, milestones, and Critical Path Method (CPM)	4	Quarterly monitoring progress reports
Development of TOR and agreements for conduction surveys, evaluation, collection of completed work report from contractor/engineer	1	Evaluation reports
Primary liaison for M&E indicators and survey methodologies for implemented projects	2	Survey report
Capacity to assist with preparing and reviewing reports to be presented to the Steering Committee	4	report prepared and reviewed
Develop VPMU Annual report against the Annual business plan	1	Report drafted, annual progress meetings, Q1, Q2, Q3, Q4 reports.
Undertake Monitoring field visits to the projects sites to confirm progress report provided.	12	Monthly progress reports & Quarterly meetings

Establish effective communication between all team members and stakeholders to collaborate efficiently toward achieving project goals.	12	Meeting minutes records, Consultation and presentations records and briefs,
Ensure proper record and filling of the Monitoring & Evaluation documentation	12	Monthly filings record

Activity MPIC: Communications & Public Relations

Activity Cost 1,870,000

Objectives

The primary role of Communications & Public relations is to assist the VPMU Program Director with the overall implementation of the Program.

They shall:

- a) develop and implement the VPMU communications and consultation strategy including VPMU website;
- b) oversee VPMU communications and generate visibility for VPMU's Project work;
- c) and facilitate VPMU community consultation and awareness programs and be the VPMU focal point for community and stakeholder liaison;
- d) will lead the Community Liaison Unit to be formed within VPMU and will work in close collaboration with the VPMU Environmental Social Mitigation.

Means of Service Delivery

- Serve as the spokesperson for the VPMU; be responsible for all communication within the VPMU and generate visibility for VPMU managed projects; plan, coordinate and implement VPMU communications and relation work;
- Develop, implement, and evaluate the VPMU communications and consultation strategy and corresponding plans including the development of clear communication goals, identification of stakeholders, articulation of messaging and measuring the effectiveness of these actions;
- Supervise, draft, and manage the production and distribution of public information materials including press release, newsletters, speeches and statements, brochures, articles, fact sheets and audio-visual materials; and manage and update VPMU website, bloc pages and Facebook page
- Establish and maintain contacts with a network of country-based communication and public information officers in the media and others; manage communication campaigns with VPMU and projects being implemented, launching of key reports and special events,
- Brief the community on VPMU public information highlights, events and activities and keep the public informed of project news, item concerning VPMU and related matters; control the quality of the concept, design, and layout of VPMU publications and related matters;
- Promote policy or behavior change through public

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Generate visibility for VPMU managed projects to the public	4	Newsletters
Effective communications and representations of VPMU roles and its projects progress (TV, radio, web, Facebook post))	12	Press release
Supervise, draft, and manage the production and distribution of public information materials related to VPMU	12	Consultation/Awareness
Manage and update VPMU's website	12	Monthly update
Organize Project official ceremony	4	Project groundbreaking/ completion milestones
Facilitate ongoing communication and collaboration between stakeholders and teams' members on daily basis to achieve the project goal.	12	Monthly reports
Ensure proper record and filling of the Communication documentation	12	Monthly filing record

Activity MPID: Environment & Safeguards

Activity Cost 6,413,760

Objectives

The primary role of Environment and Safeguards is to assist the VPMU Program Director with the overall implementation of the Program.

They shall:

- a) Ensure that all the projects managed under VPMU are adhered to the Vanuatu government and donor partner's environment and safeguards regulations.
- b) Ensure that all projects have acquired relevant permits prior to construction and that the contractors are adhered to the permit conditions, CEMP (Contractors Environmental Management Plan) Social Mitigation management plan and/or any other documents relevant to the project scope.
- c) Organize and conduct consultations to the Communities (Affected Persons/ land owners) and other relevant government and private stakeholders.
- d) Station in Port Vila and travel from time to time to project sites to conduct consultations and environment and safeguards audit at a monthly/ quarterly basis.
- e) Report to the Program Director of the Management Unit and liaise closely relevant government and private institutions related to the projects.

Means of Service Delivery

- Collaborate closely with project consultants to ensure timely completion of the Environmental and Social Impact Plan (ESIP), site-specific Environmental Management Plans (EMPs), Consultation Plans, and Resettlement Action Plans (RAPs), meeting the expectations of donors and relevant government agencies.

- Work with managing consultants and relevant government departments to ensure that project bidding documents comprehensively address environmental and social safeguards, including adherence to donor environmental guidelines, public disclosure requirements, stakeholder consultations, monitoring, and reporting obligations.
- Act as the primary liaison between affected communities and the VPMU on all environmental and social impact matters. Register, monitor, and resolve social issues arising during project construction through the established Grievance Redress Mechanism (GRM).
- Serve as the main point of contact for environmental and social safeguard issues between VPMU and donor agencies, including preparation and timely submission of required reports and information.
- Facilitate communication and coordination between VPMU and relevant government agencies on all environmental and social safeguards related to project activities.
- Organize and conduct meaningful consultations with affected communities (including landowners), government authorities, and private stakeholders to address environmental and social safeguard issues.
- Work collaboratively with other Project Management Unit members to ensure thorough coordination among all stakeholders during project implementation.
- Conduct regular site visits and review monitoring reports to verify that project activities comply fully with the Construction Environmental Management Plan (CEMP), permit conditions, and respect traditional “tabu” sites and practices.
- Partner with the M&E Officer to develop and implement environment and safeguards activities, including consultations, issue tracking, and permit approvals, in quarterly and annual work plans.
- Submit monthly progress updates on environmental and safeguards matters to the M&E Officer for integration into broader project monitoring.
- Prepare quarterly, semi-annual, and annual environmental and social safeguard reports for donor partners and the Steering Committee, highlighting progress, challenges, and resolutions related to GRM cases.
- Prepare and submit incident reports within three days of any accident or event with potential adverse effects on Environment, Health, and Safety (EHS) to the Steering Committee and donor agencies.
- Provide targeted reports on specific EHS issues as requested by donor agencies.
- Perform other tasks and responsibilities as directed by the Program Director or the Steering Committee to support effective project implementation.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Valid social and environmental compliance permits obtained and maintained in accordance with Vanuatu legislation	11	Permits issued
Monthly environment and safeguards progress reports submitted to the VPMU M&E officer	12	Monthly reports
Reviewed and submitted quarterly environment and safeguards reports delivered to donors and relevant agencies	4	Quarterly reports completed
Documented consultations held with Community Advisory Committees (CAC) across all project sites	12	CAC meeting minutes
Completed and documented site visits conducted for monitoring compliance and progress	12	Field trip report
Effective communication and collaboration maintained among project teams and stakeholders through verbal, written, and digital channels	12	Monthly reports
Organized and maintained complete and accessible records of Environment & Safeguards documentation	12	Monthly filing record

Activity MPIE: National Project**Activity Cost 300,000,000****Objectives**

The national projects represent Vanuatu's development plans that are aimed at ensuring the country's breakthrough advancement in the international aspect in terms of socio-economic sphere. Most of the national projects managed by VPMU are major infrastructure development projects with a minimum amount of VUV 1billion that are aligned with the current National Plan (NSDP 2016-2030).

Means of Service Delivery

- Provide support in the role of a project manager;
- Closely support the VPMU steering committee, the VPMU program director, other government agencies, ADB, and co-financiers on all matters pertaining to the implementation of VPMU projects;
- Prepare documentation and facilitate progress and other management meetings;
- Prepare progress reports and other reports as required and submit to the Program Director in a timely manner;
- Coordinate on all project matters with the project teams, and provide consolidated advice on such matters to the VPMU and its steering committee;
- Liaise with environmental and social safeguards specialists and ensure that ADB's safeguards requirements are complied with, and the required monitoring reports are submitted on time, for endorsement;
- Monitor contract administration, including budgeting and the management of payments and deadlines, and coordinate the timely review of contractor and consultant progress reports, potential claims, and

contract variations; Review contractors' and consultants' invoices before certifying them for processing of payment;

- Review consultant's designs and contractor's drawings and calculations to check arrangements for optimized operation and maintenance and verify compliance with contract specifications; Coordinate with project engineers and observe to ensure that testing of materials and equipment is in accordance with agreed standards;
- Supervise and evaluate the implementation of environmental mitigation and monitoring measures as specified in the environmental management plans and advise the VPMU and ADB of any issues or concerns;
- Identify and alert the VPMU of potential risks to the successful implementation of contracts, including cost overruns, delays, and nonconformance with project specifications;
- Assist in the preparation of the terms of references and support the recruitment of consultants as per timelines provided on projects
- Ensure effectiveness of time completion and reporting requirements.

- **Performance Measurement (Service Targets)**

Description	Quantity	Unit of Measure
VPMU, Project Management and Reporting - Effective report to the Ministry of Prime Minister and the Ministry of Finance and Economic Management through the Steering Committee consisting of Central Agencies executive members, - Ensure submissions of reports per project reporting requirements	12	Ministerial brief, SC meeting, Weekly Progress meeting, other Stakeholders meeting, monthly, quarterly, and annual reports
Engineering – Ability to provide technical engineering aspect of projects, site supervision for better inform the decision makers	12	Engineers' reports, Progress meeting, SC meeting
Project timeline and construction time – Cost Effective management of projects executed construction contracts, Timely implementation of decision making	5	Interim Progress Certified, Monthly and quarterly reports
Variations Value - Effective evaluating and analyzing - Close monitoring of projects progress and issues	5	Approvals via SC and donors no objection
Compliance with Project governing Policies, Procurement Policies, Project taxation Policies, project risk management, Environmental and safeguard requirements	5	GIP Approval, Contract Awards, Grievances Redress Mechanism, Semi Annual Safeguard reports
Budget Planned Value – Effective and efficient project funds planned and Actual cost	5	Justified variations, Financial Audited Report

Establish effective communication between all team members and stakeholders to collaborate efficiently toward achieving project goals.	12	Monthly reports
Record management – Ensure proper record and filling of the office and projects documentation	12	Monthly filing record

PROGRAM MPJ: SECURITY COUNCIL

Program Cost: 32,474,682

Grant & Aid in Kind: NA

Objectives

- Strengthen the operational and strategic capability of the National Security Council Secretariat (NSCS), enabling it to fully carry out its legal functions as mandated by the National Security Act No. 41 of 2019 and the National Security (Amendment) Act No. 7 of 2023.

Means of service delivery

- Enable the NSCS to fulfill its expanded mandate and national security responsibilities.
- Improve the operational effectiveness and coordination of the NSCS.
- Ensure NSC Resolutions are implemented and policy reforms instructed by the NSC are effectively carried out and implemented.
- Monitor and evaluate the implementation of NSC Resolutions for the NSC Members update.
- Enhance the government's ability to anticipate, assess, and respond to strategic and national security threats.
- Strengthen the provision of timely, high-level security intelligence to the Prime Minister and key national stakeholders.
- Advance national resilience through provincial outreach, inter-agency collaboration, and improved infrastructure.

Activity MPJA: Vanuatu National Security Council Secretariat

Activity Cost: 32,474,682

Cash Grants & Aid in kind: NA

Objectives

- Enable the NSCS to fulfill its expanded mandate and national security responsibilities.
- Improve the operational effectiveness and coordination of the NSCS.
- Ensure NSC Resolutions are implemented, and policy reforms instructed by the NSC are effectively carried out and implemented.
- Ensure NSC Resolutions are implemented, and policy reforms instructed by the NSC are effectively carried out and implemented.
- Monitor and evaluate the implementation of NSC Resolutions for the NSC Members update.
- Enhance the government's ability to anticipate, assess, and respond to strategic and national security threats.
- Strengthen the provision of timely, high-level security intelligence to the Prime Minister and key national stakeholders.
- Advance national resilience through provincial outreach, inter-agency collaboration, and improved infrastructure.

Means of Service Delivery

- Vanuatu National Security Council meetings
- Produce a monitoring and evaluation assessment of NSC and SSOCM meetings

- National Senior Security Officials Committee meetings
- Provide intelligence assessments to the prime minister on national security issues
- Produce NSCS fortnight security updates
- Produce geospatial assessments and products
- Produce specialty open-source assessments
- Produce Joint Assessments with other agencies
- Develop NSC Secretariat Asset Registry
- Hold provincial security Storian and awareness campaigns
- Conduct security focal point meetings
- Assist with clearance of military vessels and aircraft
- Capacity building of staff
- Produce standard operating procedures (SOPs) for NSC, NSSOC, NSCS focal point meetings, joint assessments, NSC resolution and M&E, and the NSCS office
- Define the functions of the SSOCM
- Develop NSCS Yearly Planner
- Develop the Vanuatu National Security Foreign Engagement Strategy
- Scope development of an NSCS database
- Scope development of an NSCS geospatial information system
- Update the NSCS website
- Develop Critical infrastructure framework
- Produce a monthly unit expenditure update
- Recruit staff as per the NSCS' approved structure and NPP
- Pursue a new NSCS building

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Vanuatu National Security Council meetings	12	Number of meetings
Produce a monitoring and evaluation assessment of NSC and SSOCM meetings	1	M&E outcome disseminated
National Senior Security Officials Committee meetings	12	Number of meetings
Provide intelligence assessments to the prime minister on national security issues	12	Number of reports
NSCS fortnight security updates produced	24	Number of security updates
Produce geospatial assessments and products	2	Number of products
Produce specialty open-source assessments	2	Number of products
Produce Joint Assessments with other agencies	4	Number of products
Hold provincial security Storian and awareness campaigns	2	Outreach activities
Conduct security focal point meetings	4	Meetings
Assist with clearance of military vessels and aircraft	25	Checklist support
Capacity building of staff	2	On-the-job-training

Produce standard operating procedures (SOPs) for NSC, NSSOC, NSCS focal point meetings, joint assessments, NSC resolution and M&E, and the NSCS office	1	Documents produced
Strengthen Security Classification	1	Security Classification Handbook review and relevant awareness conducted
Develop a Database on all Security related Treaties, Conventions, MOUs, MOA etc for appropriate update and review	1	Database developed and accessible
NSCS Yearly Planner developed	1	Planner
Develop the Vanuatu National Security Foreign Engagement Strategy	1	Document produced
Scope development of an NSCS database	1	Database document produced
Scope development of an NSCS geospatial information system	1	NSCS geospatial information system document produced
Critical Infrastructure Bill	1	Critical Infrastructure Legislation passed by Parliament
Critical infrastructure registry	1	Critical infrastructure registry endorses by NSC and launched
Produce a monthly unit expenditure update	12	Expenditure updates completed
Recruit staff as per the NSCS' approved structure and NPP	3	Three staff recruited
Pursue a new NSCS building	1	Progress towards the new building

MINISTRY OF AGRICULTURE, LIVESTOCK, FORESTRY AND BIOSECURITY (MALFB)

Ministry Cost: 2,088,501,842

Cash Grant & Aid in Kind: 90,480,000

The MALFB's annual budget is allocated towards the six (6) programs for each of the six (6) provinces (at an activity level) to deliver the key policy objectives of the NSDP and the Overarching Productive Sector Policy. Each program aims to deliver measurable outputs that are mapped against each activity through which their implementations will contribute to the overall achievement of the NSDP outcomes and the MALFB 2026-2030 Corporate Plan. It is worth noting that the four (4) departments under MALFB's structure are collectively implementing these programs with collaborative efforts from its key stakeholders.

Cabinet -MALFB

Department budget: VT 76,958,891

The MALFB Cabinet Office is comprised of 22 staff in total including the Hon Minister. The Cabinet positions are shared with another Member of Parliament backbencher to maintain solidarity and stability in the coalition. MALFB Cabinet office plays a key role in ensuring that the office of the Minister carry out its core functions smoothly in assisting and facilitating Ministry programs through its respective departments.

MALFB Corporate Services Unit & Vanuatu Primary Producer Authority

Department Budget: VT 311,381,525

Corporate and sectorial development play key roles under the office of the Director General in providing overall administrative and technical support to the entire Ministry.

Providing support and guidance to the Departments of MALFB through relevant guidelines to ensure effective, efficient and consistent planning, reporting, and implementation of MALFB sub programs.

Department of Agriculture and Rural Development (DARD)

Department Budget: VT 532,475,946

DARD's annual budget is allocated across thirteen (14) programs, each designed to support coordinated activities implemented throughout the six (6) provinces. These programs are aligned with the key policy objectives of the National Sustainable Development Plan (NSDP) and the Overarching Productive Sector Policy. Each program is structured to deliver measurable outputs linked to specific activities, contributing directly to the achievement of NSDP outcomes and the goals outlined in the Ministry of Agriculture, Livestock, Forestry and Biosecurity (MALFB) Corporate Plan 2026–2030. It is important to highlight that DARD's efforts are primarily focused on the crop component of agriculture and are delivered in collaboration with key stakeholders to ensure effective and integrated program implementation

Department of Livestock

Department Budget: VT 372,621,738

The Livestock sector forms an integral part of the economic and socio-cultural development of the country contributing directly to food security and income generating opportunities. The sector is made up of the cattle and small livestock (poultry, pigs, goats and sheep) subsectors. Beef contributes significantly to foreign exchange earnings through beef exports and other related products. Small livestock production predominantly is for the local market. The future of the Livestock industry depends on enhancing its capacity to satisfy the subsistence and income needs of producers. There is much potential to focus on small livestock development to elevate aspiring farmers from subsistence status to semi commercial or fully-fledged commercial farming. The livestock sector in Vanuatu is facing some major challenges that

need to be addressed systematically to enable the sector to grow to its full potential.

A call for budget restructuring to reflect better on visibility and accountability resulted in a revised program budget for the Department in 2026 in line with proposed restructuring of the Department to reflect the scope of the service deliveries according to the government decentralization plan. The revised budget is built around the Department's core programs for Administration and payroll, Cattle, Small Ruminants, non-ruminants, Apiculture (Bees), Poultry development, Pig development, local food promotion, product standard, planning & policy, Monitoring & evaluation, Capacity building, and Asset Management. These programs are directly linked to the higher goals as alluded to in the National Sustainable Development Plan 2016 -2030 (NSDP), the Overarching Productive Sector Policy (2019-2029) and the MALFB Corporate Plan 2026 -2030. The 2026 budget plan is also being guided by Vanuatu Livestock Sector Policy and Livestock Management Act of 2018. The current approved structure accommodates 42 staff. However, with the increasing demand in services the department is in the process of restructuring to increase its workforce to 107 staff that will be operating from its main offices in islands identified within Torba, Sanma, Penama, Malampa, Shefa and Tafea Provinces to implement the programs mentioned and the Enforcement of the Livestock Management Act of 2018

Department of Forests

Department Budget: VT 204,864,900

The Department of Forests is delighted to present this edition of its Budget Narrative for 2026.

The Forests of Vanuatu is the third largest resource after Sea and Land which continue to remain an imperative resource for the Country to sustain livelihood at all levels of Vanuatu's society.

It is therefore eminent that the forestry sector and resources of Vanuatu is well managed in a sustainable manner. This is to ensure that the increasing demands of the forest dependent communities throughout Vanuatu continue to be met daily without depletion. It is equally important to note that, improving the production of forests, protecting forests important for social, economic and ecological importance cannot occur without technical and financial input.

A competent human resource and financial support is required to ensure that the forestry sector moves forward. These are key areas to be strengthen through increase in the recurrent budget for operational work. Staff recruitment is considered a priority and to accommodate staff on the new Department's operational structure that is currently under review.

The 2026 budget narrative is in line with the updated MALFB 2026 – 2030 Corporate Plan. This is to say that the program activities that are budgeted for in the 2026 Budget narrative will directly be addressing the output of the Corporate Plan.

The budget focus of 2026 is to ensure that nation's forest resources are managed in a sustainable manner to provide wood and non-wood products as well as environmental and social services and thereby contribute to income generation, employment and the social well-being of all the people of Vanuatu.

To address the issues within the forestry sector in year 2026, there are 10 priority programs to be implemented. These include:

- Administration and Payroll
- Commercial Timber Tree Development
- Non-Timber Forest Product Development
- Sandalwood Development
- Product Standard
- Forest Protection and Conservation
- Forest Landscapes Restoration
- Policy and Planning and Monitoring and evaluation
- Capacity building
- Asset Management

Department of Biosecurity

Department Budget: VT 301,041,070

The Department of Biosecurity (DOB) plays a critical role in protecting Vanuatu's agriculture, environment, public health, and economy from biosecurity threats by preventing, detecting, and managing the risks of pests, diseases, and invasive species at the borders and within the country. As trade, tourism, and agricultural activities continue to expand, the need for robust and responsive biosecurity measures is more critical than ever.

For the 2026 fiscal year, the Department has been allocated a total budget of VT 301,041,070. This funding is strategically allocated across key operational programs, including:

- **Payroll and administration**
- **Plant and animal health**
- **Border control**
- **Food safety**
- **Policy and planning**
- **Capacity building**
- **Asset management.**

Each program is guided by defined objectives to ensure the effective and accountable use of resources.

In 2026, the Department will prioritize:

- Strengthening the detection, surveillance, and management of plant and animal diseases
- Enhancing food safety systems and compliance across the meat industry sector
- Securing borders through improved inspection, risk assessment, and enforcement
- Investing in workforce development and institutional capacity
- Advancing strategic planning, emergency preparedness, and performance reporting

This budget plan outlines the planned allocation of resources, key activities to be undertaken, and indicators that will measure performance. It reinforces the Department's mission to protect Vanuatu's agricultural productivity, natural biodiversity, and public health, while supporting national goals for resilience, economic growth and sustainable development.

PROGRAM MAA: PAYROLL & ADMINISTRATION

Program cost: 1,143,866,152

PROGRAM MAAA: PAYROLL & ADMINISTRATION

Program cost: 1,131,557,664

Sub program: 46A MALFB Cabinet - MAA

Sub program cost: VT 76,958,891

The MALFB Cabinet Office is comprised of 22 staff in total including the Hon Minister. The Cabinet positions are shared with another Member of Parliament backbencher to maintain solidarity and stability in the coalition. MALFB Cabinet office plays a key role in ensuring that the office of the Minister carry out its core functions smoothly in assisting and facilitating Ministry programs through its respective departments.

Means of service Delivery:

- Ensure smooth functioning of the office of the Minister

Sub Program 71E Vanuatu Primary Producers Authority – MAA**Sub Program 71E Budget: VT 63,167,119**

Vanuatu Primary Producers Authority is an SOE under MALFB. Objective

Objectives

- Increase Production in Primary Products and Market Access.
- Facilitate Quality Assurance, and safety.
- Assist with Infrastructure, for sustainable pricing for producers.
- Governance and institutional capacity.
- Sustainable communication & Knowledge sharing.

Means of service delivery

Development outcome: 1: Increase Production in Primary Products and Market Access.

- Establish linkages between domestic markets and producers
- Research into different produce and products
- Research for vendors (Processors and Sellers)
- Producers' Awareness, Registrations, update, and Validation of data registry
- Producers Profiling and Business Plans
- Area Council Forums, Workshops and Trainings

- Provincial Forums
- Provincial Resolutions
- Product Group Forums
- Public- Private Partnerships

Development outcome: 2: Facilitate Quality Assurance, handling and safety.

- Area Council Forums, Workshops and Trainings
- Provincial Resolutions follow up
- Product Group Forums
- Public- Private Partnerships

Development outcome 3: Assist with Infrastructure, for sustainable pricing for producers.

- Producers Profiling and Business Plans
- Area Council Forums, Workshops and Trainings
- Provincial Forums
- Provincial Resolutions
- Product Group Forums
- Public- Private Partnerships
- Research into Pricing

Development Outcome 4: Governance and institutional capacity.

- HR Policy
- Staff Manual/Operation Manual
- Strategic Plan/ Corporate Governance
- Regulation for Levy collection and Registration fees
- Recruitment for Vacant Positions within the structure
- Capacity Building for staffs
- National Forum
- Board Meetings

Development Outcome 5: Sustainable communication & Knowledge sharing.

- Data Quality Assurance and Standardisation
- Ensure functioning of Data Collection Software
- Collection and Management of All Incoming Data Files
- Develop identification Number and certificates of Farmers
- Data Visualisation and Analysis Software Tableau
- Data Analysis & Interpretation
- Manage Authority's data and Information system
- Coordinate with stakeholders & Staff Capacity Building

Sub Program 49A Administration and Payroll - MAA

Sub Program 49A Budget: VT 254,804,781 (Payroll VT 242,554,781)

The Administration and Payroll sub-program is the backbone of the Department of Biosecurity, ensuring smooth day-to-day operations and the efficient management of staff remuneration and administrative functions. With a total allocation of VT 236,234,693, this sub-program is responsible for processing payroll payments, covering core operational expenses, and maintaining the department's internal functionality.

By delivering accurate and timely salary payments and meeting essential administrative costs, this sub-program supports the department's ability to function smoothly and efficiently. Its focus is to uphold financial stability, enable staff performance, and ensure uninterrupted service delivery of Biosecurity services.

Objective

- 1.1 Ensure the smooth and effective day-to-day operation of the Department of Biosecurity.
- 1.2 Provide accurate and timely salary payment to staff salaries.
- 1.3 Cover essential administration costs to support operational efficiency.
- 1.4 Maintain financial stability to enable consistent service delivery.
- 1.5 Facilitate internal processes to ensure seamless department functionality.
- 1.6 Smooth functioning of the Department of Biosecurity

Means of service delivery

Regular and accurate processing of payroll for all staff

Provision for routine administrative and operational expenditures

Sub Program 47B Kava Development - MAB

Sub Program 47B Budget: VT 40,000,000

Kava is Vanuatu's leading agricultural export and a key contributor to the national economy, playing a vital role in improving livelihoods across the country. In 2026, DARD will prioritize support for sustainable semi-commercial and commercial kava production on Santo, Pentecost, Maewo and Malekula – supporting primary processing and strengthening market access knowledge. The efforts intend to create partnerships and/or reinforce strategic kava quality measures on the focus islands leading to the expansion of both domestic and export markets which are the key drivers in increasing the production of noble kava varieties.

Objectives

- Improved Sustainable Kava Production for Income Generation

Means of Service Delivery

- Support key farmers to increase the sustainable production of noble kava
- Support primary processors of Kava
- Increase farming as a business skills of Kava farmers
- Improve Market access Knowledge of Kava farmers

Sub program 47C Coconut Development - MAB**Sub Program 47B Budget: VT 17,000,000**

Coconut remains a vital contributor to Vanuatu's national economy and a primary source of livelihood for many communities. However, its position as the top export earner was overtaken by kava in 2019, following the impacts of fluctuating global market prices, natural disasters and the recent incursion of the Coconut Rhinoceros Beetle (CRB) in the country. Despite this shift, the coconut sector continues to play a critical role in food security and has a strong national presence. In 2026, efforts will focus on promoting minimizing CRB spread to ensure sustainable commercial coconut production, with particular emphasis on controlling the spread of CRB. Primary processing and improving market access knowledge to ensure high-quality coconut products should be taken into consideration to ensure coconut products reach both established and emerging markets.

Objectives

- 1.Improved Sustainable Coconut production for Income Generation
- 2.Enhance Vanuatu food security through local coconut production

Means of Service Delivery

- Support and provide awareness to key farmers to increase and maintain the sustainable production of Coconut
- Support primary processors of Coconut
- Increase farming as a business skills of Coconut farmers
- Improve Market access Knowledge of Coconut farmers
- Improve and increase availability and access to local produce

Sub program 47D Cacao Development- MAB

Sub Program 47D Budget: VT 20,000,000

Cacao production is a valuable contributor to Vanuatu's economy, generating foreign exchange through exports and supporting growing processing facilities for products such as chocolate. The focus in 2026 is to promote sustainable semi-commercial and commercial cacao production on Malekula, Malo, Epi and Ambae, support primary processing, and strengthen market access knowledge. These efforts aim to create partnerships that establish and/or reinforce strategic quality control prioritized islands to ensure consistent supply of high-quality cacao products reach both existing and emerging markets.

Objectives

Improved Sustainable Cacao production for Income Generation

Means of Service Delivery

- Support and provide awareness to key farmers to increase and maintain the sustainable production of Cacao

Sub program 47E Coffee Development- MAB**Sub Program 47E Budget: VT 15,000,000**

Coffee is a well-established commodity crop in Vanuatu, contributing to export revenue and supporting the livelihoods of rural growers and processors. Efforts in this sector aim to promote sustainable semi-commercial and commercial coffee production, enhance primary processing, and improve market access knowledge. Islands prioritized for coffee activities are Tanna and Erromango. These initiatives are intended to ensure the production of high-quality coffee meet the demands of both existing and emerging markets.

Objectives

Improved Sustainable Coffee production for Income Generation

Sub program 47F Spices Development- MAB

Sub Program 47F Budget: VT 10,000,000

Spices represent a high-value cash crop opportunity for some rural communities. The 2026 efforts will focus on Malekula, Santo, Efate and Anestrum promoting sustainable semi-commercial and commercial spice production, supporting primary processing, and enhancing market access knowledge. These efforts aim to ensure the delivery of high-quality spice products that can effectively meet the demands of both current and emerging markets.

Objectives

Sub Program 89B Cattle Development Program - MAB

Sub Program 89B Budget: VT 8,300,000

The 2015 government policy endeavor to achieve five hundred thousand heads of cattle in Vanuatu by 2030 compliments the Department of Livestock's core functions to Increase Livestock Production. The cattle development division has recently been earmarked by the government as a way forward for Vanuatu for economic empowerment. The cattle development program develops its focus on the improvement and enhancement of existing farms and schools throughout Vanuatu. This allows enhanced market and commodity production, food security and the improved quality of safety livestock production.

The main focus for cattle development in 2026 will be on 6 islands that have the capacity for cattle development. These islands are: - Malekula, Santo, Maewo, Efate, Epi and Erromango.

Objectives

- Improved Sustainable Cattle production for Income Generation
- Enhance Vanuatu food security

Means of Service Delivery

- Support key farmers to increase the sustainable production of Cattle
- Support primary processors of Cattle
- Increase farming as a business skills of cattle farmers
- Improve Market access Knowledge of cattle farmers

Sub program 89E Apiculture Development Program - MAB

Sub Program 89E Budget: VT 5,890,000

The bee development program aims to increase the production of honey, noting that food security is largely dependent also on an abundance.

The 2026 Apiculture activities will be established on 6 islands, which have been surveyed to be free from Asian honeybee. These islands are: - Motalava, Ambae, Tanna, Futuna, Aniwa and Shepherds Island.

Objective

Increase national honey production

Means of Service Delivery

- Bee farmers trained in sustainable Bee production and health
- Bee farmers trained in post-harvest techniques
- Bee farmers trained in Agri business
- Reporting on all farmers assisted including name, location, size of farm, sex, age, special needs
- Survey for potential Bee production areas

Sub Program 72C Commercial Timber Tree Development - MAB

Sub Program 72C Budget: VT28,838,084

The priority focus of this sub program is to ensure funds are well utilized to address the high demand of local timber in Vanuatu. The development and utilisation of local timber production in Vanuatu is essential with special focus in the Vanuatu's Premium timber species throughout the six provinces to sustain the local timber industry. This will include utilisation of local supply plantations and the industrial Forest plantations of Cordia, Pine and mix timber tree species. The development of a sustainable management plan in replanting and utilising these local timbers will be the core aspect of this development program where criteria's will be developed and support is provided to key lead farmers to upscale the business development of woodlots and plantations throughout Vanuatu focusing on specific islands to address the timber industry needs. This program will focus on certain large-scale farmers and timber producers in ensuring they comply with good

management practices required along the timber production value chain from Planting to Utilisation and marketing.

The government needs to provide strong support to strong dedicated farmers and loggers in order to build this industry. Thus, a sufficient forest management services will need to be increased and improved, technical and financial support to the sector will have to be increased.

Objectives

Improved Sustainable Commercial Timber Tree production for Income Generation

Means of Service Delivery

- Support key farmers to increase the sustainable production of Commercial Timber Trees
- Support primary processors of Commercial Timber Tree
- Increase farming as a business skills of Commercial Timber Tree farmers
- Improve Market access Knowledge of Commercial Timber Tree farmers

Sub program 72L Non-Timber Forest Product Development - MAB

Sub Program 72L Budget: VT 7,000,000

Vanuatu is a country which a high proportion of its population depends on Non-Timber Forest Product (NTFP) for their livelihood and income generation. People tend to focus on timber production as the only forest industry that generate income not realising the huge demand on the use of non-timber forest products and the consumption to sustain daily livelihood for social and economic purposes. The contributions from the NTFP commodities have contributed significantly to both the local and national economy however, it is not captured in the government administration such as the department of Forests. Pandanus being the most utilised NTFP commodity with fuel wood, NTFP oils such as Tamanu and Nangai and artifacts and handicraft tree species and fruit tree species are the priorities for this program.,

The NTFP commodities identified in this sub-program need to be supported through establishment of Commercial farms and Key farmers need to be provided the appropriate support for the NTFP commercial farms to operate as a business farm.

Therefore, to keep this industry running, the practices have to be sustainable, and that is why, the government through the Department of Forest need to prioritise this program and increase the support to promote this industry.

Objective

Improved Sustainable Non-Timber Forest Product production for Income Generation

Means of Service Delivery

- Support key farmers to increase the sustainable production of non-timber forest
- Support primary processors of non-timber forest products
- Increase farming as a business skills of non-timber forest product farmers
- Improve Market access Knowledge of non-timber forest product farmers

Sub program 72K Sandalwood Development - MAB

Sub Program 72K Budget: VT8,000,000

Sandalwood has been harvested and traded by landowners for centuries, recently, effort has been devoted to regenerating this important natural resource in Vanuatu. Recognising its important economic value, Vanuatu Government through the Department of Forests put Sandalwood among the five priority species. Currently, Government and private promotion of sandalwood planting has led to a rise in smallholder plantings and some large-scale plantations.

Sandalwood is an important export product that is highly valued in the international marketplace. Has boost Vanuatu work on increasing the volume and improves the quality of its sandalwood to remain

internationally competitive. Although this is encouraging, further new plantings are needed, and greater emphasis needs to be put on improving management practices (silviculture) to improve the quality of sandalwood and retain high-value, niche markets.

Vanuatu continues to appreciate that Sandalwood (*Santalwood austrocaledonicum*) is one of the most valuable commodities in Vanuatu. Sandalwood provides high-value, low-volume, non-perishable products that are in high demand on the international market.

Now that Wild-harvested sandalwood no longer form the basis of the Vanuatu sandalwood industry. It is important to join efforts for mass replanting programs in

Vanuatu. It requires active promotion of sandalwood planting by the Government and Private sector support to increasing sandalwood stock and making the sandalwood industry more sustainable.

Objectives

Improved Sustainable Sandalwood production for Income Generation

Means of Service Delivery

- Emphasize the adoption of sustainable cultivation practices and effective nursery management techniques to ensure a consistent supply of high- quality sandalwood.
- Promote Sustainable Harvesting Techniques: Advocate for sustainable harvesting techniques and woodlot management practices to safeguard sandalwood resources for future generations.
- Enhance Processing Capabilities: Invest in upgrading processing facilities and techniques to add value to sandalwood products and seize new market opportunities.
- Strengthen Market Access Initiatives: Foster collaborations and partnerships to enhance market access and capitalize on emerging market trends and demand for Vanuatu sandalwood products.

MABB – Increase in production of commodity crops VT91,100,000

Sub program 89B Cattle Development Program - MAB

Sub program budget: VT91,100,000

PROGRAM MAC: IMPROVE FOOD SECURITY

Program cost: 229,157,772

MACA – Improve food security VT138,677,772

Sub program 71D Strengthen Resilience in Agriculture - MAC

Sub Program 71D Budget: VT 10,000,000

Enhancing food security and agricultural resilience in Vanuatu through increased local food production, sustainable food systems, and improved disaster preparedness and recovery Improve national self-reliance in food production, boost local economies, and address the impacts of climate change, natural disasters, economic shocks and social disruption on the agricultural sector

Objectives

- Enhance agricultural resilience through a decentralized approach that fosters local production and promotes diversified, sustainable food systems.
- Strengthen the agricultural sector's capacity to prepare for, respond to, and recover from shocks and disasters, as well as address the impacts of climate change.
- Promote the development of Agri-tourism products and market access for local food systems.

Means of Service Delivery

- Development and implementation of resilience-focused plans and guidelines, including the FSAC SOP and the FEDDR concept.
- Coordination of food systems activities and mapping of nutrient-dense local foods.

- Promote food security and disaster resilience through agricultural food events in all sectors.
- Promotion of agri-tourism as a strategy for economic development and local food promotion.
- Strengthened monitoring, evaluation, and compliance reporting to track impact and progress

Sub program 47I Fruits Development - MAC

Sub Program 47I Budget: VT 11,500,000

Fruits are nutritionally dense crops that contribute significantly to food security and offer income-generating opportunities for rural communities. The 2026 program will prioritize the sustainable expansion of fruit production, including a diverse range of native species on Santo and Efate. Where relevant, the initiative will also support all aspects of specific fruit value chain encouraging primary processing and enhance market access knowledge to ensure consistent supply to both existing and emerging markets.

Objectives

Enhance Vanuatu food security through local fruit production

Means of Service Delivery

- Support and provide awareness to key farmers to increase and maintain the sustainable production of Fruits
- Support primary processors of Fruits
- Increase farming as a business skills of Fruits farmers
- Improve Market access Knowledge of farmers growing Fruits
- Improve and increase availability and access to local produce

Sub program 47M Root Crops Development - MAC

Sub Program 47M Budget: VT 12,500,000

Root crops play a crucial role in Vanuatu's food system, highly regarded in traditional ceremonies, serving as staple food and contributing significantly to national food security. Their resilience to natural disasters such as cyclones, make them a reliable source of nutrition in times of crisis. This sub-program will focus on Efate and Ambrym with the aim to promote sustainable semi-commercial and commercial root crop production, strengthen primary processing, and enhance market access knowledge to support the delivery of quality root crop to both existing and emerging markets.

Objectives

Enhance Vanuatu food security through local Root Crops production

Means of Service Delivery

- Support and provide awareness to key farmers to increase and maintain the sustainable production of Root Crops
- Support primary processors of Root Crops
- Increase farming as a business skills of Root Crops farmers
- Improve Market access knowledge of Root Crops farmers
- Improve and increase availability and access to local produce

Sub program 47N Vegetables Development- MAC**Sub Program 47N Budget: VT 10,000,000**

The emphasis on Vegetable development is a crucial food supplement contributing to nutritional food security in Vanuatu and supporting income generation for growers engaged in market-orientated production. The sub-program will be promoted nation- wide with aim focusing on sustainable semi-commercial and commercial vegetable cultivation, facilitate primary processing where possible, and enhance market access knowledge to promote reliable supply of quality vegetables for both existing and emerging markets.

Objectives

Enhance Vanuatu food security through local Vegetables production

Means of Service Delivery

- Support and provide awareness to key farmers to increase and maintain the sustainable production of Vegetables
- Support primary processors of Vegetables
- Increase farming as a business skills of Vegetables farmers
- Improve Market access knowledge of Vegetables farmers

Sub program 47P Aelan Kakae Promotion - MAC**Sub Program 47P Budget: VT 8,500,000**

The “Aelan Kakae” promotion is an initiative designed to strengthen food security and promote healthy dietary practices, while championing the “grow local, buy local, eat local” approach. In 2026, the DARD will promote *Aelan Kakae* through community events and school-based programs, with an emphasis on enhancing the availability and accessibility of locally produced food.

Objectives

Promote food security, healthy eating, and the “grow local, buy and eat local” concept

Means of Service Delivery

- Promote the “*Aelan Kakae*” concept at events, institutions and households.

Sub program 89C Small Ruminant Development - MAC

Sub Program 89C Budget: VT 12,800,000

The small ruminant development program is vital because of its symbiotic relationship to cattle development. Further development of this program will provide beef surrogates available to the consumer that may provide some measure of relief on the demand and subsequently the price for beef locally. The small ruminant program is foreseen also as a means of food security, as it allows for the small farmers with limited land space to engage in integrated farming, envisaging more economical use of land by the average farmer.

The main focus for small ruminant in 2026 will be on 3 islands that have the capacity for small ruminant development. These islands are: - Ambrym, Malo and Shepherd islands.

Objective

Increase of small-ruminant herd for quality meat production in Vanuatu

Means of Service Delivery

- Small Ruminant farmers trained in sustainable Small Ruminant production and animal health
- Small Ruminant farmers supported with equipment for primary production
- Small Ruminant farmers supported with improved breeds
- Small Ruminant farmers trained in integrated farming systems

Sub program 89J Poultry Development - MAC

Sub Program 89J Budget: VT 58,377,772

Raising poultry offers numerous benefits, including providing food, creating economic opportunities, and contributing to a more sustainable agricultural system. Poultry, particularly chickens, are a

significant source of protein and essential nutrients through meat and eggs. They also play a role in local economies by providing jobs and supporting businesses. Additionally, poultry can be a natural pest control method and produce valuable fertilizer.

The main focus for Poultry development in 2026 will be on 8 islands that have the capacity for poultry development. These islands are: - Loh, Vanualava, Paama, Santo, Pentecost, Efate, shepherd's Island and Aneityum.

Objective

Increase poultry production for quality meat production in Vanuatu

Means of Service Delivery

- Poultry farmers trained in sustainable Poultry production and animal health
- Poultry farmers supported with equipment for primary production
- Poultry farmers supported with improved breeds
- Poultry farmers trained in integrated farming systems
- Poultry farmers trained in ante mortem techniques
- Survey of potential poultry production areas identified
- Standard Husbandry practices reviewed and updated

Sub program 89K Pig Development - MAC

Sub Program 89K Budget: VT 10,000,000

Raising pig's offers several benefits, including being a source of meat, converting inedible food into valuable resources, and contributing to soil regeneration. They can also be used for various purposes beyond food, such as in medical research, and offer economic opportunities for homesteaders through income diversification.

The main focus for Pig development in 2026 will be on 3 islands that have the capacity for Pig development. These islands are: - Malekula, Santo Ambae and Ambrym.

Objective

Increase pig production for quality meat production in Vanuatu

Means of Service Delivery

- Pig farmers trained in sustainable Pig production and animal health
- Pig farmers supported with equipment for primary production
- Pig farmers trained in ante mortem techniques
- Pig farmers trained in Agri business
- Survey of potential pig production areas identified
- Introduce and promote resilient breeds through genetics and breeding programs

Sub program 89P Local Food Promotion - MAC**Sub Program 89P Budget: VT 5,000,000**

Local food is vital for a thriving Vanuatu and a sustainable future, promoting a wealthy and healthy Vanuatu. It boosts the local economy, supports local farmers, provides fresh and more nutritious food, while reducing the environmental impact of food transport.

Objective

Increase the quantity and quality of local food products in Vanuatu through the 72 area councils.

Means of Service Delivery

- Events Supported
- Reports of promotional activities
- Institutions receiving support with Farm to institution program
- Reports Identifying areas to promote livestock for nutritional requirements
- New livestock farmers in designated areas

MACD – Improve food security SANMA - VT90,480,000

Sub program 47C Coconut program - MAC

Sub program 47C budget: VT90,480,000

PROGRAM MAD: IMPROVE QUALITY AND SAFETY OF AGRICULTURE PRODUCTS**Program cost: 111,856,289****MADA – Improve quality and safety of agriculture products VT109,388,619**

Sub program 71F CODEX - MAD

Sub Program 71F Budget: VT 6,200,000

Objectives

To enhance work of food safety in Vanuatu and protect human health.

Means of Service Delivery

- To Develop food codes, guideline and standards that promote fair trade and protect the health of consumers
- To increase knowledge of international and regional CODEX developments

Performance Measurement

Description	Service Delivery	2026 Target
Governance	Develop National food safety commodity standards for local food exports and domestic market (translate international standards to national standards)	2
Improve Market Access Knowledge	Number of reports on international meetings attended	1

Sub program 47Q Product Standards - MAD

Sub Program 47Q Budget: VT 2,000,000

This activity focuses on enhancing the safety, quality, and protection of agricultural produce and products to ensure they meet recognized standards and certification requirements for both local and export markets.

Objectives

- Product quality developed to recognised standards; and
- Facilitate assistance in testing and organic certification

Means of Service Delivery

- Set up service agreement with private sector for organic certification and training
- Improve product quality to meet Organic standards

Performance Measurement

Description	Service Delivery	2026 Target	T O R B A	S A N M A	P E N A M A	M A L A M P A	S H E F A	T A F E A

Monitoring & Evaluation	Reporting on all crop farmers assisted including name, location, size of business, sex, age, special needs	1						

Sub program 89Q Product standards – MAD**Sub Program 89Q Budget: VT 2,000,000**

Product standards are crucial for ensuring safety, quality, and reliability of products, ultimately benefiting consumers, businesses, and governments. They facilitate trade, protect public health and the environment, and promote fair competition. Standards also help businesses improve their systems, processes, and overall efficiency, leading to cost reductions and increased customer satisfaction.

Objective

1. To help farmers improve their farming systems and to ensure safety, quality, and reliability of products.

Means of Service Delivery

- Number of service agreements
- Reporting on all livestock farmers assisted including name, location, size of business, sex, age, special needs

Performance Measurement

Sub program 72Q Product Development - MAD**Sub Program 72Q Budget: VT 1,980,000**

This sub program focusses not only on growing the sector but growing the right product that meet the market requirements. This means that development start from improved nursery management, plantation management and product development standard.

In addition, the government must look to invest in Value Addition and Product Diversification: Allocate resources towards initiatives aimed at enhancing value addition and product diversification to unlock new revenue streams and increase the sector's resilience.

Foster Collaboration Across the Value Chain: Encourage collaboration and knowledge- sharing among stakeholders across the value chain to drive innovation, improve efficiency, and foster sustainable growth.

Objective

- Develop a Sustainable Forest Management certification for Vanuatu

Means of Service Delivery

Research the potential for Sustainable Forest management certification in Vanuatu

Performance Measurement

Sub Program 49F Plant Health – MAD

Sub Program 49F Budget: VT 56,035,500

The Plant Health section is primarily responsible for diagnosing and managing plant pests and diseases across Vanuatu. Key priorities include updating the national emergency response plan to address emerging threats, developing a comprehensive pesticide operational procedures manual, providing targeted training to stakeholders on the identification and management of plant pests and diseases.

While the allocated budget for this sub-program allows for limited progress on these activities, the scale and urgency of the Coconut Rhinoceros Beetle (CRB) infestation demands significantly more resources. CRB poses a serious threat to the nation's coconut industry and food security, requiring a coordinated and sustained response involving biological control, surveillance, and community engagement.

To effectively support the ongoing containment and management of CRB, the New Policy Proposal (NPP) requests additional funding under this sub-program. The requested support is essential to scale up interventions and safeguard the livelihoods, environment, and economy that depend on coconut production in Vanuatu.

Objectives

- Conduct targeted surveillance of priority plant pest and disease in Vanuatu
- Update and maintain Vanuatu's national pest list database
- Strengthen the pesticide registration process
- Monitor and assess crop health through regular surveillance activities
- Effectively contain and manage the coconut rhinoceros beetle

Means of Service Delivery

- Identification and diagnostic services of plant pests and diseases
- Management and coordination of response activities to pest and disease outbreaks
- Administration and oversight of pesticide registration
- Training and outreach on plant pest and disease recognition
- Ongoing crop monitoring and surveillance

Sub Program 49G Border Control - MAD

Sub Program 49G Budget: VT 32,286,415

Effective and efficient import and export clearance is a core function of border control management, aimed at minimizing the risk of introducing exotic pests and diseases. This section also conducts post-border surveillance to ensure quarantine measures are fully implemented and biosecurity compliance is maintained.

Objectives

- Facilitate safe and secure trade while mitigating biosecurity risks
- Strengthen biosecurity operations at all ports of entry
- Ensure compliance with biosecurity regulations beyond point of entry (post- border)
- Regularly assess and improve quarantine procedures and border control protocols

Means of Service Delivery

- Timely and effective import clearance processes
- Efficient export clearance to meet international standards
- Implement post-border surveillance and follow-up
- Enforcement and monitoring of quarantine measures

Sub program 49I Animal Health
Sub Program 49I Budget: VT 6,419,034

The Animal Health Program is focused on safeguarding Vanuatu's beef export status by preventing the introduction and spread of exotic animal diseases. This is achieved through comprehensive animal pest and disease identification, effective health response management, timely disease detection, and continuous surveillance, monitoring, and evaluation.

Objectives

- Strengthen animal health response capacity
- Improve the early recognition and detection of animal diseases
- Enhance the management of animal health interventions
- Monitor and evaluate the effectiveness of animal health programs

Means of Service Delivery

- Identification of animal pest and disease
- Implementation of animal health response protocols
- Training in animal disease recognition
- Ongoing disease surveillance activities
- Systemic monitoring and evaluation of program outcomes

Sub program 49J Food Safety
Sub Program 49J Budget: VT 2,467,670

The Food safety program is a critical component of Vanuatu's public health and biosecurity framework. It aims to ensure that meat products consumed domestically and exported meet high hygiene and safety standards. This is achieved by strengthening meat inspection systems, enhancing disease detection at slaughter facilities, and ensuring compliance with national food safety regulations, including the Meat Industry Act and Regulations, and international trade requirements.

Objectives

- Improve hygiene standards and compliance in abattoirs, butcheries and meat processing facilities
- Strengthen ante-mortem and post-mortem inspection procedures to detect and prevent the spread of zoonotic animal diseases
- Enhance reporting systems for suspected animal health and food safety risks
- Improve food safety incident response and risk mitigation capabilities
- Monitor and evaluate the performance and impact of meat inspection and food safety programs
- Promote public awareness on safe meat handling, processing, and consumption practices

Means of Service Delivery

- Systemic identification of animal pest and disease
- Effective animal health response protocols at slaughter points and supply chain
- Robust ante-mortem and post-mortem inspection processes conducted by trained inspectors
- Timely response to food safety risk through coordinated management actions
- Routine and random inspection of meat at production, processing, and retail points
- Continuous monitoring and evaluation of hygiene compliance and inspection effectiveness
- Capacity building through training of inspectors, butchers, and abattoir staff on food safety standards
- Development and dissemination of guidelines and SOPs for meat hygiene and food safety
- Collaboration with the Department of Health and Municipal Authority to enforce meat safety regulations

MAEA – Sustainable management of natural resources

VT12,500,000

Sub program 72H Forest Conservation and Protection - MAE**Sub Program 72H Budget: VT 6,000,000**

Forest Conservation and protection is one of the priority components of Sustainable Forest Management. Therefore, it is crucial for the department to continue facilitating the management of forest and its ecosystem so it can sustainably support livelihood and wellbeing of the people of Vanuatu.

The forest conservation is vital in relation to

- The National Biodiversity Strategy and Action Plan (NBSAP, 2018-2030)
- The National Sustainable Development Plan (NSDP, also known as “The People’s Plan”, 2016-2030)
- The National Environment Policy and Implementation Plan (NEPIP, 2016-2030)
- The National Forest Policy (2013-2023), and
- The Climate Change Disaster Risk Reduction policy (CCDRR, 2016-2030)

In addition, it is a critical resource for meeting many of the international protocols and mandates to which Vanuatu is party, including:

- The U.N. Convention on Biological Diversity (CBD),
- The Nagoya Protocol on Access to Genetic Resources and Benefit Sharing (ABS), and
- The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES).

Objective

Forests with high biological, cultural, spiritual, and historical values are conserved and protected.

Means of Service Delivery

- Identification of forest health
- Establishment of Forest protected areas
- Conservation of existing native forests
- Increase the area of protected forests
- Monitor and evaluate forest conservation and protection activities

Sub program 72B Forest Landscape Restoration (FLR) - MAE

Sub Program 72B Budget: VT 6,500,000

Forest and Landscape Restoration is considered important nationally, but it is one of the major global agenda that has been on discussion. The Global Partnership on Forest and Landscape Restoration¹ (GPFLR) defines FLR as “an active process that brings people together to identify, negotiate and implement practices that restore an agreed optimal balance of the ecological, social and economic benefits of forests and trees within a broader pattern of land uses.”

Fortunately, Vanuatu has a National Forest and Landscape Restoration Strategy and besides the minimal budget provide the Department of Forests continue to consider it under its annual business plan.

The restoration interventions can turn barren or degraded areas of land into healthy, fertile, working landscapes where local communities, ecosystems and other stakeholders can cohabit, sustainably. To be successful, it needs to involve everyone with a stake in the landscape, to design the right solutions and build lasting relationships. FLR is not just about trees; the goal, in each case, is to revitalize the landscape so that it can meet the needs of people and the natural environment, sustainably.”

¹ GPFLR. 2013a. Assessing national potential for landscape restoration: A briefing note for decision-makers. Brochure. Washington, DC, USA

Objective

Increase the area of the restored forest landscape

Means of Service Delivery

- Restore degraded forest and degraded land through tree planting
- Improve the standard of living of rural communities and increase Government revenue from the forestry sector
- Use planted forests to alleviate the pressure on natural forests and to protect the services they provide
- Extend the area of Protected Forests
- Mitigate and adapt to the impacts of global climate change using forests

PROGRAM MAH: INSTITUTIONAL CAPACITY, POLICY, COMMUNICATION AND ADMIN

Program cost: 339,993,545

MAHA – Support institutional capacity, policy, communication and administration VT283,002,524

Sub program 71V Policy & Planning, Monitoring & Evaluation - MAH

Sub Program 71V Budget: VT 32,000,000

Ensuring strategic planning, robust policy development, and effective monitoring and evaluation (M&E) across the Ministry of Agriculture, Livestock, Forestry, Fisheries and Biosecurity (MALFFB). It supports evidence-based decision-making and enables accountability and transparency in delivering the Ministry's priorities under the 2026– 2030 Corporate Plan and National Sustainable Development Plan (NSDP).

Objectives

- Strengthen institutional capacity in planning, monitoring, reporting, and evaluation.
- Improve policy formulation and review processes.
- Promote effective governance, compliance, and legislative support.
- Develop and implement systems and frameworks for efficient project management, digital reporting, and data-driven results tracking.

Means of Service Delivery

- Preparation and review of key corporate documents (Corporate Plan, Annual Reports, Budget Narratives, Business Plans).
- Development of Standard Operating Procedures (SOPs) for planning, finance, procurement, M&E, compliance, and reporting.
- Coordination of stakeholder consultations, legislative reviews, and project evaluations.
- Introduction and scoping of digital platforms for streamlined reporting and knowledge management.

Sub Program 47V Policy & Planning, Monitoring & Evaluation (PPME) - MAH**Sub Program 47V Budget: VT 20,000,000**

This sub-program is responsible for coordinating the planning and reporting processes of the Department of Agriculture and Rural Development (DARD). It supports the development of DARD policies and strategies to ensure alignment with national government priorities.

Additionally, it oversees the coordination and management of projects and leads the evaluation of DARD's programs and policies.

A core function of the sub-program is to also provide guidance and support for the implementation of DARD's legislative framework, ensuring full compliance with all relevant laws and regulations.

Objective

- Regular reporting on planning, finance, procurement, performance indicators, and in compliance with internal and external standards
- Coordination of stakeholder consultations, legislative reviews, inter-agency planning meetings, and policy dialogues
- Oversight and evaluation of ongoing projects to ensure timely delivery, impact assessment, and informed decision making

Means of service delivery

- Prepare and review key corporate documents for DARD, including Budget Narratives, Business Plans, Quarterly Reports, Mid-Year Reports, and Annual Reports.
- Compile and submit DARD's Procurement and Finance Reports
- Develop, review, and update organizational policies and strategic frameworks.
- Support the creation and implementation of systems and frameworks that enhance efficient project management.
- Design and implement a legislative framework to ensure effective governance and regulatory compliance within DARD.

Sub program 89V Policy & Planning, Monitoring & Evaluation (PPME)- MAH
Sub Program 89V Budget: VT 4,500,000

Policy and planning are crucial for effective governance, organizational structure, and overall success. Policies provide guidance, consistency, and clarity, while planning helps organizations achieve their goals by setting directions and allocating resources. They ensure compliance with laws, streamline processes, and foster accountability.

Monitoring and Evaluation (M&E) is vital for organizations because it helps them track progress, assess effectiveness, and make informed decisions, ultimately leading to more efficient and impactful projects. By continuously monitoring project activities and evaluating results, organizations can identify successes, areas for improvement, and adjust their strategies to maximize their impact.

Objectives

Ensure that Livestock services are well coordinated and effectively implemented in all provinces.

Means of Service Delivery

- Annual Budget Narrative develop
- Annual Business Plan
- Annual Report
- Number of quarterly Finance reports
- Number of quarterly Procurement reports
- Number of new DOL strategies
- Number of DOL policies/strategies reviewed and reported on.
- Annual project reports
- Number of consultation/workshops with partners
- Number of compliance to Act(s) reports completed

Sub program 89X Asset management - MAH**Sub Program 89X Budget: VT 20,086,909**

Asset management is vital for organizations because it optimizes asset usage, enhances operational efficiency, and improves financial performance. It helps the department of Livestock manage its investments, extend asset lifespans, and mitigate risks related to asset failures or compliance issues.

Objective

To optimise asset usage, enhance operational efficiency, and improves financial performance

Means of Service Delivery

- Number of quarterly reports on asset registry
- Asset replacement plans developed
- Number of reports on Asset maintenance and replacement
- Asset development plans developed and updated
- Number of reports on assets

Sub program 72V Policy & Planning, Monitoring & Evaluation**Sub Program 72V Budget: VT 5,000,000**

This sub program includes generic Administration and coordination of policy and planning including monitoring and evaluation.

In order to implement the Annual Business Plan and to archive the overall MALFB Corporate Plan, relevant policies and strategies need to be developed. Additionally, as the department that has regulatory mandate towards the management of forest resources, it is crucial that all relevant legislation need to be up to date.

It is equally important that adequate resources be allocated towards, planning of activities, reporting of activities and to be able to monitor and evaluate progress.

Objectives

The objective of the sub program is to ensure that forestry:

- Policy is reviewed, updated, and implemented
- Relevant forestry legislations are updated and implemented
- Program activities are well planned and implemented
- Program activities are monitored and evaluated

Means of Service Delivery

- Preparation, review and dissemination of key DOF documents including: Budget Narrative; Business Plan; quarterly, mid-year and annual reports.
- Compile and submit DOF's procurement and finance reports
- Develop, review and update DOF's policies and strategies
- Management of DOF's project
- Design and implement legislation to ensure the effective governance and regulatory compliance within DO

Sub program 72U Capacity Building

Sub Program 72U Budget: VT 10,000,000

A strong and effective capacity of any organization is strength and an advantage to be able to successfully deliver and implement its program activities.

This program covers the area of information, communication and Technology; this is to ensure that forestry department is better utilizing different information and communication technology to implement its program activities. Research & development is another program activity to ensure that result-based research can be utilized to improve forestry activities that are research and result based.

A strong human resource is also important; thus, capacity building remains an important program to build a strong human resource for the department of forests.

Objectives

- Communication and information technology is utilized
- Forestry work is research based
- Staff capacity is built

Means of Service Delivery

- Staff attend training and development opportunities to acquire the skills and knowledge required to execute DOF's sub programs effectively
- Staff have access to necessary resources including funding, equipment and technology
- Timely recruitment of staff

Performance Measurement

Sub program 72X Asset Management**Sub Program 72X Budget: VT 7,845,616**

A very important subprogram that ensure a well and proper management of forestry assets purchased by the public funds. This involves hardware assets, software assets and the balancing of costs, opportunities and risks against the desired performance of assets to achieve an organisation's objectives.

Objective

All forestry assets, including hardware assets and software assets are well maintained and managed.

Means of Service Delivery

- Asset registry maintained and updated
- Asset maintenance and replace plan
- Asset development plan

Sub program 49V Policy & Planning, Monitoring & Evaluation - MAH**Sub Program 49V Budget: VT 3,250,000**

This component plays a central role in ensuring that the Department of Biosecurity operates with strategic focus, sound policy frameworks, and a culture of accountability. It supports institutional performance by driving effective planning, policy formulation, governance, and compliance, while promoting transparency through structured monitoring and reporting processes.

Objectives

- Strengthen institutional capacity in strategic planning, performance monitoring and result-based reporting
- Improve formulation, implementation and periodic review biosecurity policies
- Support effective governance through improved compliance, regulatory oversight, and legislative development
- Efficient project and program management through consistent monitoring, evaluation, and adaptive learning
- Promote alignment of departmental activities with national development goals and international obligations

Means of service delivery

- Preparation, review, and dissemination of key departmental documents such as Annual Reports, Budget Narratives, Business Plans, and Monitoring & Evaluation (M&E) frameworks
- Regular reporting on planning, finance, procurement, performance indicators, and in compliance with internal and external standards

- Coordination of stakeholder consultations, legislative reviews, inter-agency planning meetings, and policy dialogues
- Oversight and evaluation of ongoing projects to ensure timely delivery, impact assessment, and informed decision making
- Capacity building of staff in policy development, result-based management, and compliance systems

Sub program 49U Capacity building - MAH

Sub Program 49U Budget: VT 3,400,000

The success of the Department of Biosecurity's programs depends on the capacity and readiness of its workforce. Ensuring that staff have the appropriate skills, knowledge and resources is essential for the effective delivery of all sub-programs. This component focuses on strengthening institutional capacity through targeted training, resource provision, and strategic recruitment.

Under this sub-program, an NPP submission was made to request additional funds to cover severance payments. Three staff members are scheduled to retire next year, and the additional funding is required to meet their severance entitlements in line with employment regulations and financial obligations.

Objectives

- Ensure that staff across the Ministry possess the necessary skills, technical knowledge, and tools to carry out their duties effectively
- Support professional development and continuous learning to keep pace with evolving biosecurity challenges
- Strengthen workforce capacity through timely recruitment and retention of qualified personnel
- Promote a high-performing, well-supported, and motivated workforce

Means of Service Delivery

- Facilitation of ongoing trainings, workshops, and technical development programs tailored to operational needs
- Provision of essential resources including equipment, technology, transport, and funding to support field and office activities
- Timely recruitment of staff with required competencies and qualifications to fill critical gaps
- Development of staff performance management system to support growth and accountability
- Establishment of partnerships with regional and international institutions to access technical assistance and knowledge sharing opportunities

Sub program 49X Asset Management - MAH
Sub Program 49X Budget: VT 8,560,000

Effective service delivery relies on the availability and reliability of well-maintained offices, equipment, and operational facilities. This sub-program ensures that the Department of Biosecurity's physical and technical assets are regularly serviced, upgraded and managed to support safety, functionality, and long-term value.

Under this sub-program, additional funding support is being requested through NPP submissions for implementation in 2026. These funds are critical to ensure that necessary equipment and infrastructure are available to strengthen service delivery and maintain robust border control measures, including ongoing surveillance, monitoring, and rapid response to emerging biosecurity threats.

Objectives

- Ensure that all assets under the Department of Biosecurity are properly maintained, functional, and compliant with safety standards
- Upgrade and replace outdated or non-functional assets to support operational efficiency
- Strengthen infrastructure to meet current and future program delivery needs

Means of Service Delivery

- Maintain and regularly update a comprehensive Asset Registry for all departmental infrastructure, equipment, and vehicles
- Develop and implement a structured Asset Maintenance and Replacement Plan to ensure timely repairs and upgrades
- Establish an Asset Development Plan aligned with program growth, service demands, and emerging technology
- Conduct regular asset condition assessments and audits to inform maintenance priorities
- Allocate dedicated budget and resources for ongoing infrastructure support and improvements

MINISTRY OF TOURISM, TRADE, COMMERCE AND NI- VANUATU BUSINESS

Introduction

Ministry Cost **1,262,829,336**

Cash Grant & Aid in Kind: 0

Introduction

The MTC plays a significant role as a government institution to provide services to its clients and citizens of this nation at large in creating investment and job opportunities, improve individual wealth, increase GDP, promote innovation, create business ventures and increase fiscal revenues (direct and Indirect) to enable the government of the day to sustain its “service delivery” function to the people of Vanuatu.

The current Ministry Corporate Plan was developed jointly with the Vanuatu Trade Ready Program, the Trade Policy Framework Update and in alignment with the Overarching Productive Sector Policy Update and the National Sustainable Development Plan 2016-2030. The formulation of the MTC Corporate Plan 2020-2022 provides a guided roadmap to achieve economic prosperity and self-reliance for Vanuatu.

The Ministerial structure consists of a:

1. Ministerial Cabinet,
2. Corporate Services Unit

The Departmental structure involves three Departments:

1. The Department of Industry (DOI);
2. The Department of Tourism (DOT); and
3. The Office of the Registrar of Cooperative and Business Development Services (ORCBDS).

Statutory Bodies, established by way of legislations and regulations/order passed by Parliament, include:

1. The Vanuatu Foreign Investment Promotion Agency (VFIPA);
2. The Vanuatu Chamber of Commerce and Industry (VCCI);
3. The Vanuatu Tourism Office (VTO);
4. The Vanuatu Bureau of Standards (VBS); and
5. The Vanuatu Intellectual Property Office (VanIPO).

The MTC saw its operational budget steadily increase since 2014. This is mostly due to the successful implementation of the Trade Mainstreaming Agenda, which encompasses the following three pillars:

1. The Policy Pillar;
2. The Institutional Pillar; and
3. The Cooperation Pillar.

Furthermore, the MTC is fully engaged with the Society Pillar, the Environment Pillar and the Economy Pillar that the NSDP stands on. These pillars are seen to be driving the local economy.

Linkages with the MALFB

The MALFFB, through the work of the Departments of Agriculture, Livestock, and Biosecurity, are expected to have the following high-level outcomes:

- Increased production of products (including off-season)
- Increased quality of the products (including consistency)

- Improved safety of the chosen products
- Improved market access capabilities
- Enhanced trade and commerce logistics solutions both for domestic and international trade ventures

However, much of this work from the MALFB will be unsuccessful, if the MTC cannot improve the remainder of existing and performing value chains. Currently, many farmers choose to limit their engagement in commercial farming, as the opportunities to sell their goods – either in raw form or value added – simply does not exist. Unless these fundamental incentives are transformed, any proposed commitment will be a failure. The MTC shall attempt to remedy this, as previously outlined.

As such, the MTC will link in with programmed MALFB interventions through the following routes:

- Support to the Cooperatives' sector of Vanuatu, through the re-establishment and operationalization of the VCBN, which is designed to be the apex co-operative for the whole country. Developing the capacity of this organization should help to support many cooperatives, of which there are currently 324, to have better access to markets. VCBN's improved capacity will allow them to better coordinate their work with farmers and MALFB – particularly around what products to plant, when to plant them, what to do with them, what prices to expect, etc. Whilst we must be careful to not overstate the impact or the reach the VCBN will have, it is hoped that by the term of the MTC Corporate Plan the VCBN will be consistently present across much of the nation, as an indicator for improvement.
- Improved capacity of the VBS will help increase overall product quality, which will enable potential increase in prices, which firms can set, as well as opening up new markets. This is again expected to be a nationwide benefit.
- Similarly, support to other Private Sector Intermediary Organizations and Government Agencies is expected to bring further industrial synergies and result in overall improved nationwide benefits.

PROGRAM MTA: CABINET SUPPORT

Program Cost ***78,790,410***

Objectives

- To better position the Ministry in the Government Line-up;
2. To increase political ownership of policy directives and development;
 3. To improve economic results for the domestic and regional trade and commerce sector;
 4. To enhance business environment;
 5. To sustain economic growth for Vanuatu
 6. To provide strong Political Leadership in all aspects of Portfolios allocated to MTC

Means of service Delivery

- Provide Political Vision, coordination and facilitation focusing on investment, tourism development, business development, commerce, trade, industries, price monitoring, consumer protection, competition, manufacturing, value-addition, product innovation, research and development, economic diversification, job creation, improve living standard, fostered economic growth focused on expanding public revenue base, market access, trade facilitation, standards and qualification.
- Oversee the development and endorsement of policy and regulatory framework to ensure rapid implementation in compliance with the Government policy priorities.
- Provide clear political direction to maintain and improve effective and efficient service delivery to all levels of government and society in line with The People's Plan
- Oversee COM submissions to be prepared by MTTCVNB and agencies

- Participate in COM Meetings
- Represent the Ministry during high-level events and official tours

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
COM papers for all agencies are developed, finalized and submitted to the DCO	100	Percentage
A database of sectoral policies is developed for Improved functional implementation	1	Operational Manuel
MTC programmes implementation are adequately coordinated and supported by the cabinet	100	Percentage
All Ministerial domestic and overseas trips are well coordinated	100	Percentage

The Minister's appointments are properly managed	24	Report
All line Agencies adequately Human and Financially Resourced	100	Percentage
All Ministerial Priorities are implemented	100	Percentage

Activity MTAA: Portfolio Coordination

Activity Cost **78,790,410**

Objectives

The objectives of this Program Activity are:

1. To better position the Ministry in the Government Line-up
2. To increase political ownership of policy directives and development
3. To improve economic results for domestic, regional and international trade and commerce
4. To enhance business environment
5. To sustain economic growth for Vanuatu
6. To provide strong Political Leadership in all aspects of Portfolios allocated to MTTICN

Means of Service Delivery

- a) Provide Political Vision, coordination and facilitation focusing on investment, tourism development, business development, commerce, trade, industries, price monitoring, consumer protection, competition, manufacturing, value-addition, product innovation, research and development, economic diversification, job creation, improve living standard, fostered economic growth focused on expanding expanding public revenue base, market access, trade facilitation, standards and qualification.
- b) Oversee the development and endorsement of policy and regulatory framework to ensure rabid implementation in compliance with the Government policy priorities.
- c) Provide clear political direction to maintain and improve effective and efficient service delivery to tall levels of government and society in line with The People's Plan
- d) Oversee COM submissions to be prepared by MTTCVNB and agencies
- e) Participate in COM Meetings

f) Represent the Ministry during high-level events and official tours

PROGRAM MTB: EXECUTIVE MANAGEMENT AND CORPORATE SERVICES

Program Cost 174,972,630

Cash Grant & Aid in 0

Kind

Objectives

1. Establishment of the MTC organizational framework
2. Manage MTC agency Expectations
3. Manage Partner Expectations with Stakeholders (include other Ministries)
4. Provide administrative and technical support to cabinet
5. Effective management of the Corporate and Administration team
6. Facilitate and ensure that statutory Bodies prepare and implement a staff Manuel for their organization and their respective legislation
7. Facilitate the creation and operation of Manual of internal procedures and processes (MIPP) for all agencies under the Ministry
8. Be the secretariat for the Executive Meetings

Means of Service delivery

- Facilitate the establishment of policies directions under the MTC Institutional Reform
- Establishment of new MTC organization structure under the MTC Institutional Reform
- Approval and establishment of a new MTC complex

- Attend to DCO meetings
- Facilitate the implementation of Council of Ministers (COM) decisions
- Establishment of annual Director's retreat
- Facilitate and coordinate the submissions of all NPPs for the ministry to MBC
- Approval of agreements with stakeholders
- Coordinate and facilitate the establishment of a Staff Manual for all statutory Bodies
- Coordinate the establishment of a MIPP
- Organize Periodic MTC Executive meetings
- Organize periodic CSU Managers/Executive Meetings
- Provide secretarial role to the Executive meetings
- Completion of Staff Performance Assessment

Performance Measurement (Service Targets) (KPI)

Description (KPI)	Quantity	Unit of Measure
Number of policies established by the MTC Institutional Reform	3	Policy document
MTC Organizational Structure approved by COM	1	MTC Organizational Structure
Preparation of COM paper and concept design for new MTC complex	1	COM paper
Number of MTC COM papers approved	100	Percent
Director's retreat Organized	1	Meeting
Number of NPPs submitted	100	Percent
Number of approved stakeholders MOU/FOCs signed	1	MOU/FOC

Number of CSU Managers/Executive Weekly Meetings Completed	20	Meetings
Number of minutes circulated	12	Minutes

Number of tour reports submitted to DG	3	Reports
Number of TORs completed	2	TORs

Activity MTBA: Executive Management

Activity Cost **60,659,778**

Objectives

1. Establishment and operationalizing the MTC
2. Manage MTC agency Expectations
3. Manage Partner Expectations with Stakeholders (include other Ministries)
4. Provide administrative and technical support to cabinet
5. Effective management of the Corporate and Administration team
6. Facilitate and ensure that statutory Bodies prepare and implement a staff Manual for their organization and their respective legislation
7. Facilitate the creation and operation of Manual of internal procedures and processes (MIPP) for all agencies under the Ministry
8. Be the secretariat for the Executive Meetings

Means of Service Delivery

- Implement the MTC Institutional reform by establishing new policy directives
- Implement the MTC Institutional Reform by establishing new agencies
- Approval and establishment of a new MTC complex
- Facilitate Council of Ministers' submissions
- Establishment of annual Director's retreat
- Facilitate and coordinate the submissions of all NPPs for the ministry to MBC
- Approval of agreements with stakeholders
- Coordinate the establishments of CSU Quarterly & Annual Reports
- Coordinate and facilitate the establishment of a Staff Manual for all statutory Bodies
- Coordinate the establishment of a MIPP
- Organize Periodical Senior Executive Meetings
- Provide secretariat role to Executive Meetings
- Provide Executive Secretarial services to the Office of the Director General
- Provide administrative and logistical support to Ministry's events' organization
- Provide performance appraisals for staffs under Executive Management

Performance Measurement (Service Targets)

Description (KPI)	Quantity	Unit of Measure
Number of policies established by the MTC Institutional Reform	3	Policy document
Number of agencies established by the MTC Institutional Reform	1	Department of commerce
Number of agencies Staffing structures approved by PSC	1	Staffing structure
Preparation of COM paper and concept design for new MTC complex	1	COM paper

Number of minutes circulated	12	Minutes
Number of tour reports submitted to DG	3	Reports
Number of CSU staff appraisals completed	5	Appraisals

Activity MTBE: CSU Policy and Planning**Activity Cost** **54,407,329****Objectives**

1. Effective management of the Policy Planning and Coordination team
2. Coordinate the establishment of policies/plans for all agencies under MTC
3. Regular monitoring exercise is carried out to update on the implementation of agencies annual plans
4. Conducting M&E on MTC Aid/Donor funded Projects in collaboration with the VAMU team and DSPPAC
5. Establishing an Internal Evaluation report after the implementation of agency programs and activities
6. Facilitate the undertaking of internal analysis and audits on the operations agencies and their implemented activities
7. Provide a supervisory role in coordinating and facilitating the formulation of reports e Ministry
8. Formulation and dissemination of reports
9. To improve alignment amongst policy objectives and programmed activities programmed activities;
10. To improve planning and reporting quality
11. To improve policy coordination and alignment particularly with the TPF and the NSDP;

12. To improve programmatic implementation activities;
13. To increase visibility in the policy formulation and implementation landscape;

Means of Service Delivery

- Formulation of CSU Business Plan for the current year
- Formulation of CSU Annual Report for the previous year
- Formulate Annual Work Plans for PPC
- Ensure agencies produce their Annual Work Plans for the current period
- Formulation of the MTC consolidate corporate Business Plan for current year
- Formulation of MTC consolidate corporate Annual Report for previous year
- Provide in-house training to PPC staff
- Conduct staff appraisals for PPC staff
- Establishment of PPC quarterly reports
- Develop MTC's Corporate Plans in alignment with the Ministry's institutional policy, regulatory and legal context
- Support line agencies to produce their plans and reports
- Ensure timely submission of MTC Corporate Business Plan to PSC
- Ensure timely submission of MTC Corporate Annual Report for the previous year to parliament
- Ensure that the NSDP programs are aligned to agency Business Plans
- Provide ADR six-monthly reports to DSPPAC
- Provide support services to agencies in the formulation of their respective policies, strategies and programmes
- Ensure full alignment and compliance of policies, strategies, plans and programmes with overarching sectoral policies and the NSDP
- Conduct fortnightly Monitoring of the implementation of the TPF, Government approved policies, plans and strategies in compliance with the Government M&E Framework
- Evaluate the completion of implemented activities under the TPF, Government approved policies, plans and strategies in compliance with the Government M&E Framework
- Establishment of Annual Audits based on agencies operations of the previous periods/year.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
MTC M&E Framework under implementation	100%	
M&E Officers recruited for DOI, ORCBDS, DOT and VBS		

Planning cycle abided to	100%	
MTC Corporate Plan reviewed and updated		
MTC Quarterly Operational Reports submitted		
MTC Semi-annual Report submitted		
MTC Annual Report submitted		
MTC Consolidated Business Plan submitted		
Policy alignment and coordination support provided	100%	
Policy monitored	100%	
Policy Evaluated	100%	

Activity MTBF: CSU Human Resources Management

Activity Cost 44,123,592

Objectives

1. Effective management of the CSU Human Resource Team
2. Strengthening work relationship with OPSC
3. Facilitate to effectively make plans to strengthen the role of HR in the MTC
4. Facilitate recruitment of prioritized positions of agencies organizational structures
5. Coordination of staff performance in the MTC and the assessment to OPSC
6. Proper advice in disciplinary matter

Means of Service Delivery

Facilitate recruitments

Formulation of the AWP

Facilitate the establishment of quarterly and annual report

Completion of HR staff appraisals

Attend to monthly meetings with HR networks

Establishment and implementation of HRD Plan

Structure reviewed with the inputs of concerned line agencies

JDs reviewed upon capacity needs assessment completion

Ensure that all agencies in the MTC produce and submit to DG's office a succession plan

Facilitation of induction workshop for all new staff employed

Capacity building needs undertaken with the assistance of Directors, CEO and GMs;

Provide HR services to strengthen the human resources in the MTC provincial head quarters

Ensure to establish an approved procedure guideline to facilitate the disciplinary process through to PSC

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Number of staff recruitments	100	Percentage
Formulation of AWP	1	Plan
Quarterly and annual report submitted	5	Reports

Staff appraisal performed according to SA cycle	100	Percentage
Number of meetings attended	12	Meetings
HRD plan established and operational	100	Percentage
Number of agencies staffing structures reviewed	7	staffing structures
Number of JDs reviewed	100	Percentage
MTC succession plan established	1	Succession plan
Number of induction workshop	2	Workshop
Capacity building plan established and operational	1	Plan
Number of provincial visits undertaken	5	Provincial visit
Procedure guideline established and operational	1	Guideline

Activity MTBG: CSU Finance, Procurement and Assets Management

Activity Cost 15,781,931

Objectives

1. Providing a supervisory role to staff in the CSU Finance team
2. MTC CSU & agencies budget preparation each year
3. Managing the disbursement of government funds
4. Collection and recording of recurrent revenue by all MTC agencies according to Financial Regulations
5. Establishment of an Asset Registry
6. Financial reporting of spending against the allocation of budget within the MTC

Means of Service Delivery

Formulation of Finance Management AWP

Facilitate the establishment of corporate and admin quarterly and annual report

Completion of Finance staff appraisals

Ensure budget preparation and formulation are initiated and completed within the given timeframes

Ensure to hold regular meetings with Finance Officers of all agencies

Ensure that budget allocated to the Ministry and its agencies is utilized in accordance with the law and relevant regulations

Develop and submit annual procurement plans to the Office of the Director General MTC and the Office of the Director General MFEM, as well as the Central Tenders Board Secretariat

Undertake annual visits to provincial offices to monitor assets, revenue and procurement services

Analyse to ensure that budgeted revenues are collected as planned

Develop and update the Ministry's assets management registry

Facilitation of assets' valuation

Provide regular update reports to the Director General and the Senior Executive Management of the Ministry on budget and financial status of the Ministry and its agencies

Produce and submit annual procurement reports

Produce assets reports to the Public Service Commission, the Ministry of Infrastructure and Public Utilities, and the Assets Management Unit of the MFEM

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Finance Management AWP established	1	AWP
Quarterly and annual report completed	5	Reports
Staff appraisal performed according to SA cycle	100	Percentage
Budget and supplementary appropriation duly formulated and submitted	1	Budget & Supplementary Appropriation submitted
Fleet guidelines and management plan designed and enforced	1	Guidelines and Plan
Ministry's Assets Management Ministry developed and maintained	1	Registry
Full assets valuation	15	Percentage
Assets Report produced and submitted to PSC	1	Report

PROGRAM MTC: AID-FOR-TRADE COORDINATION

Program Cost 284,255,265

The Vanuatu Aid for Trade Management Unit (VAMU) sits within the Office of the Director General, and is responsible for promoting the trade mainstreaming agenda within Vanuatu.

Established in 2012 under the Ministry of Tourism, Trade, Commerce, and Ni-Vanuatu Business (MTTCNVB), VAMU is tasked with promoting Vanuatu's trade mainstreaming agenda. The unit operates through three main pillars:

Policy Pillar: Coordinating the drafting and monitoring of the Vanuatu Trade Policy Framework (TPF) and providing advice on trade-related issues for other policy documents

Institutional Pillar: Acting as the Secretariat to the Vanuatu National Trade Development Committee (NTDC) and coordinating efforts to introduce robust trade governance mechanisms.

Development Cooperation Pillar: Negotiating and managing Aid-for-Trade (AfT) projects on behalf of the MTC and supporting line agencies to secure AfT funding.

Based on the mainstreaming agendas, the external sources of funding are therefore needed in order for Vanuatu to realise its potential, and Aid for Trade represents one of the most valuable sources of funding, as it provides the Government of Vanuatu with both the funding which it needs to pursue its strategies and the expertise of the donor partners.

Objectives

The Overall objective of this program is;

To provide negotiation support and fiduciary supervision of Aid for Trade projects as well as enhanced trade facilitation support. this is managed through the three pillars of Trade and development

Activity MTCA: Admin Support

Activity Cost 89,123,355

introduction

The core of the unit's services centred in the conscientious management of funding and its efficient mobilisation. This activity ensures that the unit has the necessary resources to perform its operations, which involves ensuring that the staff timely and correctly drafts narrative and financial reports, and receives the training needed to keep up with procurements, new systems and processes, and the ability

to critically appraise new situations. VAMU undertake a variety of activities and play instrumental roles in many dimensions.

Vanuatu Aid for Trade Management Unit aims to maintain a vibrant and alive relationship with donor partners as well as keeping them on updated project development with the submission of financial, narrative and audit report. This activity also facilitates the establishment or improvement of systems, processes and fiduciary aspects.

Objectives

1. To enhance planning and reporting exercises performed throughout the year;
2. To fully capacitate staff and officers;
3. To improve the working process under the aid for trade management
4. To fill vacant positions in the newly approved structure
5. To optimise budget and asset management;
6. To promote and sustain consistent internal and external communication.

Means of Service Delivery

Ensure planning and reporting are performed in accordance with the established requirements and submitted in a timely manner

Ensure that budget submissions are consistent with the level of activity expected to take place during a given fiscal period

Provide inputs to the Corporate Service Unit on Human Resources Development Plan, including prospective recruitments

Ensure projects are implemented

Select training facilities for the benefit of the VAMU Staff

Ensure prudent financial and asset management

Ensure continuous negotiations with development partners

Devise an internal and external communication strategy consistent with the centralised Ministry's Communication Strategy

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Number of reports and plans produced	6	plans and reports
Number of budget submissions	1	budget submissions
Number of meetings with development partners	3	input
Number of Training provided to VAMU staff	3	training
Number of new staff recruited	2	input
VAMU project management implementation	1	Implementation report
Aid for Trade Communication strategy implementation	1	Implementation report

Activity MTCB: Trade Governance

Activity Cost 20,854,385

Objectives

To work with these three agencies to identify the current business process and procedures

And to propose new process re-engineering

Based on these findings, the module prototypes will be developed

The prototypes will be tested
 All users of the modules to be trained
 The modules are implemented
 Once deployed, the permits and certificates issued from these modules will be electronically linked to the Customs clearance declarations.
 To work with the users and administrators of these four external systems to identify the current business process and procedures.
 To define the data exchange elements, formats and mechanisms required for these interfaces
 Develop the interfaces with these four external systems
 The interfaces to be tested
 The interfaces are implemented
 Conduct a comprehensive stock-take of all system issues and required enhancements.
 Fix the identified issues and enhance the identified areas of improvement.
 The affective modules are tested.
 The users involved are trained.
 The fixes and enhancements are implemented

Means of Service Delivery

Provide report to the Trade Facilitation Steering Committee and NTDC
 Development of the agency modules interfacing into the Single Window System
 Launching of the system
 Research on new modules
 Ensure effective communication with key stakeholders and international organisation
 Provide training to single window users and traders
 Ensuring effective operational of the national project unit
 Continuously communicate the trade related aspects for stakeholders

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Interfacing of modules/development of new-modules	2	Launched Modules
Consultant's report	12	Report
TFA Communication strategy	3	Reports
No. of Trade Facilitation Steering Committee meeting	2	Report presentation
Vanuatu Fisheries Department – verification and certification of import and export of quality seafood product;	1	Module Launched
Civil Aviation Authority Vanuatu – regulation and issuance of import permits for aeronautical products.	1	Module Launched

Activity MTCC: Trade Policy

Activity Cost 17,730,000

Objectives

To hold 3 NTDC Meeting with expected participation and outcome documents circulated.
To monitor the implementation of the Trade Policy Framework 2019-25
To pursue the work of the NTDC Charter

Means of Service Delivery

To hold 3 NTDC Meeting with expected participation and outcome documents circulated.
To monitor the implementation of the Trade Policy Framework 2019-25
To pursue the work of the NTDC Charter

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
NTDC Meeting held	3	Number of Meeting
NTDC Outcome documents circulated	3	Number of documents
Active Membership	41	Number of participants
TPFU Monitored	3	Report Presentation

Activity MTCD: TDD Trade Cooperation

Activity Cost 135,547,525

Objectives

Continuous participation in Aid for Trade funds negotiations
Funding activities identified from key stakeholders
Fiduciary support to Government agencies and private sectors entities provided
Ensure to retain the sustainability of the operation of the PPWG
Coordination of the E- Commerce Forum and E-Commerce strategy to be implemented
Procurement planning effectively implemented

Means of Service Delivery

Secure Aid for Trade funding through Secure Aid-for-Trade Funding through an internal participatory approach with relevant line agencies, in line with their respective priorities
Monitor Aid-for-Trade Projects on behalf of donor partners and agencies
Assist AfT beneficiary agencies in producing their project planning and monitoring activities
Conduct the E-Commerce Meeting and monitor the implementation of the E-Commerce Strategy
Provide fiduciary oversight on project financial management and procurement, jointly with the CSU and in accordance with bi- and multi-lateral aid funded programmes' agreements
Coordinate the PPWG yearly meeting and ensure monitor the implementation of the decision.

Support the Vanuatu Trade/ Business Forum
 Ensure timely submission of plans and reports aimed at donor partners
 Support the development and implementation of Trade Policy Framework Update

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
6 PPWG Meeting for the 6 provinces	6	Meeting
Active Public and Private Sectors participation	150	Participants
E-Commerce Symposium	1	National and International Meeting
E-Commerce Committee Meeting	3	Meeting
E-Commerce Outcome documents	3	Documents
Business Forum	1	Forum
NTDC Recommendation implemented	5	Recommendations

Activity MTCE: Analytical Unit

Activity Cost 21,000,000

Objectives

To conduct comprehensive economic and trade analysis that informs policy formulation and decision-making, ensuring strategies are based on accurate, up-to-date data.

To monitor and evaluate the performance of trade, commerce, and related sectors within Vanuatu, identifying trends, opportunities, and challenges to promote sustainable economic growth.

To provide analytical support for trade negotiations, policy development, and implementation by generating insights and evidence that strengthen Vanuatu's position in regional and international trade opportunities.

Means of Service Delivery

Utilisations Survey, administrative data, and Trade statistics to gather relevant information.

Employing software such as SPSS, Stata, EViews or Excel for empirical analysis and modeling.

Producing periodic analytical reports, policy briefs, and statistical reviews.

Maintaining and updating databases on trade and economic indicators.

Organizing internal and stakeholder meetings to discuss findings and sector developments.

Preparing briefing notes, papers, and strategic recommendations based on analysis.

Facilitating workshops, forums, or meetings with relevant stakeholders for input and validation.

Partner with relevant agencies to conducting workshops for policymakers on trade analysis and negotiation approaches.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Business and productive sector assessments.	3	Consultations and Interviews Workshops Reports

Trade and Productive sector forums.	1	Consultations Participations Forums Outcome reports and recommendations
Research and Study Initiatives.	1	Reports

PROGRAM MTD: INDUSTRY DEVELOPMENT

Program Cost 191,012,268

Objectives

This Program's objective is to pursue product and services diversification strategies, to improve the business and investment environment, to facilitate market access and to promote value-addition.

The Vanuatu's Department of Industry vision is to be the driving force behind promoting, facilitating and supporting value addition within the productive sector of Vanuatu.

This vision is accumulated from the National Industrial Policy of 2011, which clearly outlines in the Revised National Industrial Development Strategy (NIDS 2018-2022) with a broader vision that Vanuatu fully unlocks its capabilities to compete in niche markets with outstanding quality of products and services at premium prices in a sustainable and inclusive manner.

The existing five program activities have been reviewed to ensure optimum alignment with the new revised approved Department of Industry Organizational Structure to fulfil policy objectives aiming at strengthening research and development and promoting diversification strategies, to improve the business and investment environment, to facilitate market access and to further promote value-addition.

These are the following five program activities:

Institutional Strengthening, Policy and Administration, Governance and Stakeholder Partnerships
Value Chain Research and Innovation
Provincial Industry Development Division
Investment, Manufacturing, Standard & Compliance and Creative Industry
Marketing Intelligence and Promotions

Activity MTDA: Primary Industries Development

Activity Cost 42,142,529

Objectives

1. Support to MSME Compliance through packaging, processing equipment
2. Establishment of HTFA and community packhouse to Support Domestic and Export Market
3. Support towards National Export Programme Coordination
4. To strengthen and increase value addition through agro- processing and quality control and export

through establishment of processing infrastructure, packaging and labelling by market driven research innovation.

Means of Service Delivery

- Provide reliable and effective processing equipment
- Boost and promote more quality products produce
- Meet market requirements (labelling & packaging requirements)
- Strengthen existing MSME in product development and market
- To gain access to more potential markets
- Enhance return for efforts of the value chain.
- Decentralized services to provinces and expand the service sector and create job through the establishment of the facilities
- Increase production and enhance potential market opportunities
- Developed market and value chain services improved and sustained.
- Continue to assess market demands
- Established supply chain infrastructure and logistics in the key islands of mass production of target market products
- Develop export pathways for potential commodities
- Develop new export markets through sending samples exports.
- Negotiations for supply contracts
- Develop root crops promotional events amongst RSE, SWP, PLS and pacific island communities in NZ, Australia

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Establishment of processing facilities to accommodate exports and food security	4	Reports (quarterly reports on activities)
New products formulated under R&D	4	Reports
Research trails undertaken	4	Reports
SME Infrastructure supported (ISF) where applicable	4	Reports
Support to MSME compliance through packaging and labelling	6	Reports
Support towards national export program coordination	4	Quarterly reports
Projects implementation	3	Reports

Activity MTDB: Provincial Industrial Extension Services

Activity Cost 25,840,512

Objectives

To improve and increase visibility of extension support services to rural agro-based industries in areas of product development, diversification and value addition in Tafea, Shefa, Malampa, Sanma, Penama and Torba.

Means of Service Delivery

-Manage and execute all the extension services program in accordance with the annual development

plan

Facilitate registration of new and existing industrial permit holders in the provinces

Facilitate registration of Vanuatu made brand to new and existing enterprises in the provinces;

Undertake market intelligence and scoping of product and raw materials availability for further processing/value addition;

Facilitate market access and information to rural producers;

Coordinate supply of raw and processed material for domestic and export market;

Undertake GMP assessment and compliance checks to rural based industries;

Facilitate other financial and technical support services that may be required by any industrial permit holder in the six provinces;

Undertake product profiling for all provinces;

Coordinate SME coaching and mentoring program;

Carry out any other support services of the Department in collaboration with agencies in the productive sector (Provincial Government, MALFFB & MTC line agencies).

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Facilitate registration of industrial permits	100	Percentage
Facilitate registration of Vanuatu made brand	100	Percentage
Coordinate small-scale value adding trainings	6	Report
Undertake product scoping & profiling	6	Report
Undertake GMP compliance to Industrial Permit holders	100	Percentage
Facilitate project implementation in the six provinces	6	Report
Facilitate marketing of crops and commodities in the provinces	6	Report
Facilitate new products developed (under R&D)	100	Percentage

Activity MTDC: Manufacturing Industry

Activity Cost 57,186,842

Objectives

To provide an enabling industrial and business environment specifically for investors in value adding enterprises and relevant support services to manufacturing and creative industries.

To boost Vanuatu's economic growth and improve the wellbeing of all Ni-Vanuatu in a way which is financially sustainable and does not jeopardize future economic growth. The dual disasters of TC Harold makes this priority especially urgent and challenging.

1. To support and facilitate the upskilling manufacturing actors;
2. To provide strategic support to the agro-processing sector;
3. To promote increased investment, production and possibly export in the value added- and import substitution sectors;
4. To improve standardization in the manufacturing and processing sector;
5. To identify value addition companies identified for prospective support
6. To increase number of Ni-Vanuatu-owned enterprises in the manufacturing and processing sector
7. To collect, record, store and analyses general data of the manufacturing / processing sector.

Means of Service Delivery

Manage the implementation of the program activity for manufacturing as outlined in the annual business plan for 2022

Explore, support and pursue initiatives to upskill Vanuatu manufacturing actor, including their workforce

Develop, support, implement and review policy, strategy and programmatic initiatives aiming at enhancing the agro-processing sector

Promote the expansion of Ni-Vanuatu entrepreneurs base in the manufacturing sector, which shall have specific attention towards youth and women groups

Identify and select sustainable manufacturing/processing projects

Assessment and registration of issue of Industrial Permits to new and existing industries

Manage the duty exemptions scheme for registered industrial permit holders

Manage the Implementation of project relating to Economic Development Zone as an export infrastructure for Vanuatu

Develop, support, implement and review policy, strategy and programmatic initiatives aiming at enhancing the agro-processing and manufacturing industries

Facilitate in cooperation with the VBS and the Department of Biosecurity the establishment of export standards and their control

Promote the expansion of Ni-Vanuatu entrepreneurs base in the manufacturing sector, which shall have specific attention towards youth and women groups

Undertake due diligence of local and foreign businesses requesting the assistance of the Department

Manage the Secretariat Coordination and support to INAC and EDZ Committee Meetings

Manage the handicraft & creative Industries development program

Manage the Vanuatu Handicraft Policy implementation program

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Industries Support through ISF/IDF	10	projects
Duty Exemptions Issued (Value/Quantity)	100	%
Industrial permits issued	100	%
INAC program coordination	1	report
GAP Compliance	2	report
EDZ Legal framework completed & establishment of EDZ program	1	report
Handicraft policy & Music policy goals implemented	4	report

Activity MTDE: Policy, Planning, Administration & Financial Comprising

Activity Cost 30,605,680

Objectives

A vibrant and robust department of Industry equipped with technical skills that could effectively coordinate the implementation of National Industrial Development Strategy (NIDS-2018-2023).

Policy Planning Specific Objectives

Policy Planning encompasses the following specific objectives:

- To develop, review and implement policies and strategies;
- To actively pursue the implementation of dedicated development programs, both Government- and donor-funded;
- To identify and pursue the appropriate way forward for the EDZ;
- To perform an assessment on the DOI expansion or reform;
- To improve DOI stakeholder;
- To improve business environment for businesses and investors.

Administration & Finance Specific Objectives

Admin and Finance encompasses the following specific objectives:

- To timely perform and submit Planning and reporting exercises;
- To ensure staff and officers are fully capacitated;
- To improve DOI institutional structure;
- To ensure optimum budget, financial and asset management;
- To provide consistent internal and external communication

Means of Service Delivery

Manage the overall supervision of the Department in terms of policy planning, administration and finance in accordance with the 2025 annual development plan

Coordinate the formulation of Policy papers in support of NIDS

Pursue the recommendations agreed upon in Santo 2019 on the Economic Development Zone (EDZ) development and its proposed regulatory framework

Consider upgrading the capacity of the DOI, by developing a policy paper and sub-sequentially a strategy to expand its scope to turn the Department into a Department of Commerce and Industry (DOCI). This activity should include the provision for a feasibility study and an economic impact analysis for upgrading the DOI to a DOCI.

Ensure effective and efficient coordination amongst DOI internal Divisions as well with external stakeholders, specifically the VIPA, the ORCBDs, the VCCI, the Labour Department and the DCIR

Provide Policy advices to the Office of the Honourable Minister via the Office of the Director General Plan, coordinate and implement technical assistance with partner agencies and donors with the support of the TDD

Ensure that project monitoring activities are carried out according to pre-established monitoring schedules

Devise policies and strategies aiming at easing doing business in Vanuatu and promoting innovation, value-addition and increased market accessibility

Coordinate the evaluation and monitoring of all departments work program implementation for 2025

Ensure planning and reporting are performed in accordance with the established requirements and submitted in a timely manner

Ensure that budget submissions are consistent with the level of activity expected to take place during a given fiscal period

Manage and record of all staff meetings

Provide inputs to the CSU on the MTC's corporate annual procurement plan

Provide inputs to the CSU on Human Resources Development Plan, including prospective

Activity MTFD: Marketing & Promotion Section

Activity Cost 35,236,705

Objectives

To improve market access conditions and information through marketing intelligence of Vanuatu Made high value niche products that are sustainable and competitive in domestic and international export market

Specific Objectives are:

1. To proactively coordinate the promotion campaign for the Vanuatu Made brand;
2. To implement program activities in accordance with the National Export Development Strategy
3. To enhance domestic and international market access for Vanuatu Made products
4. To develop an effective application system to promote Vanuatu Made products online
5. To develop an effective application system to promote Vanuatu Made products online

Means of Service Delivery

- Coordinate with R&D Division the implementation of the National Export Development Program (NEDP) in accordance with the 2023 annual development plan
- Coordinate the implementation of the Export Development Strategy
- Manage and coordinate the implementation of the Vanuatu Made Brand Communications Plan
- Coordinate the e-commerce application system for Vanuatu Made products
- Administer a robust governance system for the Vanuatu Made brand
- Effective dissemination of market access conditions and information
- Develop marketing and promotional materials and collaterals
- Coordinate the Annual Vanuatu Made Market Day
- Take part in other national and regional promotional events and activities.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
local & international trade exhibitions	3	reports
containers exported (value/quantity) of crops	20	%
market research on selected value chains	5	reports
annual Vanuatu made market day event	1	report
export development strategy	1	report
registration of Vanuatu made applications	100	%

PROGRAM MTF: TOURISM DEVELOPMENT

Program Cost 183,760,327

Cash Grant & Aid 0

in Kind

Objectives

The objective of this Program is to support equitable and sustained growth in the Tourism sector. While the tourism industry in Vanuatu has benefitted from considerable growth (particularly in cruise tourism), it is vital that this growth is managed responsibly and sustainably. Responsible tourism is

where operators, governments, local people and tourists share the responsibility for making Vanuatu more resilient and tourism more sustainable. This programmed narrative puts forward mechanisms and actions for DoT to coordinate the tourism industry in a collaborative manner to implement the VSTP vision “To protect and celebrate Vanuatu’s unique environment, culture, kastom and people through sustainable and responsible tourism”. The collective vision of Vanuatu’s tourism stakeholders is “to protect and celebrate Vanuatu’s unique environment, culture, kastom and people through sustainable and responsible tourism.” The vision, goals and objectives expressed in the Vanuatu Sustainable Tourism Policy (2019-2030) are underpinned by a set of shared values: Tourism in Vanuatu embraces the traditional and formal economies; it provides sustainable growth by strengthening national and community resilience with the ultimate goal of delivering equitable economic, social, cultural and environmental benefits for Vanuatu and its people. Each of the 5 programs of work listed in the programmed narrative for 2022 directly relate to the VSTP Goals and **Objectives:**

GOAL 1: To develop and manage a sustainable and responsible tourism industry.

GOAL 2: Visitors connect with Vanuatu’s environment, culture and its people.

GOAL 3: Sustainable and responsible tourism products and services developed, supported, and marketed to attract responsible high-value tourists.

GOAL 4: Tourism that enhances, conserves and protects the environmental and cultural resources of Vanuatu.

GOAL 5: Sustainable and responsible tourism brings improved income and well-being for Vanuatu and its people.

Activity MTF: DOT Admin Support Services

Activity Cost 10,496,608

Objectives

1. Planning and reporting exercises performed each year with timely submissions;
2. Fully capacitated staff and officers;
3. Improved DOT institutional structure;
4. Optimum budget, financial and asset management;
5. Consistent internal and external communication

Means of Service Delivery

Ensure planning and reporting are performed in accordance with the established requirements and submitted in a timely manner

- Ensure that budget submissions are consistent with the level of activity expected to take place during a given fiscal period
- Provide inputs to the CSU on the MTTCNVB’s corporate annual procurement plan
- Provide inputs to the CSU on Human Resources Development Plan, including prospective recruitments - Select training facilities for the benefit of the DOT Staff
- Ensure prudent financial and asset management
- Actively participate in Senior Management Meetings to be called by the CSU on behalf of the Director General
- Devise an internal and external communication strategy consistent with the centralised Ministry’s Communication Strategy or Plan

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Planning and reporting exercises performed each year with timely submissions (12 months)	12	Monthly Reports
Consistent internal and external communication	100	Percentage

Activity MTFB: Tourism Development

Activity Cost 78,873,120

Cash Grant & Aid 0

in Kind

Objectives

- To promote particularly more Ni-Vanuatu Tourism Entrepreneurs with sound tourism investments
- To develop tourism products that are consistent with the goals and objectives of the Vanuatu Sustainable Tourism Policy (VSTP)
- To support the development and management of a sustainable cruise tourism throughout Vanuatu

Means of Service Delivery

To develop and coordinate Awareness/Training on Product Development Process and checklist to Tourism operators.

Improve and Implement Product Marketing check list with selected Products throughout Vanuatu Discussions with the department of cooperatives to Develop Tourism Cooperative Ideas for Tourism Associations

Draft Strategies for Ecotourism, Agritourism, Niche products (Vanuatu Experiences)

Resume discussions on the review of the Existing Bungalow Guide to adapt to the changes in Climate and business environment and needs.

Develop and Promote Annual Tourism Events throughout the country to support Local Tourism initiatives.

Improve Product Packaging options to support the cruise market and the increasing demand for new exiting tours. .

Review and Implement Tourism Business Recovery Program (TBRP)- Phase 2

Facility Improvement to meet Expedition Cruises and Yacht Standards at selected sites at TORBA & MALAMPA

Convene National Cruise Committee Meeting in 2025

Conduct Scoping for Expedition Cruises and Yacht at Asanvari, Maewo and Aniwa

Compile an Update list of Ecotourism Sites and Potential Sites in Vanuatu with the support of Stakeholders.

Develop and Finalize a Botanical Garden Management Plan with the Department of Forests

Assessment and Development of 2 Botanical Sites in Vanuatu

Develop and Implement an Ecotourism Model on Efate

Agritourism sites are selected, assessed & developed - Santo, Malekula and Efate

Develop and Implement an Agritourism Model on Efate

Capacity Development for staff

Undertake Tourism Awareness along the new road infrastructures – Tanna /Malekula

Finalize the Department of Tourism, Disaster Management Plan (Process, Forms)

Implement Disaster Action/ Response Plan

Implement Product Mapping & profiling Exercise for the 2 Provinces

With the Department of Cooperatives, Conduct Product Pricing Training for Selected Tourism operators

Continue Facilitation of Duty Exemptions support to Tourism Investors

Strengthens Re-Integration support to Regional Seasonal Worker Program with the Department of Labor

Assist Operators access Vanuatu Rural Development Bank facility

Facilitate and Develop New Project Proposals

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Established awareness and trainings throughout Vanuatu	4	Awareness/Trainings
Established Strategies for Ecotourism, Agritourism, Niche products.	3	Strategies
Existing Bungalow Guide reviewed	1	Bungalow Guide
Annual Tourism Events promoted annually	1	Annual Tourism Event
Number of Cruise Tourism meetings convened	100%	Meetings
Number of scoping exercises for Expedition Cruises established	2	Scoping Exercises
Formulation of list and map of Ecotourism sites in Vanuatu	1	Documented Ecotourism sites
Establishment of Tourism Disaster Management Plan	1	Document plan
Undertake ongoing monitoring and evaluation of program outputs in line with the VSTP and NSDP	2	Report

Activity MTEC: Tourism Standards

Activity Cost 11,118,152

Objectives

1. Continuous Improvement of the Vanuatu Tourism Permit and Accreditation Program [VTPAP]
2. Tourism Standards for Tours and Accommodation are being applied OR Tourism businesses operating according to minimum standards

Means of Service Delivery

Desktop Review of the Vanuatu Tourism Permit

Develop new Tourism Permit and Accreditation System / Online Platform

Review Island Bungalow Guide

Conduct assessments / inspection on tourism businesses and awareness of Tourism Standards

Implementation of continuous improvement on Safety and Emergency procedures

Conduct Awareness on Tourism Permit and Tourism Standards with Port Vila Water Taxi operators

Professional development of tourism standards team

Recruitment of intern to provide additional support

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Review and modify Tourism Standards for Tours and Accommodation to include GSTC criteria	5	GSTC Criteria
Review and update the Tourism Accreditation information pack	1	Report
Incorporate 'Clean, Caring & Checked' certification as a criterion on the Tourism Permit form	1	Report
Review of an insurance option for high-risk Tours and Activities	1	Report
Implementation of continuous improvement on Safety and Emergency procedures for 'Tours and Activities' businesses	40	Percentage

Activity MTFD: Provincial Tourism Development

Activity Cost 44,528,704

Objectives

1. To decentralize the VSTP to the Provincial Level and enable a coordinated cross-sectorial management approach to sustainable and responsible tourism that engages provincial stakeholders in an equitable and inclusive way.
2. The outer islands coordinate and facilitate the implementation of Provincial Sustainable Tourism Management Plans (PSTMP) and continually providing support to the Provincial Tourism Officers in the province.

Means of Service Delivery

- Outer Island Programme under implementation;
- Extension offices fully operational
- Finalize the Provincial Tourism Plans
- Establish an Air, Sea and Land Tourism Connectivity Plan, including proposed infrastructure upgrades
- Develop a Plan for the establishment of Tourism Cultural and Information Centre Hubs in each Province
- Implement the TBSP in each Province

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Officially Launched the (5) Provincial Sustainable Tourism Management Plans (PSTMP)	6	Report
Extension offices fully operational	100	Percentage
Number of meetings with Tourisms Associations and Local Government Tourism Councils as per the Act	100	Percent
Regular update of the department's social media releases	100	Percent
Number of provincial visits annually	2	visits
Completion of staff houses in all provinces	4	Provincial staff

		houses
Air, Sea and Land Tourism Connectivity Plans for each Province is completed	6	Plans
Provincial Tourism Cultural and Information Centre Hubs are established	6	Hubs
Provincial Managers successfully co-ordinate the TBSP Training Programs and Facility Improvements	100	Percentage

Activity MTFE: DOT Policy and Planning

Activity Cost 38,743,743

Objectives

1. The development of effective sustainable tourism policies is enabled
2. Sustainable Tourism Development and management objectives are being achieved
3. An enhanced legal framework for Tourism Development and Management is established
4. DOT is an effective institution that is well resourced and capacitated

Means of Service Delivery

Ensure planning and reporting are performed in accordance with the established requirements and submitted in a timely manner

Ensure that budget submissions are consistent with the level of activity expected to take place during a given fiscal period

Provide inputs to the CSU on the MTC's corporate annual procurement plan

Provide inputs to the CSU on Human Resources Development Plan, including prospective recruitments - Select training facilities for the benefit of the DOT Staff

Ensure prudent financial and asset management - Actively participate in Senior Management Meetings to be called by the CSU on behalf of the Director General

Devise an internal and external communication strategy consistent with the centralised Ministry's Communication Strategy or Plan

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Fully capacitated staff and officers	12	Staff capacitated
Improved DOT institutional structure	1	Revised Structure
Optimum budget, financial and asset management	100	Percentage
Annual Business Plan Established	1	Annual Business Plan
Annual Report Completed	1	Annual Report
Frame and survey for measuring destination wellbeing established	1	Framework
Vanuatu Sustainable Tourism Strategy reviewed 2020-2025	1	VSTS
Vanuatu Sustainable Cruise Tourism Strategy reviewed	1	VSCTS
Monthly Financial report produced	12	Reports

PROGRAM MTH: NATIONAL STANDARDS DEVELOPMENT

Program cost: 127,413,341

The Vanuatu Bureau of Standards plays a crucial role in various aspects of quality assurance and

standardization. Its responsibilities include:

Standards Development: The bureau actively develops and maintains standards across different sectors.

Certification: It certifies the implementation of these standards through inspections and audits.

Laboratory Testing: The bureau conducts quality control tests for both export and import commodities.

Quality Training: It provides training sessions related to specific standards and how to acquire and maintain quality in the processes and products.

Metrology: conduct verification of weights and measures.

The bureau oversees all aspects of goods and services quality, as outlined in its functions in the Standards Act of 2016.

Objectives

To establish standards and provide certification services to ensure production of quality goods and services.

Activity MTHA: Admin Support Services

Activity Cost 57,317,049

Objectives

Ensure that planning and reporting exercises are completed annually and submitted promptly.

Review the organizational structure of the Vanuatu Bureau of Standards (VBS).

Achieve optimal utilization of resources by maintaining a balanced budget, efficient financial practices, and effective asset management.

Establish consistent communication channels within the VBS and enhance external communication with stakeholders.

Provide robust support to extension offices and other divisions, ensuring effective service delivery.

Successfully implement the National Quality Infrastructure Policy.

Means of Service Delivery

Develop an annual planning and reporting calendar with clear deadlines for each exercise.

Develop a comprehensive restructuring plan that aligns with VBS's strategic goals.

Create clear guidelines for budget preparation, allocation and monitoring and an asset management system to track and maintain VBS assets efficiently.

Develop standardized communication protocols within VBS departments and with external stakeholders.

Allocate resources to provincial offices, including divisions based on their needs and workload.

Develop a detailed plan for policy implementation and monitoring and evaluation, including milestones and responsible parties.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Timely Planning and Reporting	4	Quarterly Reports
Enhanced VBS Institutional Structure	4	Effectiveness Satisfaction Survey forms
Effective Budget, financial and Asset Management	86%	Budget report
Streamlined internal and external communication	>50%	Communication frequency and response survey
Provincial offices and Divisional Support	90% satisfaction	Satisfaction survey
National Quality Infrastructure Policy Implementation	20%	Policy milestones

Activity MTHB: Standards and Certification

Activity Cost 19,260,512

Objectives

Clearly identify and document the processes and procedures related to standards development and certification within the Vanuatu Bureau of Standards (VBS).

Create specialized training modules tailored to key stakeholders (e.g., staff, industry professionals) to enhance their understanding of standards, certification, and related practices.

Enhance the effectiveness of inspection processes within the VBS.

Encourage and facilitate private sector entities to seek certification for their products and services.

Consolidate all functions related to standards development, implementation, and regulation under the VBS.

Develop national standards across various domains.

Means of Service Delivery

Implement a comprehensive documentation system that records all processes and procedures related to standards development and certification.

Develop and deliver tailored training programs for key stakeholders.

Conduct regular training for all staff to keep them updated with the latest inspection techniques and standards.

Assist private sector stakeholders in acquiring certifications.

Establish and maintain a centralized system that consolidates all functions related to standards development, implementation and regulation.

Form specialized committees for various domains to develop national standard

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Documentation System Efficiency evaluation	<10 min.	Timeliness of recording processes and procedures
Stakeholder training delivered and implementation.	5	Training programs created
Staff training sessions on latest inspection techniques and standards	5	Staff training sessions
Assisted private stakeholders acquiring certification	5	Certification rate
Centralized system maintained and effective	1	Speed of data access
Standards Technical Committee formation	3	Technical committees

Activity MTHC: Laboratory Testing

Activity cost: 22,411,923

Objective:

Establish a new commensurate laboratory facility with relevant equipment.

Strengthen laboratory technical capacities, notably through specifically dedicated trainings.

Facilitate and assist stakeholders in carrying out routine quality control tests that enable the implementation of technical regulations and standards

Strengthen Santo laboratory capacity

Accredit laboratory tests.

Means of Service Delivery

Identify and acquire essential laboratory equipment, such as analytical instruments.

Equip the metrology laboratory and conduct verification activities.

Employment of a multifaceted approach: organizing technical workshops and seminars led by experts in relevant fields, encouraging staff participation in certification programs tailored to their expertise, and fostering partnerships with universities and research institutions for knowledge exchange and joint training initiatives.

Develop user-friendly guidelines and manuals, on-site assistance and accessible online instructional videos.

Recruit and train additional staff members.

Maintain laboratory processes in line with ISO 17025 Laboratory Quality Management accreditation.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Procure all necessary analytical instruments	2	Analytical instruments
Metrology laboratory equipped to conduct scale verification and fuel pump verification	50	Scales and fuel pumps verified
Conduct technical workshops	4	Workshop Reports

Santo laboratory renovated	1	Report
Evaluate proficiency, adaptability and contribution	5	Staff Performance Appraisal
Laboratory accreditation maintained	1	Audit report

Activity MTHE: product development

Activity Cost 28,423,857

Objectives:

Implement strategies to bolster the efficiency of inspection service across all provinces.
Establish comprehensive testing facilities in each province to ensure accessibility and prompt service.
Provide robust support for certification processes, making it easier for individuals and businesses to comply with necessary standards and regulations.
Develop and implement support mechanism to aid the enhancement of commodity quality.

Means of Service Delivery

Conduct mobile inspection units equipped with necessary tools and technology to conduct inspection across all provinces.
Provide testing facilities in each province through collaboration with existing agencies to share resources and expertise.
Provide support and assistance for certification to businesses in the certification process.
Implement programs that provide technical assistance and resources to improve commodity quality, offer incentives to businesses that consistently meet or exceed quality standards.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Inspections conducted and identified issues resolved	20	Inspections
Tests conducted per province	20	Number of tests
MSME's assisted in the certification process	5	Number of certified MSME's
MSME's engaged in programs to improve commodity quality and received incentives for exceeding quality standards.	5	MSME's engaged

PROGRAM MTI: INTELLECTUAL PROPERTY DEVELOPMENT AND PROTECTION

Program Cost 43,708,368

Objective:

To enhance innovation and IP development through the institutionalization of Intellectual Property components for Vanuatu

Activity MTIA: Admin Support Services

Activity Cost: 13,328,440

Objectives:

Management of Intellectual Property Development and Protection

Institutional strengthening of Vanuatu Intellectual Property Office
 Establishment and administration of the Vanuatu Intellectual Property Office board.
 Legislative and policy development and implementation
 Review and perform decision on Application Files under Trademark Act, Patents Act, Design Act, Copyright & Related Right Act and Geographical Indication Act.

Means of Service Delivery

Establishment of the Vanuatu Intellectual Property Annual Business Plan
 Establishment of six-months report
 Establishment of Annual Reports
 Developed a Human Resource Development Plan
 Developed a Vanuatu Intellectual Property Office staff Manuel
 Review of the Vanuatu Intellectual Property Office Staffing Structure
 Staff recruitments & appraisals
 Relocation of Vanuatu Intellectual Property Office
 Establishment of the intellectual property rights Dispute tribunal
 Pass the law to establish the Vanuatu Intellectual Property Office
 Facilitate appointment of board members
 Prepare annual work programs of the board
 Organize, plan and coordinate meetings of the boards
 Take minutes of the meetings of the board
 Coordinate and implement the decisions of the board
 Review and amendment of intellectual property rights laws administered by the office.
 Ratification of international treaties and conventions to strengthen protection of IP assets internationally
 Enactment subsidiary Legislations to expand on certain activities or procedures of the current IP Legislations
 Provide Legal opinions on intellectual Property Rights related cases
 Review and perform decision on Application Files under Trademark Act, Patents Act, Design Act, Copyright & Related Right Act and Geographical Indication Act.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Establishment of VanIPO Annual Business Plan completed	1	Business Plan
Smooth and efficient implementation of VanIPO's 2026 work programs	10	workshops
Human Resource Development plan launched	1	Human Resource Development Plan
VanIPO staff Manuel operational and ready to be used.	1	Staff Manuel
Establishment of new VanIPO staffing structure	1	Staffing structure
Staffs of VanIPO are appraised	13	Staffs
Recruiting of new staff and transfer of existing staff to new structure	18	Staffs
	5	New Officers
VanIPO relocated to new office building	1	Office building
Regulations drafted and signed by the minister of MTC	2	Regulations

Intellectual Property Rights Disputes Tribunal Established and operational.	1	IPR Dispute Tribunal
Establishment of the vanIPO by Law as a statutory Institution under the MTC	1	VanIPO Act
Appointment of VanIPO Board Members	7	Instruments of appointment
Number of board meetings held annually	4	Board Sitzings
Successful implementation of the board's decision	10	Board decision
IP laws reviewed and amended	2	Amendment
Vanuatu Acceded to IP related international convention and treaties	2	Treaties / Convention
Number of Legal Advice/Opinions provided to intellectual property rights owners	15	Advice/Legal Opinion
Number of applications reviewed for registration of Copyrights & Related Rights, Trademark and Patents & Design	300	Trademark, Copyright, Patent, Design and Geographical Indication Certificate

PROGRAM MTIB: COPYRIGHT REGISTRATION SERVICES

Activity Cost: 5,553,400 VT

Objectives:

Management and Development of the Copyright & Related rights Division

Provision of Legal advice and Legal Opinions to clients

Registration of Copyright and Related Right Works

Awareness and Training of Copyright & Related rights

Negotiation of Contracts, agreements and small business protocols

Means of Service Delivery

Ensure to establish Copy Right & Related Right (CR&RR) Annual Business Plan

Conduct 4 Copyright and Related Rights programs implementation, coordination and management workshop

Copyright section participation at National Events.

Amend Copyright and Related Rights Act 42 of 2000

Providing Legal Advice to clients and copyright owners

Digitalization of all copyright Registration processes.

Conducting Copyright awareness and training workshops on handicraft, music, textile sector and Arts sectors.

Conducting awareness via Radio, Newspaper and social media.

Meeting with clients and stakeholders to discuss user agreements, contracts and protocols

Drafting user agreements, contracts and protocols

Traveling to outer islands and provinces to negotiate contracts, user agreements and protocols

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Annual Copyright Business plan established.	1	Business Plan
Establishment of Copyright Annual Work Plan	1	AWP
Implementation of Copyright activities properly	4	CM Workshops

coordinated and managed		
Participation at National Events for copyright promotion and awareness	4	Contracts or agreements
Legal advice and opinions given to clients	30	Legal Opinions
Copyright Registration process fully automated	100	Percent
Number of registered Copyrights	100	Copyright Certificates
Number of Copyright promotions and awareness conducted	6	Meetings and Workshops
Number of meetings conduct to discuss users' agreements	4	Meetings
Number of Contracts and agreements drawn up	4	Contracts or agreements
Number of travels to outer island/province to negotiate and draw up contracts/agreements	2	Travels

Activity MTID: Patents & Design registration Services

Activity Cost 2,342,760 VT

Objective:

Management, coordination and development of the Patent and Design section

Registration and renewal of Patents & Designs Services

Awareness of Patents & Designs

Capacity building to strengthen Patent and Designs human resource

Means of Service Delivery

Amendment of Patent Act No.2 of 2003

Ratifying the Patent Corporation Treaty

Amendment of the Designs Act No.3 of 2003

Ratifying the Hague System

Develop Patent Examination manual

Approval and registration of Patent applications annually.

Approval and registration of Designs applications annually.

Conduct awareness and training workshops on designs in 4 provinces

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Patents Act No.2 of 2003 is amended	1	Amendment
Patent Cooperation Treaty is ratified and accede to by Vanuatu	1	Ratification
Design Act No. 3 of 2003 is amended	1	Amendment
The Hague System for Industrial Designs is ratified and accede to by Vanuatu	1	Ratification
Patent Examination manual developed	1	Examination manual
Number of annual Patents approved	100	Percent
Number of Designs approved	100	Percent
Patents files inputted to IPAS	50	Details for Patent Application
Designs files inputted to IPAS	20	Details for Designs application

Awareness and training workshops on Designs conducted in 4 provinces	4	Awareness in Provinces
--	---	------------------------

Activity MTIE: Trademark Services

Activity Cost 9,538,688 VT

Objectives:

Registration of New trademark application
Register Renewal of Trademark applications
Register assignments of trademark applications
Register change of address for trademark applications
Register change of proprietor for trademark applications.
Providing trademark information for compliance & enforcement.
Awareness & training of Trademarks

Means of Service Delivery

Process and conduct registration of new trademarks applications
Issue publication notice of new trademark applications
Process and conduct renewal of trademark applications
Process assignment of trademark applications.
Process and conduct change of address applications
Process and conduct change of name applications
Process and conduct search applications
collect revenue from registration fees
Conduct awareness and training workshop on trademarks
Conducting awareness in Radio, News Paper and social media
Provision of Trademark legal advice and opinions to clients

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
New trademark registered and certificate issued	50	Certificates
Notice of proposed applications publish in government gazette	50	Official Gazette
Trademarks renew and certificate issued	70	Certificates
Recording of assignment and certificates issued	5	Certificates
Change of name recorded and certificates issued	20	Certificates
Change of address recorded and certificates issued	20	Certificates
Recording of revenue collection	20,000,000	Annual Trademark revenue report
Provide awareness and training workshops to Trademark clients	5	Workshops

Proposed Activity MTIF: Industrial Property Automation Services

Activity Cost: 3,185,680 VT

Objectives:

Management of IPAS
Configuration of IPAS workflows and templates
Improve VanIPO ICT infrastructure.
Office software updates and hardware upgrades.
Design and develop awareness materials

Management online information services

Means of Service Delivery

Perform IPAS administrative duties, IPAS user training, Extract IPAS reports.

Improve templates, IPAS workflow and Laisse with WIPO technicians for improving IPAS system

Recommend and procure VanIPO ICT infrastructure and troubleshoot system failures and report to OGCIO/ WIPO Tech. Support

Perform software updates and upgrade computer systems

Graphical design of Awareness materials.

Design and update information available on VanIPO website, Trade Portal etc.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Number of IPAS Administrative duties	10	Changing in processes
Number of Template and workflows changes	100	Template Changes
Acquiring of additional ICT equipment and disposal of ICT Equipment	12	New Device Use
Number troubleshoots reports	50	Issues Reported
Number of hardware/software upgrades	20	Hardware Configuration
Number of updated information online	12	Online Content

Proposed Activity MTIG: IP Compliance & Enforcement

Activity Cost: 4,367,720

Objectives:

Coordination and development of the compliance and enforcement Section

Facilitate suspected IP infringement referrals from Customs Border Officers.

Conduct refresher trainings on IP infringements, workshops and awarenesses with Stake holders

Facilitate IP complaints and provide legal advice

Liaise with relevant stakeholders for further investigation of reported counterfeits/infringement goods.

Establishment of an IP dispute Tribunal.

Destruction of counterfeit IP goods seized at the border.

Means of Service Delivery

Provide IP information on suspected IP infringements to Border Control officers for referral cases and Contact Authorised Distributors for confirmation of suspected infringement.

Provide awareness on IP compliance & enforcement of IPs through social media, community and school awarenesses.

Investigation of criminal and civil complaints with the assistance of Police and relevant stakeholder.

IP complaint demands are promptly processed through legal advice or the IP dispute tribunal.

Provide neutral facilitation services for mediation between IP rights holders and suspected Infringers

Regulatory framework development of the IP dispute tribunal regulation.

Capacity building of IP dispute tribunal officers.

Infrastructure setup for the IP tribunal.

Information on reported cases are available to the public. Publish summaries of resolved cases and enforcement outcomes via social media and VanIPO page.

Organise logistics for destruction of goods seized at the border and domestic markets i.e. inventorying, transportation, landfill/dumpsite disposal fees etc.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Successful confirmation made for referrals from Customs border offices	8	Referrals
Number of refresher training with IP stakeholders	3	trainings
Genuine goods for domestic consumption	100	percent
Destruction of counterfeit goods	1	Destruction Operation
Standard Operating Procedures (SOP) Established and Operational	2	SOP
Number of legal advice on report case completed	5	cases
IP dispute tribunal regulation established and signed by the Minister of Trade	1	regulation
IP complaints and disputes are processed in a timely manner	3	disputes

Program Activity MTIH: Vanuatu Copyright Management Society

Activity Cost: 2,999,000 VT

Objectives:

Implement operation activities for the Copyright Management Society.

Start Licensing copyrighted works.

Collecting and distributing royalties for copyrighted works.

Awareness and campaign for CMO membership and works registration

Assist in Regional and International membership, MOU, reciprocal agreement.

Review of Vanuatu Copyright Management Society Act

Means of Service Delivery

Develop documentation workflows to ensure accurate registration, verification, and data management for copyrighted works.

Facilitate licensing agreements, fee structure, and collection.

Setup royalty collection and distribution system in WIPO Connect

Engaging in public events, educational institutions, government and businesses to educate, advocate and promote copyright and the role of CMO

Join membership with CISAC (International Confederation of Societies of Authors and Composers) and SCAPR (Societies' Council for the Collective Management of Performers' Rights), MOU with regional CMO from Solomon Island (SIPRO) and Fiji (FIPRA), sign reciprocal agreement with APRA AMCO (Aus/Nz)

Draft Amendment recommendations for Vanuatu Copyright Management Society Act

Performance Measurement (Service Targets)

□

Description	Quantity	Unit of Measure
Workflows ensuring accurate registration, verification, and data management for copyrighted works.	2	Drafted workflows
License types defined and fee structures established	5	Licenses issued
Public engagement in events, institutions, government & businesses	4	Outreach activities conducted
Join CISAC, SCAPR; Establish MOUs & Reciprocal Agreements	5	Agreements/MOUs signed
Legislative amendments proposed for smooth CMO operations	1	Amendments proposed
CMO Membership registration	10	Members registered
Member's musical works registration	10	Works registered

Proposed Activity MTII: Development of Geographical Indication (GI)

Activity Cost: 2,392,680 VT

Objectives:

Establishment of Geographical Indication Registration services

Registration and protection of “Vanuatu Kava” under GI law

International Registration of Geographical Indications

Capacity building and training of GI on relevant stakeholders

Means of Service Delivery

Enact and passed the geographical Indication law in Parliament

Draft and enact GI regulation for registration process

Set up GI registration infrastructure

Establish the technical working group to work on protecting ‘Vanuatu Kava’.

Develop Book of Specifications (BoS) for ‘Vanuatu Kava’.

Validation of the book of specification

Conduct geospatial mapping of geographical Indication protection areas for Varieties of Kava.

Establishment of the Collective Management Organization (CMO) for “Vanuatu Kava”.

Process registration and protection of the name “Vanuatu Kava” under GI law.

Ratification of the Lisbon Treaty

Registration of GI Vanuatu ‘Kava’ at the Lisbon international registration at World Intellectual Property Organization

Conduct GI trainings with key stakeholders and value chain actors of kava

Participate in regional and international GI trainings, meetings, symposiums, and workshops

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Geographical Indication legislation gazette and operational	1	Legislation
GI regulations Drafted and signed	1	Regulation
GI registration infrastructure fully set up and operational within Vanuatu Intellectual Property Office	100	Percent

Technical working group on 'Vanuatu Kava' set up	1	Technical Working Group
Development of a 'book of specification' for Vanuatu Kava	1	Book of specification
Validation workshops conducted to validate details of BOS	2	Workshops
Mapping and traceability areas for Vanuatu Kava and its Varieties	100	Percent

"Vanuatu Kava" GI is registered	1	Registration
Vanuatu Accedes to and join the Lisbon treaty for international protection of GIs	1	Ratification
"Vanuatu Kava" is protected in the international market	1	Registration
key stakeholders and value chain actors of kava are aware of GI through specialized trainings	3	Training Workshops
Attend GI regional and international meetings, seminars and symposiums	2	Meetings
Complete WIPO distance learning courses on IP	2	IP Course Certificates

PROGRAM MTJ: COOPERATIVE DEVELOPMENT

Program Cost 178,916,727

Introduction:

Cooperative development program places a greater emphasis and priority on the following strategies:

Cooperative regulatory compliance & monitoring

Savings and credit cooperative development

Consumer and other credit development

Cooperative Agriculture Production and Producer Marketing

Stronger More Sustainable Secondary and Tertiary Cooperatives

ICT Systems and Support

Strengthening Cooperation Among Cooperatives

Leadership and Management Capacity Building

Public Private Partnership Between Cooperatives and Government.

Objectives

To provide clear direction, which the Government of Vanuatu wishes to follow in strengthening, developing and regulating cooperatives across the country.

To strengthen and grow the Vanuatu Cooperative system of enterprise, to help ensure its performance and sustainability, so Cooperatives are better able to satisfy member needs, and can contribute to their communities and to their country as a whole.

Activity MTJA: ORCBDS Administration and Finance

Activity Cost 62,727,564

Objectives

Lead Implementation of ORCBDS Annual Workplan
Implement National Cooperative Policy
Review ORCBDS Organizational Structure
Develop National Savings & Credit Cooperative Concept Paper
Provincial Office based building & stations
Facilitate recruitments & Manage Staff Welfare
Manage Annual and Sick Leaves,
Undertake Staff Appraisals and formalise acting positions
Develop NPPs and Supplementary Budgets
Prepare and Manage ORCBDS Budgets
Management of assets
Management of filings, stationeries and revenues
Provide quality customer services
Coordinate official appointments and meetings
Means of Service Delivery
Completed and submitted quarterly, mid-year and annual report.
Approved organizational structure
Develop and formulate terms of reference for establishing National Cooperative Savings and Credits Society.
Number of staff appraised
Number of NPPs and Supplementary proposals approved
Completed the following years Budget Narratives
Recruit as per approved organizational structure
Submit quarterly report of assets
Submit quarterly report of filings, restocking of stationeries and revenues.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Completed and submitted quarterly, mid-year and annual report.	4	Report
Approved organizational structure	1	Structure approved
Develop and formulate terms of reference for establishing National Cooperative Savings and Credits Society.	1	TOR approved and consultations
Number of staff appraised	100	Percentage
Number of NPPs and Supplementary proposals approved	2	Budget
Following year Budget Narratives	1	Budget Narrative
Recruit as per approved organizational structure	100	Percentage
Submit quarterly report of assets	4	Percentage
Submit quarterly report of filings, restocking of stationeries and revenues.	1	Report
Submit quarterly report of customer services	1	Report

Activity MTJB: ORCBDS Policy, Regulatory Environment and Partnership

Activity Cost 35,580,697

Objectives

Manage Staff Performance
 Manage Registrations
 Manage Complaints & Disputes
 Ensure Compliance and Enforcement of rules
 Certification of Audit Reports
 Means of Service Delivery
 Manage Staff Appraisal
 The development of ORCBDS Annual Business Plan
 Facilitate registration of new societies
 Manage registration and deregistration procedures
 Input of active registered cooperatives files to CIMS
 Manage probation societies
 Manage and resolve complaints and disputes
 Ensure Cooperative Societies comply with Cooperative Societies ACT CAP 152
 Review and develop new standard cooperative By-Laws
 Ensure compliance of other relevant legislations
 Facilitate Administrator's appointments
 Facilitate Manager's contract
 Facilitate Tenancy agreements
 Facilitate financial and management audits
 Review audit procedures and templates
 Develop financial framework

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Develop and approved section and individual business and work plan	100	Percentage
Completed and submitted mid-year and end of year appraisals	100	Percentage
Submitted monthly staff performance report	12	Report
Complete and approved registration of new societies	1	Registration
Conduct workshops for new registration format	6	Workshops
Renewal and issuance of certificates	100	Percentage
Submit dormant cooperative report	1	Report
Input active registered cooperative societies in CIMS	100	Percentage
Register proposed cooperative	40	Percentage
Resolve complaints and disputes	1	Report
Comply with Cooperative Societies ACT CAP 152	1	Report
By-Law templates approved	5	By-Laws
Administrator appointment submitted to State Law	1	Appointment
Developed standard contract template for managers/employees	1	Contract template
Completed and reviewed tenancy agreement	1	Agreement
Verified and approved audit reports	100	Percentage
Completed and approved audit procedures template	1	Audit template
Completed financial framework	1	Financial guide book

Activity MTJC: ORCBDS Cooperative Institutional Strengthening and Access to Finance and Credit

Activity Cost 200,000

Objectives

Management of Cooperative Development Fund (CDF)

Means of Service Delivery

Amend CDF constitution

Review CDF plan

Coordinate CDF implementation plan

Prepare CDF report

Prepare CDF budget

Coordinate CDF logistics of Board meetings

Coordinate CDF assessments

Coordinate CDF monitoring and evaluation

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
CDF constitution gazetted	1	Constitution
Submitted planning report	1	Report
Completed roll out of funds	100	Percentage
Completed M&E reports	1	Report
Submitted board meetings reports	4	Report

Activity MTJD: ORCBDS Cooperative Market Information System and Quality Infrastructure

Activity Cost 10,040,824

Objectives

Management of ICT equipment

Management of ICT projects

ICT systems and support

Means of Service Delivery

Acquire ICT equipment's

Upgrade and installation & configuration

Registration & disposal

Maintain and repair ICT equipment's

Installation of VSAT

Review MOU with Vodafone

Relocate VSATs

Establishment of Cooperative Information and Management System (CIMS)

Acquire "Dream Save" a new software for financial cooperative societies

Design and develop "POS", a new application to track goods in and out of Consumer Cooperatives throughout Vanuatu.

Developing guidelines for Xero Accounting Software

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Number of ICT equipment's purchased	100	Percentage
Number of new hardware and software installed and configured	100	Percentage
Registration and disposal of ICT equipment's	1	Report
Repair and Maintenance of ICT equipment	1	Report
Installed VSAT in Cooperative Societies	5	Cooperatives
MOU with Vodafone reviewed	1	MOU

Establishment of CMIS	1	CMIS
Acquiring of “Dream Save” application for all Cooperative Savings and Loan in Vanuatu	1	Dream Save App.
Establishment of a “POS” application	1	POS
Guideline for Xero software established	1	Guidelines booklet

Activity MTJE: ORCBDS Training Services

Activity Cost 25,004,090

Objectives

Compliance and Monitoring

Strengthening cooperation among cooperatives

Cooperative training services

Leadership and Management Capacity building

Public and Private partnership

Vanuatu Qualification Authority Compliance

Management of Training Centre

Means of Service Delivery

Cooperative Education Systems needs assessment performed and corrective actions taken;

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Managed annual budget	1	Budget Report
Conducted staff capacity building training	1	Training Report
Number of compliance reports submitted	1	Report
Implemented CLMC	1	CLMC
Appointed new CLMC members	1	Council
Developed new training calendar	1	Calendar
Trainings provided in provinces	6	Trainings
Reviewed training modules	1	TOR
Developed training guidelines	1	Report
Developed a Cooperative Human Resource hand book	1	HR Hand book
Conducted women leadership cooperative program	40	Training
Strengthened PPP between Cooperatives and government	1	MOU
Conducted feasibility on electric cooperative societies	1	Report
Course development	1	Report
Registration fees	1	Fees
Submit TOR for consultant	1	TOR

Activity MTJF: ORCBDS Provincial Extension Services

Activity Cost 45,363,552

Objectives

Cooperative governance framework

Cooperative Audits

Compliance and Monitoring

Financial Analysis and Reporting
 ICT Consumer and other cooperative developments
 Establish working relationship with partners
 Cooperative Development Fund projects
 Establishment of Tertiary or Secondary Cooperative Society
 Means of Service Delivery
 Provide support for compliance and monitoring framework
 Conduct governance and capacity building workshops for cooperative societies
 Redevelop and redesign the cooperative audit program
 Conduct financial and management audits
 Develop annual and quarterly compliance and monitoring report
 Facilitate new registration process for potential Cooperatives throughout Vanuatu. Revival of dormant cooperative societies
 Facilitate complaints and dispute
 Strengthen producer cooperative societies and savings and credit
 Advisory visits to cooperative societies
 Facilitate automated MIS to analyse cooperative societies performance
 Provide support to cooperative societies to use technology for all type of cooperative societies.
 Facilitate and implement MOU with working partners.
 Facilitate contract for cooperative managers
 Data input in CIMS and Excel
 Facilitate renewal of registration for cooperative societies
 Collect revenues
 Establish secondary and tertiary cooperative society align with government economic corridor policy.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Provided compliance and monitoring report	12	Report
Conducted governance workshops	50	Report
Provided capacity building trainings for cooperative societies	6	Report
Completed Savings and Credit audit template	1	Template
Conducted financial and management audit	100	Percentage
Facilitate new registration process for potential Cooperatives throughout Vanuatu.	50	Potential Cooperatives identified
Revived dormant cooperative societies	12	Cooperative Societies
Managed complaint and dispute	12	Report
Strengthened existing producer and Savings and Credit cooperative societies	47	Cooperative Societies
Conducted advisory visits to Cooperative Societies	283	Report
Cooperatives trained to operate MIS	6	Automated Management System
Facilitated MOU with working partners	2	MOU
Facilitate employment contracts for Cooperative managers	12	Contracts
CIMS and Excel updated	4	Reports
Facilitated renewal of registration of cooperative societies	224	Renewal Certificates
Collected revenue	1	Revenue
Facilitate establishment Secondary and Tertiary Cooperative societies	6	Report

MINISTRY OF EDUCATION AND TRAINING

Ministry of Education and Training Budget Overview

Total Government Cost: 15,036,254,612

Budget Breakdown:

Recurrent: 13,327,587,931

Cash Grants & Aid in Kind: 1,708,666,681

Introduction

The Ministry of Education & Training (MoET) is responsible for implementing the Government's key policies – An inclusive and equitable quality education system with life-long learning for all. The main aim of this policy is to develop and strengthen all sectors/levels of education to ensure that all of Vanuatu's children receive a quality education to at least Year 10.

The Vanuatu Education and Training Sector Strategy (VETSS 2019-2030) integrates the policy objectives of the National Sustainable Development plan (2016 – 2030). The Current Corporate Plan focuses on three key Strategic Goals including:

1. Access: To increase equitable access to education for all people at all levels of education in Vanuatu.
2. Quality: To improve the quality of education outcomes in Vanuatu.
3. Management: To improve and strengthen the management of the education system in Vanuatu.

The Ministry of Education is governed through parliamentary regulations including;

- Education Act No: 9 of 2014
- Education Regulation Order No: 44 of 2005
- Teaching Service Commission Act No: 38 of 2013
- Vanuatu Institute of Technology Act No: 24 of 2001
- Vanuatu Institute of Teacher Education Act No: 25 of 2001
- Vanuatu Qualifications Authority No. 1 of 2014

The Ministry has 7 major programs to implement the Government 2026 Policy Objectives:

MEB-Executive and Corporate Services

MEC-Education Services

MEI-Corporate Services

MEJ-Education and Training Services

MEL-Access Pillar

MEM-Quality Pillar

MEN-Management Pillar

PROGRAM MEB: EXECUTIVE MANAGEMENT AND CORPORATE SERVICES

Program Cost: 931,678,581

Objectives:

To provide effective and efficient management of the overall operations and outcomes of the Ministry of Education

Activity MEBA: Office of the Director General

Activity cost:0

Cash grants & Aid in Kind : 481,378,581

Objectives

To provide advice to the Minister of Education & Training to ensure legislations and policies relating to education are implemented and maintained;

To ensure the effective and efficient functioning of the Ministry of Education & Training;

To adequately resource the decentralized education administration to effectively manage and operate schools and training providers.

Activity MEIA: Corporate & Planning Services

Activity Cost:

Cash Grants & Aid in Kind: **590,750,100**

Educational Bodies Coordination Unit

To ensure the proper coordination of the Vanuatu National Commission for UNESCO Office and other educational bodies.

Procurement Unit

- Manage and coordinate preparation and implementation of the government procurement legislations; and
- Manage and coordinate the design, development and maintenance of MoET procurement guidelines.

Human Resource Management Unit

- To ensure appropriate staffing of the Ministry and manage compliance with the Employment Act, the Public Service Commission Act and the Teaching Service Commission Act and regulations in relation to employment.

Finance Unit

- To ensure efficient and effective financial and management accounting services to the Ministry and manage compliance with the requirements of the PFEM Act and Finance Regulation.

Asset & Administration Unit

- To manage and coordinate preparation and implementation of the Asset Management Strategy and the design, development and maintenance of education and training facilities.

Information & Communication Technology Unit

- To manage and coordinate the design, development and maintenance of the Ministry of Education and Training and schools information and communication technology systems.

Policy and Planning Unit

- Ensure Policy developments & Plans are effectively coordinated and are carried out using centralized methods and procedures

Research Unit

- Ensure research development activities are coordinated and are carried out using centralized methods and procedures to inform policy decisions

Human Resource Development Unit

- Ensure a well-coordinated plan on the MoET Human Resource Capacity development is developed and implement

SEO Conference & Workshop

- To ensure the senior consultation forums and workshops for the Ministry of Education and Training held are policy driven in nature and are held to collectively agree on the planning of the education and training sector.

Education Services Unit

- To assist the Director of Education Services to oversee the implementation of the work plan for the respective units within the Education Services Directorate.
- To manage and oversee the implementation of the activities for the delivery of Early Childhood Care & Education, Primary Education, Secondary Education, Technical and Vocational Education and Training in Schools, National Education Programs, and the National School Sport.
- To support school communities and teachers to develop education outcomes at all levels;
- To manage and administer schools at all levels throughout Vanuatu to provide quality education outcomes; and
- To support the development and implementation of Education Services policies for a clear and effective service-deliveries at the levels of province, zone, school, institutions and scholarship.

National Early Childhood & Care Education Unit

- To manage the National Education policies and procedures and to supervise, coordinate and ensure effective administration and high standard of Early Childhood & Care Education in Vanuatu.

Primary Education Unit

- To manage the National Education policies and procedures and to supervise, coordinate and ensure effective administration and high standard of Primary Education in Vanuatu.
- To continuously provide and support government and government assisted primary schools throughout Vanuatu.
- To effectively and efficiently coordinate and administer primary school operations.

Secondary Education Unit

- To manage the National Education policies and procedures and to supervise, coordinate and ensure effective administration and high standard of Secondary Education in Vanuatu.
- To continuously provide and support government and government assisted secondary schools throughout Vanuatu.
- To effectively and efficiently coordinate and administer secondary school operations

Technical, Vocational Education and Training in Schools Unit

- To Coordinate the development of the Technical, vocational Education and Training in schools

National Education Programs Unit

- To continuously provide and support government and government assisted primary schools throughout Vanuatu.
- To effectively and efficiently coordinate and administer national education programs.

National School Sports

- To identify young potential athletes at the early years and develop them to represent the country in regional and international sports tournaments.

Training & Scholarship Coordination Unit

- To manage and coordinate scholarships for relevant and appropriate tertiary and post schooling education in line with the Provincial Skills Strategies and the National Human Resource Plan to meet the qualified and skilled labour force demands and needs of Vanuatu.

Technical & Vocational Education and Training Unit

- To support and administer appropriate and relevant TVET and post schooling education in line with the Provincial Skills Strategies and National Human Resource Plan at all levels of education throughout Vanuatu.

Higher Education Unit

- To support, administer and deliver a quality higher education for all citizens throughout Vanuatu.

Teacher Education Unit

- To support and administer the delivery of a quality teacher education and training program to enable better teaching and learning outcomes.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Implementation of Education Bodies Coordination Unit Business Plan.	100	Percentage
Vanuatu National Commission is established	100	Percentage
Implementation reports produced.	100	Percentage

Procurement Unit

Objectives

Manage and coordinate preparation and implementation of the government procurement legislations; and
Manage and coordinate the design, development and maintenance of MoET procurement guidelines.

Means of Service Delivery

MoET procurements are conducted according to the Internal Procurement Guideline and the Tenders' Act

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Implementation of the Procurement Unit Business Plan.	100	Percentage
Procurement Guideline for Provinces and Schools finalized	100	Percentage

Information & Communication Services

Objectives

- To strengthen the effectiveness and efficiency of the Communication and Information Unit.

Means of Service Delivery

- Establish and strengthen the Communication and Information Unit and manage the office effectively and efficiently.
- Develop policies, guidelines, procedures, processes and systems for managing Communication and Information Unit.
- Manage the development, implementation, monitoring and reporting of its corporate and annual work-plan including the Communications Strategy.

- Ensure that adequate resources are made available to carry out its mandated responsibilities
- Provide and submit regular monitoring and evaluation reports to the senior management.
- Finalize the Education Communication Strategy
- MoET activities Effectively communicated to the general public including the stakeholders/Communities

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Implementation of the Communication Unit Business Plan.	100	Percentage
Communication Strategy approved.	100	Percentage
Use of radio programs.	100	Percentage
Updated news in the Ministry of Education and Training Management Web-page.	100	Percentage
Use of social media (newspaper/Facebook).	100	Percentage
Quarterly Newsletter is produced.	100	Percentage

School Statistics and Mapping Unit

Objectives

- Conduct, manage and coordinate statistical, school mapping and education management information activities using the Open Vanuatu Education Management Information System.

Means of Service Delivery

- Manage and coordinate Open Vanuatu Education Management Information System and the annual school survey processes.
- Develop Annual Statistical Reports.
- Analytical Annual Statistical Reports.
- Manage and update the School Registry.
- Finalize the Mapping of all school locations.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Implementation of the School Statistics and Mapping Unit Business Plan.	100	Percentage
Open Vanuatu Education Management Information System is functional.	100	Percentage
Annual Statistical Reports are approved	100	Percentage
Analytical Annual Statistical Reports.	100	Percentage
School registry is updated.	100	Percentage
School Mapping Report is updated.	100	Percentage

Maintenance & Utilities

Objectives

- To ensure essential utility services such as electricity, water and telecommunication are maintained to ensure smooth operations of the offices under the Ministry of Education and Training.

Means of Service Delivery

- Electricity, water and telecommunication bills are paid on time.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Monthly electricity, water and telecommunication bills are paid.	100	Percentage

Contracts and Agreements**Objectives**

- To manage compliance of the Ministry of Education and Training signed contracts and agreements.

Means of Service Delivery

- Manage and comply with contractual obligation with the following contracts and agreements in a timely manner;
- Security Services contract.
- Manage the labour contracts for the construction of classrooms under Japan's Grant Assistance for Grassroots Projects.
- Manage the supply contracts with suppliers for the projects for the construction of classrooms under Japan's Grant Assistance for Grassroots Projects.
- Manage the employment contracts with employees.
- Manage the Early Childhood Care Education with World vision.
- Manage the joint partnership agreement with development partners.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Compliance with all contracts and agreements.	100	Percentage

Facilities Maintenance Fund**Objectives**

- To develop and implement policies and procedures to protect and maintain the standard of education property and assets.

Means of Service Delivery

- Review and implement Schools Maintenance Policy.
- Complete asset survey for remaining Primary Schools in remote locations.
- Implement Asset Management Strategy for Primary Schools.
- Implement Facilities Policy (in relation to the Facilities Standards)

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Schools Maintenance Policy reviewed	100	Percentage
Asset survey of remaining primary schools is complete.	100	Percentage
Capital works plan for primary schools are developed in line with the Asset Management Strategy.	100	Percentage

Activity MEID: Provincial Education Offices & Education Authorities

Activity Cost: 68,000,000

Provincial Education Office (Torba, Sanma, Penama, Malampa, Shefa, Tafea)

Objectives

- To ensure effective management, support and operation of all schools and training providers in any province.

Means of Service Delivery

- Manage and operate schools.
- Conduct teacher support visits to all schools.
- Coordinate examination processes.
- Facilitate teacher postings.
- Conduct School Management mentoring.
- Manage the implementation of Open Vanuatu Education Management Information System.
- Coordinate and supervise facilities project.
- Provide Early Childhood Care & Education, primary, secondary and training provider support.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Implementation of any provincial Education Office Business Plan.	100	Percentage
Teacher observation reports produced.	100	Percentage
Examination years sit national and regional exams.	100	Percentage
Timely implementation of teacher postings.	100	Percentage
School Improvement Plans received from schools.	100	Percentage
100% survey forms return and all school data are entered into open VEMIS on time.	100	Percentage
Provincial Early Childhood Care & Education primary, secondary and training provider quarterly reports produced.	100	Percentage

Government Assisted Education Authority

Objectives

- To ensure effective management, support and operation of all schools and training providers for the ten education authorities, namely, Catholic, Protestant, Presbyterian, Seventh Day Adventist, Churches of Christ, Apostolic, Bahai, Assemblies of God, Anglican Church of Melanesia, and Neil Thomas Ministry.

Means of Service Delivery

- Manage and operate schools.
- Conduct teacher support visits to all schools.
- Coordinate examination processes.
- Facilitate teacher postings.
- Conduct School Management mentoring.
- Manage the implementation of Open Vanuatu Education Management Information System.
- Coordinate and supervise facilities project.
- Provide Early Childhood Care & Education, primary, secondary and training provider support.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
-------------	----------	-----------------

Implementation of the Business Plan for the following education authorities; Catholic, Protestant, Presbyterian, Seventh Day Adventist, Churches of Christ, Apostolic, Bahai, Assemblies of God, Anglican Church of Melanesia, and Neil Thomas Ministry.	100	Percentage

 - Develop strategies for the implementation of the national primary curriculum aligned with the curriculum relevant policies
 - Develop the Assessment and Monitoring tools to enhance the effectiveness of the implementation
 - Develop benchmarks (Learning Standards) to enhance literacy and numeracy in primary level
 - Review VANSTA benchmarks to align with the new curriculum
 - Develop teachers guides and support resources for year 4-6 curriculum

Performance Measurement (Service Target)

Description	Quantity	Unit of Measure
Implementation of the Curriculum Development Unit Business Plan.	100	Percentage
Teachers guide year 1, 2 & 3 (Math, Science Language &	100	Percentage

Communication) approved		
Junior & Senior Secondary syllabuses & Teachers Guide for Years 7 – 13 approved.	100	Percentage
7 technology subjects curriculum completed by CDU	100	Percentage
No of schools implementing year 1 Math, Science, Language & Communication	100	Percentage

Examination & Assessment Unit

Objectives

- To ensure that relevant examinations and assessments are developed and administered to monitor the academic progress of students in schools.

Means of Service Delivery

- Develop and Coordinate administration of all National Internal Assessment Tasks
- Carry out Quality Assurance Measures as prescribed in the Rules and Procedures and NARP in Assessment to ensure accuracy, reliability and validity in the administration, implementation and result processing of all National Internal Assessment Programs of 2017. Examples:
 - Verification Visits to all identified (of concern)
 - Moderation of all IA as prescribed in the prescription
 - Formalize Common Assessment Tasks for Year 10
 - Facilitate training for national contractors
 - Facilitate school based training/ workshops in assessment
- Develop a common assessment and reporting system for the senior level that is aligned with the new curriculum approach of out-come based.
- Coordinate marking of all national examinations administered by EAU.
- Develop and administer the final Vanuatu National Assessment for Literacy, Numeracy and Life Skills, monitoring instrument, VANSTA (Vanuatu Standardized Test of Achievement), for Years' 4, 6 and
- Finalize the Vanuatu national intervention instrument for Literacy, Numeracy and Life Skills, ARTTLe (Assessment Resource Tool for Teaching and Learning) for Years 3, 5 and 7 by aligning with the new curriculum.
- Liaise with CDU in preparing/developing the anticipated new reporting system of national examinations (i.e. Out-come based reporting system).
- Continue to develop EAU's first national assessment Item Bank.

Performance Measurement (Service Target)

Description	Quantity	Unit of Measure
Implementation of the Examination and Assessment Unit Business Plan.	100	Percentage
Titan Item Analysis Reports for all subjects of 2018 examinations	100	Percentage
Examination analysis report approved and submitted to Senior Management.	100	Percentage
Assessment Resource Tool for Teaching and Learning (ARTTLe) documents completed, training provided for teachers and ready for administration in all Year 3, 5 and 7 classrooms in the country.	100	Percentage
VANSTA 4 and 6 administered.	100	Percentage
Quality Assurance Measures are administered for national contractors and schools. - School Based Assessment Workshop (identified schools/teachers) - Workshop for national Writers, Moderators and Markers. - School Assessment Coordinators	100	Percentage

Item Bank folder and template developed and ready for use.	100	Percentage

School Improvement Unit

Objectives

- To undertake the inspection and monitoring of teachers and schools to ensure quality performance.
- To support and strengthen school management and leadership.
- To engage and empower communities to actively participate in schools planning and its implementation

Means of Service Delivery

- Coordinate the implementation of the Principals standards in the secondary schools.
- Coordinate the implementation and monitoring of Minimum Standards of Primary School.
- Conduct schools and teachers observation and write up their reports.
- Develop indicators for teachers' standards.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
200 teacher's inspection reports.	100	Percentage
40 schools inspection reports	100	Percentage
60 implementation plan and report for secondary schools.	100	Percentage
Primary schools principals leadership training manual	100	Percentage
Teachers standards indicators	100	Percentage
406 copies of School Improvement Annual Plans and reports from primary schools	100	Percentage

Zone Curriculum Advisors

Objectives

- To ensure all primary teachers in all government and government-assisted primary schools are supported through in-classroom observation and teacher advice and training.

Means of Service Delivery

- Provide support by undertaking in classroom observation, mentoring and training of teachers.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Implementation of the Zone Curriculum Advisors Business Plan.	100	Percentage
Assistance and advise to teachers for delivering the New Curriculum	100	Percentage
Identification and administration of training need	100	Percentage
Monitoring of School Improvement plan (SIP)	100	Percentage
Monitoring and validation of school data	100	Percentage
Monitoring of Teaching and Learning	100	Percentage
Reporting on teachers and principals low performance	100	Percentage
Monitoring and Reporting on school facilities resources.	100	Percentage
Monitoring of Minimum Quality Standards in schools and other Standards.	100	Percentage
Monitoring of performance of School Council and School Community Association	100	Percentage
Assistance and implementation of National school programs	100	Percentage

Activity MEJC: Grants

Activity cost: 47,400,000

Objective

To subsidies access to education and successful delivery of education programs in Vanuatu throughout the year

- Early Childhood Care & Education Grant
- Primary Schools Grant
- Secondary Schools Grant
- USP Fencing Grant
- Fiji Education Attaché Office
- Vanuatu National University Grant
- Vanuatu Institute of Teacher Education Grant
- Untrained Teachers Program Grant
- Vanuatu Institute of Technology Grant
- Rural Training Centers Grant

Means of service delivery

- Pay lump sum grant to Pre-School Association Blong Vanuatu
- Pay 60% grant in January and 40% grant in July to all Government and Government Assisted primary schools.
- Pay 60% grant in January and 40% grant in July to all Government and Government Assisted secondary schools
- Pay lump sum grant to Education Attaché Account in Fiji.
- Pay 60% grant in January and 40% grant in July to the University Project Development.
- Pay 60% grant in January and 40% grant in July to the Vanuatu Institute of Teacher Education.
- Pay 60% grant in January and 40% grant in July to the Vanuatu Institute of Teacher Education.
- Pay 60% grant in January and 40% grant in July to the Vanuatu Institute of Technology

- Pay lump sum grant to Rural Training Centers in January

Performance Measure (Service Target)

Description	Quantity	Unit of Measure
Grants are paid	100	Percentage
Acquittal reports of grants are provided	As required	reports

PROGRAM MEL: ACCESS PROGRAM

Program Cost: 3,790,923,464

Objective

- Improvement in Gross and Net enrolment rates,
- Increase in retention and completion rate,
- Decrease in the repetition rate and,
- Increase enrolment of children with special needs.

Activity MELA – Increased Access to Schools Activity

Cost:1,905,591,717

Objective

- To ensure all school age children attend schools,
- Promote lifelong learning opportunities to all children.

The following cost centres 53DA, 53EC, 53FC and 53FC, are the main contributor to the delivery of the above activity.

Despite of the fact that these cost centres exist with allocated budgets, the directorate responsible for the cost centres has not capture them in their 2026 planning. However, there are several other cost centres that have indicated support to the activity as per the table beneath.

Description	Quantity	Unit of Measure
School fee structure developed	27 schools by November	Report
Fee structure for Sanma schools checked and approved	80 school fee structure checked and approved by august.	Report
School finance is maintained and uploaded in OV by schools-	1	Report

Finance Policy is developed and implemented	100	Percentage
School assessment conducted and report(s) delivered.	Assess 10 schools	Report
Conduct a desktop study to assess the capacity of selected centre schools in Vanuatu to accommodate the full junior secondary cycle (Years 7–10) by July	15 Centre Schools	Assesement
Education Authority and School Registration Policy implemented	10 Education Authorities Application	Report
School Register produced by February	1	Report
School registration status updated in OV by December for all registered schools	Update 10 registered Schools	Report

Activity MELB – Infrastructure and Assets meet Standard.

Activity Cost:45,197,123

Objective

- Ensure compliance with building codes and standards,
- Ensure there is institutional frameworks for infrastructure management,
- Ensure sustainable and resilient infrastructure.

The following cost centres 53 AJ and 82 AC are the main contributor to the delivery of the above activity. However, there are several other cost centres according to the 2026 MoET planning that have indicated support to the activity as per the table beneath

Means of Service Delivery:

- Support the establishment of internet connectivity for schools/PSET institutions
- Strengthen asset management
- Strengthen asset management
- Strengthen asset management
- Monitor implementation of WASH policy
- Monitor implementation of WASH policy
- Infrastructure provided for children/learners with special needs

Performance Measure (Service Target)

Description	Quantity	Unit of Measure
Strengthen internet Connectivity in Torba (Provincial education office, 2 schools)	3	Report
Initiate planning for new schools in Shefa	1	Report
Initiate planning for new senior secondary in Malampa	1	Report
Support and assist the recruitment of junior secondary school optional subject teachers	1	Report
Scale up WinS scale nationwide	4	Report

WASH facilities in schools have been improved.	10 ECCE, 10 Primary schools, 3 Secondary schools by September	Report
Baseline survey on inclusive accessibility is conducted	27 Primary Schools	Report
Santa Maria French Secondary School is supported	1 school	Report
New school supported (BLMS Year 11 Francophone, BLMS Year 11 Science, BLMS Year 11 Science, Telhei Year 11 Arts and Science, Bagavegug Secondary.)	3 Secondary Schools	Report

A national PE syllabus for Years 7 to 10 is developed	1	Report
A PE technical Advisory Committee is established	1	Report
The VNSG Council is established and holds regular meetings.	1	Report
PENAMA2026 LOC members endorsed	1	Report
HPS provincial activities implemented	12 ECCE, 8 Primary, 2 Secondary schools	Report
Inclusive Education initiatives, SEN children supported	10 schools	Report
Coordinate National Secondary School Games preparation	listing and logistics Preparations documented and reported	Report
BMI data updated and loaded	87 Primary Schools, Students BMI are uploaded into OV by June	Report
SBDRR handbook implementation is conducted	10	Report
Collaboration between Health and Education for reactivation of aid post within schools/PSET is facilitated.	5	Report
Women in Education program implemented	1	Report
Potential safe school sites identified and held consultation with ESD Director and Stakeholders	Conduct 1 consultation with Director and Stakeholder by August	Report
Assessment of Education Authorities conducted using compliance checklist	Conduct 11 EA Assessments by July	Report

Activity MELF – Increased Access to PSET Institution Activity

Cost: 1,837,605,632

Objective:

- Enhance skills for economic development,
- Promote inclusive and equitable access,
- Strengthen quality assurance and standards,

- Foster collaboration with industry and
- Support lifelong learning opportunities

Means of Service Delivery:

- Support the establishment of VIT campuses in provinces
- Support the registration process of PSET Providers
- Support the PSET institutions to develop courses that meet VQA requirements.
- Support the PSET institutions to develop courses that met VQA requirements
- Support the registration process of PSET providers
- Support the establishment of VIT campuses in provinces

Performance Measure

Description	Quantity	Unit of Measurement
Penama VIT Centre establishment process is coordinated. (Capital Project)	1	Report
Assist non-registered providers to apply for registration and for providers externally reviewed to apply for renewal of registration	30 PSET providers meeting the registration requirements are registered by the VQA Board	Percentage
Assist Registered PSET Providers and consultants to develop quality courses and NHRD priority occupations for accreditation at level 3 and above	Quality courses are developed.	Report
Institutional capacity strengthening	12	Report
Quality Assurance for registration status is verified and complied with VQA requirements	12	Report
Feasibility Study conducted	5	Report

PROGRAM MEM – QUALITY

Cost: 269, 501,738

Objective:

- Enhance teacher quality and professional development,
- Promote inclusive education,
- Improve learning outcomes,
- Strengthen education infrastructure and
- Enhance governance and accountability

Activity MEMA – Curriculum Implementation

Activity Cost: 269,501,738

Objective

- Enhance teaching quality,
- Promote inclusive education,
- Strengthen curriculum alignment and
- Integrate climate change education.

Means of Delivery:

- Support the development of the New Curriculum
- Mentoring teacher training of new curriculum
- Support provided to develop and resource schools
- Monitoring is provided of the new curriculum implementation

Performance Measure

Description	Quantity	Unit of Measurement
Curriculum Improvement Program Plan concept established identified weak subjects from Primary to Senior Secondary	3	Report
Vanuatu National Curriculum Statement Policy reviewed	3	Report
Curriculum and Assessment board is Strengthened	3	Report
Examination and standardize tests results data are used to inform decision making for improvement of teaching and learning	1	Report
Visits to Schools	100	Percentage
Vanuatu National Curriculum Statement Review	1	Report
Print teaching and learning resources for Schools	100	Percentage
Teachers Trained in new curriculum	100	Percentage
Develop strategy to improve students' academic result (primary and secondary)	1	Report
Vernacular resources development and support	100	Percentage
Life skills resources are purchased	5	Reports
Implement appropriate components of the new Curriculum	100	Percentage
Monitor implementation of new curriculum	100	Percentage

PROGRAM MEN – MANAGEMENT

Program Cost: 9,267,162,729

Objective

- Enhancing leadership and governance,
- Improving teacher management,
- Strengthening accountability and data utilization,
- Community and parental engagement and
- Resource optimization.

Activity MENA – Teacher/Trainer Management Activity

Cost:7,831,808,817

Objective

- Developing subject matter expertise,
- Enhance instructional techniques,
- Fostering effective communication,
- Adapting to diverse learning styles,
- Managing group dynamics,
- Utilizing technology and tools,
- Implementing effective training evaluation,
- Building confidence and empathy,
- Understanding adult learning principles and
- Continuous professional development.

The following cost centres 53AB, 53AF, 53AG, 53AH, 53AI, 53DB, 53EA, 53EB, 53ED, 53FA, 53FB, 53FD, 54AC, 88AC, 88AD, 88AE, 88EA, 88EF, 88FA and 88FD, are the main contributors to the delivery of the above activity.

Despite of the fact that these cost centres exist with allocated budgets, the directorate responsible for the cost centres has not captured them all in their 2026 planning. However, there are several other cost centres that have indicated support to deliver the activity as per the table beneath.

Means of Delivery

- Support the updating and implementation of teacher / trainer recruitment policies and procedures.
- Support the updating and implementation of teacher /trainer recruitment policies and procedures.
- Support the establishment and implementation of policies and procedure for monitoring of teachers/trainers' performance.
- Develop payment plan and support teachers access funds

Performance Measure

Description	Quantity	Unit of Measure

		business operates
--	--	-------------------

Activity MFIF: Grant SPBEA

Activity Cost: 141,003,971

Introduction

The Vanuatu Government through the Ministry of Education contributes funds to educational institutions, which assists in developing the country's Education system, and also enhances the education of students at tertiary level

Objectives

- Ensure the effective operation of the University Campus in Fiji.
- Ensure that appropriate educational syllabus is provided for the children of Vanuatu.
- Ensure the effective operation of the DAEU/USP Program.

Means of Service Delivery

- Annual contributions are made to the Educational Institutions.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Quality education is maintained in the Pacific region.	100	Percentage

Activity MFIH: Vanuatu Maritime College

Activity Cost: 50,174,434

Objectives

- Enable ni-Vanuatu seafarers to develop the skills necessary for employment and personal advancement in the maritime and fishing industries;
- Prepare ni-Vanuatu for employment aboard international vessels, thus creating career and development opportunities and the chance for seafarers to remit foreign earnings to Vanuatu;
- Ensure that all Vanuatu domestic vessels are able to employ properly trained and qualified personnel;
- Provide training to port and harbour sector workers to augment port security and effectiveness;
- Support the fishing sector and enable people in rural areas to develop fishing skills and the potential for small business development; and
- Meet the emerging needs of the community.

PROGRAMME OBJECTIVES

1. The priority of the college remains the development of links to employment for prospective and graduating students in both the maritime and fishing sectors. To this end a proposal for donor funding to support the upgrading of the training offered will be presented to donors. This will involve the provision of international officer training to allow our best qualified school leavers to enjoy a satisfying and lucrative career, and also bring tangible financial benefits to Vanuatu.

1. During 2011 there will be a focus on the development of more competency-based assessment and teaching so as to ensure our domestic seafarers are able to carry out their roles at sea effectively and efficiently.
2. A programme of staff development across the college will ensure that the staff remain motivated and professional in their roles.

3. The rural fishing programme will continue to be delivered across Vanuatu in collaboration with the fisheries department and regional governments. The provision of additional courses designed to enhance the development of coastal fisheries will be carried out. The college will continue to host the SPC Extension Officer Course and will pursue opportunities to run courses for the Forum Fishing Agency.
4. The ongoing support of SPC will be used to develop the capability of the college to deliver fishing courses to a wider group of stakeholders.
5. The Quality Management System will be fully reviewed during 2011.

Means of Service Delivery

- Training for the maritime sector will continue to be delivered at the College by means of competency-based modules.
- Rural fishing training will continue to be delivered in remote communities using the Maritime College fishing vessels.
- Fishery training for SPC will be delivered using college fishing vessels.
- Training for other sectors will be delivered in accordance with customer requirements.
- All training will be delivered strictly in accordance with the Quality Management standards of the college and, where appropriate, VNTC standards

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
A 15% increase in Equivalent Full Time Students over 2009 figures.	15	Percentage of total number of students enrolled
Deliver two SPC international fishing courses	2	Number of fishing courses

Activity MFII: Utility Regulatory Authority (URA)

Activity Cost: 67,226,099

The Utilities Regulatory Authority was established on the 11 February 2008 under the Utilities Regulatory Authority Act No. 11 of 2007 (the URA Act). The URA Act established the Authority as an independent economic regulator for pricing, access, standards and monitoring of concession agreements. The regulated services defined in the URA Act are the supply of electricity or water services.

Objectives

1. To exercise the functions and powers conferred by the URA Act or by any other Act in furtherance of the purpose of the Act;
2. To provide advice, reports and recommendations to the Government relating to utilities;
3. To inform the public of matters relating to utilities;
4. To assist consumers to resolve grievances;
5. To investigate and act upon offences under the URA Act;
6. To advise the Minister on any other matter referred to the Authority by the Minister; and
7. To administer and monitor compliance of Concession Agreements under the URA Act.

Means of Service Delivery

- Review of Electricity Tariff for Port Vila, Malekula and Tanna
- Develop a set of Approved Standards for Water Utility Compliance
- Develop a set of Approved Standards for Electricity Utility Compliance

- Develop a special tariff for business development in Port Vila
- Conduct a review of Feed In tariff and net metering scheme

Performance Measures (Service Targets)

Description	Quantity	Unit of Measure
Revised tariff rate for Unelco Concession following tariff review	10	Percentage of total tariff showing revision
Draft Report complete on approved Standards for Water Utility Compliance	1	Report approval date
Draft Report complete on approved Standards for Electricity Utility Compliance	1	Report approval date
Cheaper electricity tariff to attract business to do business in Vanuatu	10	Percentage of total tariff showing revision
Review of Feed In tariff and net metering scheme	1	Report approval date

Activity MFIJ: Vanuatu Agriculture College

Activity Cost: 86,325,933

Objectives

- Compliance with part 3 of vac act no. 51 of 2005
- Improve good governance and accountability at the college as laid out in section 7 of the VAC Act No.51 of 2005;
- Co-ordinate efforts to create conditions for a sustained development and implementation of the purpose of the college as determined under section e of the VAC Act No.51 of 2005;
- To ensure that Government policies are effectively implemented;
- To ensure that policies and courses at the college effectively address & provide appropriate training of farmers and acquisition of farming technologies and skills for enhancing agricultural production in Vanuatu;
- To pursue funding and support for the college from appropriate sources;
- To oversee the efficient and effective management of the college;
- To ensure that the college fulfils its purpose and performs its function in a responsive and innovative way.

B. EXECUTIVE MANAGEMENT

- Provide leadership in management of the college resources;
- Implement Council policy directives;
- To provide advice to the Minister, Director General and the College Council where necessary;
- To ensure adequate resource support is obtained to achieve the strategic and operational goals of the college;
- To ensure that college courses and training are in line with the core function of the college as set out in section 3 and 4 of VAC Act 51 of 2005.

C. AGRIBUSINESS TRAINING PROGRAM

- To play a leadership role in training farmers to farm as a business in areas of agriculture, forestry, fisheries, and livestock with objective of contributing to the economic and social development of

Vanuatu.

- To empower the people of Vanuatu by making them realize the importance and how to make use of their economic resource endowment.
- To up-skill people identified as requiring training needs through VAC
- To monitor the delivery and quality standards of training and assessment

D. FARMING

- Provide an effective teaching resource for students;
- Provide a cost recovery cash income stream for the VAC recurrent budget; and to contribute towards the development of the VAC programs and activities.

E. CORPORATE SERVICES

Financial Management and Accounting:

- Provide the Council and the Principal with up-to-date records on matters relating to college budget management;
- Provide monthly management accounts, quarterly, half-yearly and yearly accounts for the college;
- Monitor College budget;
- Liaise with Ministry of Finance and Economic Management on College finance related issues.

Administration:

- Provide management assistance to the Principal;
- Co-ordination of policy development;
- To provide finance management advice to the Principal and Council, where necessary;
- Provide leadership in management of the VAC resources.

Human Resources:

- Perform Human Resource function on behalf of all the Departments;
- Perform payroll processing on behalf of the Departments;
- Provide assistance to the Principal on update budget and HR related issues.

F. INFORMATION AND COMMUNICATIONS TECHNOLOGY

- Networking & Communications;
- Information Systems;
- Support Services; and
- Document Reproduction.

G. LIBRARY SERVICES

- To produce and distribute information to staff, students and the general public;
- To maintain adequate reference books, journals and publications for reference, research and information gathering for staff, students and public.

H. ASSET MAINTENANCE

- To provide appropriate personnel, tools and equipment for effective college asset maintenance programs.

Means of Service Delivery

A. COMPLIANCE WITH PART 3 OF VAC ACT NO. 51 OF 2005

- Provide sound policy advice and support to the Minister, Director General and to the Principal;
- Review and approve appropriate policies, procedures and management structure for implementation by the college;
- Carry out annual financial audit to ensure college funds are utilised solely to carry out its functions as determined under the VAC Act No. 51. of 2005;
- Monitor the performance of college to ensure it carries out its function cost effectively.

B. EXECUTIVE MANAGEMENT

- Scheduling of regular meetings with the staff on policy and Council directives implementation;
- Provide regular brief to the College Council either in writing or verbally;
- Tabling policies and procedure papers at Council meeting;
- Control of College Budget;
- Exercise appropriate duty and care of college assets;
- Oversee course contents and delivery methodology;
- Innovation through pursuit of opportunities and excellence for the college;
- Create awareness and understanding among college personnel to ensure that college resources are properly managed to achieve its core functions;
- Introduction of risk management consciousness into all levels of management.

C. AGRIBUSINESS TRAINING PROGRAM

The provision of technical and academic courses designed to achieve the college's objectives, including short (attainment certificate) and extended (certificate and diploma) courses accredited by VNTC;

- Determine and continuously review the curriculum and content of the courses to ensure their continuing relevance to the training needs of the Vanuatu people;
- Consult with the MAQFF, the MOE and other appropriate bodies to ensure that the college's courses are relevant and of sound quality;
- Award certificates and diplomas to students who achieve the required VNTC standards

D. FARMING

The activity will be implemented by one farm manager and two farm hands and where possible liaise with the business training department to ensure farm activities correlate to students practical sessions;

- Review and improve existing farms' infrastructure to meet module needs;
- Setting up of demonstration plots and nurseries;
- Schedule farm activities to involve students during practical sessions.

E. CORPORATE SERVICES

Financial Management and Accounting:

- Regular financial reports;
- Annual audited financial reports to the College Council and the Ministry of Finance.
- Process accounts receivables and payables;
- Monitor expenditure against budget;
- Maintain sound financial management practice to comply with public finance management policy.

Administration:

- Schedule regular meetings with the VAC Managers;
- Provide regular brief to the Principal either in writing or verbally;
- Expenditure control of VAC Budget.

- Human Resources;
- Assessment of HRO needs of VAC;
- Provide advice and assistance on budget preparation with respect to HRO;
- Provide updates on staff appraisal and performance;
- Develop HRD file for VAC staff.

F. INFORMATION AND COMMUNICATIONS TECHNOLOGY

- Review existing ICT infrastructure;
- Identify issues and opportunities for potential improvement;
- Implement improvements;
- Oversee the migration of new staff and students to ICT facilities;
- Provide guidance to non-ICT IT staff (where requested).

G. LIBRARY SERVICES

- Produce and disseminate Agricultural information;
- Enhance the library services to the staff and students;
- Produce leaflets and information sheets for distribution;
- Procure reference, technical and general publications relevant to college activities;
- Facilitate radio programs for reporting of college news

H. ASSET MAINTENANCE

- Qualified and experienced mechanics and skilled tradesmen will concentrate on executing this activity with the assistance of outside contractors, if found necessary;
- Trained staff will ensure appropriate resources available to deliver its program.

Performance Measurement (Service Targets)

Activity MFIL: Grant to VIPA

Activity Cost: 49,115,761

Objectives

The Vanuatu Investment Promotion Authority (VIPA) is established under an Act of Parliament called the Vanuatu Foreign Investment Promotion Act No.15 of 1998. It aims to promote and facilitate foreign direct investment (FDI) in Vanuatu. VIPA is a statutory body under the Ministry of Trade (MTI) and is managed by the CEO who is the head of the Authority. The two core functions under VIPA are promotional & regulatory functions which are mandated by the VIPA Act.

- Increase human resource development at VIPA;
- Improve coordination and implementation of relevant policies of VIPA;
- Promote potential investment opportunities to local & international markets;
- Provide aftercare services to existing investments in Vanuatu

Means of Service Delivery

- Work with Pacific Islands Trade & Investment Commission (PITIC) Sydney and Auckland, PIFTO (Beijing) and other agencies such as ADECAL (New Caledonia), the Forum Secretariat, World Bank (FIAS/IFC) and World Association of Investment Promotion Agencies (WAIPA) to attract foreign investment (investors) to Vanuatu.
- Organize Provincial Investment Consultancy Workshops for the Provinces
- Coordinate ongoing trainings for staffs particularly for the promotional functions
- Prepare specific Sectoral Investment Profiles in liaison with PITIC ANZ & Forum Secretariat
- Improve working relationship with both government & private sectors especially on compliance information issues/matters

Performance Measurement (Service Targets)

Performance Measures	Quantity	Unit of Measure
Preparation of Quarterly Reports	4	Number of reports produced and approved
Preparation of quarterly expenditure and revenue collection reports	4	Number of reports produced and approved
Preparation of annual report	1	Report approval date
Visits to Provinces	6	Number of visits per annum
Establishment of VIPA action plan	1	Action plan approved date
Recruitment of staff for vacant posts as per VIPA Approved Structure	3	Number of signed contracts
Organize monthly Board meetings and submission of investment proposals for approval	1	Number of monthly meeting minutes
Regular visits to project sites	2	Number of visits per annum
VIPA Management Team weekly meetings	52	Number of meeting minutes recorded per annum

Activity MFIN: Grant to Vanuatu National Archives

Activity Cost: 27,584,186

Objectives

The Vanuatu National Cultural Council was established by Act of Parliament in 1988 with the object of

providing for the “preservation, protection and development of various aspects of the rich cultural heritage of Vanuatu, for the provision of public libraries and for the preservation of public records and archives (VNCC Act, Cap. 186).

The National Archives of Vanuatu was formally established as a separate institution by a subsequent Act of f.

Objectives

- Safeguard and preserve for posterity the historic, cultural and other public records of the nation;
- Collect, organize and preserve these records in accordance with professional archival policies and procedures;
- Provide, maintain and enhance Government and general public access to the Archives for the purpose of reference, research and general information, while respecting cultural practices concerning access of information;
- Collaborate with other National Archives, libraries, museums and other appropriate bodies in the promotion of the nation’s heritage; and
- Provide reference services to Government bodies, other organizations and individuals, as required.

National Library Mission Statement

The mission of the National Library of Vanuatu is to:

- Collect and preserve in a special Vanuatu Collection and in Bislama, French, English and the vernacular languages all literature pertaining to and published about Vanuatu: such literature to cover all aspects of Vanuatu’s customs and culture; its social, economic, political and religious life; the land and natural environment; its people, communities, institutions and history. The library will also house Pacific, General and other Collections.
- Encourage and develop public interest in its Collections, including a sense of national pride in and respect for the Collections, which are being preserved, maintained and developed on the nation’s behalf.
- Provide, maintain and enhance public access to the Collections, for the purpose of reference, research and general enjoyment of our national literary heritage.
- Act as a specialized information service and educational tool in assisting students of all ages to access and use reference and other resources for their general and educational benefit.

National Archives Objectives

The main objectives of the National Archives are to:

- Develop Government and public awareness and encourage the implementation of the National Collection Policy, in accordance with the National Archives Act [Cap. 216] and as set out in the Guidelines for Vanuatu National Archives Procedures (pub. Nasonal Akaev, September 2010);
- Encourage general awareness of the importance of efficient record keeping and records management for good governance, transparency and accountability through regular “hands-on” training and workshops;
- Collect, organize and preserve records of national, cultural, political, social, economic, religious and general historical significance. Records may also be acquired by purchase, commission, bequest, gift, specified loan exchange, field collection and abandonment;
- Place emphasis on acquiring archival records that include official printed material, correspondence, machine-readable files, record books, minutes of meetings, committee files, financial records, annual, quarterly and monthly reports, policy and procedures manuals, goals, policies, funding decisions and

general management of major programmes, their services and activities, and documentation including notes, photographs, written accounts and oral histories, as appropriate.

National Library Objectives

The main objectives of the National Library are to:

- Provide, maintain and develop adequate reading, shelving and storage facilities so that researchers, students and the general public may gain maximum benefit from the Collections;
- Act as a continually expanding repository of quality information on Vanuatu and the Pacific region; and
- Maintain and develop the library's database and cataloguing system so that it may eventually be accessible by network to Government Departments and Provincial Headquarters.
- Encourage general awareness and observance of the Deposit of Books Act [Cap 88].

National Archives of Vanuatu

- Ensuring the safe custody, preservation and general management of the National Archives holdings (Archives Act, Articles 4(2) and 5);
- Collecting, organising and preserving the National Archives Collections in accordance with professional, international archival policies and procedures;
- Establishing and maintaining a computerized database of holdings;
- Ensuring that all public records of the age of 15 years or more (other than those which under any Act are required to be held in the custody of a specified person or Government office) are deposited in the National Archives (Archives Act, Article 7(1));
- Keeping registers of acquisitions to and temporary removals from the Archives;
- Collaborating with other National Archives, libraries, museums and other appropriate bodies in the promotion and development of the nation's archives heritage;
- Encouraging (through "hands-on" training and workshops) general awareness of the importance of efficient record keeping and management for good governance and accountability;
- Providing, maintaining and enhancing Government and public access to the Archives for the purpose of reference, research and general information, while respecting cultural practices concerning access to information (Archives Act, Article 14); and
- Assisting Government Ministries and Departments, and other bodies at request in sorting and cleaning their archives, in preparation for deposit with the National Archives.

National Library of Vanuatu

Performance Measurement (Service Targets)

Performance Measures	Quantity	Unit of Measure
Interested farmers to apply for the support through commercial banks	100	Number of customers/farmers received support

MINISTRY OF FOREIGN AFFAIRS, INTERNATIONAL COOPERATION
AND EXTERNAL TRADE

Introduction

Ministry Cost **1,047,904,890**

PROGRAM MOA: CABINET SUPPORT

Program Cost **168,430,751**

Objectives

Since the implementation of the new refreshed structure in 2021, the Ministry has grown exponentially in capacities, resources and connecting nations through the overseas mission establishment and implementation of Vanuatu Foreign Policy.

The Ministry has 3 core Programs:

MOA – Portfolio Coordination, which provides for the Cabinet Operations, Office of the Director General with Corporate Service Unit. (16 % of 2026 budget)

MOB – Department of Foreign Affairs and International Cooperation, has the largest program covering 7 programs at the Ministry and 13 overseas Missions. (78 % of 2026 budget)

MOG – Department of External Trade, is the national focal point for trade policy formulation and trade negotiations. There are 4 programs that are the DoET directions. (5 % of 2026)

Activity MOAA: Portfolio Coordination

Activity Cost **168,430,751**

Objectives

The Corporate Service Unit supports the Director General to achieve the following:

- Promote corporate governance.
- Manage key resources (Staffing, Program evaluation & Monitoring, IT Support, Finance and Administration).
- Maintain the image of the Foreign Ministry and Foreign Service profile
- Develop New Policies Priorities (NPP)
- Compliance reporting to Vanuatu Government agencies.

Strategic Objectives:

The CSU has adopted the following objectives:

- Manage the country's international obligations and relations by mobilizing resources for the effective development of foreign policies;
- Progress the strategic representation of Vanuatu abroad by maximizing opportunities and services;
- Effective and efficient management of resources to create an environment that is conducive to performance and growth of the country's Foreign Service.

Means of Service Delivery

- Sound management of budgetary allocation
- Develop and implement policies that will strengthen Vanuatu's external relations and promote Vanuatu's national interests
- Establishing an efficient and credible Vanuatu Foreign Service
- Develop a Vanuatu Foreign Service Staff Manual and Code of Conduct
- Monitor and evaluation of policies and business strategies

Performance Measurement (Service Targets)

Ministry programs		collected and compiled Quarterly Reports from Departments
Develop standardized templates across the Ministry for quality data collection and reporting against programs	100%	Proportion achieved from standardization of reporting templates across the Ministry
Facilitate RTI requests to the Ministry in compliance with RTI Act	100%	Proportion achieved from facilitation of requests
Develop a Corporate Service Management Information System to enhance workstreams	100%	Proportion achieved from implementing new MIS
Recruitment of Ambassador to Japan	1	Vanuatu Ambassador to Tokyo appointed
Appraisal of all Ministry staff	100%	All staff are appraised

PROGRAM MOB: DEPT OF FOREIGN AFFAIRS

Program Cost **828,093,346**

Objectives

In consistent with the Ministry's Strategic Objectives the Department further developed 6 key objectives to reflect specific activities that each division plans to carry out in 2026 in line with budget realities.

The 6 key objectives are as follows:

To have an ethical, professional, responsive, and high performing Department

Contributing to Vanuatu's Development Agenda through effectively managing Vanuatu's Foreign Relations under the Division's purview.

Effectively manage Vanuatu's foreign relations within Asia and Pacific region.

Effectively Initiate Negotiations and Establish Development Cooperation Programs that underpins Vanuatu's development in alignment to the NSDP.

Effectively manage Vanuatu's foreign relations that underpins Vanuatu's development agenda.

To provide efficient diplomatic, protocol and consular assistance to resident Diplomats and Ni-Vanuatu travelling or residing overseas as well as to non-resident Foreign Diplomatic Missions.

Activity MOBA: Operations of the Department of Foreign Affairs

Activity Cost **718,702,482**

Objectives

To have an ethical, professional, responsive, and high performing Department.

The objective of the Policy and Administrative Unit under the leadership of the Director, seeks to provide efficient administrative support to the Department. Specifically, the Unit has four main areas of undertakings as outlined below;

Means of Service Delivery

Budget and Administrative support

Human Resource Capacity Building

Manage Vanuatu's Diplomatic Missions and Administrative Support

Development of Foreign Ministry Services/Visibility through outreach programs

Performance Measurement (Service Targets)

	Description	Quantity	Unit of Measure
	Budget and administrative support	100%	Proportion achieved
	Human Resource Capacity Building	100%	Proportion achieved
	Manage Vanuatu's Diplomatic Missions and administrative support	100%	Proportion achieved
	Development of Foreign Ministry services /visibility through an outreach program	2	Participate at major events; PSC Day and Head of Missions Meeting.
	Develop the Foreign Service Policy Strategic Action Plan	1	Action Plan developed

Activity MOBB: Europe, Africa, Middle East & America

Activity Cost **17,278,560**

Objectives

Contributing to Vanuatu's Development Agenda through effectively managing Vanuatu's Foreign Relations under the Division's purview

Means of Service Delivery

The Europe/Africa/Middle East/Americas Division manages Vanuatu's relations with 84 countries out of the 121 countries with which the Republic of Vanuatu has diplomatic ties. The Division also manages the country's relations with Commonwealth of Nations, the Organization de la Francophonie (OIF), European Union, US and the Africa Caribbean and Pacific Group of states (ACP).

The main responsibility of the Division is to advance Vanuatu's interest under the Division's jurisdiction, EAMEA.

To achieve this, the Division was tasked:

- i. To effectively manage Vanuatu's relations with States and multilateral organizations under the Division's purview.
- ii. To Provide expert guidance on relevant foreign Policy issues.

MINISTRY OF HEALTH

Total Budget: 5,616,000,309

Ministry Cost: 5,185,747,394

Cash Grant & Aid in kind: 430,252,915

Introduction

The Ministry of Health is led by the Minister for Health and the cabinet, guiding the development and implementation of the Health Sector Strategy 2021–2030 (HSS). At the helm of the Department, the Director General provides technical health guidance to the Minister and oversees the three Directors responsible for Policy, Planning & Corporate Services, Public Health, and Curative & Hospital Services.

Following the National Sustainable Development Plan (NSDP) summit in June 2023, significant resolutions were adopted to drive innovation in program development, aiming to accelerate sector progress toward achieving the NSDP policy goals. This led to the creation of the NSDP Acceleration Plan. During the Director's Summit, convened under the leadership of the Acting Director General at that time, the Ministry of Health Executive prioritized the following strategic objectives for the remaining years leading up to 2030:

1. **Revitalizing and strengthening Primary Health Care**
2. **Implementing the Role Delineation Policy**
3. **Enhancing human resource specialization and upgrading specialized hospitals services.**

The Ministry of Health (MOH) Corporate Plan for 2022–2025 concludes this year 2025 and to support the government's overall approach to transitioning to support decentralization, the Ministry of health internally acknowledged this transition and would also like to reflect some of this transitioning in its new Corporate plan. An internal evaluation guide was developed and shared with all MOH DG, Directors and Cost Center Managers to support their internal reviews and learning in teams in order to inform the new Corporate plan for 2026 - 2030 period. The MOH budget committee led the internal reviews to form a situation analysis of the current situation as well as acknowledging the short falls which are important to inform the new Corporate plan.

The evaluation process centered around three key questions:

1. **Where are we now?** (A situation analysis based on evidence)
2. **Where do we want to go?** (Sector goals within the Health Sector Strategy (HSS), aligned with the National Sustainable Development Plan (NSDP))
3. **How do we get there?** (Replanning and restrategizing to ensure programs are effectively aligned for progress toward achieving the intended health outcomes of the HSS and NSDP by 2030)

Internal reviews conducted at the national level identified several priority areas for improvement:

1. Refining the Ministry of Health's (MOH) medium-term planning to align with the broader government planning framework, ensuring clear monitoring, evaluation and reporting.
2. Strengthening administration and management practices to enhance program effectiveness at all levels.
3. Optimizing resource allocation and ensuring equitable distribution to better address needs across the sector.

Objectives

The main objectives in line with the NSDP acceleration plan as stated above include;

1. Reviving and improving Primary health care
2. Implementing Role Delineation Policy at the remote rural areas and;
3. Addressing human resource specialization and equipment in all hospitals.

The six (6) Health Sector Strategy 2021-2030 (HSS) goals aligning to NSDP are as below;

- Goal 1. Ensure all people of Vanuatu who need health services receive them, including women, youth, the elderly and vulnerable groups, without undue financial hardship.
- Goal 2. Rebuild the Public's confidence in our health system by reinforcing public health and clinical service delivery and ensuring equitable access to affordable, quality health care.
- Goal 3. Refocus our health system to be more resilient to health shocks caused by disease outbreaks, disasters and climate change while we better prevent, detect and manage communicable diseases.
- Goal 4. Optimize real improvements in population health and wellbeing through promotion and active facilitation of healthy lifestyles and health-seeking behaviours.
- Goal 5. Revitalize health sector management capacity and systems at all levels, including accountability through corporate and clinical governance and leadership with evidence-based policies and plans supported by strong monitoring and information systems.
- Goal 6. Redefine collaborative action and expand our partnerships to meet the greater health needs of the people of Vanuatu.

Proposed Changes in the Ministry of Health budget structure.

In the current VBMS the MoH has only 3 programs which are:

MHA: Cabinet Support

MHB: Executive Management and Corporate services and;

MHC: Health Services

There are; at least 36 activity cost centres under these Programs which makes it difficult to keep proper record on how the funds are being used under these 3 programs. The Programs does not reflect the current Ministry of Health Structure which has 3 directorates with many activities. The ministry has made submission to change the budget structure to suit the real situation of expenditure and budget allocation and changes are yet to be made by MFEM. In the meantime, the MoH has developed this budget narrative to reflect the new budget structure. This is detailed in the detail narratives below. Major changes will happen, if possible, in 2026. In this MoH 2026 narrative major changes has been on program MHC: **Health services** because program health services is too broad and have major programs of the MoH such as Public Health, Community Health, Hospital services, medical supplies, Nursing Services and many more as activity cost centres.

The new budget structure will see MHC: Health Services removed and replaced with additional Programs of which some are mentioned below in the narratives.

1. Health Promotion and diseases control (New Program)
2. Non – Communicable disease (New Program)
3. Communicable diseases (New Program)
4. Family Health (New Program)
5. Hospital Services (MHCA – Currently an activity under MHC but earmarked to be a separate program)
6. Medical Services (MHCW - Currently an activity under MHC but earmarked to be a separate program)
7. Nursing Services (MHCZ - Currently an activity under MHC but earmarked to be a separate program)
8. Community Health Services (MHCB - Currently an activity under MHC but earmarked to be a separate program) and;
9. Medical supplies stock (MHCD - Currently an activity under MHC but earmarked to be a separate program).

PROGRAM MHA: HEALTH CABINET SUPPORT

Program Cost: 73,365,813

MHAA Portfolio Management Activity:

Activity cost: 0

Cash Grant & Aid in Kind: 10,000,000

Objectives:

1. Strengthen awareness of, and adherence to the HSS at all levels and across all relevant sectors.
2. Ensure a needs-based primary health care structure and resource allocation to reflect the standards at each health service level in accordance with the Role Delineation Policy.
3. Strengthen MOH capacity at all levels to ensure Corporate Plans, Business Plans, and periodic program and activity reporting reflect HSS priorities.
4. Ensure people with disability are recognized and supported by the health system
 - Public health and preventive services are accessible for, and can be accessed by people with disability.
 - Provision of suitable, accessible services to meet the specialized health needs of people with disability, inclusive of rehabilitation, and prosthetic and orthotic services.
5. Utilize the HSS to establish or reinforce appropriate structures and plan for system responses to disasters and climate change which ensure continuity of essential functions (including public health, clinical and primary health care services), and protection of long-term investments in health system improvements.

Means of Service Delivery

1. Attendance and active contribution to COM Meetings, inclusive of representation for health sector priorities, such as cross-sectoral advocacy for prevention and management of non-communicable diseases, gender-based violence against women and girls and inclusion of all Vanuatu citizens across health and public services.
2. Representing MOH at international, regional and national meetings and forums.
3. Oversight of development partner engagement in the health sector through establishment and monitoring of accountable MOUs / MOAs.

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Minister to attend weekly COM meetings	52	COM meetings attended
Minister to attend parliament sittings and vote for relevant bills affecting the health sector	3	Bills passed supported by Minister of Health
Minister to table a health bill in parliament	1	Health bill passed
Attend National meetings to discuss health policy and resolutions.	6	# Meetings with minutes
Minister attends functions and ceremonies in relation to health events.	4	No of functions attended
Minister to travel to World Health Organization (WHO) and the Pacific Islands Health Minister's Meetings and or other meetings where the Minister has been invited to attend.	3	# international meetings attended (with documented resolutions).

Minister to hold quarterly meetings with all Directors to be briefed and updated on the health situation of the country and the status of the budget execution. In some instances, briefing on actual intervention programs.	4	# Meetings with minutes
--	---	-------------------------

PROGRAM MHB: EXECUTIVE MANAGEMENT AND CORPORATE SERVICES

Program cost: 707,174,112

Program activity MHBA: 36,282,631

Cash Grant & Aid in Kind: 0

Objectives (HSS):

1. Strengthen awareness of, and adherence to the HSS at all levels and across all relevant sectors.
2. Support effective corporate and clinical governance at national and provincial levels including involving clinical leadership in decision making processes.
3. Strengthen MOH capacity at all levels to ensure Corporate Plans, Business Plans, and periodic program and activity reporting reflect HSS priorities.
4. Strengthen Primary Health Care through supported, decentralised health system management which draws on clinical and sub-national experience for service prioritisation and resource allocation.
5. Ensure a needs-based primary health care structure and resource allocation to reflect the standards at each health service level in accordance with the Role Delineation Policy.
6. In line with the Role Delineation Policy, ensure adequate financial resources are available, linked to planning and equitably managed at national and decentralised levels to support delivery of health services and the HSS.
7. Ensure systems to collect, analyse and report inclusive health data that is disaggregated by age, gender, disability and identified, vulnerable groups.
8. Build a positive and supportive, sustainable workplace culture that promotes inclusion, honesty and integrity and enhances health care delivery, staff satisfaction, motivation and work performance.
9. Ensure staff are kept informed, positive health sector change is highlighted to the community and dialogue is encouraged through the implementation of a communications strategy.

Means of Service Delivery

1. Facilitate meaningful and collaborative interaction between the national MOH and provincial health administrations.
2. Establish and oversee implementation of policies and conditions that ensure a safe, functional, and professional working environment that supports staff productivity and service delivery.
3. Coordinate engagement with development partners in health sector planning and service delivery in line with GoV/MOH priorities.
4. Establish policies, guidelines and SOPs for all sector coordination and corporate services functions.
5. Establish and maintain donor coordination database.
6. Establish annual schedule of tasks and ensure ongoing alignment for legal and sectoral compliance.

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Conduct joint partner working group meetings linked to MOH planning and budgeting cycles	2	# meetings with minutes
Ensure Assets and financial liabilities of the MOH are identified, audited and properly recorded	80%	Assets inventory for MOH in place
Conduct monthly MOH Executive meetings ensuring full membership in attendance	12	# Meeting minutes
Conduct quarterly meetings with MOH national and provincial administrations	4	# Meeting minutes
Advise and report on progress made on achieving the HSS through the health report card. Produce annual report	1	Annual Report
Annual policy audit and revision of policies reaching end-date	1	Policy audit

Program MHB: Corporate Services

Activity Cost: 650,362,118

Cash Grant & Aid in Kind: 20,529,363

Programs / Activities		Govt Appropriation	Cash Grant & Aid in Kind	Total
MHBB	Corporate Services	281,115,290	20,529,363	301,644,653

Total		650,362,118	20,529,363	670,891,481

Objectives (HSS):

1. In line with the Role Delineation Policy, ensure adequate financial resources are available, linked to planning and equitably managed at national and decentralised levels to support delivery of health services and the HSS.
2. Expand the health information system and improve access of managers and clinicians at national and provincial levels to timely and accurate information to support evidence-based decision making for managerial, clinical and system planning, decision making and reporting.
3. Through implementation of the MOH's Workforce Development Plan, ensure an effective, well managed health sector workforce at national and sub-national levels that is sufficient to meet current and future health needs, and which supports the implementation of the Clinical Services Plan and Role Delineation Policy.
4. Form a Health Services Commission tasked with healthcare worker welfare, safety, discipline and advocacy.

5. Improve personnel performance management systems at all levels which draw on and hold personnel to account for delivering against the strategic priorities of the HSS, Role Delineation Policy standards, Corporate Plans and Business Plans.
6. Ensure health workplaces are inclusive through establishment of an inclusive leadership framework, inclusive recruitment and retention strategies, and promotion of a diverse and inclusive workplace culture.
7. Strengthen training processes for doctors, nurse practitioners, midwives, nurses, and allied health workforce, including new clinical and leadership training programs and continuing education.
8. Improve effectiveness and efficiency of the Medical Supply Chain system across all levels of MOH service delivery points including national, provincial & lower levels.
9. Priorities and strengthen capital projects and procurement to meet projected needs across the health sector to 2030 and beyond.
10. Ensure equipment and resourcing meets and supports strategic targets through the establishment of multi-year pipeline procurement and maintenance systems including the supply of essential medicines and operational equipment.
11. Ensure systems to collect, analyse and report inclusive health data that is disaggregated by age, gender, disability and identified, vulnerable groups.
12. Utilise the HSS to establish or reinforce appropriate structures and plan for system responses to disasters and climate change which ensure continuity of essential functions (including public health, clinical and primary health care services), and protection of long-term investments in health system improvements.
13. Improve national (and regional) capacity to identify threats to, and maintain health security through strengthening oversight and adherence to the International Health Regulations (IHR).

Means of Service Delivery

1. Expand ICT systems and data connection to all health facilities in rural remote areas.
2. Ensure adherence to staff performance frameworks and practices.
3. Ensure all staff are aware and obliged to the Code of Conduct and relevant policies.
4. Strengthen systematic oversight and delivery of HR recruitment, management and development actions.
5. Establish and train all relevant personnel on financial management and reporting guidelines and SOPs.
6. Strengthen procurement and infrastructure capacity, especially at provincial level through recruitment of dedicated infrastructure officers.
7. Establish procurement plan for medical supplies.
8. Develop systems and train relevant personnel for the identification, reporting and tracking adverse drug reactions.
9. Establish preparedness systems and SOPs for disaster and outbreak response.

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Track Ministry budget expenditure to avoid overspending	12	Monthly Expenditure reports

Ministry cash flow is monitored and all debts are met within acceptable timeframes	1	Audit report
Expenditure and expenditure commitments do not exceed appropriations	100%	No overspending
Annual reports are completed on an annual and timely basis.	1	Annual Report
Assets and financial liabilities of the Ministry are identified, audited and properly recorded	100%	Audit Report
Appraisal of personnel performance occurs for the Ministry of Health staff	100	% of staff of appraised
Ensure flow of information and that informed decisions are made and timely shared	1	HIS/ICT report
Facilities and Equipment Repairs conducted in accordance with a Capital Plan.	1	Capital Plan in place
Implementation of Health Sector Strategy (HSS) 2021-2030.	1	Annual Report
Nursing accredited by VQA	1	# students enrolled in B. Nursing program

PROGRAM MHC: HEALTH SERVICES

Program cost: 4,825,460,384

Health Promotion Standards & Disease Control: 613,626,472

Activity Cost: **224,902,920**

Cash Grant & Aid in Kind: **388,723,552**

Programs / Activities		Govt Appropriation	Cash Grant & Aid in Kind	Total
MHCC	Public Health Services	80,504,364	388,723,552	469,227,916
MHCE	Health Promotion	38,536,469		38,536,469
	Village Health Worker Program (VHWP)	34,276,659		34,276,659
MHCI	Disease Surveillance & Response	27,486,273		27,486,273
MHCJ	Environmental Health	44,099,155		44,099,155
Total		224,902,920	388,723,552	613,626,472

Objectives (HSS):

1. Improve health and development outcomes for communities (with an emphasis on children, women of child-bearing age and breast-feeding mothers) through improved environmental health (inclusive of hygiene and sanitation awareness, practices and infrastructure, promotion of hand and face washing, waste disposal and food preparation and storage).
2. Promote community ownership, leadership and engagement in community health promotion and disease prevention processes, based on their assessment of health and social needs, and implementation of their plans to address these.
3. Reduce the onset of Lifestyle Diseases through promoting individuals' awareness, confidence and

opportunities to make informed, healthy behavioural choices.

4. Strengthen health-related policies and legislation across relevant sectors that address NCDs and associated risk factors (such as the Public Health and Tobacco Acts, or regulations for alcohol, nutrients of concern and marketing of unhealthy foods) to influence an enabling environment that promotes healthy behaviours and reduces harmful practices.
5. Strengthen the MOH's mandate, capacity and authority to ensure sector-wide compliance with public health legislation, including resourcing and mechanisms to ensure coverage.
6. Ensure a trained and supported health sector workforce through the establishment of supportive leadership mechanisms and skills, and the systematic roll-out of periodic in-service training for managers and public health personnel.
7. Improve quality maternal and child health service coverage through the filling of staff vacancies in all community care facilities, and the resourcing of facility-based and outreach services.
8. Utilise the HSS to establish or reinforce appropriate structures and plan for system responses to disasters and climate change which ensure continuity of essential functions (including public health, clinical and primary health care services), and protection of long-term investments in health system improvements.
9. Strengthen quality and coverage of disease surveillance and alert systems at all levels to ensure resourcing for preparedness and response to outbreaks.
10. Improve national (and regional) capacity to identify threats to, and maintain health security through strengthening oversight and adherence to the International Health Regulations (IHR).
11. Ensure a needs-based primary health care structure and resource allocation to reflect the standards at each health service level in accordance with the Role Delineation Policy.

Means of Service Delivery

1. Manage public health programs through systematic data review and accountable monitoring processes.
2. Progress strengthening of community-level PHC through formalisation of Village Health Workers and establishment of Certificate IV qualification.
3. Implement, review and revision of Acts for strengthening environmental and public health.
4. Continue to support strengthened community-level access to WASH.
5. Establish, resource and schedule actions for broad roll-out of Healthy Islands initiatives.
6. Strengthen sector-wide disease surveillance and response mechanisms through improved data collection and oversight, monitoring systems and training of key personnel.

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Track Ministry budget expenditure to avoid overspending	12	Monthly Expenditure reports
Manage the program activities at national and provincial level	100%	Annual Report
Twice-yearly Health Promotion Standards & Disease Control program Managers meeting to confirm and monitor progress against strategic priorities	2	Meetings and resolutions
Development of accredited Certificate IV Village Health Worker course	1	Accredited course
Approval to absorb Village Health Workers into the MOH	1	PSC Approval

staff establishment		
Review/revision of relevant Public Health Acts	2	Acts reviewed/ revised
Training of relevant national and provincial personnel on the Healthy Islands Policy	18	People trained
Inclusion of healthy settings approaches within 2026 provincial business plans	6	Provinces
Revive Primary health care initiatives in community health facilities	% of facilities/ province w PHC initiatives	Provincial health reports
Provision of health information reports by health facilities to provincial administration and national office including utilization rates	100% report rates	HIS annual report
Initiation of Field Epidemiology Training Program	>8	# People commenced training

PROGRAM: MHC HEALTH SERVICES

Non-Communicable Diseases

Activity Cost (VT): 64,950,984

Cash Grant & Aid in Kind (VT):0

Programs / Activities		Govt Appropriation	Cash Grant & Aid in Kind	Total
MHCK	NCD & Mental Health	39,060,598	0	39,060,598
MHCL	Nutrition	10,077,473	0	10,077,473
MHCN	Integrated Oral Health-Eye Care & ENT	15,812,913	0	15,812,913
Total		64,950,984	0	64,950,984

Objectives (HSS):

1. Reduce the onset of Lifestyle Diseases through promoting individuals' awareness, confidence and opportunities to make informed, healthy behavioural choices.
2. Reduce the burden of NCDs through improved quality and coverage of prevention and management interventions.
3. Transform the state of oral health, especially amongst vulnerable children, through targeted, systematic outreach to schools and urban communities, and the maintenance of active data collection and analysis.
4. Improve health and development outcomes of communities (with an emphasis on children - especially the reduction of stunting - adolescents, women of child-bearing age and the elderly) through improved health security, nutrition awareness and practices, and availability of healthier food options.
5. Improve the well-being and productivity of individuals and communities through the promotion of mental health awareness and community dialogue, and the establishment of mental health outreach services (inclusive of assessment, counselling, referral and treatment)
6. Promote community ownership, leadership and engagement in community health promotion and disease prevention processes, based on their assessment of health and social needs, and implementation of their

plans to address these.

7. Strengthen health-related policies and legislation across relevant sectors that address NCDs and associated risk factors (such as the Public Health and Tobacco Acts, or regulations for alcohol, nutrients of concern and marketing of unhealthy foods) to influence an enabling environment that promotes healthy behaviours and reduces harmful practices.

Means of Service Delivery

1. Community-based screening and response programs for NCDs such as hypertension, diabetes, heart disease risk factors.
2. Increase population awareness of healthy lifestyles, including school-based programs.
3. Scale-up tobacco cessation services.
4. Strengthen and support the continued, active engagement of the National Mental Health Committee, including commitment to data collection, monitoring and reporting.
5. Strengthen provincial-level nutrition activities for prevention, identification and management of malnutrition and micronutrient deficiency.
6. Scale-up implementation of Baby Friendly Hospital Initiative and breastfeeding advocacy.
7. Resource and support establishment of provincial dental services plan, including availability of essential prevention and early intervention medicines.
8. Strengthen cross-sectoral engagement to address the commercial, social determinants and risk factors of oral diseases.

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Primary and secondary schools implement weekly physical activity programs	20	Schools
Health centres offer tobacco cessation support	30%	Health facilities
NCD screening programs in each province	# ppl /province	# ppl screened
National Mental Health Committee meetings	2	Meetings and minutes
Ensure provincial Mental Health programs align with national mental health policy goals and objectives	6	Provinces aligned
Baby Friendly Hospital Initiative	4	Hospitals
Nutrition screening in 1 st 1000 days	# screened	# screened / province
Dental services plan implemented at provincial level	2	Provinces

Program: MHC Health Services

Communicable Diseases

Activity Cost: 98,823,359

Cash Grant & Aid in Kind: 0

Programs / Activities		Govt Appropriation	Cash Grant & Aid in Kind	Total
MHCO	Malaria & Other Vector-Borne Diseases	55,293,848	0	55,293,848
MHCP	TB/Leprosy	17,287,383	0	17,287,383
MHCQ	STI & HIV/AIDS	10,013,151	0	10,013,151
MHCR	Neglected Tropical Diseases	16,228,977	0	16,228,977
Total		98,823,359	0	98,823,359

Objectives (HSS):

1. Maintain progress towards elimination targets for malaria and selected neglected tropical diseases, through continued resourcing, surveillance and monitoring.
2. Strengthen detection, diagnosis and management of target communicable diseases, including HIV, STIs, TB, Neglected Tropical Diseases, Vector-Borne Diseases, viral hepatitis.

Means of Service Delivery

1. Strengthen data collection, monitoring and reporting for communicable diseases at national and provincial levels.
2. Progress activities under the Elimination Strategies for:
 - Malaria
 - TB
 - Triple Elimination of HIV, Syphilis and Hepatitis B
 - Yaws.

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Integrated training of CD programs to health facilities on diagnosis and treatments	30%	Health facilities
Diagnosis and treatment of malaria	100%	Cases
TB and Leprosy routine screening, testing coverage in all health facilities	>70%	Health facilities
Triple Elimination of HIV, Syphilis and Hepatitis B: routine screening, testing coverage in all health facilities	>70%	Health facilities
Diagnosis and treatment of yaws	>70%	Cases

Program MHC: Health Services

Family Health

Activity Cost (VT): 66,975,449

Cash Grant & Aid in Kind (VT): 0

Programs / Activities		Govt Appropriation	Cash Grant & Aid in Kind	Total
MHCG	Reproductive Health & Family Planning	41,946,770	0	41,946,770

	& MCH			
MHCH	EPI/IMCI	25,028,679	0	25,028,679
Total		66,975,449	0	66,975,449

Objectives (HSS):

1. Improve quality maternal and child health service coverage through the filling of staff vacancies in all community care facilities, and the resourcing of facility-based and outreach services.
2. Reduce maternal, under-five children, infant and neonatal mortality through the establishment and resourcing of comprehensive facility-based and integrated outreach antenatal and child health services and emergency referral systems.
3. Ensure a suitable acute, and longer-term health sector response to the prevention and management of sexual and gender-based violence and child protection issues, including systematic protocols and resources for receiving and supporting survivors.
4. Increase awareness and uptake of family planning services through targeted, evidence-informed communication approaches, accessible commodities and skilled personnel.
5. Improve immunisation coverage through demand creation, the filling of staff vacancies in all community care facilities, and the resourcing of facility-based and outreach services, including the supply of essential medicines and vaccinations, and cold chain management.
6. Improve quality, range and accessibility of targeted health messaging and services for adolescents and young people, with a particular focus on mental, sexual and reproductive health services.

Means of Service Delivery

1. Support and training to health facilities to promote and deliver safe birthing.
2. Scale-up of cervical cancer awareness, screening, treatment and HPV vaccination.
3. Promote healthy lifestyles and health seeking behaviours of young people through YFS-approach.
4. Increase planning, resourcing and oversight of facility-based and outreach immunisation services.

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Integrated training of CD programs to health facilities on diagnosis and treatments	30%	Health facilities
Proportion of birth attended by skilled birth personnel	>98%	Births
Cervical cancer: awareness, screening, treatment & HPV vaccination for all eligible clients	# ppl / province	# ppl reached per province
Training of health care providers on VEMnet/EmONC, IMNCI, EENC/KMC	# trained	# trained / province
Adolescent and Sexual Reproductive Health Services (SRH) provision at the national and provincial settings annually.	# health facilities	# health facilities / province

Health care providers training on family planning services and commodities	# ppl	# ppl trained
Promotion of breast feeding and infant and child nutrition at community level.	# activities	# Promotional activities / province
Coverage of DTP containing vaccine (3rd dose): % of surviving infants received 3 doses of diphtheria and tetanus toxoid with pertussis containing vaccine in a given year	95%	Children 12-23 months

Program: MHC Health Services

Hospital Services

Activity Cost: 1,198,343,213 (Administration and Support services)

Cash Grant & Aid in Kind: 6,000,000

Programs / Activities		Govt Appropriation	Cash Grant & Aid in Kind	Total
MHCA	Hospital Services	596,922,650	6,000,000	602,922,650
MHCS	Biomedical Services	16,261,868	0	16,261,868

Total		1,198,343,213	6,000,000	1,204,343,213

Objectives (HSS):

1. Ensure a trained and supported health sector workforce through the establishment of supportive leadership mechanisms and skills, and the systematic roll-out of periodic in-service training for managers and public health personnel.
2. Strengthen training processes for doctors, nurse practitioners, midwives, nurses, and allied health workforce, including new clinical and leadership training programs and continuing education.
3. Ensure a suitable acute, and longer-term health sector response to the prevention and management of sexual and gender-based violence and child protection issues, including systematic protocols and resources for receiving and supporting survivors.
4. Ensure inclusive and supportive referral systems which enable vulnerable groups such as people with disability to access both general and impairment/issue specific health services.
5. Ensure health workplaces are inclusive through establishment of an inclusive leadership framework, inclusive recruitment and retention strategies, and promotion of a diverse and inclusive workplace culture.
6. Build a positive and supportive, sustainable workplace culture that promotes inclusion, honesty and integrity and enhances health care delivery, staff satisfaction, motivation and work performance.

Means of Service Delivery

1. Recruiting and establishing Clinical and Curative Administrative leadership (Medsup/ Managerial positions).
2. Support to scale-up and full roll-out of IPC activities, monitoring and reporting.
3. Reignite comprehensive Hospital Redevelopment Plan for all six hospitals.

4. Progress establishment and roll-out of Electronic Medical Records in all hospitals.
5. Strengthen Internship Training (Medical, Nursing, Midwifery, Allied & Dental).
6. Strengthen biomedical services across all hospitals through structured and resourced maintenance plans, establishment of monitoring software and training.
7. Strengthened documented, planned hospital support initiatives, including 'Farm to Hospital'.
8. Resource national and regional referral strategies, and establish tight SOPs for decision-making and resource allocation.
9. Structured, resourced specialist outreach services and related training initiatives.

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Education and training of clinical leadership in clinical governance.	6	Leaders trained
Trained and implement IPC and AMR protocols and standards	>3/province	Personnel trained
Comprehensive training needs analysis for all curative staff	3 provinces	TNA completed
Hospital Redevelopment Plan confirmed for VCH and 2 other hospitals	3 hospitals	Plans confirmed
Provide electronic medical records to hospitals	3 hospitals	EMR in place
Outreach to primary health care facilities	# facilities	# facilities / province
Develop nursing training analysis	1	TNA completed
Biomed: Procure, Maintain and maintenance medical equipment following equipment inventory.	1	inventory
Procure biomedical software to manage inventory medical equipment	1	Software package
Organise patient referral overseas as approved by overseas referral committee	#	Referrals annually
organise referrals from primary health care setting to secondary/ tertiary health care setting	#	Referrals annually
Farm to hospital project is introduced to other provincial hospitals.	2	hospitals
Local Specialist out reach to provincial hospital	#	Outreach activities
International specialists outreach NPH & VCH	#	Specialist visits

Program: MHC Health Services

Medical Services

Activity Cost (VT): 591,062,934

Cash Grant & Aid in Kind (VT): 0

Programs / Activities		Govt Appropriation	Cash Grant & Aid in Kind	Total
MHCV	Specialist Services	23,848,686	0	23,848,686

MHCY	Dental Services	40,631,478	0	40,631,478
Total		591,062,934	0	591,062,934

Objectives (HSS):

1. Ensure a trained and supported health sector workforce through the establishment of supportive leadership mechanisms and skills, and the systematic roll-out of periodic in-service training for managers and public health personnel.
2. Strengthen training processes for doctors, nurse practitioners, midwives, nurses, and allied health workforce, including new clinical and leadership training programs and continuing education.
3. Ensure a suitable acute, and longer-term health sector response to the prevention and management of sexual and gender-based violence and child protection issues, including systematic protocols and resources for receiving and supporting survivors.
4. Ensure inclusive and supportive referral systems which enable vulnerable groups such as people with disability to access both general and impairment/issue specific health services.
5. Ensure health workplaces are inclusive through establishment of an inclusive leadership framework, inclusive recruitment and retention strategies, and promotion of a diverse and inclusive workplace culture.
6. Build a positive and supportive, sustainable workplace culture that promotes inclusion, honesty and integrity and enhances health care delivery, staff satisfaction, motivation and work performance.

Means of Service Delivery

1. Training needs analysis and planning for training delivery for:
 - Medical Services, Allied Services & Dental Services.
2. Structured, costed expansion plan for specialist services.
3. Maintain essential locum services, with structured plans for phased replacement with national workforce.
4. Outreach Services for:
 - Medical Services, Allied Services & Dental Services.

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Conduct training needs analysis and plans for: Medical, Allied and Dental Services	3	TNAs and Plans
Establish structured, costed expansion plan for specialist services	1	Specialist plan
Maintain essential locum services	# locums	Locums / specialty
Conduct outreach services for: Medical, Allied and Dental Services	# outreach activities	# / discipline / province

Program: MHC Health Services

Nursing Services: MHCZ

Activity Cost (VT): 1,534,876,123

Cash Grant & Aid in Kind (VT): 0

Objectives (HSS):

- Ensure a trained and supported health sector workforce through the establishment of supportive leadership mechanisms and skills, and the systematic roll-out of periodic in-service training for managers and public health personnel.
- Strengthen training processes for doctors, nurse practitioners, midwives, nurses, and allied health workforce, including new clinical and leadership training programs and continuing education.
- Ensure a suitable acute, and longer-term health sector response to the prevention and management of sexual and gender-based violence and child protection issues, including systematic protocols and resources for receiving and supporting survivors.
- Ensure inclusive and supportive referral systems which enable vulnerable groups such as people with disability to access both general and impairment/issue specific health services.
- Ensure health workplaces are inclusive through establishment of an inclusive leadership framework, inclusive recruitment and retention strategies, and promotion of a diverse and inclusive workplace culture.
- Build a positive and supportive, sustainable workplace culture that promotes inclusion, honesty and integrity and enhances health care delivery, staff satisfaction, motivation and work performance.
- Improve quality maternal and child health service coverage through the filling of staff vacancies in all community care facilities, and the resourcing of facility-based and outreach services.
- Reduce maternal, under-five children, infant and neonatal mortality through the establishment and resourcing of comprehensive facility-based and integrated outreach antenatal and child health services and emergency referral systems.

Means of Service Delivery

- Establishment of Nursing Strategic Plan: 2026-2030.
- Delivery of In-Service Training for a range of priority topics.

Supervisory visits: national – provincial; provincial – health facility

Performance Measurement (Service Targets)

Description	Unit	Unit of Measure
Establishment of Nursing Strategic Plan: 2026-2030	1	Strategic Plan
In-Service Training	# trained	/province / topic
Supervisory visits: national – provincial	# visits	/province
Supervisory visits: provincial – health facility	# visits	/province

Program: MHC Health Services

Community Health Services: MHCB

Activity Cost: 286,200,863

Cash Grant & Aid in Kind: 5,000,000

Objectives

1. To revive and improve Primary Health Care:
 - To ensure efficient and effective delivery of public health programs at provincial level.
 - To reduce incidence of non-communicable diseases, specifically:

- a. Strengthened detection, diagnosis and management of target communicable diseases, including HIV, STIs, TB, NTDs.
 - b. Maintaining progress towards elimination targets for malaria and selected neglected tropical diseases.
- To reduce incidence of communicable diseases, such as diabetes, heart disease and stroke, and improved focus on oral health and eye care.
- To promote healthy lifestyle choices and health seeking behavior to improve population health and well-being, including:
 - a. Improved nutrition options and practices for communities (especially for children, adolescents, women of child-bearing age and the elderly).
 - b. Improved mental health through increased awareness and community dialogue, and strengthened outreach and referral services.

2. To implement the Role Delineation and Referral policies:

- To improve accountability between levels of health care and health service management.
- To ensure equitable distribution of health centres and dispensaries in Vanuatu
- To ensure efficient and effective provision of clinical, financial, administrative and other support services for supporting provincial health service delivery.
- To ensure regular reporting of Health Information data to the Corporate Services.

Means of Delivery

Inpatient, outpatient and public health services are provided by the nation's extensive network of dispensaries and health centers. In each province, these health facilities are supported by the Provincial Health Administrator and the Provincial Public health manager, with clinical oversight from the Provincial medical superintendent and/or Nursing services manager. Technical support for public health activities is provided by the Directorate of Public Health at national level.

Performance measurements

Description	Quantity	Unit of Measure
Achievement of average length of stay (ALOS) at rural health facility less than six days.	6	Days spent at health facilities
Number of rural health facilities (Health Centre / Dispensary) that have adequate human resources based on level of health care service provision.	95%	Proportion of staffing in Dispensaries and Health centers
Provision of Health Information reports by health facilities to provincial and national level utilizing approved reporting format or DHIS2 database. Currently reporting at 73% across nation.	80%	Reporting rates from health facilities
Conduct Area Council supervisory visits per province	50% per province	Supervisory visits/province
Visits by mother to formal health facility under antenatal care based on WHO standards.	4	Antenatal visits

Visits by mothers to formal health facility under post-natal care (Post-partum visit).	1	Post-partum visits
Reduction of the number of preventable neonatal and maternal deaths.	2	Deaths reduced by 2 per baseline

Program MHCH: Health Services

Medical Supplies Stock

Activity Cost (MHCH): 359,600,987

Cash Grant & Aid in Kind: 0

Objectives

1. Increase the amount of drugs and non-drugs items purchase for 2026.
2. Improve efficiency of the supply chain across all levels, key activities, targets through the use of m-Supply system.

Means of Service Delivery

1. Support Provincial staff where necessary in proper reporting
2. Increase of training and installation of M – supply in provincial centres / sub centres
3. Strengthen the function of the National Drug and Therapeutic Committee
4. Advocacy and training of staff on the drugs policies

Performance Measurement (Service Targets)

Description	Quantity	Unit of measure
Conduct 2 annual provincial supervisory visit for CMS managements	2	Supervisory reports
Conduct 2 Provincial M- supply Training	2	Meeting minutes
Conduct 4 National Drug and Therapeutic Committee Meetings	4	Meeting minutes
Maintain no stock outs at Central Medical Store on Essential Drug List commodities.	4	Quarterly report

MINISTRY OF PUBLIC UTILITIES (MIPU)

Introduction

Ministry Cost 5,952,443,798

Cash Grant & Aid in Kind 2,320,000,000

Funded from External Loans 0

Introduction

The Ministry of Infrastructure and Public Utilities (MIPU) plays a pivotal role in shaping and guiding Vanuatu's national infrastructure development services. As a central driver of economic growth and social development, the Ministry is mandated to plan, develop, maintain, and regulate the nation's critical infrastructure assets—comprising roads, bridges, ports, and airports. Through these core responsibilities, MIPU ensures national connectivity and accessibility, which are fundamental to improving access to health and education services, facilitating domestic trade and market linkages, and supporting the export of primary products. Collectively, these efforts underpin sustainable livelihoods, equitable development, and the overall prosperity of the nation.

The Ministry is structured to ensure effective policy formulation, service delivery, and administrative coordination. It comprises the Ministerial Cabinet, which includes the Office of the Honourable Minister and Cabinet staff; the Office of the Director General and Corporate Services Unit; the Department of Public Works; the Department of Civil Aviation; and the Department of Ports and Harbour. Each unit plays a distinct yet interrelated role in advancing the Ministry's strategic objectives and ensuring the seamless implementation of national infrastructure programs across all provinces.

The Office of the Honourable Minister provides high-level strategic leadership, policy direction, and oversight to ensure that MIPU's priorities and operations are aligned with the National Sustainable Development Plan (NSDP) and the Government's broader policy framework. Specifically, the Office is responsible for:

- Providing overarching policy guidance and strategic direction to ensure that relevant national development priorities articulated in the NSDP are effectively achieved through the implementation of MIPU's Corporate Plan and Departmental Business Plans;
- Ensuring that MIPU's administrative, advisory, and policy functions are coherent, transparent, and aligned with the Government's overarching development agenda and national strategic priorities; and
- Overseeing the provision of high-quality policy advice and support services that strengthen institutional governance, promote evidence-based decision-making, and ensure efficient, accountable, and cost-effective management of infrastructure programs and resources.

Through this leadership and coordination, MIPU continues to play a transformative role in building a safe, reliable, and climate-resilient infrastructure network that supports sustainable economic growth, strengthens community resilience, and enhances the quality of life for all people of Vanuatu.

PROGRAM MUA: MINISTERIAL CABINET SUPPORT

Program cost: 90,946,954

Program Cost

Objectives

1. Provide overarching policy guidance and strategic direction to ensure that relevant national development priorities articulated in the NSDP are effectively achieved through the implementation of MIPU's Corporate Plan and Departmental Business Plans;
2. Ensure that MIPU's administrative, advisory, and policy functions are coherent, transparent, and aligned with the Government's overarching development agenda and national strategic priorities; and
3. Oversee the provision of high-quality policy advice and support services that strengthen institutional

governance, promote evidence-based decision-making, and ensure efficient, accountable, and cost-effective management of infrastructure programs and resources.

Activity MUAA: Portfolio Coordination

Activity Cost **90,946,954**

Objectives

1. To manage the logistics relating to Minister's official travels and participation in various events internally and externally
2. To facilitate good working relations between the Office of the Minister, the Ministry and its stakeholders/clients
3. Represents the country in international and regional meetings

Means of Service Delivery

- Approval of COM papers
- Memorandum of Understanding
- Meetings with potential Donors and stakeholders
- Directions on projects and policy implementation
- Meetings with MIPU Executive

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
COM Papers	15	No. of signed COM Paper
Policy decisions	15	No. policy decisions
Meeting with Director General and Senior Executives	12	No. meeting/minute
Meeting with international and regional investors	12	No. interested investors
Meeting/consultations with Stakeholders, Donor and Development partners	12	No. meeting & Minutes
Memorandum of Understanding/Agreements	4	No. MOU/MOA

PROGRAM MUB: EXECUTIVE MANAGEMENT AND CORPORATE SERVICES

Program Cost **119,301,653**

- To provide support and advisory services to the Cabinet.
- To prepare corporate plans and manage the implementation thereof in line with the Government

strategic policies and provide effective services to internal and external stakeholders.

- To administer and facilitate financial and personnel support services that effectively ensure the implementation of departmental business plans.

Activity MUBA: Director General and Corporate Services

Activity Cost **119,301,653**

Objectives

- To ensure an effective and efficient operation of the Corporate Service Unit and MIPU staffs.
- To coordinate information, consultations, policy decisions, planning, monitoring, and reporting within the Ministry.
- To coordinate, prepare financial reports, provide effective and efficient financial services.
- To provide effective and efficient HR functions.

Means of Service Delivery

- Facilitate and coordinate annual report /ADR
- Coordinate monthly Corporate Service Unit Meetings
- Maintain liaison with Public Service Commission, MFEM and DSPPAC
- Coordinate monthly Senior Executive Meetings
- Facilitate consultation meetings with internal and external stakeholders
- Provide Human Resource Monthly Update reports for Directors
- Facilitate presentation of DCO/COM papers
- Update and provide regular media communication in ministerial website
- Provide effective financial services

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Facilitate and compile Ministerial annual report	1	Report
Facilitate Recruitment of MIPU vacant positions	At least 50%	50% of total vacant positions
Facilitate Senior Executive meetings	12	No. of Minutes

Coordinate the preparation of 2026 Business plans for all departments	1 for each department	No. of Business Plan 4
Facilitate inter agency Consultation meetings	6	No. of Minutes 6
Review of Staff annual work Plan	13	Complete review of staff work Plan 13
Staff performance Appraisal/Agreements	16x2 per year	No of Appraisal report.
Facilitate and compile 2027 Budget submission	2	Final Budget Submission to MBC
Compile and facilitate submission of NPPs	10	No of NPPs submitted
Prepare and provide regular communication updates	12	No of media updates

PROGRAM MUC: CIVIL AVIATION AUTHORITY

<i>Program Cost</i>	157,863,066
<i>Cash Grants & Aid in Kind</i>	0

Objectives

1. To promote safety and facilitate economic growth in civil aviation by maintaining and improving aviation safety and security.
2. To improve and facilitate upgrades on aerodrome Safety and standards on outer island airstrips and ensure compliance among Aerodrome Operator and Air Navigation Service Provider.
3. To ensure compliance with international and regional obligations are met.
4. To Enhance the Civil Aviation Legislative framework to increase CAAV's capability and capacity to conduct safety and security oversight.
5. Strengthen Workforce Capacity and Wellbeing.
6. Enhance Strategic and Operational Effectiveness.
7. Improve Financial Management and Accountability.
8. Strengthen Administrative Efficiency and Stakeholder Coordination.
9. To promote a cleaner sustainable aviation environment and facilitate compliance with all environment related aspects of applicable international aviation conventions.
10. Strengthen Emergency Preparedness and Response Capability.

Means of Delivery

1. Development of an Aviation Sector Policy and Strategy and adopted as the sector policy direction for Vanuatu.

2. Facilitate Economic Development in the international and domestic airline/air transport industry.
3. Facilitate the domestication of ICAO conventions and treaties ratified by the Government of Vanuatu into national legislation.
4. Review and strengthen the Legislative and Regulatory Framework to ensure it is robust, effective, and aligned with international aviation standards.
5. Adapt and align Civil Aviation Rules to the Vanuatu context while ensuring full compliance with ICAO SARPs.
6. Ensure Aerodrome/Airport infrastructure complies with ICAO safety standards and regulatory requirements.
7. Review and enhance airport standards for all domestic airports to ensure safety, efficiency and compliance with regulatory requirements.
8. Facilitate the modernization and enhancement of air navigation services systems and infrastructure to meet evolving operational requirements.
9. Development and Implementation of the State Safety Programme (SSP) and the National Aviation Safety Plan (NASP) to strengthen the safety oversight and regulatory services provided by CAAV.
10. Ensure that Ni-Vanuatu pilots, aircraft engineers, and air traffic controllers are trained and qualified to meet both market demands and international safety standards.
11. Develop and implement a robust, competency-based Safety Inspector Training Program tailored to the Vanuatu context, ensuring CAAV staff acquire the necessary skills aligned with the size, complexity, and specific needs of the national aviation industry.
12. Manage the Upper Airspace Funds received from Fiji efficiently and transparently, following the approved disbursement framework, to maintain, upgrade, and improve Air Navigation and Aerodrome Systems, while ensuring the international and domestic airport network meets required CAA standards.
13. Manage the Safety and Security Levy from international operators to and from Vanuatu efficiently and transparently, in accordance with the Civil Aviation (Safety and Security) Regulation Order No. 78 of 2017, to effectively meet or supplement oversight costs.
14. Conduct suitable and effective annual regulatory safety oversight activities, duties, and responsibilities in full compliance with International Civil Aviation Organization (ICAO) Standards and Recommended Practices, ensuring continuous improvement and alignment with global aviation safety standards.
15. Strengthen and promote a unified, cross-government approach to Aviation Security and Border Facilitation by enhancing collaboration and aligning legislation with ICAO standards, working closely with government border agencies to ensure efficient air transport border control in accordance with national aviation security goals and objectives.
16. Develop and Implement environmentally Sustainable and climate resilient Infrastructure Projects that promote renewable energy sources, and contribute to the gradual reduction of carbon emissions, in alignment with the State Action Plan (SAP).
17. Enhance Emergency Response capabilities and processes for Search and Rescue, and Incident and Accident investigations through effective coordination and collaboration with relevant stakeholders.

18. Develop Contingency Plans that strengthen inter-agency collaboration across government sectors to ensure effective response, recovery assessments, and timely restoration of aviation operations following natural disasters.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Review and update ASAs.	3	Regulations to regulate market competition.
Conventions and treaties acceded to and ratified.	1	Ratification by Parliament.
Review of CAAV Act	1	Bill for parliament completed.
Review regulations for domestic departure tax.	1	New draft regulation order
CAA Rules domesticated.	1	Draft regulation
Internal CAAV Procedures review	25%	Completed procedures
Review of Current domestic airport standards	5	Domestic airport standard completed
Ensure increase in Number of Air Traffic Controllers	3	Issuance of three licences
Facilitate certification of PBN project	1	Issuance of certification
Facilitate NASP consultations	1	NASP final document completed, signed and endorsed.
Facilitate SSP consultations	1	SSP final document completed, signed and endorsed
Facilitate Aviation capacity building	1	MOU to be signed with Scholarship's office.
Establish Emergency Response Protocols for CAAV	1	SOP developed
Develop Aviation Contingency Plan	1	Operational plan developed

PROGRAM MUF: PUBLIC WORKS

Program Cost 5,169,782,913
Cash Grant & Aid in Kind 2,320,000,000
Funded from External Loans 0

The Public Works Department (PWD) operates under the Ministry of Infrastructure and Public Utilities (MIPU) and serves as the principal government agency responsible for the planning, development, maintenance, and management of Vanuatu's public infrastructure assets. Its legal authority is derived from the Public Roads Act, the Buildings Act, and other relevant legislation governing infrastructure development and asset management in the country.

PWD's core mandate is to ensure the provision, preservation, and enhancement of quality public infrastructure that supports Vanuatu's economic growth, social wellbeing, and national resilience. This includes the

management of the national road network, the construction and maintenance of public buildings, construction and maintenance of airports, construction of wharves and jetties, and the implementation of national standards for civil and building works. The Department oversees approximately 3,000 kilometres of declared national roads and ensures that public assets are designed, built, and maintained to meet safety, functionality, and durability standards.

In fulfilling this mandate, PWD acts as both a technical authority and an implementing agency, delivering infrastructure projects that connect communities, facilitate trade, and enable access to essential services. It is also responsible for enforcing the national building code to ensure that all public and private developments meet approved construction and safety standards.

Beyond its normal operations, PWD plays a critical role in disaster preparedness and response, ensuring the continuity of access through the maintenance of transport routes and coordination of shelter infrastructure during emergencies. The Department's operations are guided by the principles of efficiency, sustainability, resilience, and equity, reflecting its alignment with the National Sustainable Development Plan (NSDP) 2016–2030.

Through its headquarters in Port Vila and six provincial offices, PWD works in partnership with communities, the private sector, and development partners to deliver infrastructure that is climate-resilient, inclusive, and capable of supporting Vanuatu's long-term national development goals.

Objectives:

1. Plan, build, and maintain government infrastructure such as roads, bridges, buildings, airports, wharves, and jetties, ensuring quality, safety, timely project delivery, effective oversight, transparent procurement, stakeholder engagement, and capacity building of PWD staff.
2. Maintain outer island airports to ensure they are safe, functional, resilient to natural disasters, and compliant with national and international safety standards.
3. Provide financial support for priority infrastructure projects, ensuring timely road maintenance, efficient resource allocation, improved management and procurement, and active involvement of local communities and private sector.
4. Maintain and improve urban roads in key centers like Luganville and Port Vila, implementing routine and preventive maintenance, emergency response, and efficient use of funds to ensure safe, reliable, and long-lasting urban road networks.
5. Strengthen institutional frameworks, administrative efficiency, governance, compliance with laws and standards, disaster preparedness, workforce capacity, procurement practices, and stakeholder engagement to support transparent and effective infrastructure management.
6. Plan, construct, renovate, and maintain government buildings, providing technical advice, ensuring safety and functionality, procuring engineering tools and software, and equipping staff with necessary tools and PPE.
7. Ensure all PWD vehicles, plant, and machinery are safe, operational, and well-maintained through preventive maintenance, rapid repairs, workshops, inspections, and staff training.
8. Inspect and certify vehicles to ensure roadworthiness, enhance road safety, enforce compliance with safety standards, and provide transparent and efficient inspection services across all provinces.

Activity MUFA:	Development and Maintenance of Government Infrastructure
Activity Cost:	0
Cash Grant & Aid in Kind:	2,320,000,000

Objectives

1. To ensure effective planning and design of infrastructure projects through the timely preparation of comprehensive project documentation, including designs and cost estimates.

2. To ensure all infrastructure projects are implemented efficiently, meet approved standards, and comply with quality, safety, and risk management requirements.
3. To maintain consistent oversight of project progress through monthly inspections and timely reporting to management.
4. To ensure transparent, fair, and efficient procurement and contract management processes for all approved infrastructure projects.
5. To strengthen project supervision and oversight capacity at the provincial level through active engagement of divisional engineers.
6. To promote stakeholder participation, transparency, and community support through inclusive consultations and effective issue resolution.
7. To strengthen institutional capacity through the development and empowerment of PWD staff.

Means of Service Delivery

- Implement infrastructure works directly through PWD Head Office and provincial divisions, including construction, inspection, and maintenance.
- Oversee planning, design, cost estimation, and execution of infrastructure projects ensuring they meet quality standards and are completed within budget and on schedule.
- Regular assessments will be conducted to monitor the progress of projects and evaluate the impact on the community and economy.
- Adoption of sustainable procurement practices that promote value for money, fairness, transparency, and efficiency, with the PWD's Procurement Unit managing low-value works and services, and the Central Tender Board overseeing high-value procurements.
- Distribution of equipment to provincial divisions to enable effective oversight and monitoring by divisional engineers.
- Project consultations are conducted with communities affected by the proposed works. The consultation team is composed primarily of government representatives from the Public Works Department (PWD), Department of Lands, Survey and Records (DLSR), Department of Water Resources (DWR), Department of Geology and Mines (DGM), Department of Environmental Protection and Conservation (DEPC), Department of Agriculture and Rural Development (DARD), Department of Forestry (DF), Department of Livestock Production and Animal Health Services (DLPAHS), the Ministry of Internal Affairs (MIA), and Provincial Government representatives.
- Strengthen operational capacity by recruiting technical staff for the PWD Head Office and provincial divisions and foster the adoption of advanced technology and innovative practices.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Supervise project implementation to ensure adherence to approved plans and specifications, conduct inspections and testing to confirm compliance with quality standards, and identify, assess, and mitigate risks throughout planning and execution.	7	Number of projects
Develop project plans, schedules, and scopes including design and drawings, specification, and cost estimates for infrastructure projects.	7	Number of project plans
Conduct monthly inspections and prepare corresponding projects progress report.	12	Monthly
Develop, review, issue tender documents for all procurement activities related to approved projects, evaluate submitted bids to ensure fairness, transparency, and value for money, and award contracts while monitoring execution to ensure compliance with agreed terms and specifications.	7	Number of approved projects

Enable divisional engineers to assist with the supervision and monitoring of infrastructure works.	7	Number of major projects monitored
Conduct project consultations with communities and relevant stakeholders affected by the project.	21	Number of project consultations
Implement training and professional development programs, provide mentoring and on-the-job coaching, and promote the adoption of innovative tools and technologies to strengthen staff performance and institutional capacity.	20	Number of staffs

Activity MUFB: **Airport Maintenance**

Activity Cost: **1,009,835,592**

Objectives

1. To perform regular maintenance and timely repairs that prevent deterioration and reduce the need for expensive replacements in the future.
2. To strengthen airport infrastructure to withstand natural disasters or climate-related events, ensuring quick recovery and continuity of operations.
3. To maintain airport infrastructure in line with the CAAV standard, safety and regulations
4. To ensure effective planning and design of infrastructure projects through the timely preparation of comprehensive project documentation, including designs and cost estimates.
5. To ensure all infrastructure projects are implemented efficiently, meet approved standards, and comply with quality, safety, and risk management requirements.

Means of Service Delivery

Implement a scheduled preventive maintenance program to regularly inspect and repair airport infrastructure for instance, runway, fencing, terminal building, and nav-aids before major issues arise. Upgrade facilities using climate-resilient designs and install backup systems to ensure quick recovery during emergencies.

Implement infrastructure works directly through PWD Head Office and provincial divisions, including construction, inspection, and maintenance.

Oversee planning, design, cost estimation, and execution of infrastructure projects ensuring they meet quality standards and are completed within budget and on schedule.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Airport maintenance contracts are issued to support the upkeep of Outer Island Airports, ensuring they remain operational and safe throughout the year.	26	No. of Outer Island Airports fully operational
Ensure maintenance of Outer Island Airport infrastructure meets CAAV, national, and international standards to maintain quality and resilience against natural disasters like earthquakes, cyclones, and floods.	26	No. of Outer Island Airports maintained to standard
Norsup Airport Upgrade to Accommodate ATR 72-600: Supervise project implementation to ensure adherence to approved plans and specifications, conduct inspections and testing to confirm compliance with quality standards, and identify, assess, and mitigate risks throughout planning and	1	Number of projects

execution.		
Norsup Airport Upgrade to Accommodate ATR 72-600: Develop project plans, schedules, and scopes including design and drawings, specification, and cost estimates for infrastructure projects.	1	Number of projects

Activity MUFC: **Government Contributions to Projects**
Activity Cost: **2,998,552,769**

Objectives

1. Deliver timely and cost-effective road maintenance in line with the approved business plan to improve road quality and accessibility.
2. Develop and apply clear strategies and policies to prioritize road works and allocate resources efficiently.
3. Improve management capacity, financial control, procurement, and technology use for better infrastructure management.
4. Encourage local and private sector involvement to improve efficiency, ownership, and job creation in road works.
5. To ensure all infrastructure projects are implemented efficiently, meet approved standards, and comply with quality, safety, and risk management requirements.

Means of Service Delivery

- Activities to achieve the objectives include:
- Implementation of the road maintenance program as per the approved PWD Annual Business Plan.
- Strengthening PWD strategic framework and implement policies to guide prioritization of road works and allocation of financial resources.
- Strengthen and support PWD management team and PWD Divisions including financial management; procurement of goods, works and services and application appropriate technology for advancement of infrastructure management.
- Encourage community participation and private sector involvement in road construction and maintenance.
- Oversee planning, design, cost estimation, and execution of infrastructure projects ensuring they meet quality standards and are completed within budget and on schedule.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Implementation of routine maintenance works (vegetation control, pothole patching, drainage clearing & cleaning, road formation of gravel roads, light grading of gravel roads, stockpile of road base materials etc.).	80	Number of routine maintenance works
Implementation of periodic maintenance works (medium grading of gravel roads, resealing of existing seal roads, stockpile of road base materials etc.)	14	Number of periodic maintenance works
Implementation of improvement works (construction of concrete pavement, double bituminous surface treatment pavement, drainage structures, etc.).	16	Number of projects

Monitor and report monthly physical progress and financial expenditure against the maintenance program.	12	Number of monthly reports
Develop, review, and submit planning and reporting documents within set deadlines, and conduct stakeholder consultations and feedback surveys to assess policy effectiveness.	1	Approved 2027 Workplan
Prepare scope of works including design, cost estimate, and preparation of tender documents.	110	Number of projects executed
Engage community-based contractors and private firms through the development and funding of local maintenance contracts under public-private collaboration initiatives.	110	Number of contracts implemented
Organize community awareness meetings and consultations before project commencement.	16	Number of awareness/ consultations
Outstanding Claims for completed road works: Tanna and Malekula phase 2, and South Pentecost Phase 1	1	Works completed and paid

Activity MUFD:

Urban Roads Developments and Maintenance

Activity Cost:

327,313,934

Objectives

1. Maintain and improve road conditions in urban areas, and carry out planned maintenance activities, including pavement repairs, drainage cleaning, and surface rehabilitation.
2. Implement maintenance interventions that preserve and extend the service life of urban road infrastructure.
3. Improve the efficiency and reliability of the urban road network to facilitate smooth transportation and access to services.
4. To respond promptly to emergency road maintenance needs in urban areas, ensuring the safety of road users and minimizing disruption to the urban transport network.
5. Optimize the use of allocated funds to ensure timely, high-quality maintenance while minimizing long-term repair costs.

Means of Service Delivery

- Carry out inspections and scheduled maintenance activities such as pavement repairs, resurfacing, and drainage cleaning.
- Implement preventive and rehabilitation maintenance to prevent deterioration and prolong road service life.
- Rapidly respond to and repair roads affected by accidents, natural disasters, or other unexpected damage, prioritizing high-risk and critical routes while coordinating with emergency services, local authorities, and contractors to restore accessibility efficiently.
- Maintain signage, markings, and access points, and coordinate traffic management to ensure smooth transportation.
- Use asset management systems, engage local contractors efficiently, and monitor budget utilization for cost-effective maintenance.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Develop, review, and submit planning and reporting documents within set deadlines, and conduct stakeholder consultations and feedback surveys to assess policy effectiveness.	1	Approved 2027 Workplan
Prepare scope of works including design, cost estimate, and preparation of tender documents.	12	Number of projects executed
Carry out maintenance activities including pavement repairs such as regrading and pothole patching, resurfacing with sealing, and cleaning of drainage systems.	6	Number of maintenance activity completed
Maintain road markings, signage, and pedestrian facilities	50%	Percentage of markings & signages completed
Engagement of Contractors to undertake road works.	12	Number of Contracts Completed.

Activity MUFE:	Policy & Administration
Activity Cost:	683,101,898

Objectives:

1. Strengthen institutional frameworks and oversight mechanisms to ensure transparent, ethical, and accountable management of public infrastructure programs and resources.
2. Align PWD's operations and administrative procedures with national legislation and regional standards to promote good governance, safety, and climate-resilient infrastructure delivery.
3. Formulate and implement infrastructure policies that support national priorities and integrate long-term planning, climate adaptation, and disaster risk reduction measures.
4. Streamline administrative systems and adopt digital solutions to improve coordination, decision-making, and timely delivery of infrastructure services.
5. Establish policies and protocols for disaster preparedness, emergency response, and resilient infrastructure design to minimize risks and service disruptions.
6. Enhance staff capabilities through targeted training, performance management, and inclusive HR practices that promote innovation, accountability, and gender equity.
7. Strengthen collaboration with communities, contractors, and partners through participatory planning, clear communication, and effective feedback mechanisms to build public trust and support.
8. Strengthen procurement processes in line with the Government Tenders and Public Finance Acts to ensure transparency, value for money, and ethical contracting practices across all PWD projects.
9. Enforce adherence to the Public Roads Act and integrate social and environmental safeguards in all infrastructure activities to promote safety, inclusiveness, and environmental sustainability.

Means of Service Delivery

- Implement clear policies, oversight systems, and ethical standards to ensure transparency and integrity in infrastructure management.
- Align departmental operations with national laws and regional standards through policy reviews, compliance monitoring, and staff training.
- Develop and implement long-term, climate-resilient infrastructure policies and plans in coordination with government and development partners.
- Adopt digital tools and streamlined systems to improve coordination, data management, and timely decision-making.
- Develop emergency response protocols, conduct vulnerability assessments, and train staff for rapid recovery and resilient design.
- Deliver targeted training, establish performance management systems, and promote gender equality and professional development.
- Foster collaboration with communities, contractors, and partners through participatory planning, transparent communication, and feedback mechanisms.
- Standardize procurement processes, build staff capacity, and ensure ethical, transparent, and value-for-money contracting practices.
- Monitor and enforce adherence to legal, social, and environmental safeguards in all infrastructure projects to promote safety and sustainability.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Review and update internal governance frameworks and standard operating procedures (SOPs), and conduct regular internal audits and compliance reviews to ensure transparency and accountability.	10	Documents completed
Develop and update infrastructure policy frameworks to support strategic planning and compliance.	2	Number of policies and strategic documents developed and approved
Streamline administrative processes by digitizing administration and reporting systems, training staff in digital tools and data management, and improving approval and reporting procedures.	4	Number of systems developed and implemented
Develop an Emergency Response Framework.	1	Framework developed
Enhance workforce capacity by developing an annual training plan, delivering technical and management training, promoting gender	50	Percentage of trainings undertaken

MINISTRY OF INTERNAL AFFAIRS

Ministry Cost 4,674,526,862

Introduction

The Ministry of Internal Affairs (MoIA) is a significant multi-agency organization tasked with a wide range of responsibilities that encompass welfare, peace, and stability at all times. Additionally, the MoIA's role aligns with the objectives of the National Sustainable Development Plan, which aims to "build a stable, sustainable, and prosperous nation."

The MoIA is dedicated to enhancing service delivery and optimizing government services, even with limited financial resources. Services are coordinated through various sectors including the cabinet, border control, civil registry and identity management, the electoral office, immigration and passport services, labor, the Vanuatu Police Force, local authorities, urban affairs and planning, the police service commission, and land transport. The ministry's support encompasses leadership direction, improved human resource management, financial management, monitoring and evaluation support, and compliance assistance.

The Ministry and its associated departments aim to enhance service delivery right down to the community level, in line with the Decentralization Policy. This initiative is a key priority for the Vanuatu government, and all agencies under the Ministry of Internal Affairs (MoIA) are committed to ensuring that services are effectively decentralized to the Area Councils. The Ministry will also maintain support for the statutory bodies within its portfolio, ensuring that their operations align with existing legislation.

The Ministry has developed the Nasara Sector Strategy, which focuses on proactive planning to identify opportunities and create stronger, more sustainable solutions to the challenges it faces. Key priorities of this strategy include Decentralization, Innovation & Data Management Integration, Safe, Secure & Prosperous Vanuatu, Sector Cooperation & Harmonization, Custom, Culture & Community Engagement, and Social Justice, emphasizing Transparency, Good Governance, and Inclusion. As a significant revenue source for the National Government, the Ministry is committed to enhancing revenue generation to meet the targets set by the government.

This revenue is vital for the national budget, enabling the government to address the needs of the people of Vanuatu effectively. To ensure progress on revenue targets and explore new revenue avenues, an internal Review Committee has been established within the Ministry. With the efforts of this committee, the Ministry of Internal Affairs (MoIA) anticipates an increase in revenue collection by 2026.

As one of the largest ministries, the challenge lies in effectively implementing the necessary restructuring within the MoIA. Our goal is to enhance staffing and foster professionalism to ensure the ministry is well-equipped to meet the needs of the people of Vanuatu. By ensuring we have the right individuals in the appropriate roles with the necessary skills, we can achieve our service delivery goals and align with the NSDP targets set for our ministry.

PROGRAM MIA: CABINET SUPPORT

Program Cost 418,689,735

Objectives

1. To enhance the implementation of government policies, particularly in decentralization, development planning, internal security, border management, employment and welfare, national identity, and democratic principles, while ensuring that all activities of the Ministry are aligned with the NSDP 2030.
2. To establish, revise, and execute legislative frameworks, policies, and planning and reporting guidelines aimed at fulfilling the mandate of the Ministry of Internal Affairs and supporting the NSDP 2030.

3. To strengthen the skills and professionalism of all staff, ensuring that service delivery is effective, efficient, and timely.
4. To oversee cabinet services and coordinate all departments and statutory portfolios within the Ministry.

Activity MIAA: Portfolio Management

Activity Cost 83,647,281

Objectives

1. Regularly develop and update policies, ensuring that legislative frameworks remain current and effective.
2. Advance the implementation of government policy directives, ensuring departmental activities are aligned with the National Strategic Development Plan (NSDP).
3. Oversee cabinet services and coordinate all departments and statutory portfolios within the Ministry.
4. Provide support for the efficient administration of the cabinet, including budget expenditure and assistance for the Minister's office.

Means of Service Delivery

- Identify and pinpoint any gaps in policy and legislation, then create directives for agencies to effectively address those gaps.
- Enhance policy strategies and suggest practical steps to address the management and financial challenges faced by municipalities and provincial governments.
- Initiate programs that bolster and support the Minister and the associated Members of Parliament, reinforcing the Ministry's mandated responsibilities.
- Offer guidance and political advice to the minister concerning the Ministry's operations and discussions within the Cabinet of Ministers.
- Ensure the Cabinet operates smoothly and efficiently within its allocated budget, collaborating closely with the Director General's office to maintain financial oversight.
- Guarantee that cabinet support staff provide high-quality and reliable services to the minister, Ministry of Internal Affairs agencies, statutory bodies, and the public.
- Deliver effective and efficient support services to the Minister's office, enhancing operational effectiveness.

Performance Measurement (Service Targets)		
Description	Quantity	Unit of Measure
Legislative documents and policy papers submitted to the [COM] and [parliament]	5	Number of COM Minutes
Participate in Council of Ministers meetings to present and discuss COM documents.	20	Number of meeting minutes
Regular meetings with heads of MoIA agencies	10	Number of Bills act Draft
Provide quarterly financial reports to Minister on budget expenditure & revenue generation	4	Quarterly report
Expedite amendments of regulations & legislation required for the effective operations of the Ministry's Departments & Units	5	return mission report

Coordinate Minister's Domestic and International travelling	10	Number of COM paper and legislative amen
Management meetings will be held regularly with Heads of Department to discuss and implement action items.	15	Meeting Records
Prompt preparation and review of Cabinet officers' contracts with communication through OAG, seeking legal advice on OSA issues as necessary	10	Number of staff recruitment, seek advice
Meeting with MOIA stakeholders	6	Meeting Records
Initiating/Launching Projects under the Ministry of Internal Affairs (MOIA)	10	Number of launching programs
Provincial and Area Councils visits	6	Number of reports

Activity MIGA: Police Service Commission

Activity Cost: 18,837,021

Police Service Commission determines appointments, promotions and disciplinary matters of Vanuatu Police Force officers and appeal cases of the junior Vanuatu Police Force officers. It also determines the termination and retirement of officers. The commission oversees and advises the Government through the Minister of Internal Affairs on the general development and status of the Vanuatu Police Force and to ensure that Vanuatu Police Force is function effectively and efficiently.

Objectives

The Police Service Commission is an independent oversight body responsible for ensuring professionalism, accountability, and integrity in the police service. The Commission's core mandates include recruitment, promotion, discipline, performance evaluation, and oversight of Vanuatu Police Force personnel.

1. *Ensure Merit-Based Recruitment and Promotion* - Oversee the recruitment, appointment, promotion, and discipline of members (including civilian staff) of the Vanuatu Police Force. Ensure decisions are made fairly and based on merit, qualifications, inclusivity, and performance.
2. *Maintain Police Integrity and Discipline* - Ensure that police personnel maintain high standards of conduct and integrity. Investigate and discipline officers who violate police rules, ethics, or laws.
3. *Promote Accountability and Transparency* - Provide oversight to ensure the police operate within the law and in the public interest. Act as a check on police powers to prevent abuse and corruption.
4. *Support Professional Development* - Encourage the continuous professional development of police officers. Support training programs to enhance skills and leadership within the force.
5. *Enhance Public Trust in Law Enforcement* - Foster community confidence in the police by ensuring accountability and fair policing practices. Promote community-oriented policing values through oversight.
6. *Advise the Government on Policing Matters* - Provide recommendations to the Minister responsible for police on strategic matters affecting policing. Assist in shaping policies that improve public safety and police service delivery.
7. *Ensure Operational Effectiveness* - Contribute to the efficiency and effectiveness of the Vanuatu Police Force through strategic human resource management and operation of the force.

Means of Service Delivery

- *Human Resource Management* - Oversees recruitment, appointment, promotions, transfers, and disciplinary actions for members of the VPF. Governance and Accountability: Ensures that the police service operates within the rule of law and maintains ethical standards.
- *Legislative Framework* - Operates under the Police Act [Cap 105], Constitution of Vanuatu, and other relevant legislation. Ensures that all decisions comply with legal standards and uphold the rights of officers and the public.
- *Coordination with Stakeholders* - Works closely with the Commissioner of Police, Ministry of Internal Affairs, and other government bodies. Collaborates with civil society, local communities, and regional partners to strengthen policing services.
- *Public Complaints and Disciplinary Actions* - Receives and investigates complaints against police officers. Takes action on misconduct through disciplinary hearings and sanctions as required.
- *Capacity Building and Training* - Supports and approves training programs for police officers. Promotes professional development to ensure officers meet service delivery standards.
- *Merit-based Appointments* - Ensures that hiring and promotion processes are transparent, fair, and merit-based.
- *Monitoring and Evaluation* - Regularly reviews police performance and management practices. Recommends reforms or improvements to enhance service delivery and public trust.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Recruitment & Appointment, and Acting Appointment Efficiency	80	Fill 100% of approved police vacancies both civilians and senior force members within the financial year.
Promotion & Career Development	10	Ensure fair and timely promotion of eligible officers based on merit.
Disciplinary Case Management	17	Investigate and resolve all reported misconduct cases within 90 days.
Public Complaint Resolution	5	Respond to all formal public complaints within 14 working days.
Training and Professional Development through Vanuatu Police Training College	5	Police personnel to undergo at least one professional training annually.
Service Quality and Public Satisfaction	1	Achieve a satisfactory rating from public opinions
Legal and Policy Compliance	All	Adherence to Police Act and constitutional provisions, regulations in all Commission decisions with the support of the Ministry DG and AG Office.
Advise the Government on Policing Matters including high profile cases and case	5	Ensure government policy are implemented and meetings with the Minister & DG as

status		required
Conduct Commission meetings	10	Commission Meetings
Ensure Operational Budget Effectiveness	5	Ensure timely quarterly and annual reports. Align budget narratives with Business Plan and annual reports.

Activity MIAB: Corporate Services

Activity Cost: 315,042,454

Office of the Director General objectives 141,884,622

Objectives

- 1 Provide strategic leadership and management to all agencies under the Ministry of Internal Affairs (MoIA).
- 2 To ensure effective coordination, guidance, and assistance in achieving the Ministry's overarching goals.
- 3 To provide effective implementation and operational support to all departments and agencies under the MoIA

Means of Service Delivery

- Coordinate the effective management and ensure that stability and good governance are maintained within the Ministry of Internal Affairs.
- Ensure that official government policy decisions of the Ministry of Internal Affairs Cabinet is conveyed to the responsible Heads of departments.
- Support other strategic initiatives and investments.
- Coordinate and support necessary MOIA legislative reviews.
- Strengthen policy development and implementation to improve regulatory frameworks & coordination.
- Lead the strategic implementation of Decentralization, Security, Regional Development, Urban Planning Development, Employment and Worker Rights, National Identity and Representation across Vanuatu, ensuring the equitable distribution of resources, decision – making authority and services to regional and local levels in alignment with national development goals.
- Oversee the strategic alignment and optimization of the Ministry's organizational structures to enhance operational efficiency and ensure clear governance frameworks and support the achievement of national development priorities.
- Support key infrastructure development across the MOIA.

Performance Measurement (Service Targets)

Activity Descriptions	Quantity	Unit of Measure
Coordinate development of GIPs	5	Number of GIPs submitted
Coordinate New Policy Proposals (NPPs) submitted for MBC	3	Number of NPPs
Coordinate development of the MOIA Legislative Plan	1	Number of plans developed
Decentralization Policy developed	1	Number of Policy developed
Decentralization initiatives developed among MOIA agencies to strengthen local authorities	3	Number of decentralization initiatives developed
Concept notes for townships, expansion of urban boundaries and regional hubs	1	Number of concept notes developed
Legislative documents and policy papers submitted to the DCO and COM	10	DCO & COM Minutes
Participate in DCO meetings	20	Number of meeting minutes
Conduct MoIA Executive meetings	10	Number of meeting minutes
International travels for meeting with key Ministry stakeholders	5	Back to country reports
Provide a Business Plan for the Ministry	1	Copy of Business plan
Provide a Ministry Annual Report	1	Copy of Annual Report
Produce Ministry's Quarterly & Half Yearly Reports	4	Quarterly Reports
Coordinate Fiscal Management of MoIA	4	Quarterly financial reports
Lead the review and approval of revised organizational structures for MoIA agencies	4	Submissions to OPSC
Provincial and Area Council visits	7	Report of visits
Office buildings built & renovated	3	Number of buildings built & renovated
New Infrastructure facilities identified and design	3	Number of Infrastructures identified & designed
Administration operations	100%	Progress of BP implementation report

The Monitoring & Evaluation Objectives 18,481,200

- 1 To implement and enhance M&E systems in the MoIA.
- 2 To enhance transparency and public awareness by utilizing national media platforms.
- 3 To improve digital competency in MOIA.

Means of Service Delivery

- Establish a centralized digital M&E dashboard that enables real-time performance tracking and reporting across all MOIA departments, provincial offices, and municipal councils.
- Conduct regular provincial visits to verify data accuracy, support evidence collection, and validate the implementation status of key activities at the local level.
- Analyze the feedback to identify areas for improvement and implement necessary changes.
- Provide to the MOIA agencies the necessary knowledge and skills to deliver services effectively
- Develop and implement action plans based on feedback and identified areas for improvement
- To build institutional M&E capacity through targeted workshops for Area Administrators, departmental focal officers, and M&E staff on monitoring tools, data analysis, and result-based reporting.
- Continuously monitor the implementation of action plans and track progress towards achieving desired outcomes.
- To promote community-level understanding of governance and accountability, particularly in Shefa Province, through educational outreach programs in schools and local communities.
- To enhance transparency and public awareness by utilizing national media platforms (e.g., VBTC) to communicate progress on government reforms and community impacts
- Tracking online sentiment and news coverage in the events under respective MOIA agencies
- Conduct regular system update, ICT training, enabling effective use of data collection and reporting technologies

Performance Measurement (Service Targets)

Activity Descriptions	Quantity	Unit of Measure
Update of M&E system	6	Number of System update report
Capacity building workshops to agencies and the Local Authorities	6	Number of Training sessions
Quarterly visits to the Provinces	6	Number of Provincial visit reports
Evaluation on key programs undertaken	2	Evaluation reports
VBTC media awareness	22	Number of Media broadcasts
Roll out of educational awareness-Shefa Province	7	Educational awareness report
IT System audit and assessment	6	Number of IT Audit reports
Training & capacity building in ICT	6	ICT training report

Internal Audit Objectives**12,921,432**

- 1 Promote good governance through strengthening Internal Audit, RAC, and relationship with external audit
- 2 Enhance the performance of audit functions in MOIA agencies

Means of Service Delivery

- 1 Improve coverage, frequency and quality of verifications, audits, Investigations, consultations, and advisory services
- 2 Resourcing, restructuring and capacity development of RAC and IA.
- 3 Establish an effective and secure audit management system, data science, applications, and information database

Performance Measurement (Service Targets)

Activity Descriptions	Quantity	Unit of Measure
Recruitment of staff	1	Number of Appointments
Training and Capacity building	2	Number of reports of training/workshops
Engagement of Audit Specialists	2	Number of Signed Contract with SME
Engagement reports	7	Number of Audit engagement reports to RAC
Audit Plan	1	Number of finalized annual audit plan
Risk and Audit meeting	4	Number of meeting minutes

Human Resource Management Objectives 15,971,280

1. Coordinate and oversee Human Resource Management functions in three key areas: HR planning and recruitment, staff performance, development, and welfare, and compliance, records, and retirement management, ensuring alignment with HR policies and the Public Service Staff Rules Manual (PSSRM).

Means of Service Delivery

- Develop a strategic Human Resource Development (HRD) Plan.
- Facilitate and conduct training and workshops to build staff capacity.
- Facilitate transparent recruitment and coordinate performance appraisal processes.
- Manage staff restructuring and process staff entitlements in accordance with HR policies.
- Ensure timely and fair handling of disciplinary matters in compliance with HR policies.

Performance Measurement (Service Targets)

Activity Description	Quantity	Unit of Measure
HRD Plan developed	1	HRD Plan
Training and workshops conducted	3	Number of Training Reports
3 CSU positions recruited	3	Appointment Letters
Staff performance appraisals and PA submitted (2 PIPs, 15 SEO), restructure and staff entitlements	17	Staff Appraisal Documents, submission of restructure and staff entitlements
Restructuring and process staff entitlements in accordance with HR policies.	2	Number of restructures
	20	Number of staff entitlements
Disciplinary cases resolved	2	Number of disciplinary cases resolved

The Finance Objectives**18,086,640**

- 1 Ensure proper financial planning and effective management of the Ministry's financial resources, infrastructure, and assets, adhering fully to the PFM and GCT Acts.

Means of Service Delivery

- Share insights on revenue and expenditure projections, conduct thorough analyses, and implement expenditure controls, while offering guidance in budget and cost management strategies.
- Registration of assets on the Assets Register with placement listing, management of movement of asset and the disposal of aging assets as per PFEM Act.
- Create comprehensive MBC submissions, including detailed costs for NPPs, along with careful budget and business planning.

Performance Measurement (Service Targets)

Activity Descriptions	Quantity	Unit of Measure
Updating asset registry under the MOIA agencies	9	Asset database updated
Submission of 2027 MOIA VBMS	9	VBMS report
Quarterly financial report	4	Quarterly report
Recruitment of Finance staff	1	Appointment letter

The Compliance, Policy, and NGO Objectives**12,502,640**

- 1 Coordinate Inter-Agency Legislative Review and awareness
- 2 Coordinate Provincial and Inter-Agency Compliance Checks
- 3 Coordinate and Support Policy Reviews Across Agencies
- 4 Improve Capacity and resourcing.
- 5 Strengthen NGO Policy Implementation and Coordination

Means of Service Delivery

- Lead and facilitate reviews of legislation across departments and agencies under the Ministry to ensure laws remain relevant, enforceable, and aligned with national and international standards
- Organize four regional legislative review consultations in key provinces (e.g., Sanma, Tafea, Malampa, and Penama) to gather inputs on outdated laws.
- Convene bi-annual inter-agency review workshops to harmonize and streamline legislative mandates across departments.
- Implement structured compliance monitoring at both the provincial and agency levels, including the enforcement of regulations such as the State Flag and Armorial Bearings Act and other statutory requirements
- Implement quarterly provincial compliance inspections targeting key areas of concern (e.g., enforcement of national symbols regulations, permits).
- Develop a compliance checklist and reporting template for inter-agency use during inspections.
- Roll out a compliance awareness and training program for provincial officers and community stakeholders on statutory requirements.
- Provide technical assistance and coordination support for reviewing and drafting policies, including submissions to the Council of Ministers, ensuring consistent policy standards across MOIA
- Facilitate inter-agency policy consultation missions in three provinces to support review and feedback processes.

- Provide technical drafting assistance and support for submission of policies to the Council of Ministers.
- Support policy coordination efforts within MOIA to ensure consistency and tracking of policy development timelines.
- Enhance the operational capacity of the Unit by advocating for additional staffing, providing targeted training, and strengthening internal systems for more effective service delivery
- Advocate for and recruit additional policy/compliance officer to strengthen unit performance.
- Organize training workshops for staff on legislative drafting, compliance monitoring, and NGO engagement practices.
- Oversee and guide the implementation of the National NGO Policy and promote compliance
- Conduct annual provincial NGO roundtables to improve coordination and awareness of the National NGO Policy.
- Develop and distribute NGO compliance and reporting guidelines aligned with the policy framework.
- Monitor and evaluate NGO activities through joint review missions in partnership with the VANGO network and provincial authorities.

Performance Measurement (Service Targets)

Activity Description	Quantity	Unit of Measure
Legislative review coordination workshops	4	Number of Workshops conducted
Legislative and policy awareness	4	Number of awareness report
Provincial and agency compliance checks	6	Number of Site inspections
Policy review support (inter-agency and internal)	8	Number of Policies reviewed
COM policy submission support	5	Number of COM submissions assisted
NGO awareness and policy implementation workshops	3	Number of Workshops conducted
Monitoring of State Flag and Armorial Bearings usage	12	Number of ccompliance checks conducted
Track number of development support visas and religious support visas	4	Number of support visas
Development of SOPs across departments	5	Number of SOPs developed and approved
Recruitment and training of new staff	1	Number of staff recruited

The Project Management Objectives 22,083,360

To Coordinate and manage sectoral project activity by liaising with sector stakeholder and donor funded projects with clear delivery linkages to Government strategic priorities and MOIA Corporate Plan

Means of Service Delivery

- Effective communication is crucial for keeping stakeholders informed about project progress, risks, and changes.
- Thorough planning, including defining scope, creating a work breakdown structure, and developing a project schedule, is essential for successful execution.
- Essential needs identification through collaborative needs assessment which should then warrant all projects initiatives.
- Ensuring that the project team has the necessary resources, including staff, tools, and budget, is vital for achieving project goals.
- Ensuring accurate and justified project progress, updates, and quality data from all project's implementers.
- Organize the current PMU physical space to accommodate initial resources.
- Departments, Agencies and Donor's presentations of project reports during Donor partners meetings.

Performance Measurement (Service Targets)

Activity Descriptions	Quantity	Unit of Measure
Assist the MOIA Departments to formulate project proposals	7	Number of Projects formulated
Organize and attendOrganize donor partner meetings	15	Number of meetings conducted
Visit project sites	20	Number of Site Visit Reports
Produce detailed and well-informed MOIA project reports	1	Number of detailed reports produced
Quarterly Project Reports	4	Number of Reports produced
Liaise with DSPPAC and Finance Department to formally close completed projects	6	Report of completed projects

Activity MIAD: Independence Celebration**Activity Cost** 20,000,000**Objectives**

1. To collaborate with the Independence Committee in celebrating the Independence Anniversary on July 30th;
2. To execute the planned celebratory activities and functions while adhering to the allocated budget;
3. To account for government funds within one month following the independence celebration;
4. To prioritize the security and safety of all citizens during the 45th Independence Anniversary festivities.

Means of Service Delivery

1. Independence grants have been allocated to municipalities, provinces, and VanGov institutions abroad in honor of Vanuatu's Independence Day.
2. Successfully managed the presidential ball and the Prime Minister's independence ball.
3. Ensure effective coordination and establish payment arrangements for logistical support related to the official flag-raising ceremony.
4. Prepare a comprehensive acquittal report on budgeted revenue and expenditure for submission to the Ministry of Finance and Economic Management (MFEM).
5. Oversee operations during the 46th Independence celebration.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Appointment of Independence Committee Expenditure Report	10	No. of committee members
Overall, Independence report prepared	1	No. of compiled report
Successful hosts of independence celebration throughout Vanuatu as well as overseas	6	Committee Report
Independence operation report prepared	1	Number of reports produced
Provide public awareness on domestic violence effects, consequences, and associated cost implications	6	Reports on awareness activities undertake

PROGRAM MIB: URBAN PLANNING AND DEVELOPMENT

Program Cost 181,563,927

Department of Urban Affairs & Planning Objectives

The department's main objective is to provide technical advice and support to the Ministry of Internal Affairs and the three municipalities in areas related to urban planning, administration, operations, and financial management. It also oversees the effective implementation of the Physical Planning Act (CAP 193) across all declared Physical Planning Areas (PPAs). In addition, the department is tasked with developing and directing new legislative policies aimed at improving urban planning and addressing housing and informal settlement challenges. Furthermore, the department manage and enforcement of the Foreshore Development Act (CAP 90) to guide foreshore developments activities along Vanuatu's foreshore areas. Efforts are also focused on enhancing administrative processes and building staff capacity to optimize service.

Activity MIBA: Urban Planning and Development

Activity Cost 14,879,488

Objectives

1. Develop conducive planning policies, legislation, regulation, and planning guidelines;
2. To improve effective implementation of planning policies, legislation, regulation and planning guidelines in all Physical Planning Areas and urban centers throughout Vanuatu;
3. To develop a Housing Policy, legislation and regulation to improve accessibility to affordable and safe house within all Urban Centers
4. Guide the implementation of the Housing and settlement legislative frameworks.
5. To promote a legislative framework to manage informal settlement within all PPAs and urban centers;
6. Enhance staff capacity;
7. Improved coordination of declared Physical Planning Areas in collaboration with the Decentralization policy
8. Strengthen the implementation of planning practices in both rural and urban centers to improve the optimal utilization of resources (Land);
9. To promote urban growth through the expansion of current Municipal boundaries (Port Vila & Luganville) and develop new townships (Lakatoro/Norsup)
10. Provide interactive ICT based systems for improved decision making

Means of Service Delivery

- Regulate new planning policies, regulations, and planning standards to improve planning practices within the Declared Physical Planning Areas (PPA) and Urban centers.
- Implement CAP 126, CAP90 & CAP 193 and conduct reviews to modernize the legislative framework to support urban planning practices
- Establish new Physical Planning Areas and extend existing declared Physical Planning Areas, and creation of mini townships
- Implement Housing and settlement Policy action plan
- Build the capacity of urban planning staff through training to perform the required planning roles and responsibilities as expected from the Department.
- Assist the Local Authorities with development of new Zoning and Development Control Plans for the declared Physical Planning Area
- Contract qualified and experienced consultants to perform the technical roles required from the agency

- Finalize the expansion of Port Vila City boundary and Luganville Municipality boundaries and facilitate the establishment of new townships (Lakatoro/Norsup)
- Develop an e-Planning database (GeoNote, VANRIS)

Description	Quantity	Unit of Measure
Finalize new Planning Policy, housing policy, Regulations and Planning Guidelines	3	Number of new planning policies created
Develop an e-Planning database	1	ePlanning database used
Review and amend current legislation	1	Number of reviewed legislations
Conduct public consultation and awareness throughout the country on planning guidelines	2	Number of public consultations and aware
Establishment of new Physical Planning Areas and mini townships	2	Number of new declared Physical Planning
Attend Training Sessions for staff and sector stakeholders	2	Training sessions report
Zoning and development control plan for an identified physical planning area	2	Publish zoning development control plan
Contract Technical Advisor to support urban and housing policies	1	TA appointed
Expansion of Urban Planning Areas: Port Vila City boundary and Luganville boundary	2	Complete expansion
Seek additional funding to support Municipalities and/or urban planning projects	1	Number of NPPs and GIPs submitted

Activity MIBB: Foreshore Development

Activity Cost 11,235,280

Objectives

1. To administer and enforce the Foreshore Development Act;
2. To enhance awareness among the public, stakeholders, and developers regarding the existing legislative framework governing the foreshore.
3. To provide secretariat support to the Foreshore Advisory Committee;
4. To strengthen effective monitoring and enforcement of the Foreshore Development Act;
5. To ramp up the collection of revenue through foreshore development and enforcement of the Foreshore Act
6. Enhance staff capacity.

Means of Service Delivery

- Identify and undertake review of the current foreshore legislation to improve the implementation of the Act in order to achieve better Foreshore Development outcomes;
- Disseminate information on foreshore legislation, penalties and fees through media platform to enable public to be better informed or requirements of foreshore development;
- Support secretariat to meet regularly (up to 6 times per year);
- Undertake joint site inspection with other stakeholders to enforce foreshore legislation;

- Improve monitoring & enforcement through Spot Fines of Foreshore Development on Efate, Sanma and other approved islands;3. Support Secretariat to meet regularly (up to 6 times per year);
- Update and apply ICT based record keeping practices for foreshore development applications;
- Train Foreshore Development officers in the Foreshore legislation and enforcement requirements;
- Improve foreshore revenue collections.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Foreshore Guidelines developed	1	Foreshore Guidelines
Seek additional funding to support foreshore projects	1	Number of NPPs and GIPs submitted
Foreshore Development Act (CAP 90) review, amended, and implemented	1	Number of Act amended and implemented
Conduct Public Consultations through workshops, meetings, community consultations and social media	3	Number of foreshore awareness sessions
Conduct Foreshore Advisory Committee Meetings (6 per annum) as per Foreshore Act	6	Quantity of advisory committee meeting
Joint inspections under foreshore enforcement	8	Number of inspections
Prosecute foreshore offenders	2	Number of Prosecuted offenders
Develop a ICT database for record keeping	1	Foreshore database in use
Enforce Foreshore Development Monitoring Implementation Plans	1	Number of plans implemented
Collect 100% of foreshore revenue target	100 %	Revenue target met

Activity MIBC: Grants to Municipalities

Activity Cost 155,449,159

Finance Objectives (Municipal Council)

1. To improve administration and financial management of the municipalities
2. Support effective and efficient operations, financial management and administration of municipal councils;
3. Provide high quality financial management control, reporting, and budget development for the municipal councils

Means of service Delivery

- Ensure council Financial Regulation is review and update
- Develop an accurate Municipal Council Annual Budget
- Produce high quality financial management control seen through council reports and audits

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Update Municipal financial regulation	1	Gazettal of regulation
Develop council Financial Budget for the year 2026	3	Number of Council Budget
Produce quarterly financial reports	12	Number of quarterly Reports
Complete Council Audit reports for year 2020 – 2022	4	Number of Audit reports
2024 - 2025 Council VATS payments completed	3	Report on VAT payment

Planning Objectives (Municipal Council)***Objectives***

- 1.To ensure that social and economic development of the municipalities are properly planned and well-coordinated during implementation phases
2. Strengthen physical planning and management to meet the service delivery needs of a growing urban population

Means of Service Delivery

- Provide technical advice on planning matters to support Municipal Council decision making as stipulated in the Municipalities Act
- Manage and implement the Zoning and Development Control Plan for the council
- Support council Urban Projects
- Administer the enforcement of the building permits Approval

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Provide Town Planning Unit Quarterly Report	4	Number of reports
Administer the enforcement of the building permits Approval	10	Reports on Building Inspections
Support the implementation of council urban infrastructure projects	2	Projects reports
Building skills of municipal staff and councilors to improve leadership and ensure effective and accountable local governance.	2	Number of trainings conducted

Town Clerk Objectives (Municipal Council)

1. To improve effective management of the Council service delivery
2. Coordinate with DUAP to Ensure all legislative framework relating to council productivity are develop, review, and enforce.

3. Ensure the effective enforcement of council legislation, by-laws, regulation, and council standing orders.

Means of Service Delivery

- Council staff manual and Staff regulation is review and update
- Review of Municipalities Act CAP 126, update relevant by-laws and staff manual
- Effective enforcement on council by-laws to increase council revenue

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Update and implement by-laws of the Municipalities – 1 per Municipality	2	Number of new by-laws and revisions made
Review of Municipalities Act (CAP 126)	1	Number of reviews
Revenue Report (per council)	1	Annual Report

Municipal Council Objectives (Mayor & Councilors)

1. To support institutional strengthening and improved governance practice in Municipalities.

Means of Service Delivery

- Enhance the functions of the Municipalities detailed in CAP 126
- Ensure council sittings are conducted
- Promote staff and councilors capacity building

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Conduct council sittings – (per council)	6	Council Meeting minutes
Initiate / Coordinate trainings for Municipalities staffs and Councilors	2	Projects reports

Activity MIHA: Office Administration (Port Vila, Head Office)

Activity Cost: 14,195,440

Objectives

1. To provide technical advice and assistance to the Ministry of Internal Affairs and the three (3) municipalities in development planning, financial operations and management, procurement, audit, and reporting;
2. To support the reviews and amendments of legislation, policies, and strategies under the DUAP jurisdiction;
3. To support institutional strengthening through partnership with partners and other government line agencies;
4. Provide interactive ICT based systems for improved administration;
5. To provide a strong efficient and effective Department administration, restructures, human resource capacity and management, business planning, reporting, and monitoring and evaluation.

Means of Service Delivery

- Support the municipalities in their annual audits including develop strategies to address weaknesses identified;
- Coordinate development of Standard Operating Procedures and Business Continuity Plan;
- Support Municipalities in decentralization to enable services to be better delivered and managed at the ward level
- Coordinate research and development of policies, strategies, legislation or amendments to legislation under the mandate of the department to support enhance the functions of Municipalities, development in urban areas, declared physical planning areas and foreshore areas;
- Develop new partnership arrangements including investment & donor projects to support the growth and manage issues in the urban areas and foreshore development;
- Use ICT systems to integrate administration, planning and foreshore data in “real time;”
- Recruit, train and coordinate training and equip personnel in the Department and the three (3) Municipalities using ICT based strategies and data bases in order to enable improvement in service delivery in municipalities;
- Develop and support business plan, quarterly, six-monthly and annual reports annually;
- Ensure office is operational with restructure and skilled officers to improve service delivery, Department’s budget, and expenditure is effectively managed to ensure all planned activities are undertaken;

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Municipal internal Audit undertaken	1	Internal Audit report
Undertaken restructuring of the department	1	Restructure submission
Complete Recruitment under the current DUAP structure	1	Number of Staffs/Interns recruited
Approved Annual Business Plan with budget estimates	1	Annual Business Plan and proposed budget
Develop a conducive ICT system to integrate administration, planning, and foreshore data in “real time;”	1	Electronic Filing system
Developed standard operating procedure for business continuity plan	1	Number of standard operating procedures
Legislation under DUAP jurisdiction reviewed, amended, and submitted for approval by Parliament; 1. CAP 126 2. Foreshore Act (CAP 90)	2	Number of laws or Regs reviewed and amen
Initiate and implement urban infrastructure projects financed through recurrent funding	2	Number of projects implemented in urban
Attend Training Sessions for staff and sector stakeholders	2	Training sessions report
Effective operation and management of DUAP Office	2	Quarterly Reports produced

reported in Quarterly Report (Q1 Q3)		
Produce reports on time as per Government reporting cycle; DUAP Half Yearly x 1 and Annual Report x 1 supported by ICT based verifiable data	2	Number of reports per Gov. cycle

PROGRAM MIC: DECENTRALISATION SERVICES

Program Cost 1,125,053,704

Cash Grant/Aid in Kind: 150,692,000

The Department of Local Authorities Objectives

The Department of Local Authorities (DLA) is aiming to significantly enhance decentralization in Vanuatu, with a core mission to 'Bringing Government closer to its People'. Guided by Vanuatu's National Sustainable Development Plan 2015 -2030 (NSDP) and the Ministry of Internal Affairs Corporate Plan, the DLA's 2026 Business Plan focuses on strengthening provincial and Area Council governance and service delivery.

The key strategic focus for DLA in 2026 puts emphasis on decentralization, regional planning and strengthening of Area Councils.

With the increased emphasis on decentralization, particularly the delivery of government services directly to citizens at their doorsteps, it is essential that our budget structure evolves accordingly. This new structure should enable clearer and more transparent reporting on funds spent at the Area Council level, ensuring accountability and efficient resource management.

Furthermore, as the workload intensifies and the Department shifts its focus towards priority areas, we will be able to progress much of our deliverables due to the increase in staffing numbers in the new year enabling a more effective delivery of services aligned to our strategic focus.

The increase in resources—whether financial, physical, or in-kind—will significantly enhance and strengthen the decentralization narrative. These additional resources will empower local governments and service delivery points, enabling more effective implementation of decentralized initiatives. As a result, the overall impact and success of decentralization efforts will be more visible and measurable, reinforcing the commitment to bringing services closer to the people.

Activity MICC: Administration and Operation of the Department

Activity Cost 98,802,449

Office of the Director 44,249,866

Objectives

1. Develop and support implementation of the relevant legislative frameworks, policies, and strategies in Decentralization
2. Facilitate advertisement of key positions under the new DLA structure
3. Improve service delivery through undertaking and implementing restructure.
4. Undertake capacity building & strengthening of human resource to improve service delivery, especially in the provinces and Area Councils
5. Improved Disaster Planning and Response
6. Improve service delivery and organizational capacity through timely planning, budget, reporting and administration of the Department

Means of Service Delivery

- Act is developed (Decentralization)
- Facilitate advertisement of key positions under the new DLA structure
- Conduct induction for new Provincial Councilors in Torba PGC
- DLA staffs undergo Short Term Training
- Discussion paper on Disaster Management Functions in the Sub-National Governments is developed
- Conduct the Heads of Units (HoU) meeting to discuss key issues, progress, and ways forward.
- Allocate and use savings to establish and implement the Rural Development Grant Facility
- Establish LAAV office
- Coordinate implementation of the LA Forum Resolutions
- Directors Visit to the Provinces/Area Councils
- Implement Staff Awards and Rewards Programs
- Memorandum of Agreements/LoAs/Meetings with partners to support DLA initiatives
- Submission of all Reporting Requirements
- Submission of Staff Performance Appraisals

Performance Measurements (Service Targets)

Description	Quantity	Unit of Measure
Develop new Act (Decentralization)	1	Development of New Act completed and submitted to the OAG
Facilitate advertisement of key positions under the new DLA structure	5	Report on number of staffs recruited
Conduct induction for new Provincial Councilors in Torba PGC	1	Report of the outcome of the Induction of the Councilors of Torba PGC
DLA staffs undergo Short Term Training	1	Report on DLA staff Training
Discussion paper on Disaster Management Functions in the Sub-National Governments is developed.	1	Discussion paper developed for Sub-National Governments on Disaster Management Functions
Conduct the Heads of Units (HoU) to discuss key issues, progress, and ways forward.	4	•Minutes of the meeting documented, and action items developed •3 x Progress Reports produced Quarterly giving the status update of the Implementation of the 2026 DLA Head of Units (HoU) Resolutions.
Allocate and use savings to establish and implement the Rural Development Grant Facility	1	Report of percentage of savings successfully allocated and utilized to implement the grant facility.
Establish LAAV office	1	Report on the opening of LAAV Office
Coordinate implementation of the LA Forum Resolutions	4	Number of quarterly update reports
Directors Visit to the Provinces/Area	3	Report of each Visit

Councils		
Memorandum of Agreements/LoAs/Meetings with partners to support DLA initiatives	2	Number of Stakeholder Engagement formalized with partners to support DLA Activities
Submission of all Reporting Requirements	6	Number of quarterly reports, annual reports, half year report
Submission of Staff Performance Appraisals	345	Number of Staff Performance Appraisals submitted (Section A, B and C)

Administration (Port Vila, Head Office)

Objectives

Improve service delivery and organizational capacity through timely planning, budget, reporting and administration of the Department

Means of Service Delivery

- Conduct stock-take of existing DLA assets to ensure accuracy and update records.
- Compile monthly GPS records of the Vehicle Runs
- Perform regular vehicle servicing and ensure routine cleaning and maintenance.
- Obtain a new full set of office uniform
- Facilitate Departmental activities for PSC DAY
- Branding of Office Merchandise
- Plan and oversee office maintenance, renovations, beautification and improvements, ensuring timely completion.
- DLA Yearly Calendar is completed and shared on time to all DLA staff, with all key dates and events included.
- Listing of updated DLA, Provincial & Area Council Profiles
- Work with Planning Unit to develop Area Council Profiles
- Organize an Office Administration Training for Provincial Front Office Staffs.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Plan and oversee office maintenance, renovations, beautification, and improvements, ensuring timely completion.	1	Report of Completion of office maintenance, renovations, and improvements within the planned timeframe and budget
Update DLA, Provincial & Area Council Profiles	7	Listing of updated DLA, Provincial & Area Council Profiles
Work with Planning Unit to develop Area Council Profiles	36	Area Council Profiles developed
Organize an Office Administration Training.	1	Submission of a report on the completion and outcomes of the office management training

Regional Development Planning (Port Vila, Head Office) 22,277,035

Objectives

1. Undertake capacity building & strengthening of human resource to improve service delivery, especially in the provinces and Area Councils

2. Improve service delivery and organizational capacity through timely planning, budget, reporting, and administration of the Department

Means of Service Delivery

- Project Proposal Submission by Planners and Area Administrators
- Capacity building for the DLA Planning team and Provincial Planners on Regionalization to ensure they are better prepared to plan and support regional development
- Meet with in-country donor partners to gather updated funding information, research online funding agencies, and update and share the Donor Directory with all Provinces and Area Councils
- Revise the Community Profiling template and digitize data collection
- Visualization Community Profiling for a Provincial Council
- Review and update Provincial and Area Council Business Plans mid-year to track progress and make necessary adjustments
- Work with the Survey team and Provincial Planners to survey Area Council land boundaries
- Coordinate implementation of AA Forum resolution
- Participate in the procurement processes of the Area Council projects
- Conduct Data Collection and Mapping of Proposed Regional Hub Sites

Performance Measurements (Service Targets)

Description	Quantity	Unit of Measure
Project Proposal Submission by Planners and Area Administrators	10	Reports of the training and copies of draft project proposals drafted during the training
Capacity Building of DLA Planning Team and Provincial Planners	1	Report in trainings undertaken
Update the Donor's Directory	1	Updated Donor Directory and confirmation of distribution to Provinces and Area Councils
Digitization of Community Profiling Data	80%	Digitization of Community Profiling Template and implementation and roll out of the Digitized Community Profiling
Visualization Community Profiling for a Provincial Council	1	Visualization Report on the Digitized Community Profiling- Dashboard for a Provincial Council
Review and update Provincial and Area Council Business Plans mid-year to track progress and make necessary adjustments	71	Copies of reviewed and updated Provincial and Area Council Business Plans
Work with the Survey team and Provincial Planners to survey Area Council land boundaries	6	Area Council land boundaries surveyed and documented
Coordinate implementation of AA Forum Resolutions	4	4 x Progress Report on implementation of AA Forum Resolutions
Participate in the procurement processes of the Area Council projects	1	Report of all projects implemented at the Area Councils
Conduct Data Collection and Mapping of Proposed Regional Hub Sites	3	Report on Data Collection and Maps of proposed Regional Hubs

Finance (Port Vila, Head Office) 18,536,580

Objectives

- Develop and support implementation of the relevant legislative frameworks, policies, and strategies in Decentralization
- Improve service delivery through undertaking and implementing restructure
- Undertake capacity building & strengthening of human resource to improve service delivery, especially in the provinces and Area Councils
- Improve service delivery and organizational capacity through timely planning, budget, reporting, and administration of the Department

Means of Service Delivery

- Review Financial Regulation
- Recruitment and Induction of Provincial Treasurers
- Deliver training on Business Plan Budgeting for Torba and Malampa PGC via ICT platforms
- Attend an Audit/Project Management Training organized by MOIA Internal Audit
- Organize and facilitate procurement training for DLA Staff and Provincial Accountants via ICT platforms
- Process payments on behalf of the LA's contributions
- Process payments for bills, workplans, NPPs, assets, etc.
- Prepare the annual financial report detailing the use of Area Council budgets
- Provide monthly updates on warrant balances for the cost centers to Director and all Heads of Sections.
- Conduct Internal Audit Spot Check 2 AC/Province
- Assist the Accountants to draft responses and implement the measures recommended by the CA firms & NAO
- Liaise with the MOIA internal Auditor and MFEM to improve DLA Finances
- Input of 2026 recurrent estimates, budget narratives, supplementary budget and NPPs into VBMS.
- Facilitate LAs 2026 budget presentations before Minister's endorsement
- Facilitate and report on the procurement processes of projects where necessary
- Compile Project Financial Report and submit to the Director DLA and DG MoIA
- Extracted live smart stream data / report on warrant balances.

Performance Measurements (Service Targets)

Performance Measurements (Service Targets)

Description	Quantity	Unit of Measure
Review Financial Regulation and finalize for submission to the OAG	1	Financial Regulation Submitted for gazette
Deliver training on Business Plan Budgeting for Torba and Malampa PGC via ICT Platforms	2	Report on Business Plan budget training for Torba/Malampa
Prepare the annual financial report detailing the use of Area Council budgets.	1	Financial report of Area Council's budget
Conduct Internal Audit Spot Check 2 AC/Province	18	Reports of Internal audits conducted.

Assist the Accountants to draft responses and implement the measures recommended by the CA firms & NAO	6	Copies of management letters issued to the Chartered Accountant Firms & National Audit Office.
Liaise with the MOIA internal Auditor and MFEM to improve DLA Finances	1	Lists of discrepancies addressed
Input of 2026 recurrent estimates, budget narratives, supplementary budget and NPPs into VBMS.	77	VBMS reports of 2026 budget.
Facilitate LAs 2026 budget presentations before Minister's endorsement	6	Copies of LA's budget sign-off by the MOIA Minister
Compile Project Financial Report and submit to the Director DLA and DG MoIA	1	Project Financial Report presented to the Director/DG MoIA

Decentralization (Port Vila, Head Office) 13,738,968

Objectives

1. Develop and support implementation of the relevant legislative frameworks, policies, and strategies in Decentralization
2. Improve service delivery and organizational capacity through timely planning, budget, reporting, and administration of the Department

Means of Service Delivery

- Convene and Implement the DWC Resolutions
- Refine Decentralization Policy
- Full review of the Decentralization Act
- Assist Provinces to develop their By-laws.
- Manage and update the Department's website, ensuring content is current and accessible
- Develop a Decentralization Research Agenda (2025 – 2028) based on NSDP and MoIA Priorities & AA Forum
- Develop a paper on Provincial and Area Council Governance systems
- Develop New Project Proposal (NPP) to request additional funding for new Department's initiatives.

Performance Measurements (Service Targets)

Description	Quantity	Unit of Measure
DWC Meeting minutes and Meeting Resolutions	4	No. of meeting minutes and resolutions actioned
Decentralization Policy developed	1	No. of Policy developed
Decentralization Act drafted	1	Draft Decentralization Bill listed for parliament •List of Identified Gaps within the Act •Draft Council Paper •Draft the Drafting Instructions
1.4 Assist provinces to develop new By-Laws.	1	Copies of draft by-laws

2.1 Manage and update the Department's website, ensuring content is current and accessible	100%	The Department's website is regularly updated with accurate content
2.2 Develop a Decentralization Research Agenda (2025 – 2028) based on NSDP and MoIA Priorities & AA Forum	1	Finalized and Approved Research Agenda Document – Approved
2.3 Develop a paper on Provincial and Area Council Governance systems	6	Paper developed on Governance Systems for Provinces and Area Councils.
2.4 Draft New Project Proposal (NPP) to request additional funding for new Department's initiatives.	3	New Project Proposal (NPP) developed and submitted for additional funding, with approval or feedback received

Activity MICE: Provincial Presidents and Councilors Council

Activity Cost 300,386,003

Objectives

1. To ensure Provincial legislative frameworks are updated and implemented.
2. To Improve and strengthen the administration, planning, budgeting, operations, and management of Provincial Government Councils

Means of Service Delivery

- Hold Provincial Council sittings as required in the Decentralization Act.
- Hold Provincial Council Working Committee Meetings
- Ensure proper reporting of Councilors Constituency Allowance.
- Presidential visitation to Area Councils.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Council Sittings required under CAP 230 are held. -Administration Sitting (May) -Budget Sitting (November) -Extra Ordinary (TBC) 2 – Torba 2 – Sanma 2 – Penama 2 – Malampa 2 – Shefa 2 – Tafea	12	Number of Council Meeting Minutes submitted
Hold Provincial Council Working Committee Meetings - Recruitment Committee - Finance Committee - Physical Planning Committee 3 – Torba 3 – Sanma 3 – Penama 3 – Malampa 3 – Shefa 3 – Tafea	18	Number of Working Committee Meeting Minutes submitted

Produce Constituency Allowance Reports 4 – Torba 4 – Sanma 4 – Penama 4 – Malampa 4 – Shefa 4 – Tafea	24	Number of Reports submitted
Presidential Visitation around Area Councils 11 – Sanma 9 – Shefa 1 – Tafea	21	Number of Presidential Visit Reports submitted

Activity MICG: Area Councils

Activity Cost 441,746,848

Objectives

1. To develop and review reports for submission to Provincial Government Council.
2. To ensure Area Council legislative frameworks are implemented
3. To ensure collaboration and partnership between Area Councils, Government agencies and donor partners for progressive development
4. To provide timely, reliable, and quality data needed to make informed decisions.
5. To improve collection of revenue streams prescribed in the provincial by-laws, levies and other business activities.
6. To improve staff capacity and professionalism of Area Council Staffs and ensure effective, efficient and timely service delivery.
7. To facilitate registered titled land to accommodate Area Council offices.

Means of Service Delivery

- Develop/Review and implement Area Council Annual Business Plans.
- Develop/Review Area Council Development Plans.
- Organize Area Council Meetings as required by Decentralization Act.
- Submission of Area Council Members list to DLA to facilitate gazettal.
- Support from each Area Councils to build an Area Council Office.
- Negotiations with Government Agencies to establish their services at the Area Council.
- Conduct/Review Community Profiling.
- Improve collection of fees and levies prescribed in the provincial by-laws and other business activities.
- Complete Staff Performance Appraisals for Area Administrators
- Attend trainings conducted Secure registered land title to accommodate Area Council offices
- Secure registered land title to accommodate Area Council offices

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Develop/Review and implement Area Council Annual Business Plans 9 – Torba 11 – Sanma 10 – Penama 10 – Malampa 19 – Shefa 12 – Tafea	71	Number of Area Council Annual Business Plans developed
Develop/Review Area Council Development Plans. 9 – Torba 11 – Sanma 10 – Penama 10 – Malampa 19 – Shefa 12 – Tafea	71	Number of Area Council Development Plans developed
Organize Area Council Meetings as required by Decentralization Act. 18 – Torba 22 – Sanma 20 – Penama 10 – Malampa 19 – Shefa 12 – Tafea	142	Number of Area Council Sitting Minutes
Submission of Area Council Members to be gazette. 1– Penama 1– Malampa	2	Number of submissions of Area Council Members.
Support from each Area Councils to build an Area Council Office. 1 – Torba 1 – Sanma 1 – Penama 1 – Malampa 1 – Shefa 1 – Tafea	6	Report on the contributions to Area Council Office
To also consider and include other services to be established within an Area Council 2 – Sanma	2	Number of established health facilities
Conduct/Review Community Profiling. 9 – Torba 11 – Sanma	71	Number of Reports per Area Council

10 – Penama 10 – Malampa 19 – Shefa 12 – Tafea		
Improvement of Revenue Streams, collections and reports submitted 10 – Penama 19 – Shefa 3 – Tafea	32	Number of Financial Reports submitted by each Area Council
Staff Appraisals for Sections A, B, and C completed and submitted 27 – Torba 33 – Sanma 30 – Penama 30 – Malampa 57 – Shefa 36 – Tafea	213	Number of Staff Appraisals submitted
Attend capacity building trainings. 1 – Sanma 10 – Penama 5 – Shefa	16	Report on the number of Trainings Attended
Secure registered land title to accommodate Area Council offices 4 – Penama 11 – Sanma 17 – Shefa	32	Number of Area Council Offices to be surveyed and registered

Activity MICH: Admin & Finance (Provincial Government Council)

Activity Cost 104,679,717

Objectives

1. To oversee effective implementation of legislative framework, planning and reporting framework and ensure smooth operation of Government services in provinces.
2. To improve financial reporting and practices to promote accountability, transparency, and compliance.
3. To improve the operations and capacity building of Staffs to achieve effective service delivery

Means of Service Delivery

- Develop Provincial Plan
- Develop and Review the Provincial Annual Business Plan.
- Produce Half-Yearly Report, Quarterly and Annual Reports.
- Conduct Staff Meetings, PTAC Meetings and Management Meetings.
- Visit to Area Councils
- Update Asset Reports.
- Undertake Monthly Bank Reconciliation and submit reports

- Produce Provincial Government Council Financial Statement for submission to the Office of the Auditor General.
- Mid-Year Review of Staff Performance Appraisals undertaken.
- New staffs recruited under the Provincial Government Council.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Develop Provincial Corporate Plan 1 – Sanma	1	Number of Corporate Plan submitted.
Develop and review Provincial Annual Business Plan and budget 1 – Torba 1 – Sanma 1 – Penama 1 – Malampa 1 – Shefa 1 – Tafea	6	Number of Business Plans and Budget documented
Produce quarterly, six monthly and annual reports and Annual Business Plan 6 – Torba 6 – Sanma 6 – Penama 6 – Malampa 6 – Shefa 6 – Tafea	36	4 Quarter, six monthly, Annual report,
Conduct Staff Meetings, PTAC Meetings and Management Meetings 12 – Torba 36 – Sanma 12 – Penama 12 – Malampa 64 – Shefa 10 – Tafea	146	Number of Staff and Management and PTAC minutes submitted
Visit to Area Councils by Finance Unit / Physical Planning / Assets Unit 4 – Torba 2 – Sanma 2 – Shefa 2 – Tafea	10	Number of Reports covering Area Council visits
Updated Asset Reports by Area Councils and Administration	5	Number of Updated Asset Reports produced

1 – Torba 2 – Sanma 2 – Shefa		
Undertake Monthly Bank Reconciliation and submit reports by Finance Unit 12 – Torba 12 – Sanma 12 – Penama 12 – Malampa 12 – Shefa 12 – Tafea	72	Number of Bank Reconciliations submitted

New staffs recruited under the Provincial Government Council 11 – Sanma 8 – Shefa	19	Number of newly recruited qualified officers

Activity MICI: Planning (Provincial Government Council)

Activity Cost 28,746,687

Objectives

1. To improve the operations and capacity building of Staffs to achieve effective service delivery
2. To develop the Investment Portfolio for Provincial Government Council to address revenue initiatives.
3. To research and develop NEW By-Laws.
4. To seek support from Shefa Provincial Government Council in advancing the Regional Planning Framework.

Means of Service Delivery

- Facilitate and conduct training for Provincial Staff and Councils
- Construction of the Area Council new office building and renovation of existing buildings
- Draft and submit investment proposal or project proposals and submission to development partner or private investor
- Province and Area Council Investment Policy and Plan Developed and completed
- Waste Disposal Site Secured and System Developed for the Provincial Headquarter
- Review and Develop NEW Provincial By-Laws
- Provincial Government Council endorsement on the identified Regional Hubs.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Facilitate and conduct training for Provincial Staff and Council 2 – Sanma 3 – Shefa	5	Number of reports provided on completed
Construction of the new Investment buildings and renovation of existing buildings 3 – Sanma 1 – Shefa	4	Number of reports on the construction of new buildings and renovations of existing buildings
Draft and submit investment proposal or project proposals and submission to development partner or private investor 4 – Torba 3 – Sanma 1 – Penama 1 – Shefa 2 – Tafea	11	Number of the project or investment proposals
Province and Area Council Investment Policy and Plan Developed and completed 1– Sanma 1– Shefa 3 – Tafea	5	Number of Investment Policy and Plan developed
Waste Disposal Site Secured and System Developed for the Provincial Headquarter 1 – Sanma 3 - Penama 1 – Shefa	5	Number of Sites secured and System Developed
Develop and review new Provincial By-Laws	20	Number of draft and completed By-Laws

10 – Sanma 4 – Penama 9 – Shefa 1 – Tafea		
Provincial Government Council endorsement on the identified Regional Hubs 5 – Sanma 6 – Shefa	11	Number of endorsed Regional Hubs

PROGRAM MID: INTERNAL SECURITY & LAW ENFORCEMENT

Program Cost 2,535,701,250

The Vanuatu Police Force (VPF) is mandated in Cap 105 and its core functions are the preservation of peace, enforcement of laws, protection of property, the prevention and detection of offences, and bringing offenders before the court. VPF also plays a key role in humanitarian and natural disaster response. VPF requires an enabling environment and resources (budget, human resources, and planning) to achieve its strategic plan priorities in serving our 83 Island nation. It is a decentralized organization that has complex demands on its capacity and capability. VPF delivers its services through Policing, Maritime Surveillance, and its Paramilitary arm the Vanuatu Mobile Force.

From the latest Vanuatu Police Force Strategic Plan 2022 – 2027 Our Vision is A modern and professional organization serving our community better. The Strategic Objectives are to Keep our community Safe and Secure, Strengthening our Institution and Working Through Partnerships. In ensuring the delivery of the strategic objectives Vanuatu Police Force will continue in 2026 to assist our society to ensure that the rule of law is consistently upheld and access to timely justice is available to everyone to maintain peace and justice.

Activity MIDA: Joint Command and Control

Activity Cost 686,941,308

Objectives

1. Exercise Leadership Direction Command and Control in all operations and administrative decisions.
2. Enhance collaboration and information sharing with local, regional and international partners to detect, prevent and response to crimes.
3. Develop full range of capabilities needed for coordinated response
4. Strengthen the capability of the VPF to provide first line response to threats to national security, including natural disasters
5. Develop effective planning, budget and reporting systems to effectively support police operations.
6. Decentralize the provision of policing services in infrastructure development

Means of Service Delivery

- Strategically coordinate, utilize and extend existing capabilities to achieve national security objectives.
- Improve ICT in all Commands (including PIMS, EPCC and other data systems) for organizational and operational decision making.
- Enhance the administration of human, financial and physical resources to maximize operational effectiveness.
- Strategically coordinate and utilize capabilities to meet national security objectives.
- Improve Commanders' ability to develop compelling Annual Plan & Budget submissions.
- Increase police presence in rural communities.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Deliver coordination and leadership in international, regional, and national events	1	Number of Events coordinated
Implement a national Capability Hub to support strategic coordination and crime prevention	1	Number of Capability Hub established
Upgrade and enhance PIMS with refresher training to improve crime data reporting	2	Number of Trainings delivered and system updated
Construct and operationalize a Rural Police Post to improve response capacity	1	Construct and operationalize a Rural Police Post to improve response capacity
Conduct CSO training in annual business planning and budgeting	2	Number of Trainings conducted
Improve police infrastructure in rural areas via decentralization initiatives	1	Rural facility delivered

Activity MIDB: Police District Northern

Activity Cost 243,260,806

Objectives

- 1.Reduce crime within the Northern Command area of operation
- 2.Improve road safety through proactive approach
- 3.Strengthened collaboration with communities in the service of safety and security
- 4.Improve the support provided to victims, particularly women, children and disabled peoples, consistent with the justice and community services sector strategy
- 5.Strengthen and respond to public order issues.

Means of Service Delivery

- Adopting a proactive high visible police presence
- Develop and implement road safety awareness campaigns.
- Conduct proactive community patrols and increase community participation
- Conduct proactive community patrols and increase community participation to support victims of crime.
- Provide tactical response to any public disorder or incidents and use of the full capacity of the Police Information Management System (PIMS)

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Increase police presence and walking patrols in communities	25	% walking patrols
Conduct crime prevention and road safety awareness in communities	25	Number of Communities engaged
Increase visible police patrols and community engagement efforts	25	% Walking patrols
Conduct awareness programs on victim support and community safety	30	Number of Communities engaged
Improve PIMS-based case reporting and train officers in its use	25%	% of cases reported / Members trained

Activity MIDC: Police District Central**Activity Cost 75,963,132****Objectives**

1. Reduce crime within the Malampa and Penama area of operation
2. Improve road safety through proactive approach
3. Strengthened collaboration with communities in the service of safety and security
4. Improve the support provided to victims, particularly women, children and disabled peoples, consistent with the justice and community services sector strategy
5. Strengthen and respond to public order issues.

Means of Service Delivery

- Deploy proactive, high-visibility foot and vehicle patrols in high-risk areas to deter criminal activity
- Implement targeted road safety education campaigns and enforcement operations to reduce traffic violations
- Increase community patrols and engagement activities to build trust, cooperation and early reporting.
- Engage communities through victim-centered patrols and provide accessible channels for reporting and support services.
- Utilize PIMS for effective case tracking and equip officers with tactical response training for rapid deployment.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Increase police presence and walking patrols in communities	30	% walking patrols
Conduct crime prevention and road safety awareness	25	Number of Communities engaged
Conduct visible community patrols and engagement	25	% walking patrols

programs		
Deliver victim support initiatives through patrols and awareness	3	Number of Communities reached
Improve case reporting using PIMS and provide officer training	25%	% of cases reported / Members trained

Activity MIDD: Police District Southern

Activity Cost **457,011,779**

Objectives

1. Reduce crime within the Southern Command area of operation
2. Improve road safety through proactive approach
3. Strengthened collaboration with communities in the service of safety and security
4. Improve the support provided to victims, particularly women, children and disabled peoples, consistent with the justice and community services sector strategy
5. Strengthen and respond to public order issues.

Means of Service Delivery

- Deploy high-visibility foot and mobile patrols in key communities to deter and detect crime.
- Deliver targeted road safety campaigns and enforcement operations to address traffic violations and prevent accidents.
- Increase community patrols and establish regular engagement forums to build partnerships and mutual trust.
- Support victims through patrol outreach, reporting support, and referrals in partnership with social and justice agencies.
- Utilize the Police Information Management System (PIMS) for real-time case tracking and decision making and Equip officers with tactical response skills for effective incident management.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Increase police presence and walking patrols in communities	25	% Walking patrols
Conduct crime prevention and road safety awareness	30	Number of Communities engaged
Conduct visible community patrols and awareness programs	25	% Walking patrols
Conduct crime prevention and victim-support awareness campaigns	3	Communities reached
Improve case reporting using PIMS and provide officer training	25% / 3	% of cases reported / Members trained

Activity MIDE: Vanuatu Mobile Force**Activity Cost 569,898,012****Objectives**

1. Improve VMF capability and capacity to undertake domestic security functions through joint training exercises with other international forces.
2. Maintain discipline, morale and operational ability to respond to any security situation in Vanuatu.
3. Defend the Republic of Vanuatu when and where there is any external threat.

Means of Service Delivery

- Participate in peacekeeping operations and joint domestic missions to build teamwork and tactical skill
- Ensure equipment and facility readiness, and engage in community support and security operations to strengthen morale and preparedness.
- Maintain arms and support border protection efforts to ensure national defense readiness.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Conduct specialized training and participate in joint international exercises and peacekeeping missions	30	Total activities (30 trained + 3 missions)
Maintain infrastructure, provide humanitarian relief, and deliver VIP and venue security operations	45	Total service actions completed (20% buildings, 10 relief deployments, 15 VIP assignments)
Deploy VMF members for joint policing operations and conduct regular border surveillance and protection patrols	70	% Members deployed + Patrols (70% deployable + 12 patrols)

Activity MIDF: Police Maritime Wing**Activity Cost 122,491,318****Objectives**

1. Protect the Vanuatu economic exclusive zone through effective maritime surveillance and monitoring.
2. Improve intelligence and information sharing amongst partner agencies (national and international) to secure national borders.
3. Develop and strengthen capabilities needed for a coordinated and effective response to security threats.
4. Assist with humanitarian and disaster response operations

Means of Service Delivery

- Conduct routine and targeted maritime patrols within the EEZ to detect and deter illegal activities.
- Gather and share surveillance data and intelligence in collaboration with partner agencies to enhance border protection.

- Maintain maritime readiness to support emergency logistics, evacuation, and aid delivery in coastal and inland areas.
- Maintain maritime readiness to support emergency logistics, evacuation, and aid delivery in coastal and inland areas.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Conduct maritime patrol of EEZ	2	Patrols conducted
Assist customs, immigration, fisheries and biosecurity agencies with maritime monitoring and enforcement	13	Number of vessels boardings conducted
Secure harbor and strengthen police visibility in key maritime zones	12	Number of patrols (Port Vila and Luganville)
Maintain maritime readiness to support emergency logistics, evacuation, and aid delivery in coastal and Inland areas.	100%	Number of cases

Activity MIDG: Immigration Border Control

Activity Cost: 133,031,283

The Vanuatu Immigration and Passport Services Department provides services to protect the nation of Vanuatu by controlling the movement of people at international points of entry through management of passport, Visa and travel identity documentation. Vanuatu Immigration and Passport services program activity MID is separated into two main budget code that is MIDG and MIDH. MIDG is the border control budget and MIDH is the issuance of Passport Budget. Total expenses of the MID program activity or the department of Immigration overall budget is VUV 165,134,895.

Objectives

1.Enhance the Advance Passenger Information (API) system and Passenger Name Recording (PNR) system.

Means of Service Delivery

- Implement the API and PNR in the Border management system to Control of international points of entry to identify migration risks;

Performance Measurement (Service Targets)

Description	Quantity	Unity of Measure
Implementation of PNR and API	1	Funding of the system has been confirmed

Activity MIDG: Immigration Corporate Services

Activity Cost: 48,247,876

Objectives

- 1.Implementation of the Migration policy
- 2.Review and implementation of the Passport Act and Immigration Act No.17 of 2010

3. Review of the Organizational Structure

4. Continues Improvement of the services delivery through, rapid response capacity ICT, infrastructure and training and revenue collection.

Means of Service Delivery

- Conduct regular operations to prosecute illegal immigrants or those who have breached visa conditions
- Organizational capacity improved through Border Enhancement infrastructure
- Improve effective service delivery by restructuring and capacity building of the Visa
- Decentralize the immigration services to the provincial level/objective

Performance Measurement (Service Targets)

Description	Quantity	Unity of Measure
Implement the Migration Policy outcome	1	Number of Implementations.
Review of the Immigration act No.17 of 2010	1	Immigration Act review completed to be table in parliament.
Restructure Approved by PSC	1	Approved structure by PSC
Quarterly Reports on establishment, resourcing & staffing of Provincial Offices	4	Quarterly Reports
Compliance Reports on visa breaches	4	Compliance Report
Implementation of the Passport Act of 2025	2	Number of Implementation outcomes

Activity MIDH: Issue of Passports

Activity Cost: 247,103,612

Objectives

1. Complete the Implementation of the enrolment centre at the foreign Missions;
2. Improve revenue collection;
3. Additional enrolment station at provincial headquarters;
4. Decentralize Passport and Travelling Document Services;
5. Improve service delivery and organizational capacity through policy, legislation, planning, reporting, budget, and restructuring, rapid response capacity, ICT, Infrastructure and Training.

Means of Service Delivery

- Printing & issuance of Passport & Travel documents.
- Review; revise the Regs and procedures related to the cost of the services in relation to Passport and Travelling documentation to improve revenue generation.
- Provide reports to the stakeholder agencies on the number of passports issued
- Provincial Bureaus established to decentralize Passport and Travelling Document services
- Integrated ICT based passport systems in use.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Install enrolment station at NC, Brussels and Dubai	3	Number of enrolments
Track revenue generation in Quarterly Systems	4	Quarterly Revenue Analysis report
Issues Report on Passport & Travelling Documents to sector stakeholders	5	Inventory report
Provincial Bureaus with capacity to process Passport & Travel documents increased from 5-6	1	Number of Passports printing in the Provincial Bureaus
Quarterly Report on Issuance of Passport & Travelling documents Integrated ICT based Passport Systems utilized	4	Printing report of the system

Activity MIDG: Santo Immigration Office**Activity Cost: 30,493,216****Objectives**

1. Improve revenue collection;
2. Additional enrolment station at provincial Headquarters;
3. Decentralize Passport and Travelling Document Services;
4. Improve service delivery and organizational capacity through policy, legislation, planning, reporting, Budget, and restructuring, rapid
5. Response capacity, ICT, Infrastructure and Training.

Means of Services Delivery

- Review; revise the Regs and procedures related to the cost of the services in relation to Passport and Travelling document to improve revenue generation.
- Printing & issuance of Passport & Travel documents.
- Provide reports to the stakeholder's agencies on the number of Passports issued
- Provincial Bureaus established to decentralize Passport and Travelling Document Services.
- Integrated ICT based passport system in use

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Track revenue generation in Quarterly Systems	4	Quarterly Revenue Analysis
Issues Report on Passport & Travelling Documents to sector stakeholders	5	Inventory report
Provincial Bureaus with capacity to process Passport & Travel documents increased from 5-6	1	Number of Passports printing in the Provincial Bureaus
Quarterly Report on Issuance of Passport & Travelling documents Integrated ICT based Passport Systems utilized	4	Printing report of the system

PROGRAM MIE: NATIONAL SERVICES**Program Cost 380,485,785****Cash Grant/Aid-in-Kind: 44,214,790**

Public Land Transport Authority (PLTA)

The Land Transport Authority is a statutory organization created under the Public Land Transport Act No. 4 of 2015. This legislation was put in place to oversee the management and operation of public land transport services in Vanuatu. According to Section 5 of the Act, the Authority has been assigned the following responsibilities:

Objectives:

1. Overseeing the operation of public land transport services throughout Vanuatu.
2. Ensuring that owners and drivers of public transport vehicles adhere to the requirements set forth in the Act.
3. Organizing training programs for vehicle owners and drivers within the public land transport sector.
4. Establishing standards that must be met by both transport vehicle owners and drivers.
5. Developing the fare system and structure that public transport operators must follow in municipalities and provinces.
6. Providing advice to the Minister regarding public land transport issues.
7. Registering all Provincial Public Land Transport Associations.
8. Identifying general and tourist pick-up locations and regulating access to these areas.
9. Carrying out any additional functions assigned to the Authority by this Act or other legislation.

The Authority operates as a Body Corporate and is governed by a Board made up of:

- a) The Director of the Department of Local Authorities;
- b) The Director of the Department of Tourism;
- c) The head of the Traffic Section of the Vanuatu Police Force;
- d) A representative appointed by the Minister of Internal Affairs;
- e) The Chairperson of each Public Land Transport Association that has been registered under subsection 11(2).

Department of Labor & Employment Services (DOLES)

The Department of Labour & Employment Services is committed to fostering decent work opportunities both locally and regionally, aiming to achieve social justice by ensuring fair working conditions that align with ILO standards as laid out in Vanuatu's domestic legislation.

The department's main vision is to prioritize the resolution of employment relations disputes through alternative dispute mechanisms, including mediation and conciliation as per the Trade Disputes Act. Additionally, it strives to enhance health and safety standards in the workplace, protect employment rights, and support skills development for the Vanuatu workforce. This initiative guarantees that all workers have access to a safe and decent working environment.

Meanwhile, the CRIM Department plays a crucial role in managing the personal data of citizens. It ensures that data systems, security, privacy, quality, and the provision of documents are maintained efficiently and in compliance with relevant legislation.

As the leading authority on identity management in Vanuatu, the CRIM Department provides a functional civil registration system for vital events, consistent identity management, and high-quality services to both citizens and public and private institutions in an effective manner.

The principles guiding the CRIM Department in service delivery focus on several key areas:

1. Reliability and Predictability - Ensuring the quality and legal certainty of services.
2. Openness and Transparency - Providing clear insight into service procedures.
3. Accountability - Taking responsibility for actions and decisions.

4. Efficiency and Effectiveness - Delivering services in an efficient manner to achieve maximum impact.

Vanuatu Electoral Office (VEO)

When it comes to electoral matters, the Vanuatu Electoral Commission (EC) is the only authority responsible, with the Vanuatu Electoral Office (VEO) acting as the implementing agency. The VEO supervises the registration of voters and oversees the preparation and conduct of elections for Parliament, as well as provincial and municipal councils. As the executive secretariat of the Commission, the VEO is tasked with managing the electoral administration and implementing all necessary activities to ensure the smooth execution of direct elections in the country. This includes the establishment and upkeep of the Voter Register.

The Electoral Office's primary responsibility is overseeing the registration of eligible voters and managing all elections as required by the Vanuatu Constitution and relevant legislative acts, including Cap 146, Cap 230, and Cap 126.

Looking ahead to 2025 and beyond, the Vanuatu Electoral Office aims to enhance the voting process by implementing the use of National ID Cards for verifiable voting.

Activity MIEA: Department of Labour & Employment Services

Activity Cost: 198,011,519

Cash Grant/Aid-in-Kind: 44,214,790

The Department of Labour & Employment Services aims to promote decent works domestically and regionally to ensure social justice through fair working conditions under ILO standards reflected in Vanuatu domestic Laws.

Its primary vision is to continue the prioritization of Resolutions of Employment Relations Disputes by way of Alternative Disputes Mechanisms including Mediation and Conciliation under Trade Disputes Act. Its other goal is to uphold health and safety at workplace standards, the employment rights and skills development of the Vanuatu Workforce domestically and regionally to ensure all workers have access to safe and decent working environment.

The department role is also to ensure the fair participation of Ni-Vanuatu Citizens in the Labour Mobility programs in Australia and New Zealand and the importance of data collection for a comprehensive labour market data through the creation of the newly Employment Online Platform called Employment Vanuatu.

Through its various sections, the Department is also supporting the decentralization program of the Government by establishing Provincial offices in TAFEA and MALAMPA and looking forward for the establishment of TORBA and PENAMA Office soon upon funding availability.

Administration (Port Vila, Head Office)

Activity Cost: 50,494,411

Objectives

1. Develop Labour market policies by advising Government on workforce planning and skills development strategies.
2. Build Institutional capacity to train staff and improve systems to deliver efficient labor administration services.
3. Effective administration

Means of Service Delivery

- Coordination and Management of Existing Labour Migration program.
- Promote training and capacity building of staffs.

Address Efficiency in the process of recruitment and managing welfare of workers overseas	100	Number of recruitments
Undertake awareness programs and public consultation to advocate for workers' rights and welfare in international and domestic markets	12	Number of awareness program
Implementation of the Labour Force Survey Data	5	Number of Implementation done

Provincial Headquarter

Activity Cost: 6,580,344

Objectives

1. Decentralize Labour Mobility and Domestic Labour Employment priorities at provincial level

2. Improve coverage for awareness programs and public consultation to advocate for workers' rights and welfare in domestic markets

Means of Service Delivery

- Support the decentralization of Key labour program activities at provincial level
- Conduct Public awareness and advocacy on Labour and employment rights

Performance Measurements (Service Targets)

Description	Quantity	Unit of Measure
Undertake awareness programs and public consultation to advocate for workers' rights and welfare in international and domestic markets	4	Number of awareness programs
Decentralize Labour Mobility and Domestic Labour Employment priorities at provincial level	1	Number of workshops and training at provincial level

Overseas

Activity Cost: 37,849,592 VUV

Objectives

- To engage Participating donors and Employers to provide employment opportunities in Australia and New Zealand
- Attend to complaints and issues that Ni Van encountered while participating in Labour Mobility Program over seas

Means of Service Delivery

- Participating donor partners and agents and employers to increase numbers of both skilled and unskilled Ni-Vanuatu workers in existing and new Labour Mobility
- Liaison Meetings with Labour Mobility Program participants and reporting back to Department Headquarter

Performance Measurements (Service Targets)

Descriptions	Quantity	Unit of Measure
Existing and new Labour Mobility Programs	1	participating donor partners and agents and employers to increase numbers of both skilled and unskilled Ni-Vanuatu workers in existing and new Labour Mobility
Liaison Meetings with Labour Mobility Program workers	5	Liaison meetings with Australia & NZ on labour mobility programs

Tripartite Labour Advisory Council

Activity Cost: 826,000

Objectives

1. Promote strong collaboration and partnership with the Tripartite partners, Civil Society and Development partners

Means of Service Delivery

- Promote and strengthened collaboration with Tripartite partners and stakeholders

Performance Measurements (Service Targets)

Description	Quantity	Unit of Measure
Strengthen the Tripartite Labour Council	3	Number of meetings held

Activity MIEA: Trade Dispute Services

Activity Cost **12,500,000**

Objectives

1. A quasi-judicial body with responsibility for workplace justice, and a forum for deciding disputes between workers and employers

Means of Service Delivery

- Ensuring that workers and employers have equitable accessibility to the TDT services
- Establishing a fair and impartial procedures and process of resolving trade disputes
- Promoting the services and the role of the Tribunal to the public
- Promoting the independency of the Trade Dispute Tribunal through new legal framework

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Cases referred to the Tribunal	10	Number of cases referred
Notice and Order issued, and conference and trial are attended	10	Number of orders issued
Party filed their claim, defense, response, and statement	10	Number of claims etc. filed
Amendment of the Regulations of the Tribunal	1	Number of amendments
Conducting awareness at the workplace	10	Number of awareness conducted
Presenting at talkback show and publication on Facebook	3	Number of talkback show held
Developing a new legislation on the Trade Dispute Tribunal	1	Number of legislations developed
Recruitment of officers	2	Number of staff appointments

Activity MIED Civil Registry and Identity Management

Department Cost **99,307,492**

The Department of Civil Registration and Identity Management (CRIM) remains steadfast in its commitment to achieving Sustainable Development Goal (SDG) 16, Target 16.9: "By 2030, provide legal identity for all, including birth registration." Guided by this vision, CRIM is confident that Vanuatu is on course to meet this target well before the 2030 deadline.

The 2026 Budget will continue to support targeted investments and initiatives aimed at: expanding coverage of vital event registration, consolidating and maintaining central civil and population registers, scaling up issuance of National Identity Cards, strengthening the legislative and policy framework, enhancing institutional capacity and ICT infrastructure, and providing accurate data for the maintenance of a credible Voter Register.

Administration (Port Vila, Head Office)

Program Activity MLAA: Portfolio Coordination

Activity cost: 64,060,929

Cash Grant & Aid in Kind 0

Objectives:

Provide leadership at both organizational and political level
Provide better coordination with other government agencies and the Council of Ministers.
Provide directions to the Director General, Directors and support staff of the Ministry
Facilitate and develop the implementation of government policies and regulations
Coordinate and convince Ministerial Budgets through Ministerial Budget Committee for better service deliveries and compliance of Ministerial policy directives, NSDP, Budget Policy priorities.
To ensure Minister, Political staff, DG and Directors participate in conferences, meetings and presenting government progress and statements made on key aspect to priority action policies.
Assist and support legislative framework of Ministry
Legislative development and periodic revision.
Coordination of Ministerial priorities with budgets and plans.

Means of Service Delivery

Execute timely instructions and appropriate directives to the Director General, Directors and support staffs.
Manage effective implementation of approved government policies in line with NSDP and Corporate Plans.
Establish good working relationship with line Ministries.
Develop sound policies (align with NSDP) and submit to the Council of Ministers for consideration.
Produce Ministerial Budget tabled and consider by the Ministerial Budget Committee.
Support implementation of ministerial priorities within the ministry's corporate plan.
Facilitate coordination and collaboration of development priorities between line ministries.
Coordination of action with central agencies (PSC, MFEM, PMO, MFA).

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Issue and monitor execution of Ministerial instructions	20	Ministerial Instruction Executed
Official representation at national, regional and international meeting.	6	Minister or representative presented
Facilitating Policy papers for endorsement by the Council of Ministers	10	Number of Policy Paper tabled in COM
Facilitate policies implementations	2	Bi-annual reports produced

Enabling the preparation of Ministerial budget documents	2	MOLNR Budget is Tabled in MBC
Present lands and resource related legislative reviews in parliament	1	Legislative review tabled in parliament

PROGRAM MLB: EXECUTIVE MANAGEMENT AND CORPORATE SERVICES

Program Cost 235,315,098

Cash Grant & Aid in Kind 0

Objectives

Develop policy planning in the areas of finance, human resources, and assets across the Ministry

Manage, monitor and evaluate all funded programs and projects across the sector.

Enhance use and management of information communication and technology across the Departments and Ministry.

Manage the implementation of government policies.

Coordinate capacity building programmes across the sector.

Foster links between Ministries for implementation of government policies & initiatives

Activity MLBA: Executive Management

Activity Cost 63,964,992

Objectives

Facilitate Policy Papers for endorsement by Council of Ministers

Facilitate MoLNR Planning and Budgeting

Facilitate 2025 MoLNR Annual Report

Promote collaboration and partnership with developing partners

Support legislative reviews and related enforcement and manage litigations relating to land and natural resources

Provide institutional support across the Ministry of Lands and Natural Resources

Means of Service Delivery

Develop, prepare and or review policy papers for Minister and DCO consideration and COM endorsement

Develop MoLNR Business Plan and budget in alignment with MoLNR Corporate Plan and support Related implementation

Compile 2025 MoLNR Annual Report in accordance with the Annual Reporting Guideline

Encourage new collaboration with partners and support existing projects and ensure they are within scope, on time and on budget

Develop the MoLNR 2026 Legislative Plan, support enforcement of existing legislations and manage legal and court matters with the Office of the Attorney General on a timely basis

Support the implementation of all work programs across the Ministry of Lands and Natural Resources

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
COM Papers (Policy Papers) developed/reviewed	8	COM Papers presented at DCO
Develop and submit MoLNR Business Plan	1	Business Plan submitted to

		OPSC
Develop and submit Annual Report to OPSC	1	Report submitted to OPSC
Oversee budget preparation and presentation to MBC	1	MoLNR Budget presentation to MBC
Provide support to government projects	8	No. of meetings/support provided
Develop MoLNR 2026 Legislative Plan	1	Legislative Plan endorsed by COM
Manage allegations, claims and litigation matters	5	No. of claims managed
Convene executive and staff meetings	10	No. of meetings held
Provide Briefing and administration support to Minister	8	No. of briefings/support provided
Facilitate Deed of Release	4	No. of Deed facilitated
Support implementation of MoLNR Business Plans	2	Reports produced

Activity MLBB: Corporate Services

Activity Cost **171,350,106**

Objectives

Manage Human Resource Development/Function and Departmental organizational structure.

Support ministry service delivery through reliable ICT and manage related ICT infrastructure

Produce and manage Ministry of Lands Budget.

Support Policy Planning and monitor and evaluate plans.

Support towards program and project design within the sector

Means of Service Delivery

Adopt and implement National Human Resource Development Plan.

Review and implement Organizational structures

Develop Occupational Health & Safety Manual.

Implement the Human Resource Development Plan for the Ministry

Facilitate Human Resource Awareness programs

Facilitate Ministry Internship Program

Maintain and enhance the efficiency and effectiveness of the IT functions

Support departmental organizational structure by providing reliable ICT support, infrastructure, and system integration to facilitate smooth operations across all units.

Facilitate continuous improvement and innovation in digital services, including system development, maintenance, and capacity building.

Facilitate budget preparation for presentation and appropriation

Monitor and support revenue collection across the ministry

Coordinate asset management across the ministry

Facilitate and execute all payments across the ministry including for staff benefits, goods and services and Deed of Release.

Monitor and ensure successful project implementation across the Ministry.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Launch and Implement HRD Plan	1	No. of Activities implemented
Manage Recruitment & Remuneration of staffs	5	No. of payments of compensations made
Facilitate payments for cessation of employments and other staff entitlements	5	Funds committed
Facilitate Human Resource Awareness	3	No. of awareness program conducted
Manage performance, appraisals, termination, retirement, discipline, entitlements, increment and promotion	4	No. of Quarterly Reports
Develop Occupational Health and Safety Manual	1	Occupational & Safety Manual Developed
Facilitate and Manage Staff training & Conferences	9	No. of staff attend training
Resolve ICT issues	400	No. of ICT issues resolved
Facilitate alert system subscriptions	2	No. of subscriptions facilitated
Facilitate renewal of VM-Ware license	2	VM-Ware license renewed
Conduct provincial visits	12	No. of provincial visits undertaken
Facilitate systems integration (VLMIS, SDLC, E-Services)	4	No. of systems integrated
Establish Solar System	1	Solar system established
Install power distribution systems	1	Power distribution system installed

Develop load balancing monitoring systems (NGNX)	1	Load balancing monitoring system developed
Facilitate SDLC processes for e-services	1	SDLC processes for e-services facilitated
Develop digital archive systems	1	Digital archive system developed
Facilitate staff meetings	10	Staff meetings facilitated
Develop control point systems	1	Control point system developed
Migrate water systems	1	Water systems migrated
Manage and support revenue collection	4	Quarterly reports
Manage Asset inventories	4	Quarterly report
Facilitate Compensation and Deed Payments	4	Quarterly report
Facilitate COTA payment and Litigation Costs	4	Quarterly reports
Facilitate Financial Visas for recruitments	5	No. of Financial Visas facilitated
Facilitate LPO payments for utilities, contracts and other suppliers	100	No. of LPOs committed and approved
Facilitate budget submission	2	Budget submitted
Monitor and support project activities and progress	4	No. of Reports

PROGRAM MLE: LAND MANAGEMENT

Program Cost 132,764,816

Cash Grant & Aid in Kind 0

Objectives

The Department of Lands, Survey and Records, under Program MLE: Land Management aims to ensure that the process for securing land for development and related economic activities provides a stable platform for investment and growth.

Activity MLEA: Land Survey

Activity Cost
Objectives

36,716,176

Review Surveying Administrative processes and Amendment of Land Surveyors Act.
Advertise vacant posts
Manage and Maintain Surveying Equipment
Manage National Digital Cadastral Database (DCDB)
Approval of Subdivisions
Regulate Surveys for Government priority sites.
Regulate existing Boundaries and new Road in collaboration with line agencies.
Manage National Geodetic Control web Geo Portal
Regulate Deformation Survey
Implementation of the National Geospatial Data Policy (NGDP)
Manage Surveying and Mapping industry
Develop National Map Depository and production of Topographic maps on various scales.
Review National Base points towards the Delimitation of Maritime Boundaries.
Ensure all Officers are equipped with Uniforms
Lands Survey Structure

Means of Service Delivery

Facilitate Global Navigation Satellite System (GNSS) Infrastructure and database
Review and Establish Permanent Survey Marks (PSM) along Fault Lines for Monitoring
Topographic map inventory & Aerial photo inventory
Amendment of the Land Surveyors Act
Organise GIS user group meetings
GNSS review and update of Maritime Base Points for EEZ determination.
Field Surveys of existing Road boundaries and New Roads
Facilitate Survey for selected acquisition sites, Government subdivisions and other Government services
Ensure Quality Control of National Digital Cadastral database
Examine, Validate and Approval of Subdivision Proposals
Enforcement of the Land Surveyors Act.
Facilitate staff Recruitment
Facilitate Servicing and Purchase new set of Survey Equipment
Purchase of New Uniforms
Review Land Survey structure.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
National Geodetic Control web Geo Portal Design and operational	1	No. of web Geo Portal designed
Permanent Survey Marks (PSM) establish along Fault Lines	50	No. of PSM established
Map Production	200	No. of maps produced
Final consultation of Land surveyor's Act	1	Legislation reviewed and gazetted

Implementation of Geographic Information System policy (National Geo-Spatial Data Policy).	3	No. of sittings
Review and update Maritime Base Points	3	No. of Base Points reviewed
Survey of existing and new Roads	6	No. of roads surveyed
Government priority site survey of Land acquisition	3	No. of land acquisitions surveyed
Manage Cadastral data quality control and examine survey plan	500	No. of survey plans approved
Rural and Urban Subdivision Proposals Validated and approved	10	No. of Subdivision proposal plans approved
Awareness to registered surveyors of amendments to survey regulation	1	No of meeting held
Recruitment for all various vacant positions within Survey unit	3	Number of officers recruited
Servicing and Purchasing new set of survey equipment	2	1 RTK & 1 Total Station purchased
New Uniforms are purchased	19	Quarterly report
Develop Job description for Land Survey Posts	21	No. of JDs completed

Activity MLEB: Land Use Planning

Activity Cost 17,278,528

Objectives

Strengthen the administrative requirements and procedure in approving application for land dealings

Implement National Subdivision Policy to create subdivisions

Ensure land use is based on land use zoning and approved physical planning area

Ensuring of a fair land dealing and quality service delivery

Purchase staff uniforms

To Revise and review the Valuation Unit Structure

Means of Service Delivery

1.1 Strengthened approval procedures of land applications.

2.1 Ensure proper application of subdivision policy on all subdivisions.

3.1 Ensure effective management of land use activities base on gazette zonings.

4.1 Making sure there is fair dealing of land and standard service delivery.

- 5.1 Offers more professionalism image of the Department of Lands, Survey & Registry
- 6.1 Conduct a structural review to align the Land Use Planning Unit's framework with the Department's overall organizational structure.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Facilitate application for negotiator certificate, subdivision and change of lease class	250	Quarterly report
Execution of the application of subdivision policy requirements are met by developers	5	Quarterly report
Carry out awareness in urban areas on any activities permitted according to zonings maps	6	Quarterly report
Effective management of a fair land dealings and service delivery	1	Annual report
Award staff with standard uniforms	30	Uniforms purchased
Consult and complete Structural reviews	1	Structure approved

Activity MLEC: Lease Management (Efate and Santo)

Activity Cost 27,490,032

Objectives

Manage and facilitate land dealings for registration.
 Facilitate and coordinate the process of LR form instruments for signing
 Scanning and upload all Land transactions to Saperion
 Continue to formalise 2006 Land Rent review
 Maintain the LR Form standard templates
 Ensure funds available for retirement plans
 Review of Land Legislation
 Awareness programs
 Recruitment of Officers
 Consultation with disputing parties.
 Update Document Tracking System.
 Management of affected leases by replanning after Natural disasters
 Departmental Restructuring and Staff Increments Incentives
 Staff Uniform Purchase

Means of Service Delivery

Receive and lodge leases and land related dealings before registrations, Execute and certify leases, mortgages, transfers, surrenders, subleases, and variation of leases,
 Ensure effective and efficient facilitation and coordination of LR forms instruments for signing.
 Ensure scanning of all land transactions be uploaded to Saperion.
 Ensure continuity to assist to formalize 2006 land rent review.
 Ensure to maintain the standard LR form template.
 Ensure sufficient retirement funds is allocated for retired and out-going officers.
 Plan reviews and amend current Land Legislations
 Plan awareness program incentives nationally.
 Ensure to increase the human resources capacity through recruitments.
 Held consultations with disputing parties for Ministerial consents.
 Manage and update Lease Document Tracking System

Manage and coordinate the variation of lease conditions and terms which were affected by any natural disaster. Develop departmental restructure and Reward increments to staff
Offers more professionalism image of the Department of Lands, Survey & Registry
Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Facilitation of Land lease and related dealings received and facilitated for approval	1600	Quarterly reports
Ensure proper management of LR forms for signing	1600	Quarterly reports
Management of Scanned documents to Saperion	2000	Quarterly reports
Facilitate proper variation of rent reviews for registrations	100	Quarterly reports
Maintain the LR form Standards internally and externally	1	Quarterly reports
Plan Retirement plans and payout	1	Quarterly reports
Review of current Land Legislations	5	Quarterly reports
Carry out land management awareness in all six provinces through every approach platform	6	Annual Report
Increase human resources through internship and/or recruitment programs	3	No. of recruitments
Effectively administer the consultations for Ministerial Consents	3	Reports produced
Record all Leases and land related instruments through Lease Document Tracking System	1600	Quarterly reports
Carry out field site inspections on all leases affected by any natural disaster	100	Reports produced
Restructure developed approved.	1	Structure approved
Increments awarded to staff	5	Reports produced
Award staff with standard uniforms	48	Uniforms purchased

Activity MLED: Land Valuation

Activity Cost **13,984,880**

Objectives

Legislative strengthening

Acquire land for public interest.

Prepare detailed valuation reports and issue official valuation certificates that accurately reflect the Assessed value of properties for various legal and administrative purposes.

Maintain and regularly update the Valuation Roll, ensuring all property valuations are current, comprehensive, and accurately recorded for reference and decision-making.

Awareness programs of land procedures nationally.

To upgrade Valuation Certificates into digitized data.

Allow Enhancement of staff skills and expertise in valuation through targeted capacity-building and technical training programs
 Recognize and reward staff dedication and hard work by providing timely increments to motivate continued high performance
 To Revise and review the Valuation Unit Structure
 Purchase staff uniforms

Means of Service Delivery

Enforce and apply the provisions of Vanuatu land legislations, with a particular focus on the Valuation of Land Act, Land Acquisition Act, Land Reform Act and Land Lease Act, ensuring all regulations are adhered to effectively.
 Coordinate and support the acquisition of land sites needed for key government projects, ensuring smooth and timely processes aligned with national priorities.
 Use standardized reporting formats to ensure valuation reports are clear, comprehensive and suitable for legal, administrative, and decision-making purposes.
 Regularly review and update the Valuation Roll to accurately capture changes in property values, ownership and land use, providing a reliable reference for land administration and decision-making
 Implement educational and awareness programs to inform landowners, tenants and stakeholders about the land valuation and acquisition procedures, promoting transparency and understanding.
 Digitize valuation certificates and Acquisition Notices with standardized formats and collaborate with IT for secure centralized digital storage
 To Provide Support to staff educational to further studies and enhance skills in technical fields
 Implement the performance appraisal system to evaluate staff efforts and award salary increment based on measurable achievement and dedication.
 Conduct a structural review to align the Valuation Unit's framework with the Department's overall organizational structure.
 Offers more professionalism image of the Department of Lands, Survey & Registry

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Review of Current Land Legislations	5	5 reviews undertaken
Compulsory Acquisition Notices and Statutory Valuation Report issued for government priorities	10	Quarterly reports
Valuation request received for various lease-related matters: new lease, extension, transfer (5% & 10%), view purpose, lease class change, review of land rents and strata transfer (5% & 10%).	1300	No. of Valuation Certificates issued
Revising and update the valuation roll to include updated property details and their corresponding rateable values for accurate assessment.	500	No. of property details updated
Raising awareness on lease term expirations and educating lessees about procedures and options for lease term extensions.	4	Quarterly reports
Scanning valuation certificates and acquisition notices to	300	No. of files digitized

securely digitize documents ensuring safe storage and easy access for future reference		
Completing technical skills training programs	2	No. of staff trained
Conduct annual performance appraisals for 100% of staff, with at least 90% of eligible employees receiving merit-based increments.	5	No. of increments awarded
Complete the structural review and consultation process within six months, with 100% alignment to the Department's approved organizational structure.	1	Reviewed structure approved
Award staff with standard uniforms	48	Uniform purchased

Activity MLEF: Land Registry

Activity Cost 31,334,384

Objectives

Enforcement of Land Leases ACT

Maintenance of Physical Land Records and secure filing systems

Secure registration of all land dealings

Means of Service Delivery

Receive, record and register land related application lodged for registration.

Scan registered land related applications

Manage land related applications for registration

Purchase printers to replace the old printers

Data cleansing (Saperion/M-File)

Scanning of new data/entries, data lost in 2022 and backlog for 2023-2025

Manually files all scanned applications/entries/Lease Registry and Land Related files (Green Files)

Entry of new applications into the Document Tracking System (DTS)

Ensure to maintain a proper managed tracking and accessible system

Recruitment of interns (Via VIPAM)

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Record land related documents in the document tracking system and title information system	4000	Quarterly report
Scan land related files into the data system	4000	Quarterly report
Secure/safe keep all applications pending registration process	1	Reports Produced
Office Printers replacement	2	Reports produced
All data are stored in Saperion/.M-File cleansed	1	Report produced
Scan all new entries/data – including backlogs	10000	Quarterly report
Registered and scanned files properly archived	10000	Quarterly report
New applications are entered into DTS	10000	Quarterly report
Office Filing cabinets	22	Filing

		cabinets purchased
Ensure tracking and access to files maintain	100%	Quarterly report
Office Matters administered	100%	Quarterly report
Internship through VIPAM (Archive)	3	Interns recruited
New Uniforms are purchased	72	No. of uniforms purchased
Restructure developed approved.	1	Restructure approved

Activity MLEG: Enforcement & Compliance

Activity Cost 5,960,816

Objectives

Administer the Land Lease Act.
 Manage and collect outstanding land rent
 Increase revenue collection
 Enforce compliance on encroached leases
 Ensure funds available for retirement plans
 Carry out Lease audit
 Award Increments Incentives.
 Awareness Programs.
 Departmental Restructuring

Means of Service Delivery

Implement the application of Land Lease Act on all leases.
 Develop planning strategies to address outstanding land rent issues.
 Develop Revenue incentives to boost revenue collections
 Undertake site inspections on encroached/zoning leases
 Efficient management of staff retirements plan and payouts
 Engage in state lease audit in all urban towns
 Award increments to staff
 Plan awareness program incentives nationally.
 Develop departmental restructure
 Offers more professionalism image of the Department of Lands, Survey & Registry

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Effectively manage all lease to comply with Land Leases Act	50	Annual Report produced.
Ensure to develop planning strategies to address outstanding land rent issues	1	Planning strategies developed
Continue collection of land rent	2	Semi-annual

		report produced
Enforce compliance on registered leases	200	Quarterly report
Plan Retirement and payout	1	Report produced
Carry out lease audits activity in urban areas	2	Reports produced
Award increments to staff	5	No. of increments awarded
Carry out land management awareness in all six provinces through every approach platform	6	Annual Report produced.
Restructure developed approved	100%	Restructure approve
Award staff with standard uniforms	48	Uniform purchased

PROGRAM MLF: GEOLOGY AND MINES

Program Cost 33,694,948

Cash Grant & Aid in Kind 0

Objectives

Provide services, management and policy development with regards to Vanuatu's geological resources
Pursue relevant NSDP Policy objectives including ENV 2.3 "Prioritize renewable sources of energy and promote efficient energy use (geothermal), ENV 4.3 Prevent land degradation and downstream environmental damage from mineral resource extraction, ENV 4.5 Reduce and prevent the degradation and erosion of foreshore and coastal areas, ENV 4.7 Build Capacity and support local communities to manage natural resources, ECO 1.2 Improve government revenue generation, ECO 3.6 Improve the provision of government services in rural areas

Activity MLFA: Mines and Minerals

Activity cost 33,694,948

Objectives

Objective 1: Strengthening Institutional Capacity, Policies & Legislative Framework to allow enforcement

Objective 2: Improve Capacity of Revenue Initiative

Objective 3: Improving data and Information management

Objective 4: Support the exploration of preliminary evaluation of mineral, geothermal and petroleum resources

Means of Service Delivery

Strengthen Mines and Mineral, Quarry, Petroleum and Geothermal legislations

Regulate Quarry Act

Regulate Mining Act

Regulate Petroleum Act

Regulate Geothermal Act

Raise awareness on Mining and Geothermal activities

Raise awareness on Quarry activities and effects of overexploitation of resources

Conduct Geoscience research

Functional Laboratory

Conduct Careers Talk & Recruitment of Staff

Consultation with stakeholders & Develop Natural Resource Policy

Deformation Survey in Luganville

Improve Data and Information Management

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Enforcement of Mining Act	4	Report produced
Enforcement of Geothermal Act	4	Report produced
Enforcement of Quarry Act	4	Report produced
Enforcement of Petroleum Act	1	Report produced
Monitor and assess provincial and municipality quarry operations	4	Report produced
Conduct coastal monitoring for Mele Bay, Laone, Analkouhat, South Santo, Luganville, Sola and Saratamata, Teouma, Tanna	5	Report produced
Sediment discharge Load (Sarakata, La Colle, Tepukoa, Teouma)	4	Report produced
River channel monitoring (Sarakata, Mele, Teouma)	3	Report produced
Functional Laboratory	1	Report produced
Training for Area Administrators (Refresher Training)	1	Report produced
Training for Quarry Foreman	1	Report produced
Update quarry database	1	Database updated
Mineral Database established	1	Database established
Administer and Management of Unit	1	Report produced
Draft Policy for Natural Resource (SOP) for GMU	1	Policy drafted
Capacity Building of Staff	2	Trainings
Community Awareness (management of aggregate resources)	6	Awareness conducted
Career Talks	3	Career Talks held
Recruitment of Malampa Officer, Receptionist, Information Officer, Geochemist, Geoscientist	5	Staff Recruited
Deformation Survey of Luganville	1	Report produced
Consult with stakeholders on the promotion of Gaua GeoTourism/ Geopark	1	Report produced
Geotechnical Tests conducted for 8 Quarry Sites	4	Report produced

PROGRAM MLG: WATER RESOURCES

Program Cost 211,756,244

Cash Grant & Aid in Kind 215,283,481

Objectives

Improvement of water safety and security - The primary role of the government is to secure the safe consumption of sufficient water for all. This means either ensuring the residual safety of water supplied to consumers or ensuring appropriate household treatment of water not safe at the point of supply. Water Supply markets - While community-based models are efficient in supporting households to shift from unimproved to improved water sources, market-based models are more efficient in moving from improved to safely managed water sources.

Water Services Compliance – Provision of compliance on water works and water use permits and other water regulations.

Formalize Water Providers - Given the inability of the government to enforce any discipline on informal Rural Water Committees, this Objective will prioritize the registration of Rural Water Committees as

legal entities with the ability to own water assets and the associated liabilities.

Rights of the Pipe - This will seek to ensure that the 'rights of the pipes' are secured against tampering, against a failure of appropriate O&M and against the denial of access to public drinking water assets.

Provincial Council By-Laws - In a context where there is little appetite for fiscal decentralization, there is the potential to strengthen a regulatory model of decentralization. This would entail strengthening the role of the provinces in the passing of water resources and drinking water management by-laws that strengthen the role of Area Councils to pass rules that ensure compliance.

Secure Water Future - While ensuring safe and secure water for all is the primary focus of this Policy, there is recognition that risks posed by disasters and evolving changes to the natural and built environment challenge the safety and security of water in the medium to long term. This requires increased engagement with other sectors and partners to predict and reduce the impact of changes to the environment, plan and respond to potential disaster risks to safeguard sufficient water for all

Capacity to Reform – The strengthening of capacities to monitor, regulate and provide compliance at the central level.

Activity MLGA: Water Resources

Activity Cost 114,422,884

Cash Grant & Aid in Kind 169,283,481

Objectives

Regulate and/or provide appropriate designs for proposed community water systems and develop water systems project proposals for funding purposes

Regulate and monitor the construction and/or construct technically appropriate water supply systems for the rural communities to improve the standard of living

Monitor the development of Water Safety and Security Plans for the rural communities

Provide technical support on the corrective and preventative maintenance of old and new water supply systems for the rural communities

Provide technical support on the corrective and preventative maintenance of upgraded and new water supply systems and providing Plumbers and Water Committee Financial Management trainings for village plumbers and village water committees

Maintain the department's drilling capability as national asset for both the public and private service

Enforce the Rural Water Supply design and construction standards to ensure NGOs and other implementing partners complied with the national standards

Plan and coordinate the implementation of water projects for both rural and urban water systems

Operate, maintain and implement capital works for the urban water systems of Luganville, Saratamata, Lakatoro and Isangel

Means of Service Delivery

Implement the National Implementation Plan (NIP) and the Capital Assistance Programme (CAP) process to ensure safe and secure community drinking water supply

Design and approve designs for upgraded and new water supply systems included but not limited to Rainwater Harvesting systems, Direct Gravity Fed Water Systems, Indirect Gravity Fed Water Systems, and Desalination systems.

Increase the coverage of rural communities with Drinking Water Safety and Security Plans

Strengthening access to high quality personnel (i.e. engineers, plumbers, drillers), products (i.e. tanks, pipes, meters) and techniques (i.e. drilling rigs, HDPE welding)

Support from the government and NGOs to be directed to assist existing and new Rural Water Committees to register as legal not-for-profit entities and comply with requirements under any of the relevant Acts.

Prioritize government and NGO support towards communities that are already legally registered entities and willing to comply with the roles required of the Rural Water Committees.

Support to Provincial Water Resources Advisory Committees to amend the model water by-laws to

reflect the local context for consideration by the Provincial and Municipal Councils.
 Enforce the rural water supply design and construction standard and monitor water service providers' construction works to ensure compliance with the standards; and
 Managing and providing support to donor-funded water development projects to ensure projects targets and deliverables are achieved.
 Low carbon development: utilizing renewable energy sources (.i.e. hydro-schemes and solar pumps) and improved water pumping efficiencies including the storage of water to smooth the peaks and troughs of energy demand relative to supply

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Designs completed for upgraded and new water systems	20	Water systems design completed
Drilling of new boreholes for indirect gravity fed water systems	10	New Boreholes drilled
Development and completion of upgraded and new water supply systems	20	Water Systems Developed and completed
Community Empowerment Training implemented	15	Trainings implemented
Develop, Register and Approve Drinking Water Safety and Security Plans (DWSSP)	24	DWSSP
Registration of local water committees at Provincial Level	30	Water committees registered
Operate and maintain urban water systems for Luganville, Lakatoro, Saratamata and Isangel.	4	4 urban water systems operated & maintain

Activity MLGB: Water Resource Management

Activity Cost 97,333,360

Cash Grant & Aid in Kind 46,000,000

Objectives

Monitor surface, groundwater and coastal water quality to help ensure the environmental protection of Vanuatu Monitor, manage and plan the sustainable use of both ground and surface water resources.
 Maintain and update the water resources inventory database so as to assist in providing advice and technical input into the development project planning such as hydropower and water quantity and quality are maintained Ensure the establishment of Water Protection Zones for Urban water sources
 Ensure there is plan in place to address water resources and supply safety in times of emergency or disasters
 Development of Watershed management plans and watersheds mapped out
 Establish water protection zones in provincial headquarters for the purpose of conserving or protecting any significant water resource used or intended for water supply; promoting the protection, management

or use of water

Provide Compliance on Water Works and Water Use including Drinking Water Quality

Means of Service Delivery

The extension of drinking water safety and security planning to all drinking water asset owners (i.e. departments, private, communities, schools, health facilities, households).

The expansion of access to drinking water testing and treatment services raising awareness on the link between faecal coliforms and chronic under-nutrition Strengthening water resource data management to identify priority areas to invest in the diversification, storage and regulation of water resources Introducing a two-step permit system requiring a permit to undertake works to access water resources and a license to use water resources (especially for the supply of drinking water). Automating and linking the waterworks and water-use permit process to the inventory so that all 'permitted' water assets are added into the inventory

Strengthened risk management: through mapping water resources (ground, surface, rain) to enable investments in diversified water sources and increase storage giving priority to rain / ground water for drinking and surface water for agriculture industry.

Improved disaster preparedness, response and recovery: building on local knowledge to improve the protection of water supplies, strengthen response in coordination with other sectors and partners through improved data management, improve recovery through lesson learning and sharing knowledge to build back better Maintain and update the Water Resources Database

Implement and enforce water resources management act and regulations

Performance Measurement (Service Targets)

Description	Qty	Unit of Measure
Craft Access MoU's to be signed between DoWR and project recipient	10	MOUs signed
Maintain and update the Water Information Management system (WIMS)	1	WIMS maintained and updated
WASH coordination meetings with WASH Partners	4	Coordination meetings quarterly
Maintain and operate water quality Laboratory in Santo, Tanna and Efate	3	Laboratories maintained and operated
Celebrate World Water (WWD)	1	WWD Celebrated
Coastal monitoring executed in Port Vila and Luganville respectively	4	Number of Coastal Monitoring
Monitor, compliance and enforcement of water regulations and permits	15	Water Permits created
Undertake Underground water studies to provide drilling targets	10	Targets identified
Undertake drinking water quality test in communities to ensure they meet the National Drinking Water Quality Standard	20	Samples collected and tested
Develop watershed management plan	1	Developed for one watershed
Monitor current hydrological network	3	Sarakata, La Colle & Teouma rivers
Urban quarterly water quality testing for all urban water systems	30	Water quality tests done for 4 water systems

PROGRAM MLH: VALUER GENERAL'S OFFICE

Program Cost 21,578,100
Cash Grant & Aid in Kind 0

Objectives

The main objective of the Valuer-General to exercise quasi-judicial functions in assisting to settle disputes relating to land leases, land rent, land premiums and land and land based improvements, valuations through arbitration and expert services. Other functions are to ensure the integrity of property valuations in Vanuatu through registering of land valuers and continuous professional training and guidance

Activity MLHA: Land Valuation Services

Activity Cost 21,578,100

Objectives

To exercise functions with respect to the Valuation of Land in Vanuatu.

To ensure the integrity of Valuations carried out in Vanuatu.

To exercise dispute resolution functions with regards to land lease.

To ensure the effective operation of the Office of the Valuer General to better achieve its Mission, Vision & Objectives through improved physical, human and financial resources and infrastructure.

Means of Service Delivery

Administer continuous referrals of valuation appeals and determinations (land rent, property tax, compensations, lease premium, & land valuations).

Facilitations of Continuous professional development workshops for registered land Valuers will continue to improve the integrity of valuation practices and quality service.

Administer continuous referrals of lease interpretations and forfeitures determinations.

Ensure that the OVG is appropriately staffed, adequately funded, prepare business plan and budget plan to improve public awareness of the roles and functions of the office.

Performance Measurement (Service Targets)

Descriptions	Quantity	Unit of Measure
Assess and issue determinations on all land disputes regarding Premium, Land rent review, Extension, property tax, compensation and lease rentals.	40	No. of appeals and determinations issued
Facilitate continues Professional Training [CPD] workshops for Land Valuers.	2	4 Hours of CPD workshop held
Held hearing appeals and Issue determinations on Lease forfeiture applications.	30	No. Of Determination made
NPP Preparation	2	New vehicle and data collection
Data collection	2,000	Data collected and updated.
Procedure rule implementation and awareness	2	Implemented

Subscription of database	1	Database Viewable
Long /Short term trainings	4	Trainings completed.
Legislative Frameworks (Drafting of possible amendments to current legislations).	2	Amendment held

MINISTRY OF YOUTH, JUSTICE AND COMMUNITY SERVICES

Introduction

Ministry Cost 1,080,704,160

Cash Grant & Aid in Kind: 200,250,000

The Ministry of Youth, Justice, and Community Services (MYJCS) is entrusted with the responsibility of promoting access to justice, safeguarding human rights, and supporting inclusive development for all individuals, including youth, women, children, and persons with disabilities. The Ministry operates across essential sectors—such as justice, social welfare, youth development, gender, and disability—through national and decentralized structures, in accordance with the National Sustainable Development Plan (NSDP).

The Corporate Services Unit within the Ministry of Youth, Justice, and Community Services is committed to providing indispensable administrative and operational support, thereby enabling the Ministry to deliver its programs and services effectively. This unit oversees the efficient management of resources, encompassing human resources, financial management, procurement, and information dissemination, all of which are vital to the smooth functioning of the Ministry. With an emphasis on enhancing internal processes, fostering organizational excellence, and promoting accountability, the Corporate Services Unit assumes a pivotal role in supporting the strategic objectives of the Ministry.

The 2026 budget allocates ongoing investments toward strengthening these foundational services to improve productivity and ensure the sustained success of the Ministry's initiatives.

PROGRAM MJA: CABINET SUPPORT

Program Cost

Cash Grant & Aid in Kind 156,100,058
12,000,000

Activity MJAA: Portfolio Management

Activity Cost 66,591,324

Objectives

Strengthen the Ministry on policy and governance to deliver justice, social protection, and inclusive development, focusing on legislation, Bills, youth, and sports development.

Coordinate with the central government and partners to implement NSDP and decentralization priorities, supporting legal reforms and youth empowerment.

Means of Service Delivery

Acquisition of suitable equipment, resources and tools to use in the carrying out to work by staff;
Use of national Committees, Ministerial Committees and Task Forces to facilitate the implementation of government policy making and national building initiatives;
Staging of national consultation exercises to allow citizens to engage in government policy making and nation building initiatives;
Building and maintaining linkages with key government ministries, departments and agencies to enable better coordination of work in arrears of overlap and to promote corporation between such bodies;
Continuous support and training for staff and Ministry personnel towards better performance of key skills and tasks.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Provision of Quarterly and Annual Reports on activities and task undertaken by the Ministry with specific components for assessment and analysis of achievements	4	Number
COM Papers tabled in parliament that are approved	100	Percentage

Activity MJAB: Corporate Services

Activity Cost

Cash Grant & Aid in Kind **89,508,734**
12,000,000

Objectives

Enhance coordination and leadership to effectively provide justice, youth, and community services aligned with NSDP goals.
Promote inclusive, decentralized service delivery via operational provincial hubs.
Strengthen well-aligned annual planning, financial management, budgeting, and reporting to support decentralization priorities.
Improve Procurement Efficiency
Strengthen records and data management, digitize 80% of existing administrative records, and implement a centralized electronic records system across all ministry departments by November 2026.
Enhance administrative efficiency and governance to develop and update 100% of all administrative processes, procedures, and internal controls by December 2026.
Strengthen MYJCS human resources via recruitment, organizational support, and staff onboarding.
Enhance MYJCS capacity by providing targeted training and sector networking to support staff professional development. Increase Human Resource Capacity.
Utilize HR digital transformation and participation in career promotion events to improve service efficiency, boost the Ministry's visibility, and attract top talent.
Exercise best practices in performance management to enhance organizational effectiveness.
Increase the Ministry's visibility and public engagement using innovative communication strategies and effective public relations practices.

Means of Service Delivery

Establish and equip provincial justice and service centers with integrated teams to provide coordinated services across all six provinces.

Establish inter-agency coordination mechanisms and regular performance review forums to ensure ministry programs align with NSDP targets.

Create and implement a standardized planning and budgeting template that aligns with national priorities, provincial needs, and budget narratives.

Providing timely and accurate reporting to support evidence-based decision-making.

Develop and implement a comprehensive Annual Procurement Plan for MYJCS and its agencies, fully aligned with the approved budget and procurement process.

Develop or obtain a department-wide electronic document and records management system.

Facilitate department-level consultations to review and evaluate current administrative procedures and identify gaps.

Implement the recruitment plan and coordinate with the Public Service Commission or the relevant commission or board.

Organize sector networking events and knowledge-sharing platforms.

Implement the Sector Capacity Development Strategy

Attend career fairs and HR networking events.

Implement a performance management system in accordance with PSC Policies and guidelines.

Use multimedia platforms and digital tools for media outlets.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
At least one provincial hub has been established and staffed with integrated teams for 2026	1	Fully Equipped Provincial Hub
Inter-agency coordination is in place with two NSDP-linked review forums held annually	2	Number of SLG meetings
Standardized planning and budgeting template developed	1	Templated Developed, reviewed, endorsed and approved by MYJSC senior management in Quarter 1 of 2026
Rollout of workshops on the standardized template	2	Training reports and attendance records

Timeliness of financial and performance reports developed	100%	Report Submissions Log
The Annual Procurement Plan (APP) is developed with compliance and approved on time	1	APP finalized and approved by February 28 th , 2026 with copy of approved APP in place
Finalized and approved the Electronic Records Management System	1	Established Electronic Records Management System
Ensure 80% of existing paper records are digitized by the end of November 2026	80%	Percentage
Administrative procedures and processes are reviewed and updated by the end of November 2026	4	Copies of approved procedures
Implement the <i>Recruitment Plan</i> and coordinate with the Public Service Commission or the relevant commission/board	1	Ministry Recruitment Plan established
Facilitate sector networking events and knowledge sharing platforms	3	Report Submitted on Sectoral Networking Meetings
Implement the Sector Capacity Development Strategy	1	Activity under the capacity development strategy is implemented
Participate in career fairs and HR networking events	1	Report submitted on PSC Day engagement and 1 other career event
Implement a performance management system as per PSC policies and guidelines	1	Sections A, B & C implemented
Leverage multimedia platforms and digital tools to enhance media outputs	50	Articles published on social media and website

PROGRAM MJB: WOMEN’S AFFAIRS

Program Cost 45,229,317

Activity MJBA: Women’s Affairs

Activity Cost 45,229,317

Cash Grant & Aid in Kind

Objectives

A safe, just, and secure society where everyone works together to build happy families, strong communities, and a resilient Vanuatu.

5 Strategic Areas:

1. Eliminating discrimination and violence against women and girls
2. Enhancing women's economic empowerment and skills development
3. Advancing women's leadership and political participation
4. Strengthen the foundation of gender mainstreaming
5. Fostering gender-responsive and community-driven solutions to climate and disaster resilience.

Means of Service Delivery

- Complete staff recruitment for Phase 3 of the new organizational structure.
- Increase community awareness and improve program delivery for women and families in accordance with the Provincial Gender Action Plans 2025–2030.
- Perform gender-responsive planning and budgeting evaluations across five key sectors at both national and provincial government levels.
- Enhance consistent reporting on the NGEF by collaborating with partners to fulfill national, regional, and global commitments.
- Encourage and support women-led initiatives in disaster response and climate change efforts.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Ensure recruitment of staff for phase 3 of the new structure.	6	Total number of staff recruited
Provide a broader community awareness and delivery of program activities for women and families as per the Provincial Gender Action Plans 2025-2030.	30	Total number of awareness conducted
	1,000	Total number of people reached
	12	Total number of area councils reached
	80	Total number of communities reached
Undertake proper gender responsive planning and budgeting assessments in 5 sectors at national and provincial government levels	10	Total number of women in provincial committees
	3	Total number of political parties contacted
	5	Total number of women councilors trained.
	5	Total number of sectors assessed for Gender Responsive Budgeting
	2	Total number of sectors

		mainstreaming for Gender Responsive Budgeting
Ensure regular reporting of the NGEP through the collaboration of partners to national, regional, and global commitments	30	Total number of Technical Working Group & PGEAT meetings held
	2	Total number of reports submitted to MJYCS
Ensure women led initiatives are encouraged in disasters and climate change programs	12	Total number of women heading and members of PDCCC
	3	Total number of women led climate change-initiated projects

PROGRAM MJC: CORRECTIONAL SERVICES

Program Cost: 386,770,557

Objectives

The Department of Correctional Services administers the provisions of the Correctional Services Act and the Penal Code.

Activity MJCA: Correctional Services

Activity Cost: 386,770,557

Objectives

The core functions of the Department of Correctional Services is to have a safe and fair community through effective rehabilitation, restoration and reintegration of offenders into the community.

The new mission of the Department of Correctional Services is to provide safe, secure and Human Containment of offenders and work in partnership with community stakeholders to help offenders.

The new values include professionalism and accountability.

Means of Service Delivery

The Department of Correctional Services would focus more on strengthening Institutional Capacity by:

1. Developing management and staff capacity.
2. Continue with maintenance and security
3. Developing infrastructure
4. Involving the Community in our work
5. Developing relationship with our stakeholders

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Training courses completed by staff- internal training/ external training/ by gender	80	Number
Escapees per annum		Number
Children in pre-sentencing and post-sentencing detention wholly separated from adults	20	Percentage
New correctional facilities built	2	Number
Detainees undertaking a rehabilitation program	100	Percentage
Offenders serving community justice sentences	50	Percentage
Complaints upheld by the Ombudsmen	10	Number

PROGRAM MJD: LANDS TRIBUNAL

Program Cost88,846,361

Objectives

Provide effective and professional land dispute management services, facilitate the registry of customary land ownership, and promote good land management practices among customary landowners. We strive to promote harmony, peace, and respect in customary land throughout Vanuatu and protect custom owner groupings while settling land disputes through effective, efficient, and professional services to the public.

Activity MJDA - Lands Tribunal Office

88,846,361

Objectives

- To enable the CLMO office and Provincial Office to deliver reliable and prompt responses to inquiries.
- Conduct awareness to inform and educate all people about the CLMA Act and related Acts.
- To develop capacity for implementing the land disputes resolution procedures.
- To facilitate the resolution of land disputes and lease agreements.
- To fully implement the CLMO-reviewed organizational structure.
- To continue cleaning cases in the case management system.
- To fully map all declared custom boundaries throughout Vanuatu
- To review the CLMA Act and Land Reform Act

Means of Service Delivery

- Conduct community outreach and awareness to inform and educate all people about the CLMA Act and related Acts.
- Conduct training sessions with chiefs, adjudicators, and community leaders.
- Facilitate Nakamal and local Tribunal meetings.
- Facilitate consultation on new lease applications.
- Recruitment to fill all positions within the Organizational Structure.
- Conduct family meetings and representative meetings.
- Create a registry for records of interest in land certificates.
- Create records of maps for declared custom land boundaries.

PROGRAM MJE: LAW COMMISSION

Program Cost: **37,720,893**

Activity MJE Law Commission

Activity Cost: **37,720,893**

Objectives

To lead and facilitate evidence-based law reform in Vanuatu by conducting independent legislative reviews, providing authoritative advice to government and stakeholders, and ensuring that all reforms are consistent with national policy priorities, international standards, and the principles of human rights, transparency, and good governance.

Conduct independent reviews of existing laws to ensure they remain relevant, effective, and aligned with national and international standards.

Develop evidence-based law reform proposals and provide authoritative advice to government on legislative priorities.

Facilitate inclusive consultations with ministries, civil society, and the public to ensure legal reforms are participatory and widely supported.

Strengthen institutional and staff capacity through research, training, and collaboration with legal and policy institutions.

- Uphold transparency, accountability, and independence in all operations to safeguard the credibility and integrity of law reform processes.

Means of Service Delivery

Undertake systematic legal research, comparative analysis, and reviews of existing laws to produce reform recommendations.

Prepare draft bills, policy briefs, and advisory reports to guide government decision-making on legislative priorities.

Organize public forums, workshops, and targeted consultations with ministries, civil society, and communities to gather input on law reform.

Deliver staff training, knowledge exchanges, and collaborative research with academic and policy institutions to strengthen expertise.

Implement robust internal procedures, reporting mechanisms, and ethical standards to ensure independence, transparency, and accountability.

Recruitment of Communications and Policy Officers – Enhance VLRC visibility and support the Policy Unit to identify and implement new legislative reforms.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Continue to use Awareness materials and mediums of communication to promote the roles and responsibilities of the Office of the Law Reform Commission	3	Number of Methods used to create awareness
Continue collaboration with Regional LR agencies	1	Number of placements/exchanges
Continue collaboration with major stakeholders.	3	Number of awareness/Consultations
Commission meetings	2	Number of Reports finalized and launched
Undertake a review of newly identified (initiative) law reform areas	2	Types of meetings
Increase staff Capacity and Development through training	2	Number of reviews
Establishment of the Commission's Working Committee	2	Number of Trainings (In office, short)
	2	Number of working committees

Programs MJF: Executive Management & Corporate Service
Program cost: 127,750,000

Activity Cost MJFA: Corporate Services
Cash Grant & Aid in Kind: 127,750,000

Objectives

Strengthen staffing, recruitment, job descriptions, training, performance management.

Improve systems for oversight, reporting, audit, compliance.

Strengthen planning, reporting, monitoring, evaluation frameworks, linkages between operations and

outcomes.

Better budgeting, resource allocation, financial controls, audit readiness.

Update or develop enabling policies, internal procedures, standard operating procedures, ICT / systems.

Provide logistical, administrative support to youth & sports programmes, coordinate across units and with stakeholders.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Number of Clients received	2,500	Persons
Number of Land Boundaries Mapped	20	Report
Number of Adjudicators and Heads of Nakamals Trained	300	Persons
Number of Cases to be cleaned and Scanned into the System	300	Cases
Number of Nakamal Meetings held	60	Report /Minutes
Number of Area Tribunal meetings held	20	Report/ Minutes
Number of Family Listings Meetings	60	Report/Minutes
Number of Lease Consultations Done	30	Report
Number of Awareness Done	30	Report
Number of People Recruited	16	Persons
Number of Clients received	2,500	Persons

Program MJG: National Human Rights**Program cost:12,416,126****Activity MJGA - Human Rights****Activity Cost: 12,416,126****Objectives**

- National policies are developed and reviewed.
- The legalization bill is presented in Parliament.
- Increase in Human Resource Capacity.

Means of Service Delivery

- National and Provincial Consultation to be implemented to inform the review of the policies
- Workshop and briefing to inform Parliament of legislation
- Recruitment of personnel to enhance human resource capacity for supporting the implementation of national policies.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Human Rights Policy is Developed	1	6 workshops are conducted
Juvenile Procedure Code Bill is completed	1	Working group completes JPC Bill
Increase the Human Resource Capacity of the Unit	3	The Human Rights unit is resourced to improve reporting of the convention

PROGRAM MJH: NATIONAL DISABILITY DESK**Program Cost****28,651,789****Activity MJHA - Disability Desk****Activity Cost: 28,651,789****Objectives**

- Promote effective participation and inclusion across all sectors (education, health, climate change and disaster risk reduction, justice, economic empowerment, WASH, and social) at all levels.
- Strengthen national and provincial government capacity to resource and report on disability inclusive development efforts in a coordinated way.

Means of Service Delivery

- Working with persons with disabilities, identify sector-specific barriers to participation in education, training, scholarships, health, climate change and disaster risk reduction, justice, economic empowerment, WASH, and social activities at all levels.
- Develop disability inclusion strategies to overcome identified barriers and support the achievement of the National Disability Inclusion Policy, as well as the Inclusive Education Policy and Strategic Plan 2025-2030, the Inclusive Health Sector Strategy, and the Inclusive Infrastructure Policy. Incorporate these strategies into relevant sector, corporate, and business plans.
- Allocate sufficient resources within the all-sector budget to support the implementation of disability inclusion strategies.
- Provide annual disability awareness training to all relevant sector personnel.
- Support training on the CRPD and domestic laws and policies that offer a local framework for implementing the CRPD, along with advocacy strategies to help realize the rights outlined in the CRPD.
- Proportion of statistics publications reporting disability data
- Strengthen collaboration between the Disability Desk and VBoS to improve access to evidence for informing policy implementation.
- Facilitate coordination and cooperation regionally to support contributions of success and lessons learned from Vanuatu's experiences, as well as from other Pacific countries.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Identify barriers to inclusion of persons with disabilities across key sectors.	1	Approved List of Barriers
Develop and integrate disability inclusion strategies into sector policies and plans to support national inclusion goals.	1	Number of Approved Strategies
Ensure adequate sector budgets support disability inclusion strategies.	1	Number of sectors Allocated budgets
Deliver annual disability awareness training to relevant sector staff.	1	Number of awareness and training
Support training on the CRPD, national laws, and advocacy for disability rights.	1	Number of Trainings
Proportion of publications reporting disability-disaggregated data.	1	Number of publications and reports
Enhance collaboration between the Disability Desk and VBoS to improve data access for policy implementation.	2	Number of Meetings
Facilitate regional collaboration to share and learn from disability inclusion experiences	1	Number of Meetings

PROGRAM MJJ: NATIONAL CHILD DESK

33,488,405

Activity MJIA Child Desk

Activity Cost: 33,488,405

Objectives

- Develop and review national policies to ensure alignment with government priorities and emerging needs.
- Draft and present two pieces of legislation in Parliament for consideration and enactment.
- Enhance institutional capacity by recruiting, training, and developing human resources.

Means of Service Delivery

- Conduct national and provincial consultations to gather stakeholder input and inform policy reviews.
- Facilitate workshops and briefing sessions to build parliamentary understanding and garner support for proposed legislation.
- Strengthen human resource capacity through recruitment, training, and deployment to ensure effective implementation of national policies.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
The provincial review of the National Child Protection Policy is implemented	7	Workshops are carried out
Child Protection Bill is passed in Parliament	1	MPs are briefed The Minister is briefed DCO and COM approves
Adoption Bill passes in Parliament	1	MPs are briefed The Minister is briefed DCO and COM approves
Financial support for Human Resources	4	4 provincial office positions are financially supported by the government
Office Facility	5	Office space is financially supported

PROGRAM MJJ: LAND OMBUDSMAN

Program Cost 7,201,300

Activity MJJA Land Ombudsman Payroll & Administration

Activity Cost 7,201,300

Objectives

- Ensure fair and transparent land processes by investigating consent-related complaints.
- Safeguard local land rights by following legal and customary procedures.
- Obtain legal and institutional backing to enhance the office's capacity.
- Raise public awareness and improve access to land dispute resolution services.

Means of Service Delivery

- Establish a complaint handling and investigation system with standardized forms and procedures to process and resolve land-related grievances efficiently.
- Conduct community outreach programs to educate landowners about their rights and legal requirements for lease, subdivision, and land use changes.
- Engage in policy advocacy and legal drafting to support the establishment of a formal legal framework for the Land Ombudsman's Office.
- Establish provincial access points or focal officers to handle complaints and provide information, enhancing accessibility for remote communities.

Performance Measurement (Service Targets)

Description	Quantity	Unit of measure
Land complaints received are investigated and responded to within 30 working days.	80	Percentage
Conduct at least 3 awareness sessions annually across all six provinces, reaching a minimum of 500 custom landowners.	3	Awareness Conducted

PROGRAM MJM: YOUTH DEVELOPMENT & SPORTS

Program cost: 84,701,108

Cash Grant & Aid in Kind: 60,000,000

Activity MJMA: Corporate Services

Activity Cost: 20,191,508

Cash Grant & Aid in Kind: 60,000,000

Objectives

Empower Youth for National Development
Promote Physical and Mental Well-being Through Sport
Develop and Implement Youth and Sports Policies

Enhance Youth Skills and Employability
 Support Talent Identification and Elite Sports Development
 Ensure Safe and Inclusive Spaces for Youth and Athletes
 Promote Civic Engagement and Leadership
 Strengthen Institutional Capacity and Partnerships

Performance Measurement (Service Targets)

Description	Quantity	Unit of measure
Production of Annual Business Plan	1	Number of AR
Production of Quarterly reports	4	Number of Reports
Undertaking Capacity Building and Training: Certificate in Front Office Operations (Level 4) Certificate in Sports Science (Level 4) Certificate IV in Youth Work	3	Number of Capacity Building Training
Submissions of NPPs (GIP Project Proposals)	3	Number of NPP (GIP Project Proposals) Submitted
Submission of COM Papers	10	Number of COM Papers Submitted
Renovation of office (Yumi Go House)	1	Number of Tender Contracts
Review and amendment of Acts	2	VNYA Act and VNSA Act
Production of Individual Workplan	20	Number of Individual WPs submitted
Miscellaneous Tasks implemented	20	Number of other Reports submitted
Conducting ABP Planning Retreat	1	Number of Planning Retreats
Conduction of Youth and Sport training /workshop	28	Number of Training/Workshops
Development of New Policies	2	Number of Consultations
Reviewing Old Policies	2	Number of New Structures and positions filled
Conducting Staff Performance Appraisals	2	Number of appraisals submitted to PSC.
Conducting of Area, Provincial, and National Games	72	Number of Games
Supervisory Visitations	6	Number of Visitations Reports
Attending Regional and International trainings, meetings, and Workshops	7	Number of Regional and International Meetings

Activity MJMC: Sports Development

Activity Cost: 34,643,440

Objectives

- To Boost Participation in Sports
- To Enhance Access and Inclusivity
- To Improve Performance and Talent Development
- To Develop Facilities and Infrastructure
- To Build Coaching and Leadership Capacity
- To Promote Health and Well-being
- To Promote Social Inclusion and Community Cohesion
- To Develop Sustainable Sports Systems
- To Create Opportunities for Lifelong Engagement

Means of Service Delivery:

Organized Sports Programs and Leagues - Running grassroots clubs, school teams, amateur leagues, and competitive tournaments to increase participation.

Coaching and Technical Training - Providing certification courses, clinics, and workshops for coaches, referees, and sports officials to improve the quality of training and officiating.

Talent Identification and Development Pathways - Establishing scouting programs and development academies to nurture promising athletes from grassroots to elite levels.

Sports Infrastructure Development - Building and maintaining facilities such as stadiums, fields, courts, and gyms that are accessible to communities.

Provision of Equipment and Resources - Supplying necessary sports gear and equipment to clubs, schools, and community programs.

Community and School Engagement - Partnering with educational institutions and community organizations to integrate sports into daily activities.

Awareness Campaigns and Advocacy - Promoting the benefits of sports participation for health, social inclusion, and national pride through media and events.

Sports Science and Medicine Support - Offering services related to athlete health, nutrition, injury prevention, and performance analysis.

Policy Development and Governance - Creating and enforcing sports policies, codes of conduct, and development frameworks at local, regional, and national levels.

Monitoring, Evaluation, and Research - Collecting data on participation rates, program effectiveness, and athlete performance to inform improvements.

Performance Measurement (Service Targets)

Description	Quantity	Unit of measure
Increase Participation in Sports	24	# of National Federation registers with DOYS/VNSA # youths affiliated with leagues and clubs in every sports discipline # NF participation in regional and international tournaments # sport facilities, equipment, or inclusive environments
Improve Access and Inclusivity	60	# people accessing the sport facilities, programs, spaces, or services # of participation of diverse groups, including people with disabilities, ethnic and cultural minorities

MINISTRY OF FISHERIES, OCEANS & MARITIME AFFAIRS

Overall Caost:826,012,747
Recurrent Cost: 821,200,747
Cash Grants & Aid in Kind: 4,812,000

Introduction

The establishment of the Ministry of Fisheries, Oceans, and Maritime Affairs will provide a comprehensive approach to managing marine and freshwater resources, balancing economic growth, ocean environmental conservation, and national security. Over the long term, this will lead to sustainable development, improved livelihoods, and greater resilience to global challenges like climate change and food security.

The Ministry of Fisheries, Oceans and Maritime Affairs (MFOMA) has 3 Departments supported by a Corporate Service Unit:

1. Fisheries
2. Ocean & Maritime Affairs
3. Maritime Authority

The Ministry of Fisheries Oceans and Maritime Affairs (MFOMA) aims to:

1. Increase Government revenue and domestic economic growth arising from a more flexible approach to sustainable fishery development and management opportunities;
2. Enhance a coordinated organisational performance through more effective human resource management and development;
3. Foster better coordinated governance arrangements which draw on the skills and experience of a range of fisheries and oceans sector stakeholders;
4. Improve financial management through direct collection of revenues and internal provision for essential activities;
5. Strengthen Vanuatu's positions in international discussions and negotiations that affect its interests in fisheries and oceans;
6. Ensure compliance with all relevant regional and international conservation and management measures for fisheries and Oceans sectors; and
7. Enhance better management and financial monitoring of the Vanuatu International Shipping Registry.

PROGRAM MDA: CABINET

Program Cost 65,979,884

Cash Grant & Aid in Kind 0

Program activity MDAA: Portfolio Management

Strategic Objective

The Cabinet provides strategic advice to the Minister on policy directives relevant to the Fisheries, Oceans and Maritime Affairs sector, aligning these directives to the Government's overarching goals for sustainable social and economic growth and the development of the fishery, ocean and maritime affairs sectors.

Operational Objectives

The following objectives outline key priorities for the Cabinet to effectively support the Minister of Fisheries, Oceans and Maritime Affairs in driving sustainable growth and governance in the sector:

1. Facilitate the efficient operation of the Minister supporting the Minister's initiatives;
2. Provide technical advice to underpin policy to enhance the sustainable growth of the fisheries and maritime sectors;
3. Assist Minister to define roles and functions of Cabinet staff to effectively fulfill their roles to support the work of the Minister;
4. Assist with the preparation of relevant bills for submission to Parliament pertaining to the fisheries and maritime sectors to streamline the legislative process;
5. Provide on-going technical advice to the Minister to promote effective oceans and maritime governance;
6. Assist the Director General, Departmental Directors and Unit Heads in the implementation of programs aimed at sustainable fisheries and ocean management.

Means of service delivery

- Provide administrative support to Minister and Cabinet team;
- Support Minister and team with technical advice from MFOMA as needed for review and preparation of policy initiatives;
- Develop Terms of Reference for Cabinet for Minister's consideration;
- Assist Minister with analysis of Bills to be presented to Parliament pertaining to the fisheries and maritime sectors;
- Strengthen Ministry's governance framework through Briefing Notes, Concept Notes and draft DCO/COM Papers as requested by Minister;
- Hold regular meetings with Director General, Departmental Directors and Unit Heads to be briefed on program implementation and issues arising needing Ministerial level intervention.

Performance Measures (service targets)

Description	Quantity	Unit of Measure
1.1.1 Annual Budget requested for Cabinet	1	MBC Submission details Cabinet support package
2.1.1 Technical advice to Minister for drafting of Policy	As requested	Annual Report provides details of any Policy development
3.1.1 Terms of Reference for Cabinet for Minister's consideration	1	Set of TORs for Cabinet for Minister's consideration
4.1.1 Technical advice on draft Bills provided	As requested	Legislative Review Committee Advisory Notes
5.1.1 Briefing Notes, Concept Papers and draft DCO/COM Papers	1	Annual Report provides list of #s of DCO/COM Papers, Briefing Notes & Concept Papers
6.1.1 Meetings held & Minutes	As needed	Meetings with Minutes & Actions Arising circulated within 2 days

PROGRAM MDB: CORPORATE SERVICES

Program Cost 146,071,972

Cash Grant & Aid in Kind 0

Program activity MDPA: Corporate Services

Strategic Objective:

The Corporate Services Unit (CSU) provides advice to the Minister of Fisheries, Oceans and Maritime

Affairs (MFOMA) and coordinate with all stakeholders, ensuring effective, efficient functioning of the Ministry, compliance with legislation and implementing the core functions of the Ministry.

Program activity MDBB:

Program activity cost: 20,900,000

Objective: Institutional capacity

Supporting institutional capacity, policy, communication and administration

Program activity MDBC: Admin Sanma

Program activity cost: 10,000,000

Program activity MDBD: Admin SHEFA

Activity cost: 32,001,289

Objective:

Support institution capacity, policy, communication, admin SHEFA

Operational Objectives

The Corporate Service Unit (CSU) of the Ministry of Fisheries, Oceans and Maritime Affairs exists to:

1. Provide effective support and sound advice to the Minister, Office of the Director General & Directors;
2. Support refinement of the Ministry's legislative and policy framework to identify new legislation, review alignment current legislation and compliance status, developing new supporting policies and regulations;
3. Liaise with sector stakeholders to build awareness of the Ministry's mandate, secure resources and deliver the Ministry's mandated programs;
4. Provide technical support for infrastructure projects to improve the decentralized, cost-effective delivery of the Ministry's programs;
5. Ensure effective and efficient financial management, undertake & implement restructures and human resource management and capacity building, Internal Auditing, Compliance & Asset Management

Means of service delivery

- Provide administrative support to Minister, Office of the Director General & Directors;
- Undertake on-going review of legislative, Convention and policy framework;
- Develop and propose new legislation that addresses airspace management and national boundary regulations, including safety protocols and environmental considerations.
- Facilitate liaison, organisation and attendance internationally, regionally and nationally at meetings to build professional networks for the Ministry with SEOs, private sector, NGOs, Civil Society, GoV and Development Partners;
- Establish a Projects Management Unit within CSU to oversee the development and implementation of projects across the Ministry portfolio;
- Improve professional, effective & efficient services delivery by progressing the construction of the Main Office complex for the Ministry of Fisheries, Ocean and Maritime Affairs, including administrative offices, meeting rooms, and support facilities;
- Improve decentralised services delivery in the Maritime & Fisheries Sector through construction of Santo wharf facilities;
- Undertake renovation of Santo Office to improve provision of decentralised service delivery;
- Ensure 100% compliance with GoV planning, reporting and budget cycles;
- Implement CSU Restructure Submission as per costed Implementation Plan

Performance measures (service targets)

Description	Quantity	Unit of Measure
Management Meetings provide advice & support	12	Monthly Meeting Minutes with Actions Arising
Tabular Report on Policy, Convention & Legislative Framework	1	Tabular Report up-to-date with issues and opportunities
Establish a Legislative Taskforce to airspace management and national boundary regulations	1	Taskforce established with Annual Report providing progress summary
Return from Mission Reports collated into Annual Report with Outcomes & Opportunities	1	Annual Report & Return from Mission Reports reflects meetings organised & attended internationally, regionally and nationally
Establish a Projects Management Unit within CSU	1	Costed Restructure of CSU to include PMU with 1 recurrent NPP for priority positions
Implement World Bank funded design for new MFOMA Office	1	PDD for World Bank funded design for new MFOMA Office implemented
Implement World Bank funded design for Santo Wharf facilities	1	PDD for World Bank funded design for Santo Wharf
Renovate Santo MFOMA Office	1	Santo MFOMA Office
All Plans & Reports including AWP and PMRs submitted compliantly and on time	100%	Compliance with GoV Budget, Planning & Reporting Cycle & CTB Act
5.1.2 Implement Restructure of CSU	1	1 recurrent NPP for priority new posts as identified by Implementation Plan

PROGRAM MDC: SUSTAINABLE FISHERIES**Program Cost 464,614,947****Cash Grant & Aid in Kind 4,812,000****PROGRAM MDCA: PAYROLL & ADMINISTRATION****Activity Cost 179,575,720****Cash Grant & Aid in Kind 0****Strategic Objective:**

To provide the operational framework for the effective administration of the Department of Fisheries

Operational Objectives

1. Provide effective administration of Fisheries Department budget, human resources and assets;
2. Contribute to Fisheries Department planning & reporting in close cooperation with other Ministry of Fisheries & Ocean Affairs agencies, particularly Development Partner Private Sector and GoV funded initiatives;
3. Develop a functional Vanuatu Fisheries Information Management System
4. Investigate new revenue generation streams in International Fisheries
5. Support institutional reform through restructure to strengthen & decentralise the Department of Fisheries

Means of service delivery

1. Compliantly administer Fisheries Department budget, human resources and assets;
2. Ensure 100% compliance to Government of Vanuatu Planning & Reporting Cycles
3. Design and operationalise a functional Vanuatu Fisheries Information Management System
4. Enhance existing and investigate new revenue generation streams in International Fisheries
5. Support implementation of restructure of the Department of Fisheries into two Divisions under two (2) Deputy Directors – Sustainable Coastal Fisheries Division and International Fisheries Division;

Performance measures (service targets)

Description	Quantity	Unit of Measure
LPOs developed & submitted for prompt payment	1	Timely LPOs tracked through SmartStream Reports
Track revenue from Fisheries levies & licences	4	Revenue Report Quarterly
Ensure staff salaries and entitlements are paid on time	100%	Staff salaries and entitlements on time
All plans & Reports including AWP and PMRs submitted compliantly and on time	100%	Compliance with GoV Budget, Planning & Reporting
Design a functional Vanuatu Fisheries Information Management System	1	1 NPP for technical design of a Fisheries Information Management System

PROGRAM MDCB: SUSTAINABLE FISHERIES (MALAMPA)**Activity Cost 5,450,000****Cash Grant & Aid in Kind 0****Strategic Objective**

To ensure coastal, mariculture & aquaculture fishing activities in Malampa are exploited sustainably for immediate, medium and long-term benefits for the people of malampa by ensuring the nation's food security, income generation and environmental health.

Objectives

1. Investigate and support the responsible development of new fisheries in Malampa;
2. Support Community Based Fisheries Management initiatives through provision of technical advice to coastal communities on setting up & maintaining marine community-based fisheries management areas;
3. Maintain regular monitoring and conduct stock assessment of designated fisheries in Malampa;
4. Support the improvement of post-harvest fish handling, storage & marketing of wild capture and farmed fish resources;
5. Collaborate with Provincial & National stakeholders to strengthen services delivery in Malampa Fisheries sector;
6. Support design, implementation and reporting of Development Partner, private sector and GoV funded projects in Malampa;
7. Enforce the Fisheries Act & Fisheries Regulations for fisheries in Malampa;
8. Undertake institutional reform to strengthen & decentralise the Malampa Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, equipment.

Means of service delivery

- 1.1 Develop new fisheries in Malampa;
- 2.1 Undertake Community Based Fisheries Management initiatives
- 3.1 Conduct stock assessment of designated fisheries in Malampa with M&E Reports provided;
- 4.1 Develop SOP for post-harvest fish handling, storage & marketing
- 5.1 Work with VPPA to strengthen registration of fish producers
- 6.1 Provide technical & operational support for implementation and reporting of Development Partner, private sector and GoV funded projects in Malampa;
- 7.1 Strengthen services delivery in Malampa Fisheries sector with awareness & training on legislation, policy and compliance issues;
- 8.1 Decentralise services to Malampa Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, equipment.

Performance measures (service targets)

Description	Quantity	Unit of Measure
Briefing Note/s on new fisheries development in Malampa	1	Briefing Note to Department Head Office on potential new fisheries
Up-scale Community Based Fisheries Management	1	Annual Report provides details of expanded program
Stock assessment of designated fisheries in Malampa	1	Annual Report provides data on Malampa's designated fisheries
SOP for post-harvest fish handling, storage & marketing	1	SOP on seafood safety
VPPA fish producer registration up-scale	1	Annual Report details increase in compliant registration
Project reports on implementation and issues	2	Project Reports
Awareness & outreach training Program for Malampa	1	1 recurrent NPP of 3,000,000 for all 6 provinces – 500,000 vt for Malampa annually
All plans & Reports including AWP and PMRs submitted compliantly and on time	100%	Compliance with GoV Budget, Planning & Reporting
Increase FAD installation, training and maintenance	3	3 FADs

PROGRAM MDCC – SUSTAINABLE FISHERIES(PENAMA)**Activity Cost 5,250,000****Cash Grant & Aid in Kind 0****PROGRAM MDCCD – SUSTAINABLE FISHERIES (SANMA)****Activity Cost 30,330,000****Cash Grant & Aid in Kind 0****Strategic Objective**

To ensure coastal, mariculture & aquaculture fishing activities in Sanma are exploited sustainably for immediate, medium and long-term benefits for the people of Sanma by ensuring the nation's food security, income generation and environmental health.

Objectives

1. Investigate and support the responsible development of new fisheries in Sanma;
2. Support Community Based Fisheries Management initiatives through provision of technical advice to coastal communities on setting up & maintaining marine community-based fisheries management areas;
3. Maintain regular monitoring and conduct stock assessment of designated fisheries in Sanma;
4. Support the improvement of post-harvest fish handling, storage & marketing of wild capture and farmed fish resources;
5. Collaborate with Provincial & National stakeholders to strengthen services delivery in Sanma Fisheries sector;
6. Support design, implementation and reporting of Development Partner, private sector and GoV funded projects in Sanma;
7. Enforce the Fisheries Act & Fisheries Regulations for fisheries in Sanma;
8. Undertake institutional reform to strengthen & decentralise the Sanma Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, equipment.

Means of service delivery

- Develop new fisheries in Sanma;
- Undertake Community Based Fisheries Management initiatives
- Conduct stock assessment of designated fisheries in Sanma with M&E Reports provided;
- Develop SOP for post-harvest fish handling, storage & marketing
- Work with VPPA to strengthen registration of fish producers
- Provide technical & operational support for implementation and reporting of Development Partner, private sector and GoV funded projects in Sanma;
- Strengthen services delivery in Sanma Fisheries sector with awareness & training on legislation, policy and compliance issues;
- Decentralise services to Sanma Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, EQUIPMENT.

Performance measures (service targets)

Description	Quantity	Unit of measure
Briefing note/s on new fisheries development in sanma	1	briefing note to department head office on potential new fisheries
up-scale community-based fisheries management	1	annual report provides details of expanded program
stock assessment of designated fisheries in sanma	1	annual report provides data on sanma's designated fisheries
sop for post-harvest fish handling, storage & marketing	1	sop on seafood safety
vppa fish producer registration up-scale	1	annual report details increase in compliant registration
project reports on implementation and issues	2	project reports
awareness & outreach training program for sanma	1	1 recurrent npp of 3,000,000 for all 6 provinces – 500,000 vt for sanma annually
all plans & reports including awps and pmrs submitted compliantly and on time	100%	compliance with gov budget, planning & reporting
increase fad installation, training and maintenance	3	3 fads

PROGRAM MDCE – SUSTAINABLE FISHERIES (SHEFA)

Activity Cost 5,260,000

Cash Grant & Aid in Kind 0

Strategic Objective

To ensure coastal, mariculture & aquaculture fishing activities in Shefa are exploited sustainably for immediate, medium and long-term benefits for the people of Shefa by ensuring the nation's food security, income generation and environmental health.

Objectives

1. Investigate and support the responsible development of new fisheries in Shefa;
2. Support Community Based Fisheries Management initiatives through provision of technical advice to coastal communities on setting up & maintaining marine community-based fisheries management areas;
3. Maintain regular monitoring and conduct stock assessment of designated fisheries in Shefa;
4. Support the improvement of post-harvest fish handling, storage & marketing of wild capture and farmed fish resources;
5. Collaborate with Provincial & National stakeholders to strengthen services delivery in Shefa Fisheries sector;
6. Support design, implementation and reporting of Development Partner, private sector and GoV funded projects in Shefa;

7. Enforce the Fisheries Act & Fisheries Regulations for fisheries in Shefa;
8. Undertake institutional reform to strengthen & decentralise the Shefa Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, equipment.

Means of service delivery

- Develop new fisheries in Shefa;
- Undertake Community Based Fisheries Management initiatives
- Conduct stock assessment of designated fisheries in Shefa with M&E Reports provided;
- Develop SOP for post-harvest fish handling, storage & marketing
- Work with VPPA to strengthen registration of fish producers
- Provide technical & operational support for implementation and reporting of Development Partner, private sector and GoV funded projects in Shefa;
- Strengthen services delivery in Shefa Fisheries sector with awareness & training on legislation, policy and compliance issues;
- Decentralise services to Shefa Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, equipment.

Performance measures (service targets)

Description	Quantity	Unit of Measure
Briefing Note/s on new fisheries development in Shefa	1	Briefing Note to Department Head Office on potential new fisheries
Up-scale Community Based Fisheries Management	1	Annual Report provides details of expanded program
Stock assessment of designated fisheries in Shefa	1	Annual Report provides data on Shefa's designated fisheries
SOP for post-harvest fish handling, storage & marketing	1	SOP on seafood safety
VPPA fish producer registration up-scale	1	Annual Report details increase in compliant registration
Project reports on implementation and issues	2	Project Reports
awareness & outreach training program for shefa	1	1 recurrent npp of 3,000,000 for all 6 provinces – 500,000 vt for shefa annually
all plans & reports including awps and pmrs submitted compliantly and on time	100%	compliance with gov budget, planning & reporting
increase fad installation, training and maintenance	3	3 fads

PROGRAM MDCF – SUSTAINABLE FISHERIES (TAFEA)

Activity Cost 5,360,000

Cash Grant & Aid in Kind 0

Strategic Objective

To ensure coastal, mariculture & aquaculture fishing activities in Tafea are exploited sustainably for immediate, medium and long-term benefits for the people of Tafea by ensuring the nation's food security, income generation and environmental health.

Objectives

1. Investigate and support the responsible development of new fisheries in Tafea;
2. Support Community Based Fisheries Management initiatives through provision of technical advice to

coastal communities on setting up & maintaining marine community-based fisheries management areas;

3. Maintain regular monitoring and conduct stock assessment of designated fisheries in Tafea;
4. Support the improvement of post-harvest fish handling, storage & marketing of wild capture and farmed fish resources;
5. Collaborate with Provincial & National stakeholders to strengthen services delivery in Tafea Fisheries sector;
6. Support design, implementation and reporting of Development Partner, private sector and GoV funded projects in Tafea;
7. Enforce the Fisheries Act & Fisheries Regulations for fisheries in Tafea;
8. Undertake institutional reform to strengthen & decentralise the Tafea Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, equipment.

Means of service delivery

- Develop new fisheries in Tafea;
- Undertake Community Based Fisheries Management initiatives
- Conduct stock assessment of designated fisheries in Tafea with M&E Reports provided;
- Develop SOP for post-harvest fish handling, storage & marketing;
- Work with VPPA to strengthen registration of fish producers
- Provide technical & operational support for implementation and reporting of Development Partner, private sector and GoV funded projects in Tafea;
- Strengthen services delivery in Tafea Fisheries sector with awareness & training on legislation, policy and compliance issues;
- Decentralise services to Tafea Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, equipment.

Performance measures (service targets)

description	quantity	unit of measure
Briefing note/s on new fisheries development in tafea	1	briefing note to department head office on potential new fisheries

increase fad installation, training and maintenance	3	3 fads

PROGRAM MDCG – SUSTAINABLE FISHERIES (TORBA)

Activity cost: 5,350,000

cash grant & aid in kind 0

Strategic Objective

to ensure coastal, mariculture & aquaculture fishing activities in torba are exploited sustainably for immediate, medium and long-term benefits for the people of torba by ensuring the nation's food security, income generation and environmental health.

Objectives

1. Investigate and support the responsible development of new fisheries in Torba;
2. Support Community Based Fisheries Management initiatives through provision of technical advice to coastal communities on setting up & maintaining marine community-based fisheries management areas;
3. Maintain regular monitoring and conduct stock assessment of designated fisheries in Torba;
4. Support the improvement of post-harvest fish handling, storage & marketing of wild capture and farmed fish resources;
5. Collaborate with Provincial & National stakeholders to strengthen services delivery in Torba Fisheries sector;
6. Support design, implementation and reporting of Development Partner, private sector and GoV funded projects in Torba;
7. Enforce the Fisheries Act & Fisheries Regulations for fisheries in Torba;
8. Undertake institutional reform to strengthen & decentralise the Torba Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, equipment.

Means of service delivery

- Develop new fisheries in Torba;
- Undertake Community Based Fisheries Management initiatives
- Conduct stock assessment of designated fisheries in Torba with M&E Reports provided;
- Develop SOP for post-harvest fish handling, storage & marketing;
- Work with VPPA to strengthen registration of fish producers
- Provide technical & operational support for implementation and reporting of Development Partner, private sector and GoV funded projects in Torba;
- Strengthen services delivery in Torba Fisheries sector with awareness & training on legislation, policy and compliance issues;
- Decentralise services to Torba Office of the Department of Fisheries through budget, reporting, planning, restructures, capacity building of human resources, infrastructure, equipment.

Performance measures (service targets)

All plans & Reports including AWP and PMRs submitted compliantly and on time	100%	Compliance with GoV Budget, Planning & Reporting
Increase FAD installation, training and maintenance	3	3 FADs

Program activity MDCH: Coastal & Aquaculture

Activity cost: 9,000,000

STRATEGIC OBJECTIVE

Maximise the potential of decentralised coastal fisheries and aquaculture initiatives to improve livelihoods and food security.

OPERATIONAL OBJECTIVES

1. Implement decentralisation strategies to strengthen coastal & aquaculture;
2. Strengthen delivery of extension services;
3. Progress aquaculture initiatives in freshwater and mariculture to improve livelihoods;
4. Promote and support climate resilient communities to improve food security and resilience to natural disasters through nature-based initiatives
5. Liaise with sector stakeholders to raise awareness of coastal & aquaculture programs.

MEANS OF SERVICE DELIVERY

- 1.1 Expand coastal & aquaculture in all provinces;
- 2.1 Provide extension services to community stakeholders;
- 3.1 Secure resourcing support to strengthen dual delivery outcomes for freshwater and mariculture;
- 4.1 Engage in nature-based initiatives to improve food security and restore habitat and ecosystems;
- 5.1 Undertake outreach and awareness programs to promote coastal & aquaculture activities.

PERFORMANCE MEASURES (SERVICE TARGETS)

Description	Quantity	Unit of Measure
1.1.1 Fill vacant positions to improve decentralization of services	2	Aquaculture Officer (Nth) and Aquaculture Officer (Sth) positions filled
2.1.1 Design an Extension Policy for coastal & aquaculture	1	Coastal & Aquaculture Extension Policy designed
3.1.1 Seek additional funding for freshwater and mariculture activities	1	Supplementary Budget NPP to deliver Coastal & Aquaculture Extension Program
4.1.1 Half Yearly Reports on ecosystem restoration	2	Half Yearly Ecosystem restoration reports
5.1.1 Outreach and awareness programs undertaken & reported	1	Annual Report tabular summary of outreach and awareness programs

PROGRAM MDCI/MDCJ: INTERNATIONAL FISHERIES

MDCI Activity Cost 7,039,227 Cash Grants & Aid in kind 0

MDCJ Activity Cost 212,000,000 Cash Grants & Aid in Kind 0

Strategic Objective:

Maximize sustainable social, environmental and economic benefits in offshore fisheries.

Operational Objectives

1. Provide a licencing framework for permits, authorisations, licences and penalties consistent with the provisions of the Fisheries Acts and fisheries regulations;
2. Pursue new sustainable and environmentally sound revenue generating streams;
3. Conduct inspections of vessels, fisheries and fisheries-related establishments
4. Utilise paper-based and paper-less systems to monitor catch and market reporting systems
5. Enforce seafood safety standards;
6. Implement the Vanuatu National Fisheries Observer Program
7. Enhance the performance delivery and enforcement of the Fisheries Act and Regulations for International Fisheries

Means of service delivery

- Undertake a review of the licencing regime framework
- Develop an Options Paper for consideration on new sustainable and environmentally sound revenue generating streams
- Provide reports on vessels, fisheries and fisheries-related establishments
- Utilise TAILS and other Apps to monitor catch and market outcomes;
- Progress improvements in seafood safety standards;
- Comply with minimum coverage level for Vanuatu National Fisheries Observers;
- Undertake Outreach & Awareness programs to build understanding & compliance to the Fisheries Act, related policies and Regulations for International Fisheries
-

Performance measures (service targets)

Description	Quantity	Unit of Measure
Review of the licensing regime framework	1	1 licensing regime framework review paper
Options Paper on new revenue streams	1	1 Options Paper
Quarterly reports on vessels, fisheries and fisheries-related establishments	4	4 Quarterly Reports
Generate reports	4	4 Quarterly Reports
Review SOP for seafood safety standards	1	SOP for seafood safety standards
Observer Reports	4	Observer Reports from NPFC; WCPFC; IATTC & SPRFMO
National compliance and awareness program	1	1 Recurrent NPP for national compliance and awareness program

Program activity MDCN Advancing Research and Development

Activity cost: 0

Cash grants & Aid in kind: 4,812,000

STRATEGIC OBJECTIVE

Strengthen the research and development framework to advance freshwater and mariculture initiatives.

OPERATIONAL OBJECTIVES

- 1.Undertake research on potential freshwater and mariculture commodities;
2. Develop an Aquatic Biosecurity Framework for protection of national aquatic resources for importation & export;
3. Strengthen hatchery operations and maintenance;
4. Undertake feed trials to identify and develop species-specific guidelines for appropriate feed ratios;
5. Progress import of new broodstock through liaison with sector partners;
6. Identify training opportunities for species specific capacity building for Fisheries officers.

MEANS OF SERVICE DELIVERY

- Identify potential freshwater and mariculture commodities attendance at regional & international forums;
- Draft an Aquatic Biosecurity Framework for discussion;
- Construct, repair and fully equip hatchery facilities – buildings, tanks, dry house for feed - to improve provision of post-larvae/fingerling stock north & south;
- Develop and promote species-specific feed guidelines;
- Liaise with Biosecurity and Development Partners to secure new broodstock;
- Secure sponsorship for species specific training opportunities.

PERFORMANCE MEASURES (SERVICE TARGETS)

Description	Quantity	Unit of Measure
Return From Mission Reports provide recommendations for potential freshwater and mariculture commodities	2	Return From Mission Reports include recommendations for Management Team consideration
Draft Aquatic Biosecurity Framework	1	Aquatic Biosecurity Framework drafted
Up-grade hatchery facilities	2	Hatchery facilities constructed, repaired and equipped
Guidelines for species-specific feed	2	Species-Specific Feed Guidelines
Agreement with Development Partner to secure new broodstock	1	Agreement with Development Partner to secure new broodstock
Attendance at species specific training	2	Return From Mission Reports on findings on species specific opportunities

PROGRAM MDD: OCEAN AND MARITIME AFFAIRS

program cost 42,929,344

cash grants & aid in kind 0

program activity MDDA: Finance and Admin

Activity cost: 14,014,484

Program activity Mddb: National Boundaries

Activity cost: 7,521,916

Strategic objective

“To manage Vanuatu’s unresolved Maritime & Air Space Boundaries, sovereign territorial disputes and implement the National Oceans Governance Framework.”

Operational Objectives

1. Coordinate and manage the Republic of Vanuatu’s sovereign ocean space;
2. Undertake initiatives to determine and resolve issues related to Republic of Vanuatu’s sovereign air space;
3. Manage unresolved Maritime Boundary issues;
4. Provide support to strengthen and implement the legislation and policy framework of maritime border, air space and boundary beyond national jurisdictions issues;
5. Undertake research to strengthen the fisheries and maritime sector;
6. Represent Vanuatu’s sovereign interests at national, regional and international meetings;
7. Progress institutional arrangements for the establishment of Department

Means of service delivery

- Administer Vanuatu’s sovereign ocean space through implementation of the VNOP2 and the Marine Spatial Plan for Vanuatu;
- 2.1 Provide advice to the Government of Vanuatu related to resolution of Vanuatu’s sovereign air space
- 3.1 Undertake bilateral negotiations with neighbouring countries that have outstanding Maritime

- Boundary issues with Vanuatu to support resolution;
- 4.1 Provide technical input to policy papers such as DCO/COM Papers on Maritime, Air Space and boundary beyond national jurisdictions matters;
- 5.1 Provide best available research to contribute to sound decision making on existing and potential fisheries development & management
- 6.1 Attend international regional and national workshops to represent Vanuatu's sovereign interests;
- 7.1 Progress institutional arrangements for the establishment of Department through restructure & resourcing

Performance measures (service targets)

Description	Quantity	Unit of Measure
Revision of Maritime Spatial Plan	1	Revised Maritime Spatial Plan
1.1.2 Implementation of VNO2	1	Implementation Reporting on VNO2
Confidential Briefing Notes to Prime Minister & Minister on related to resolution of Vanuatu's sovereign air space	4	Prime Minister & Ministerial Confidential Briefing Notes
Progress Maritime Boundary matters with neighbouring nations	2	2 meetings per annum
Technical Input to Policy Papers	3	Briefing Notes and DCO/COM Papers
Consultations on Boundary Beyond National Jurisdiction matters	3	Series of consultations with report to GoV
Deposition at UN of Joint Extended Continental Shelf Submission	1	Deposition at UN of Joint Extended Continental Shelf Submission
Stock Assessments of invertebrate resources Sea Cucumber, Trochus, Green snail Giant Clams Mud Crabs Coconut Crab & Lobster	6	6 Stock Assessments
Reef Finfish Stock Assessment	1	Reef Finfish Stock Assessment
Back From Mission Reports on meetings attended, outcomes and Ways Forward	1	Annual Report provides precis of workshops attended
Implement restructure	1	1 Recurrent NPP developed for priority posts

PROGRAM MDE: VANUATU MARITIME AUTHORITY

Program Cost 101,604,600

Cash Grants & Aid in Kind 0

Strategic Objective

"To ensure a green, clean, resilient, innovative and safe maritime transport throughout Vanuatu."

Program activity MDEA: Maritime Authority

Activity cost: 101,604,600

Operational Objectives

1. Adopt and promote best practice for green shipping and port infrastructure reducing the carbon footprint of maritime activities in Vanuatu;
2. Promote a clean and safe environment through sustainable maritime transport and port infrastructure;
3. Regulate resilience of maritime transport and infrastructure to safeguard Vanuatu's maritime assets in times of natural disasters;
4. Progress implementation of an innovative digital navigation and marine traffic facilitation system decentralized throughout Vanuatu;
5. Enhance the legal and policy framework and regulatory standards for a safe and secure maritime sector;
6. Represent Vanuatu Maritime Safety Authority at national, regional and international workshops;
7. Strengthen the operational and decentralized service delivery capacity of the VMSA through planning,

reporting, budget administration, human resources and capacity building, infrastructure and equipment acquisition.

Means of service delivery

- Progress ratification of Conventions related to green shipping and port infrastructure
- Enact legislation specific to a clean, safe and sustainable maritime transport and port infrastructure sector;
- Regulate maritime transport, infrastructure and procedures to build resilience to safeguard Vanuatu's maritime assets in times of natural disasters;
- Identify appropriate best practice digital navigation and marine traffic tracking systems;
- Undertake a full review of the legislation, policy and regulatory standard framework for VMSA;
- Promote compliance to ISO9001 in accordance with international management standards;
- Liaise with international, regional and national sector partners to improve Vanuatu's maritime safety regime;
- Build the operational and decentralized service delivery and compliance capacity of the VMSA.

Performance Measures (service targets)

Description	Quantity	Unit of Measure
Update list of Maritime Conventions ratified by Parliament identifies ratification & non-compliance issues for action	1	Tabular Report with recommended actions
Establish a Legislative Working Committee to draft policy & bills for a clean, safe and sustainable maritime transport and port infrastructure sector	1	Marine Pollution Bill drafted for submission to Parliament
Undertake consultation to create a regulatory framework for a resilient Vanuatu maritime sector	1	National consultation program to develop policy
Draft policy on resilient Vanuatu maritime sector	1	Draft policy
Technical Working Group identifies options for digital navigation and marine traffic tracking systems	1	DCO/COM Paper based on Concept Note approved by VMSA Board
Report on outcomes of full review of the legislation, policy and regulatory standard framework	1	Report prioritizes policy Legislation and Regs for immediate
ISO9001 Standards enforced	1	Annual Audit on compliance with ISO9001 Standards
Return from Mission Reports on international, regional and national workshops	4	Return from Mission Reports highlight issues ad opportunities
All budget submissions, plans & reports	100%	Compliance with GoV Budget, Planning

including AWP and PMRs submitted compliantly and on time		& Reporting Cycle
Develop training plan for VMSA officers	1	Training Plan implemented to build VMSA capacity
Develop TORs for Technical Working Group & Legislative Working Committee	1	TORs approved by VMSA Board
Annual national (x 6 provinces) awareness and training on maritime safety & resilience	1	1 Recurrent NPP for 3,000,000 vatu provides 500,000 per province annual budget

**MINISTRY OF CLIMATE CHANGE ADAPTATION, GEOHAZARDS,
METEOROLOGY AND ENERGY**

Overall cost: 3,909,972,898

Recurrent Cost: 1,125,249,611

Cash Grant & Aid in Kind 2,784,723,287

The Ministry of Climate Change, Environment, Energy, Geo-hazards, Meteorology and Disaster

Management (MoCC) unlike other government ministries procures upon the art of science to policy continuum to influence decision making and informed the people of Vanuatu.

The Ministry of Climate Change was established in 2013 and currently has 6 Departments supported by a Corporate Service Unit. The respective Departments served under the portfolio of the MoCC are as follows:

4. Department of Climate Change (DoCC)
5. Department of Environmental Protection and Conservation (DEPC)
6. Department of Energy (DoE)
7. National Disaster Management Office (Department of Disaster Management) (NDMO)
8. Vanuatu Meteorology Department (VMD)
9. Department of Geological Hazards

These Departments housed various sectoral policies in which they are national leads as hosts and implementers of such policies. Therefore, the Ministry is responsible for implementing 11 policies including various strategies. The second edition of the National Climate Change and Disaster Risk Reduction Policy 2022-2030 is an overarching and cross sectoral policy, which streamlined to other government ministries.

Moreover, as legally provided by binding legislations setting out governance structure and mechanisms that allows for a wider engagement platform across sectors, these are some of the active national advisory bodies established respectively to each Department under MoCC Ministerial Portfolio its monitoring and coordination.

1. National EIA Review Committee
2. National Advisory Board on Climate Change and Disaster Risk Reduction
3. National Disaster Committee
4. National Green Energy Fund
5. National Waste Management Committee
6. National Waste Water Management Committee
7. Provincial Disaster and Climate Change Committee

Along with its national policy priorities, MoCC has broad range of responsibility within the CCDRR policy spectrum to comply with the National Government's obligations as signatories to the UNFCCC and the Sendai Framework with the following objectives:

- a) Developing, reviewing and endorsing national policies within the MOCC ministerial jurisdictions.
- b) Support and inform policy interventions and reformation to the broader national policy landscape for Vanuatu
- c) Providing strategically guidance in informing national policies by integrating and localising regional and international obligated CC and DRR priorities.
- d) Support the implementation, monitoring and evaluation of CCDRR related policies in-country.
- e) Support and facilitates the establishments of policy, research and other technical working groups.
- f) Diplomatically contributing and influencing Vanuatu's positions with regards to CCDRR policy affairs at regional and international platform. The MoCC like all government organizations are responsible to the Minister legislations guiding them legally in its operation

that also allows for establishing mechanism and frameworks that should ensure such institutions function effectively.

PROGRAM MGA: CABINET SUPPORT

71,962,234

Program Cost

Objectives

The Ministry vision is to promote a Resilient, Sustainable, Safe, and Informed Vanuatu. It also has a role to improve the quality of life of all citizens in Vanuatu by:

- Effectively planning, developing, implementing and administering sound policies and legislative frameworks and support an enabling framework to promote good governance and resource utilization
- Mainstream Climate Change Adaptation and Disaster Risk Reduction into budgetary planning and delivery processes
- Protecting and conserving the environment
- Provision of sustainable and safe energy
- Building safe and resilient communities
- Developing the relevant skills, knowledge, experiences and policies to optimize social and economic developments and benefits within the ministry's different portfolios.

Activity MGAA: Portfolio Coordination

Activity Cost 71,962,234

Objectives

- Ensure the integration and Mainstreaming of Climate Change Adaptation and Disaster Risk Reduction policies and strategies
- Reduction of Disaster Risks into all sectorial planning, development and budgetary processes
- Ensure the development of policy, strategy and legal frameworks to promote service delivery through competitive private sector in the provision of cost effective and appropriate energy services.
- Ensure MoCC is adequately staffed, trained, resourced and housed to provide professional and effective service delivery.
- Prepare policies, regulations, and services for the departments and government institutions under this ministry;
- Implement government policies through the coordination of the activities of the departments Program Budget Narratives
- Ensure departments carry out these policies; and/or new policies
- Provide secretarial support to the Ministry
- Ensure that the services are provided to all the Vanuatu population

Means of Service Delivery

- Political Advisors work closely and establish strong working relationships between the Minister and the Director General, other ministries and the public.
- Prepare policies for Government on Meteorology, Geo-hazards, Energy, Environment, Climate Change Adaptation and Disaster Risk Management
- Negotiate with donor partners for new project, with the help of departments,
- Advise the Minister on policies in a timely manner.
- Have regular meetings with the Director General, Directors of Departments unded other ministries and Government Statutory Bodies concerning these policies, including the attendance of DCO meetings.
- Review Performance Agreement between the Minister and Director General.

PROGRAM MGB: EXECUTIVE MANAGEMENT & CORPORATE SERVICES

Program Cost 145,945,438

Cash Grant & Aid in Kind 0

Efficient and effective Administration of the Ministry and provide Executive support services to the line agencies of the Ministry and stakeholders to achieve the Ministry strategic objectives and the national development goals

- To provide Support in Policy, Planning, budgeting and reporting for the Ministry
- To Ensure Effective and Efficient Administration and Executive management of the Ministry
- Ensure there is sufficient resources for the Ministry to Deliver Strategic Objectives
- Facilitate the progression of crosscutting issues such as enabling framework of legislations, policy and convention compliance
- Enhance coordination between the ministry, cabinet other ministries and the MoCC Departments
- Facilitate and Coordinate with MoCC communication team to increase access to and use of
- information to government line agencies, stakeholders and public at large
- To ensure the development of appropriate Vanuatu CCDRR priorities, guidelines and positions
- To provide advice on the fulfilment of Vanuatu's International, regional and national CCDRR obligations
- To advise, facilitate and endorse the development of new CCDRR Programs, projects, initiatives and activities
- To serve as a forum for information sharing, including discussions and reporting on sectoral level initiatives
- To advise, guide and coordinate the development of national CCDRR financing processes
- To ensure that the NAB Secretariat fulfils the directives of the NAB

Activity MGBA: Corporate Services
Activity Cost 145,945,438
Cash Grant & Aid in Kind 0
Objectives

- Guide and coordinate the development and implementation of financing strategies to support national CCDRR efforts.
- Support the preparation and delivery of policy, planning, and budgeting services for the Ministry.
- Deliver day-to-day executive and administrative support to all Ministry departments and line agencies to help them meet national strategic goals.
- Provide expert advice to ensure Vanuatu complies with international, regional, and national CCDRR commitments.
- Manage and support strategic communication efforts to increase access to government information for stakeholders and the general public.
- Facilitate ongoing knowledge exchange through discussions, reporting, and information sharing across sectoral levels.
- Mobilize and manage internal resources to ensure the Ministry is adequately equipped to fulfill its mandate.
- Strengthen collaboration and coordination between the Ministry, the Cabinet, and other ministries and departments within MoCC.
- Coordinate and implement cross-sectoral policy initiatives, ensuring alignment with legislative and convention compliance frameworks.
- Oversee the operationalization of directives issued by the NAB Secretariat on climate and disaster governance.
- Lead the review, endorsement, and rollout of national CCDRR programs, policies, and projects.
- Ensure the Ministry's internal systems promote effective executive oversight and administrative efficiency.
- Provide oversight to ensure that Vanuatu's CCDRR priorities, guidelines, and implementation frameworks are appropriately developed and actioned.

Means of Service Delivery

- Human Resource and Organizational Development
- Policy Implementation and Legislative Support
- Gender Equity and Social Inclusion (GESI)
- Climate Finance and Program Management
- Digitalization and Modernization

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Facilitate Intern and Cadet Program	5	No. of Interns, Cadets & Apprentices rec
Develop MoCC HRD Strategy & Succession Plan	1	HRD Plan developed
Implement Department Recruitment Plans	5	No. of new staff recruited
Organize annual staff medical check-ups	25	No. of staff completed medical checks
Facilitate staff increments and induction	5	No. of staff on increments
Organize Staff Awards	2	No. of MoCC staff awarded
Conduct staff training and capacity building	10	No. of trainings and participants
Support the implementation of the MoCC Human Resources Development Plan	1	No. of consultations made with Department
Support establishment of Geo-Hazards Department	1	Report
Host CCDRR policy Implementation Plan activities	2	No. of workshops held
Participate in international CCDRR meetings & conferences	7	No. of back-to-office reports submitted
Support Open Days and Awareness Programs	3	No. of exhibitions/booths used & present
Submit 1 National Project Proposal (NPP) for CSU	1	NPP proposal submitted
Implement Climate Finance Road Map 2021 – 2025 remaining activities	1	Stock take report
Review the Climate Finance Road Map 2026 - 2030	1	Final document endorsed by NAB and submi
Review and update the National Country Program 2024 - 2027	1	Final document endorsed by NAB and submitted

Coordinate project, design, development and profiles seeking NAB endorsement and track implementation	5	No. of meeting reports submitted
Maintain NAB Meetings, NAB Working Groups and Taskforce Meetings	10	No. of meetings held and meeting minutes
Update Climate Finance Tracking Tool	1	Report
Mainstream CCDRR into at least 2 agency budgets	2	No. of sectors/agencies with mainstreamed
Track % of women employed across MoCC Departments	5	No. of female staff participating in training
Track # of women in leading posts in MoCC	50	% of women in leadership & technical roles
Support women empowerment through training	2	No. of trainings attended by women
Ensure disability mainstreaming in departments & projects	2	No. of departments/projects with disability
Develop platform to track MoCC officers' qualifications	10	No. of staff with certificates
Inform staff on training and scholarship processes	10	No. of staff accessing scholarships
Follow up on restructure approvals and submissions	1	No. of apps created and used

PROGRAM MGC: VANUATU METEOROLOGICAL SERVICES

Program Cost 236,102,567

Cash Grant & Aid in Kind 11,072,767

Objectives

This division supports all technical and scientific workstreams across VMHS through effective logistics, procurement, policy compliance, HR coordination, fleet and asset management, internal communication, and coordination with national and international stakeholders.

Contributes to MOCC and VMGD Objectives by way of meeting the needs of all people living in Vanuatu by providing timely and accurate climate information, long term forecasts, services and warnings, and other related environment information to the general public, agriculture sector, water, tourism, infrastructure, fisheries, health, energy and other public and private sectors.

To maintain an adequate observational network that provides the required data and information within VMGD and for other national, regional, and international users and networks.

Contributes to VMGD Overall Objective; to providing timely and quality weather services and products to the general public, marine sector, civil aviation sector, private sectors and commercial end users.

To be continually innovated by developing of new products when needed, to meet users need and adapted to new technologies made available.

Contributes to VMGD Overall Objective (Improve quality, timelines, availability, accessibility, presentation and delivery of observation data, weather, climate, flood and geo-hazard information, forecasts, warnings and services both within VMGD and among its sections and, to VMGD's clients.

Contributes to GHD Overall Objective (High Level) by way of Improving accuracy, timelines, quality of Geo-hazards', monitoring, informing and warning updates to the public and relevant stakeholders

Activity MGCA: Weather Forecasting, Monitoring and Research

Activity Cost 165,529,894

Cash Grant & Aid in Kind 11,072,767

Objectives

The administration division plays a critical enabling role in VMHS's capacity to maintain daily operations, meet national obligations, manage staff, and sustain compliance with government systems and international standards.

This division supports all technical and scientific workstreams across VMHS through effective logistics, procurement, policy compliance, HR coordination, fleet and asset management, internal communication, and coordination with national and international stakeholders.

Means of Service Delivery

- Provide centralized administrative coordination for all VMHS divisions to ensure smooth daily operations.
- Improve and maintain financial reporting, budget tracking, and timely procurement of goods and services.
- Coordinate with PSC, DOFT, and other ministries for all human resources, recruitment, and payroll matters under VMHS.
- Support the implementation of staff performance appraisal, training plans, and work contracts aligned with the VMHS organizational structure and new VMHS legislation.
- Ensure VMHS compliance with audit requirements, PFEM Act, and public sector administrative policies.
- Facilitate the fleet management and maintenance of VMHS's vehicles and technical transport, including in the outer islands.
- Coordinate with regional and international partners for administrative inputs into funded projects, workshops, and bilateral support programs.
- Monitor and support the implementation of internal SOPs, workflows, and administrative reforms.
- Manage the central VMHS asset registry, including ICT infrastructure, facilities, and office equipment.
- Enhance internal communication channels between Port Vila HQ and provincial stations including the Santo backup centre

Means of service delivery:

- Provided and improve Aviation Weather Services to the aviation sector;
- Provided and improve Marine Weather Forecast Services and enhance early warnings for the mariners;
- Provided and improve Public Weather Forecast Services and enhance early warnings for the public and communities;
- Provided and improve Tropical Cyclone Weather Forecast Services and enhance early warnings;
- (5) Provide Tsunami bulletins and improve timeliness and quality of Tsunami messages and also considering transition of Tsunami responsibility to Geohazard division or department. (6) Complete QMS requirements for Part 174 nonconformities for Certification;
- Establish, develop and looking forward to operate early warning system for Hydrometeorological hazards such as flash flood.
- Initiate and coordinate the certification of IMO for Marine services.
- Contributes to ICT / Engineering Section Overall Objectives through the following areas:
- Automate observation data networks, stations, systems, sensors and equipment;
- Establish automate “centralize point” for in-coming weather, climate, water, and other related environment;
- Automate accessibility to and use of Vanuatu real-time observations data and information by each VMGD section;
- Sustain climate, and other related databases, forecasting systems, platforms and applications;
- Develop database system, platform, and application for historical data and information on tropical cyclones and impacts in Vanuatu;
- Establish automate documentation management system;
- Enhance VMGD e-communication;
- Establish on-line requests system for weather, climate, water, and other related environment, forecasts, services and warnings;
- (09) Support and continuous maintenance on VMGD website;
- Expand VMGD Network telecommunication coverage links throughout the country;
- Increase support and sustainability for equipment infrastructure;
- Ensures the Multi-hazard Early Warning & Monitoring Systems is effectively managed and operational, providing continuous support and maintenance;
- Effectively conducts disaster response activities by performing post-disaster assessments of weather and related instruments, as well as installing new instruments and replacing any damaged or faulty instruments;
- Automate redundancy / back-up system(s); and
- Ensures the VMGD Northern Office (Backup Warning Centre) data centre is effectively managed and operational, providing continuous availability and accessibility to Northern Department staff.
-) Ensure accurate earthquake activity monitoring and timely updates to the public
- Ensure accurate volcano activity monitoring and timely updates to the public
- Further develop the accuracy, timeliness and quality of tsunami information and alerts;

- (2) Further develop the accuracy, timeliness and quality of earthquake / seismicity information and alerts;
- (3) Enhance accuracy, timeliness and quality of volcanic information and alerts;
- (4) Establish and develop geo-hazards' mappings;
- (5) Operate and manage volcano and earthquake database; and
- (6) Ensure the operations of the Geological monitoring network, including the status of the monitoring stations as well as transmission links

PROGRAM MGD: ENERGY

Program Cost 431,082,347

Cash Grant & Aid in Kind 1,290,453,000

Objectives

The Department of Energy (DoE) under the Ministry of Climate Change was formally established in 2013 with an initial approval of 15 staff positions. In 2021, a revised organizational structure was endorsed to align with the Government's decentralization policy, aiming to extend energy services beyond the capital to all provinces and growing municipalities.

The Department's operations are guided by the National Energy Road Map (NERM) 2016–2030, which serves as the overarching policy framework for the development of Vanuatu's energy sector.

The NERM outlines five key priorities:

- i. Accessible energy
- ii. Affordable energy
- iii. Secure and reliable energy
- iv. Sustainable energy
- v. Green growth-oriented energy services

Objectives

1. Establish an Effective and Efficient Department
2. Achieve Greater Diversity of Energy Sources
3. Improve Access, Affordability and Reliability of Energy in Off-grid and concession areas
4. Advance Coordination and Implementation of Energy Security and Safety Methods

Activity MGDA: Energy Management and assessment

Activity Cost 431,082,347

Cash Grant & Aid in Kind 1,290,453,000

Objectives

1. To ensure an effective and efficient working environment is provided where staff and contractors are able to perform to the highest standards.
2. To update and strengthen existing energy policies and legislative frameworks, and to develop other policies and legislation necessary to enhance the effectiveness of the energy sector.
3. To enforce energy related legislations, regulations and guidelines to ensure that services and products offered in the energy market meet required quality and safety standards.
4. To ensure that DoE produces quality and timely reports and documents on the energy sector that meets the requirements of stakeholders and public information needs are communicated effectively.
5. To identify and promote capacity building opportunities through staff trainings and public awareness initiatives to support energy development.
6. To ensure to recruit, train, and retain qualified personnel to enable the Department to effectively deliver its mandated functions at the highest standards.
7. To ensure that DoE facilitates exploration of diverse range of energy sources particularly promoting renewable energy as the key energy source for Government or donor investments.
8. To ensure that a majority of households, community facilities, public institutions, and enterprises in off-grid areas gain access to affordable and reliable electricity.
9. To ensure that both grid-connected and off-grid populations, including households, institutions, and businesses, have access to clean, affordable, and reliable electricity.
10. To encourage and support the adoption of energy-efficient technologies across all sectors.
11. To identify and develop appropriate tools and measures for cost savings in petroleum and gas supply chain.

Means of Service Delivery

- Consultation and awareness of energy legislations, regulations and standards to ensure public understanding and compliance.
- Ensure robust and timely MRV systems are in place to support effective implementation, transparency, and accountability in energy programs.
- Strengthen institutional capacity.
- Enhance collaboration and coordination and implementation of renewable energy programs and projects with donors and other government institutions.
- Collaboration with development partners, electricity concessionaires, private entities and communities to implement Government's energy policies.
- Conduct training workshops and implement programs that promote the adoption of energy-efficient technologies and practices.
- Promote and undertake energy audit on public buildings to identify efficiency opportunities and reduce operational energy costs.
- Explore and secure flexible financing (Grant, Concessional Loan, equity, etc.) to support electrification programs and projects.
- Ensure to continuously collect, update, and disseminate energy data through reports, the Department's website, and other media platforms to inform stakeholders and the public.
- Enhance collaboration with Renewable Energy Service Companies (RESCOs) or Energy Service Companies (ESCOs).
- Extending the operationalization phase into specific focus on implementation of renewable energy sources of electricity plus energy efficient investment of the National Green Energy Fund (NGEF).
- Collaborate with Vanuatu Bureau of Standards (VBS) to enforce regulation on fuel quality and safety standards for Petroleum sector operations.
- Collaborate with key productive sectors to identify and distribute appropriate renewable energy technologies that stimulate community-level economic development.
- Promote and encourage private sector participation through a well-established and conducive Public Private Partnership framework (e.g. Carbon Trading under Article 6 of the Paris Agreement).

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Installation of Stand-alone PV system in Rural Bungalow (NGEF) - New Activity to commence in 2025	6	No.# of PV solar systems installed
Fuel Quality test in the fuel stations and distribute HSSE brochures at the fuel retail outlets - Ongoing Activity	28	No.# of quality test
Conduct inspection and audit on fuel container service stations and storage facilities- Ongoing Activity	28	No.# of inspections and audit
Installation of Stand-alone PV systems in Households (NGEF) - Ongoing Activity	100	No.# of PV Solar systems installed
Installation of Stand-alone PV systems in Medium SmallScale Enterprises (NGEF) - New Activity for 2025 onward	10	No.# of PV Systems installed
Installation of Hydro Power Systems (VGET) - Ongoing	4	No.# hydro systems installed

Installation of a few high voltage and distribution line connections in East Coast Santo and North East Malekula (VEAP) - New Project	500	No.# of Service line connections install
Support Malekula North West Malekula LV transmission - New Project	500	No.# of households
Support the Construction of Sarakata Hydro - Ongoing	1	No.# of Hydro
Implement PPA Regulation - New Activity	5	No.# of licence issued
Market surveillance to check on compliance requirement of the EE regulate products - Ongoing Activity	4	No.# of sites
National Energy Efficiency Strategic and Action Plan - New Activity	6	No.# of consultations
Undertake number of public awareness to be conducted on the enacted Minimum Energy Performance Labelling and Standards Law (MEPLS Law) - Ongoing Activity	4	No.# of awareness sites
Undertake number of public awareness to be conducted on the enacted Minimum Energy Performance Labelling and Standards Law (MEPLS Law) - Ongoing Activity	4	No.# of refresher trainings
Undertake number of public awareness to be conducted on the enacted Minimum Energy Performance Labelling and Standards Law (MEPLS Law) - Ongoing Activity	4	No.# of video and audio ads
Support RESSET Project - 100 4.8MW + 6.5MWh (Port Vila) 1MW + 2.5MWh (Tanna) - Ongoing Activity	100	Volume of CO2 Emissions avoided (Gton)
Support RESSET Project - 100 4.8MW + 6.5MWh (Port Vila) 1MW + 2.5MWh (Tanna) - Ongoing Activity	100	System Capacity installed (MW)
Petroleum Safety Act - New Activity	6	No.# of Consultations
Training and Enforcement of Fuel and Vehicle Emission Standards - Ongoing	1	SOP for regulating fuel standards
Training and Enforcement of Fuel and Vehicle Emission Standards - Ongoing	1	SOP for regulating vehicle emission stan
Training and Enforcement of Fuel and Vehicle Emission Standards - Ongoing	1	Procurement of equipment for fuel testin
Green Building Initiative - New Activity	6	No.# of Consultations
Training and Enforcement of Fuel and Vehicle Emission Standards - Ongoing	3	Awareness on fuel standards and vehicle
Vanuatu Coconut Oil Fuel Strategy - New Activity	6	No.# of Consultation
Vanuatu's market for EE appliance - New Activity	6	No.# of Consultation

LED's adoption -(40+) - New Activity	40	No.# of sites
EE cook stove and copra dryers - Ongoing Activity	3,000	No.# of stoves and copra dryers
Undertake Energy audits in public institutions and follow ups on the audited institutions - Ongoing Activity	10	No.# of Audit reports
Undertake Tanker monitoring for Safety of operations - Ongoing Activity	8	No.# of Reports

PROGRAM MGE: ENVIRONMENT

Program Cost 107,292,420

Cash Grant & Aid in Kind 853,781,211

Objectives

1. To implement the NSDP through the implementation of the National Environment Policy and Implementation policy (NEPIP), NBSAP, NISSAP, Vanuatu National Ocean Policy, Waste Minimization Strategy and other relevant policies as indicated in the DEPC Business Plan and Ministry of Climate Change Corporate plan.
2. To increase knowledge and awareness of Biodiversity and conservation through awareness campaigns and activities during national events such as International Wetlands Day, World Biodiversity Day, World Environment Day, World Forest Day, World Water Day, World Ozone Day, World Clean Up Day, National Environment week, National tree planting week, and National Agriculture week, and other environment related day celebrations.
3. To Utilize partnership with national, regional and international partners and bilateral donors to secure funds to implement DEPC business plan activities
4. To adhere to International Participating and Reporting obligations to Regional and International Agreements of which Vanuatu is a party.
5. To establish working partnership with Environment Sector partners in Vanuatu
6. To Mainstream Environmental policies, systems, practices and programs are incorporated in all government sectors, and also in the private and public sectors.
7. To develop new legislation and regulations to improve environmental management, conservation and protection
8. To strengthen compliance to ensure Environment policies, legislations, regulation, strategies and guidelines are followed to maintain a green, clean healthy and sustainable environment of Vanuatu
9. To improve the Revenue collection through compliance initiatives in Port Vila and of Other Provinces and municipalities
10. To Ensure endorsement and implementation of DEPC institutional restructure
11. To recruit interns and cadets to support and implement DEPC services deliveries

Activity MGEA: Environmental management, research and extension Services

Activity Cost 107,292,420

Cash Grant & Aid in Kind 853,781,211

1. To implement the NSDP through the implementation of the National Environment Policy and Implementation policy (NEPIP), NBSAP, NISSAP, Vanuatu National Ocean Policy, Waste Minimization Strategy and other relevant policies as indicated in the DEPC Business Plan and Ministry of Climate Change Corporate plan.
2. To increase knowledge and awareness of Biodiversity and conservation through awareness campaigns and activities during national events such as International Wetlands Day, World Biodiversity Day, World Environment Day, World Forest Day, World Water Day, World Ozone Day, World Clean Up Day, National Environment week, National tree planting week, and National Agriculture week, and other environment related day celebrations.
3. To Utilize partnership with national, regional and international partners and bilateral donors to secure funds to implement DEPC business plan activities
4. To adhere to International Participating and Reporting obligations to Regional and International Agreements of which Vanuatu is a party.
5. To establish working partnership with Environment Sector partners in Vanuatu
6. To Mainstream Environmental policies, systems, practices and programs are to Mainstream Environmental policies, systems, practices and programs are incorporated in all government sectors, and also in the private and public sectors.
7. To develop new legislation and regulations to improve environmental management, conservation and protection.
8. To strengthen compliance to ensure Environment policies, legislations, regulation, strategies and guidelines are followed to maintain a green, clean healthy and sustainable environment of Vanuatu. To improve the Revenue collection through compliance initiatives in Port Vila and of Other Provinces and municipalities.
9. To Ensure endorsement and implementation of DEPC institutional restructure.
10. To recruit interns and cadets to support and implement DEPC services deliveries.

Means of Service Delivery

- Implementation of National Environmental goals and policy objectives from NSDP, NEPIP, NBSAP, and NISSAP and MoCCA Corporate Plan, to ensure a safe and healthy livelihood for the people of Vanuatu.
- Organise and Participate in all relevant National Events.
- Consultations meeting with Donor partners, iNGOs, NGOs, CSOs and Communities to establish working partnerships.
- Establish and strengthen coordination with stakeholders in government sector, private sector, NGOs, CSOs, CBOs, regional organisations and donor partners that are implementing environment related programmes.
- Submission of international reports as required by multilateral Environmental agreements.
- Ensure that regional and international obligations are implemented accordingly through project work plans.
- COM Approval of the NICZMF integrated framework and implementation plan.
- New legislation and regulations are developed.
- Develop compliance work program for 2026.
- Development and review of fine and penalty regulation and schedules for Environmental legislations.
- Fines are issued to developments or applicants who do not comply with Environment legislations. 10. Restructure endorsed by PSC.
- 11. Interns and cadets recruited.

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Implementation of NISSAP, NBSAP, Oceans Policy	8	Reports of key Activities achieved or done
Develop, review and launch CCA management plans for New PA/CCA	3	Number of CCAs Management Plans developpe
METT handbook developed	4	Number of METT carried out in CCAs
Provide support towards the implementation of DEPC B&C Projects (ECARE, GEF EAS, VCAP2, etc...) Provide support towards the implementation of DEPC B&C Projects (ECARE, GEF EAS, VCAP2, etc...) Provide support towards the implementation of DEPC B&C Projects (ECARE, GEF EAS, VCAP2, etc...)	5	Number of project activity completed
Develop and strengthen Monitoring systems for Reviewed NBSAP	1	Number of M&E system developed to monito
Strengthened species management	1	Specified Species Regulation is passed

Environmental Auditing conducted on Environmental Permitting	5	Number of Audits conducted
Consultation with developer on EIA implementing process and implementation of permit conditions	5	Number of developers consulted
PEA/EIA Public Consultations on development projects	3	Number of Public consultations
Strengthen Stakeholders engagement -Joint EIA site assessment to proposed major projects	5	Number of site assessments conducted
Biodiversity Conservation Ecosystems and Research Awareness	3	Awareness reports and # of people reached
Enforcement and compliance - Joint Environment Permit checks for project activities and EMMPs in 1 province	5	Number of joint EP checks
To conduct targeted outreach programs to provinces, schools, and communities on environmental laws and processes through media, community events, and onsite awareness.	3	Outreach Events
To develop and distribute environmental awareness materials and regularly update the DEPC website to improve public understanding.	1	Set of Materials
To assist in implementing waste management and pollution control initiatives in the provinces.	3	Initiatives
To enhance the use of media platforms (radio, TV, print, and social media) to communicate environmental messages and updates.	4	Media Products
To strengthen environmental data collection and information management systems for improved decision-making.	1	Database Developed
To improve the capacity of Environmental Extension Offices (EEOs) by providing office space, equipment, and refresher training on DEPC procedures and guidelines.	3	Office Packages
To organize and facilitate activities for National Environment Week in collaboration with provincial teams and stakeholders.	1	Event
To facilitate participation of Provincial Outreach staff and EEOs in specialized trainings on: - Government finance systems - Filing and records management - Media and communication - Microsoft Excel and data management	4	Training Sessions
To conduct targeted outreach programs to provinces, schools, and communities on environmental laws and processes through media, community events, and onsite awareness.	3	Outreach Events
Biodiversity Baseline data is collected at Key Biodiversity Area sites	4	Number of KBA sites data are collected

To develop and distribute environmental awareness materials and regularly update the DEPC website to improve public understanding.	1	Set of Materials
Ensure effective coordination and communication between DEPC HQ and Provincial Environment Officers	12	Monthly Reports
Monitor and support the implementation of provincial-level environmental programs and activities	4	Activity Reports
Strengthen capacity of EPOs through training and knowledge sharing	3	Trainings
Facilitate timely reporting from EPOs for DEPC planning and national reporting	4	Reports
Coordinate logistics and technical support for provincial outreach and awareness campaigns	4	Support Events
Monitor compliance and enforcement support activities at the provincial level	3	Compliance Checks
Strengthen stakeholder partnerships at provincial level	4	Stakeholder Meetings
Conduct regular awareness campaigns in schools, communities, and public events on environmental issues, laws, and best practices	4	Awareness best practise
Identify and support communities in establishing new Community Conservation Areas (CCAs).	1	Conservation site chosen
Invasive Species Awareness	4	Number of awareness and
Monitor and report on the implementation of CCA management plans.	1	CCA Report management plan
Facilitate training for CCA committees on governance, biodiversity protection, and sustainable resource use.	2	Training need identifies
Support provinces and communities in developing local waste management plans.	2	Local waste management plan
Monitor waste disposal practices and report illegal dumping or burning.	1	Report for illegal dumping
Promote clean-up campaigns and the 3Rs (Reduce, Reuse, Recycle)	1	Promotion
Support community-based climate change adaptation initiatives	1	Climate change adaptation
Raise awareness on climate resilience and ecosystem-based approaches to disaster risk reduction.	1	Awareness on climate resilient
Assist in the enforcement of national environmental laws and regulations	1	Enforcement of national environmental la

Support sustainable land-use practices and reforestation activities	1	Reforestation
Collect environmental data (e.g., on waste, water quality, land use) for DEPC databases.	1	Data collection
Prepare monthly and quarterly progress reports on provincial activities.	1	Reports produced
Coordinate with NGOs, provincial governments, line departments, and traditional leaders on joint environmental initiatives.	1	Coordination work
Facilitate multi-stakeholder forums to address local environmental issues	1	Forum to address local development
Support the development of eco-tourism, organic agriculture, and other sustainable livelihood projects.	1	Sustainable livelihood
Provide guidance on green business opportunities and funding access.	1	Guidance
Attend relevant training to strengthen technical and reporting skills	1	Training carried out
Train local leaders, schoolteachers, and youth groups in environmental monitoring and management.	1	Training on environmental monitoring vs
Support the celebration of World Environment Day and National Environment Week activities in the chosen Provinces with possible contributions or shared resources	1	Event celebrated
Develop DEPC Centralize database	1	Number of DEPC Centralized database deve
Collaborate with the provincial headquarters to develop the identified dumpsite, including construction of the access road, installation of fencing, and ongoing maintenance.	1	Identified , dumpsite, fences
Develop and implement a community-based Environment Field School (EFS) program targeting selected schools and communities.	1	Environment toll
Facilitate the EIA consultation process with stakeholders, including landowners, developers, and communities.	1	Facilitate EIA consultation
Support the review and submission of provincial EIA applications to the DEPC.	1	Submission of provincial Santo
Assist in the coordination of public hearings for major development projects.	1	
Ensure developers implement mitigation measures as outlined in approved EIA reports.	1	Mitigation measure implemented
Maintain an updated database of all EIA-related activities and approved projects within the province	1	Database created
Report illegal developments or activities conducted without EIA approval.	1	Illegal developments
Conduct follow-up evaluations on environmental conditions post-development.	1	Follow up evaluation on environmental co

Endorsement for the establishment of the National Environmental Protection Advisory Council	8	Number of NEPAC Members appointed and NE
Rehabilitation of degraded forests through Community Based approach to manage Invasive Species to combat biodiversity loss	4	Hectare of land rehabilitated through in
Procurement of scientific equipment for the Microplastics (Analytical) Laboratory.	4	Number of scientific equipment procured
ODS applications are verified, assessed and approved in time.	20	Number of applications approved
Trainee Licence and License to handle ODS are verified, assessed and approved in time.	5	Number of Trainee Licences and Licenses
Private Waste Operator Licenses are verified, assessed and approved in time.	8	Number of Private Waste Operators Licens
Reporting obligations for regional and international Conventions are completed within the agreed time frame.	1	Number of report(s) outlining progress o
Identify targeted stakeholders for the Waste segregation awareness trainings in Port Vila, Luganville, Lenakel and Lakatoro.	4	Number of Waste segregation awareness tr
Meetings are held with events' organizing committees on waste literacy awareness.	2	Number of public events that waste liter
Drafting Instructions of the Regulation on the Control on the Importation and use of Disposable Diapers for babies is thoroughly reviewed by OAG and DEPC.	1	Number of regulations developed
Develop awareness materials outlining local alternatives of single-use plastics including those already banned, in collaboration with Provincial outreach.	2	Number of Awareness materials developed
Restructure of the Department of Environmental Protection	1	Number of DEPC Restructure Endorsed

Internship and Cardet Program	4	Number of Intern and Cadet recruited
Implementation of priority actions in relevant policies and strategies (NBSAP, Oceans Policy, NISSAP and NEPIP)	6	Number of actions completed and achieved

PROGRAM MGF: NATIONAL DISASTER MANAGEMENT

Program Cost 73,359,159

Cash Grant & Aid in Kind 396,941,512

Objectives

Program 1 : NDMO DRM Governance Framework

Objective 1: Strengthen the NDMO Governance framework through improved reporting/ M&E, planning, budgeting, resourcing, legislation, policy and procedure and by advocacy for DRM CC mainstreaming

Program 2: Human Resource Training and performance management

Objective 2: NDMO staff further their studies through existing educational programs

Program 3: Inclusive disaster preparedness and response coordination

Objective 3: Enhance Disaster Risk Management (DRM) operations preparedness, response for a safer, secure & resilient Vanuatu

Program 4 : Harmonization and mainstreaming of Disaster Risk Management and Climate Change Adaptation

Objective 4: Facilitate harmonization and mainstreaming to promote coherence between disaster risk management including climate change approaches, systems, programmes and stakeholders involved in development. (Preparedness, Response and Recovery)

Program 5: Utilize technology to support local operators to access disaster information remotely

Objective 5: The public at large has access to disaster information for planning and decision-making purposes

Activity MGFA: National Disaster Management

Activity Cost 73,359,159

Cash Grant & Aid in Kind 396,941,512

Objective 1: Strengthen the NDMO Governance framework through improved reporting/ M&E, planning, budgeting, resourcing, legislation, policy and procedure and by advocacy for DRM CC mainstreaming

Objective 2: NDMO staff further their studies through existing educational programs

Objective 3: Enhance Disaster Risk Management (DRM) operations preparedness, response for a safer, secure & resilient Vanuatu

Objective 4: Facilitate harmonization and mainstreaming to promote coherence between disaster risk management including climate change approaches, systems, programmes and stakeholders involved in development. (Preparedness, Response and Recovery)

Objective 5: The public at large has access to disaster information for planning and decision-making purposes

Means of Service Delivery

- Consultation with stakeholders on the review of the CCDRR policy implementation plan
- Support the development of the Displacement Policy Implementation Plan
- Assist NAB through Project Screening and NAB meetings to identify gaps, integrate and harmonies CCDRR policy into relevant projects, legislations and policies.
- Ensure smooth and timely access to Disaster Risk Financing
- Review Business Continuity Plan per Covid 19 operations or any other unexpected situation
- Disaster plans developed for national, province, municipality, area council and community level
- Strengthen communities with durable solutions for displacement (durable and suitable long-term solutions) appropriate for evacuation.
- Staff wellbeing, health and safety policy and provisions established and implemented
- Ensures NDMO complies with its regulatory and legal requirements as well as internal policies and bylaws
- Review NDMO structure to support the implementation of the NSDP, CCDRR policy and DRM act
- Strengthened Financial management and auditing mechanisms
- Strengthened operational management systems at national level by having sufficient staff and resources.
- Strengthen framework at provincial level by having the resources needed in place
- Support development of technical engagement & skills by supporting work placement, Cadetships and Internships
- Track annually number of NDMO Officers receiving qualifications, and undergoing training as per MCCA HR Strategy, Retirement & Succession Planning
- Develop Staff induction guideline on technical DRM field as part of capacity building

- Strengthen NDMO planning and reporting
- Ensure disaster and emergency preparation, preparedness, response is gender inclusive
- Support the Gender & Protection Cluster in times of emergency to ensure human dignity and that the rights of all Ni Vanuatu including women, youth, vulnerable groups and the elderly are supported, protected and promoted
- Ensure Response Plans take gender, PLWD and vulnerable groups into consideration
- Ensure CDCCC have women and vulnerable group represented and have durable solutions
- Provincial Disaster Committee established and operationalize
- Municipal Disaster Committee established and operationalize
- Communication
 - Conduct preparedness awareness in schools and communities with support from stakeholders and partners
 - Support early warning training & awareness through regular update of SOPs, drills, response and evacuation simulation exercises in collaboration with partner agencies
 - Support government institutions to developed standardize institutional multi hazards response plan
 - Connect FM93 to VBTC for use of early warning and hazard preparedness
 - Support the Vanuatu National Emergency Radio Network (VNERN)
 - Participate in global, regional and National event, consultations, meetings or forums
- Provide regular update on disaster risk reduction key messages and information onto NDMO website and other relevant online platform
 - Progress preparation of a National Vulnerability Assessment (NVA) with a Multi Hazard and Risk Map
 - Coordinate, strengthen and manage DRM data with stakeholders
 - Strengthen DRR reporting obligation against The Sendai framework (UNDRRR)
 - Repository for hazard and other disaster related information

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Conduct awareness consultation on the CCDRR policy implementation plan	1	# of Awareness conducted with PTAG
Develop Logistics Management Information System (LMIS) Database	1	LMIS Tool Develop & approved
1.1.2.3 Conduct follow-up refresher training 1 year after initial training with CDCCCs as well as regular monitoring/support visits	2	Monitoring and supervision visits
External support for DRR / CCA training	18	# of DRR and CCA training conducted
External support for DRR / CCA awareness	30	# of DRR and CCA awareness conducted
Review the Community Based Disaster Risk Reduction Handbook	1	CBDRR Book review and updated
Participate to the coordination and training / Workshop lead by other developing agencies (Pacific partnership, FRANZ partner, other New Caledonia partner, US centre of excellence, UNDRR, SPC, UNESCO and JICA)	4	# of participation of regional meeting
Organised a delegation to visit international partner and strengthen coordination with them	1	# of delegation organised
Search and rescue / fire services consultation at national and provincial level (Lessons Learned from the 2024 Earthquake), link to activity 3.1.17	1	Run consultation in 3 urbans area
Support National ICT day event	1	Report on attendance participations
Coordinate and facilitate World humanitarian day event	1	Report produced and approved
Tsunami evacuation plan	1	# assessment produce
National Disaster Risk Management Plan	2	First Draft NDRM plan approved
Support Tsunami ready program	1	Commitment and requirement of program ar

Support National Tsunami day event organized by Tsunami Warning center	1	Tsunami day report
Support National PSC day event	1	Participate to PSC day event
Participate to Impact base warning and forecast system	1	# of working group run with VMGD
NDMO support and assist VGNERN team with the installation	2	Installation of VGNERN base stations in
Participate in global, regional and National event, consultations, meetings or forums	1	At least 1 event attended
Renew NDMO Web site	2	NDMO Website renew & updated
Develop risk map platform by participating to Partner program (phase 2)	1	Draft risk map developed
Update the Earthquake Key Messages (Lessons Learned from the 2024 Earthquake)	1	Earthquake Key messages Updated
Develop Risk Mapping base on the existing hazard map (Flooding, tsunami, storm surge) for Port Vila and Luganville	1	# Risk map developed
Develop the Area council Disaster response plan guidelines	1	Response plan guideline developed
Deliver training/advice on DRM to stakeholders as required	1	Training and awareness Conducted
Maintain current regional, national and provincial contact lists	1	Data sharing on share drive
Contribute to Sendai Framework reporting	2	report produced and submit to UNDRR (F
Design assumption impact table according of each hazard strength	1	# of Impact based forecasting data draft
Establish repository IT Structure	1	New share drive developed
Record each disaster event in a database and Assist in Data Driven Science Project	1	Database drafted
Data driven science for disaster and climate change	1	# of technical working group attend
Develop and review Area Council disaster response plan	2	# Response plans developed -

Compile an integrated all necessary documents to produce NDMO Doctrine (Document compliance systems)	1	# Doctrine is up date and shared
National Earthquake support plan include earthquake SOP (Lessons Learned from the 2024 Earthquake)	1	National Earthquake Support Plan Review
Monitor the implementation of evacuation center management training and mapping	1	Coordination commitment with partner
Coordination of Evacuation center building construction	1	Commitment of project attended
Annual leave and sick leave monthly report	12	# of monthly leave reports
Staff annual leave plan	1	1 Staff annual leave plan
NDC meeting	4	# of NDC meetings are organized
Run a Internal capacity assessment	1	1 time in a year
Policy for research and development of responses to the hazards, disasters and emergencies	1	1 Policy for research document draft
Recruit every vacant position within the current NDMO structure (2018)	1	# of posts recruited
Implement the new NDMO structure approved in 2024 by recruiting the positions detailed in the implementation plan	1	# of NPP submitted
Preparation of Annual Budget Plan 2027 for NDMO national and provincial level	1	2027 annual budget prepared and approved
Update Asset registry For 2026	1	Asset registry update
Develop NPP for 2027	2	# of NPP submitted
2027 Budget	1	Budget for 2027 prepared and submitted
Technical Advisory support to NDMO	1	# of TA Recruited
NDMO Business Plan Retreat	3	# of retreats Organized
Donor partners meeting	1	# of donor meeting organized annually.
MOCCA Corporate Plan 2022-2026	1	draft corporate plan Reviewed

Set up of CDCCC	48	# of CDCCC Setup
CDCCCs up date and registration	48	# of CDCC Registered
Resource Emergency operation centers with computers and other PEOC resources	1	Update reports on NEOC & PEOC
Coaching visit by PPLO to Provinces	2	# of Visits
PDO support Programs with other Provinces	6	# of support programs facilitated
Setting up and registration of Area Council Disaster and Climate Change Committee (ACDCCC)	6	# of ACDCCC registered
Developed Tor of Sectoral Working group at Provincial level	1	# of TOR developed
Provincial utilities and administrative cost	6	# of Administrative Cost reported
Facilitate engagement of Cadetships, Internships, international Volunteer, work Placement and secondment to support NDMO officers	6	# Cadetships or Internships recruit
Coordinates meetings and consultation related to DRM with stakeholders	1	Minutes of the meeting and consultations
Facilitate engagement National and international surge capacity for NEOC in the response operations	1	Surge capacity during response operation
Training of National surge capacity	1	# of training of surge capacity
Strengthen PEOC Capacity	6	# of PEOC Trainings conducted
Finance Refresher Trainings for PDOs	5	# of Finance Training
Surge capacity for PEOC	6	Additional human resources at PEOC
Organize LCA training at the provincial level	1	# of LCA Training
Train government officers on “working in EOC”	4	Training & Awareness conducted
Staff DRM induction guideline	1	1 Staff induction guideline drafted
NDMO DRM training catalogue (on-the- job and certified (usp/VNU)	1	1 catalogue drafted

Staff work plan for 2026	14	# of work plan submitted
Participated to the MoCCA Legislative consultation	1	Approval of MoCCA review of Legislation
Staff work plan for 2026 Mid-year review	1	# of work plan reviewed
Staff work plan for 2026 end of year appraisal	1	# of 2026 appraisals completed
Human Resources Development Plan draft	1	Participate in MoCCA HRDP review
Department monthly report of business plan activities	12	# of reports
Department Quarterly Report produced for business plan activities	4	# of quarterly reports
Department annual report for business plan activities	1	# of reports
Monthly financial report for provincial budget	12	# of reports
Quarterly financial report for provincial budget	4	# of reports
Monthly financial report of NDMO allocated budget 2026	12	12 reports
Quarterly financial report of NDMO allocated budget 2026	4	4 reports

Ensuring active coordination of clusters and working group where NDMO is the lead	1	Meetings minutes
Develop project to access grant to support NDMO business plan	1	# of Project proposal draft and submitted
Assessment training for Area Administrator	6	# of assessment training carried out
Review MEND guide to integrate each hazard case scenario	1	Reviewed Guidelines
Updates and maintain, NFI's and infrastructures including storage facilities at all levels	8	NFI's, infrastructure update report
Developed a information collection tool for Logistics Capacity Assessments (LCA)	1	Information collection tool developed
Update Logistics Capacity Assessments (LCA) (in all Provinces)	6	Provincial LCA updated
Participate in NAB National Meetings/Consultations	1	Participation report

Establish the Municipal Disaster and Climate Change Committee (Lessons Learned from the 2024 Earthquake)	1	MDCCC established
Induction training for MDCCC on DRM Act (Lessons Learned from the 2024 Earthquake)	1	presentation conducted
Equipment requirements for provincial disaster office operation	1	List of equipments
Infrastructure priorities for NDMO 2024 - 2030	1	Update reports
Pacific warehouse progra	1	Warehouse strategy designed & Approved
Logistic Arrangement for NDMO Staff	1	Meet request for each NDMO staff
ICT Helpdesk Support	1	Provide helpdesk support on ICT for all
Develop and Review of awareness materials	1	# of IEC tools review
Develop and promote public awareness SOP for emergencies and Disaster management operation	1	Media awareness guideline Developed
Develop IEC tool to support volcano evacuation plan	1	# of IEC tools Developed
participate to CST training lead by Police Crime Prevention Unit	4	# of trainings conducted for CST program
Coordinate IDRR day at National level	1	IDRR Day report
1.1.1.2 Assess CDCCC status using field-tested tool (where CDCCC are established, evaluate gender-balance, engage children/youth and people with disabilities, and consult with community to identify opportunities to strengthen CDCCC)	3	# of assessments conducted

PROGRAM MGH: CLIMATE CHANG

Program Cost 59,505,446

Cash Grant & Aid in Kind 232,474,797

Objectives

The Department of Climate Change at the Ministry of Climate Change (MOCC) is mandated to manage and implement the Climate Change and Disaster Risk Reduction (CCDRR) policy, programs and projects to support national level commitments to Climate Change and Disaster Risk Management and so ensure mainstreaming of climate change across sectors.

Means of service delivery:

- Strengthen climate change adaptation initiatives across all governance levels and sectors
- Sustainable development opportunities that reduce carbon emissions(Low Carbon Development)
- Institutional strengthening and capacity building on climate change services
- Mainstreaming climate change into sectoral plans, policies and budgets of relevant line ministries
- Identify gaps and build capacities among the stakeholders to enhance implementation of international climate change obligations
- Implementation and strengthening of MRV system for climate actions and SDG benefits
- Identified and provide support to explore and strengthen ICT technologies for knowledge sharing
- Provide support and explore opportunities from traditional practices and knowledge relating to climate change mitigation/adaptation, weather and climate
- Identify potential collaborations and support R & D activities within the Department and outside on climate actions and climate science
- Awareness and capacity building programmes for stakeholders within Vanuatu on climate change science, variability and associated climate actions (mitigation, Adaptation, Carbon Market and Loss and Damage, ETF crosscutting) strengthening.
- Lead and support the implementation of Carbon Markets .
- Identify and develop policies, strategies, framework and Legislation to strengthen Climate Actions

Activity MGHA: Climate Change**Activity Cost** 59,505,446**Cash Grant & Aid in Kind** 232,474,797**Objectives**

1. DoCC and NAB is aware of all CC & DRR activities being undertaken or planned in Vanuatu and coordinates to ensure complementarity
2. DoCC leads and facilitates the implementation of CCA/DRR programmes and projects with climate change stakeholders
3. Supports and facilitates the implementation of low carbon (mitigation) , and carbon markets programs and projects
4. Supports and facilitates the implementation of Loss and Damage programs and projects
5. Provide timely and appropriate advice to GoV, NGO and CSO actors on CC and DRR issues
6. Effective coordination and project management and implementation at all levels
7. Raise capacity of GoV representatives to participate in international fora
8. Improve GoV oversight of CC mitigation and CC adaptation, Loss and Damage and Carbon Markets projects in Vanuatu
9. Strengthen domestic ETF system and process to align with international obligations
10. Mainstream CC perspectives into energy-related projects and improve CC mitigation outcomes in alignment with NDC and LEDS
11. Monitor progress and outcomes of government and externally funded CC & DRR projects
12. Collect, manage and make accessible data and information on CC & DRR knowledge and activities relevant to Vanuatu Policy, planning & reporting.
13. Support an Enabling Framework to develop and promote good governance and resource utilization;
14. Ensuring effective monitoring and reporting and efficient management of department resources
Strengthen Department Capacity to support strategic objectives; and Resource the department to deliver strategic objectives.

Means of Service Delivery

1. Training of staff.
2. Institutional strengthening
3. Department planning meetings
4. Collaboration and Coordination of Mitigation, Adaptation, Loss and Damage, Carbon Markets and ETF activities with stakeholders
5. Ensure effective monitoring and evaluation in all CCDRR implementation activities
6. Supports sectors mainstream and implements CCDRR Polic, Strategy, Framework.
7. Project coordination and implementation
8. Policy, Strategy, Framework and Legislation developed

Performance Measurement (Service Targets)

Description	Quantity	Unit of Measure
Climate Change Donor Coordination	1	Meeting minutes
Implementation of CC activities across all levels	1	number of reports
Support National Advisory Board on the climate change relevant programs coordination	2	Number of reports
Enhance DOCC Internal Capacity on Carbon Markets, Mitigation, Loss and Damage, ETF, Communications (Restructuring)	3	Unit Established and resourced with staff

2026 Program Budget Narratives
